**Schedule SB, Line 22 – Description of Weighted Average Retirement Age**

100% of participants in the plan are assumed to retire at Normal Retirement Age, or at the beginning of the current plan year if later. Therefore, the weighted average retirement age is 63.

## Schedule SB, Part V – Statement of Actuarial Assumptions and Methods

### Actuarial Cost Method

Traditional Unit Credit. The actuarial cost method for determining Target Liability and Target Normal Cost is prescribed by the Pension Protection Act of 2006.

For determining the Target Liability, the present value of the benefits accumulated as of the valuation date is calculated by projecting future payouts from the Cash Balance Account, adjusted for the probability of payment according to the demographic assumptions, and discounting the payments to the valuation date using the segment interest rates. Payments made within five years of the valuation date are discounted using the first segment rate, payments made at least five but less than 20 years after the valuation date are discounted using the second segment rate, and payments made at least 20 years after the valuation date are discounted using the third segment rate. The Target Normal Cost is calculated in an identical manner, substituting the Pay Credit based on service earned during the current plan year (if any).

### Asset Method

Market Value of Assets as of the valuation date, less contributions made for the current plan year before the first day of the next plan year, accumulated to the valuation date using the current year's Effective Interest Rate.

### Valuation Date

December 31.

### Interest

The interest assumption for valuation purposes is prescribed by the Pension Protection Act of 2006 based on elections made by the plan sponsor. The assumption is based on 24-month average segment rates for December 2024 valuation dates.

	Minimum Required Contribution	Maximum Deductible Contribution
First Segment	5.01%	5.01%
Second Segment	5.26%	5.26%
Third Segment	5.59%	5.36%
Effective Interest Rate	5.18%	5.12%

### Interest Credit Rate

3.00% per annum compounded annually, for current and all future years.
