REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

Trustees
Fabricut Employees Stock Ownership Plan

Scope and nature of the ERISA Section 103(a)(3)(C) audit

We have performed audits of the financial statements of Fabricut Employees Stock Ownership Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for plan benefits as of September 30, 2024 and 2023, and the related statements of changes in net assets available for plan benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of September 30, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note H to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of management for the financial statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's responsibilities for the audit of the financial statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other matter – supplemental schedule required by ERISA

The supplemental schedule of assets (held at end of year) as of September 30, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures. These additional procedures included comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with US GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the

certified investment information, including their form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Fabricut Employees Stock Ownership Plan

NOTES TO FINANCIAL STATEMENTS

September 30, 2024 and 2023

NOTE A - DESCRIPTION OF PLAN

Fabricut/S. Harris, Inc. (the “Company,” “Plan Sponsor” or “Employer”) established the Fabricut Employees Stock Ownership Plan (the “Plan”) effective as of July 1, 1998. The Plan operates as an employee stock ownership plan (“ESOP”) and is designed to comply with Section 4975(e)(7) and the regulations under the Internal Revenue Code (“Code”) of 1986, as amended, and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”). The Plan is administered by the Company. Persons appointed by the Company’s Board of Directors serve as Trustees for the Plan. The following description of the Plan provides only general information, and participants should refer to the Plan document, as amended, for a complete description of the Plan’s provisions.

Eligibility

Employees are eligible to participate if they have completed one year of service (defined as 12 consecutive months of employment and 1,000 hours of service) and have attained age 18. For purposes of sharing in Employer contributions, an eligible participant must have completed 1,000 hours of service during the Plan year and be actively employed on the last day of the Plan year.

Contributions

Employees who meet the eligibility requirements during the Plan year will receive discretionary contributions made by the Plan Sponsor in the form of common stock. The Plan may also receive cash distributions on the Company’s stock. The common stock contribution to each eligible participant is allocated based on the total eligible wages for all participants who meet the eligibility requirements for the Plan year. For the years ended September 30, 2024 and 2023, the Plan Sponsor made contributions to the Plan in the form of common stock valued at \$220,000. There were no cash dividends paid for the years ended September 30, 2024 and 2023.

Vesting

Employees vest in Employer contributions based upon the number of years of service with the Company as determined by the following table:

<u>Years of Service</u>	<u>Vested Percentage</u>
0-1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

For vesting purposes, a year of service is defined as any Plan year in which the participant completes 1,000 hours of service. Participants also become fully vested in the Employer contributions and related income or loss upon the participant’s normal retirement, total disability, or death, regardless of years of service.

Forfeitures

Shares forfeited by terminated participants who are not fully vested are reallocated to the remaining participants based upon their respective eligible wages. Forfeitures for the fiscal years ended September 30, 2024 and 2023, totaling \$3,328 and \$8,874, respectively, were reallocated to remaining

participants. As of September 30, 2024 and 2023, there was no balance in the forfeiture account. Unallocated forfeitures can be used for application against future contributions.

Distributions and Benefit Payments

No distributions from the Plan are made until a participant retires, dies, becomes disabled, meets certain hardship conditions, qualifies under the Plan's divestiture rules, or otherwise terminates employment with the Company. Participants may elect to receive distributions in the form of cash or in the form of Company stock, subject to applicable conditions contained within the Company's bylaws. Distributions of Company stock are calculated using the price per share at the time of distribution.

Voting of Company Stock

Trustees of the Plan vote on all Company stock held by the Plan. However, participants are entitled to direct the Trustees as to the manner in which voting rights on their shares of Company stock are to be exercised: (i) with respect to any corporate matter which involves the voting of such shares regarding the approval or disapproval of any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, sale of substantially all assets of a trade or business, or such similar transaction; and (ii) with respect to all corporate matters if, at the time of the vote thereon, the Company stock is a "registration-type" class of securities, as described in the Plan document. If a participant does not timely exercise his or her right to vote Company stock, the Trustees will vote such Company stock.

Right of Refusal

Company stock distributed by the Plan to a participant or a participant's beneficiary may be subject to a right of first refusal in favor of the Company. As such, the Company must be given an opportunity to purchase at the same price and same terms as the participant may offer to sell to a third party.

Put Option

If the Company stock distributed to a participant cannot be readily sold, then the participant will have two put options to the Company. The participant may require the Company to purchase the stock at a price equal to its fair value, and to pay the participant for the stock in cash or in installments over a period of time (not in excess of five years). The first 60-day put option period will begin on the day following the date the Company stock is distributed, and if not exercised, the second 60-day put option period will begin as of the first day of the fifth month of the next Plan year following the date the Company stock was distributed.

