The age reported is the weighted average of the Normal Retirement Ages for all active employees as of the valuation date, rounded to the nearest whole age. The weighting is based on the total IRC 430 funding liability for the employee compared to the total liability for all active employees. For an active late retiree, the assumed retirement age may be later than the Plan's Normal Retirement Age. Each participant's rate of retirement is assumed to be 100% at his or her assumed retirement age.