Diversification

Participants that have attained the age of 55 and have completed ten years of service may elect to diversify the Fabricut stock portion of their ESOP account balance. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of his or her cumulative stock balance, less any shares previously diversified. In the sixth year, the percentage increases to 50%. Participants may elect to diversify by rolling over the diversified portion into the Plan Sponsor's 401(k) plan or into another qualified retirement plan.

Administration of Plan Assets

The Plan's assets are held by the record keeper of the Plan, Bank of Oklahoma Financial Corporation, National Association ("BOKF"). Company contributions are held and managed by the third-party record keeper. Distributions are made by the record keeper of the Plan. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Administrative expenses are paid by the Company.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and the forfeitures of terminated participants' nonvested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements are prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect certain reported amounts, liabilities and changes therein, and disclosure of contingent assets and liabilities. Significant estimates include determining the fair value of the Plan's investment in the Company's common stock. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are stated at fair value. The Plan's investment in common shares of the Company's stock is valued at fair value on September 30, 2024 and 2023 using the income approach based upon an independent appraisal, which is consistent with previous years. The appraiser took into account historical and projected cash flow and net income, and fair value of Company assets and liabilities. Plan management has concluded that a market participant would also recognize a discount for lack of marketability.

The valuation process involves Plan management's selection of an independent appraiser. Plan management accumulates the data for the appraiser from the audited financial statements of the Company. The appraiser prepares a preliminary report that Plan management, along with the Trustees of the Plan, reviews in detail, discusses and approves.

Dividend income is accrued on the ex-dividend date and is recorded. Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE C - FAIR VALUE MEASUREMENTS

The fair value of an asset or liability is an exit price, representing the amount that would be received to sell an asset or be paid to transfer a liability in an orderly transaction between market participants. As such, fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or liability.

NOTES TO FINANCIAL STATEMENTS - CONTINUED
September 30, 2024 and 2023

A fair value hierarchy has been established that distinguishes between assumptions based on market data (observable inputs) and the Plan's assumptions (unobservable inputs). The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three broad levels of fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies as of September 30, 2024 and 2023:

Fabricut/S. Harris, Inc. common stock: Stock price is valued by an independent third-party appraiser report using the income approach. The income approach explicitly recognizes that the current value of an investment or asset is premised upon the expected receipt of future economic benefits. These benefits can include earnings, cost savings, tax deductions and the proceeds from disposition. When applied to a business ownership interest, value indications are developed by discounting expected cash flows to their present value at a rate of return that incorporates the risk-free rate for the use of the funds, the expected rate of inflation and the risk associated with the particular investment. The discount rate selected is generally based on the rates of return available from alternative investments of similar type and quality as of the valuation date.

Collective trust: The Plan's collective trust includes traditional fixed income, equity, low volatility alternatives, and high volatility alternative funds. The collective trust fund seeks long-term capital growth with risk levels acceptable to the participants. The fund is valued based upon the net asset value ("NAV"), which approximates fair value and is calculated at the end of each business day. The NAV is calculated by dividing the total fair value of the fund's assets, less its liabilities, by the total number of units outstanding at the time of the computation. New units are admitted and outstanding units are repurchased on a daily basis. The Plan can redeem these investments at any time.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies

or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of September 30, 2024 and 2023:

	Assets at Fair Value as of September 30, 2024			
	Level 1	Level 2	Level 3	Total

NOTE D - TAX STATUS

The Internal Revenue Service has determined and informed the Company by its latest determination letter dated June 30, 2020, that the Plan is qualified and the trust established under the Plan is tax-exempt. Accordingly, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon

examination. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of September 30, 2024 and 2023, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE E - INVESTMENTS

Collective Trust

The Plan's investment in the collective trust, all of which has been allocated to Plan participants at September 30, 2024 and 2023, is as follows:

	2024	2023
Number of units	79,473	82,236
Cost	\$ 1,450,441	\$ 1,507,420
NAV	\$ 2,721,100	\$ 2,301,124

Fabricut/S. Harris, Inc. Common Stock

The Company operates as an S corporation and makes cash distributions to its shareholders during the year. The cash distributions received by the Plan are invested by the Plan's custodian in a common collective trust approved by the Plan Administrator. At September 30 of each new year, investments and related earnings or losses are allocated to participants who are still employed at the end of the Plan year.

The Plan's investment in common shares of the Company's stock, all of which have been allocated to Plan participants at September 30, 2024 and 2023, is as follows:

	2024	2023
Number of shares	254,119	258,490
Cost	\$ 4,200,983	\$ 4,243,881
Fair value	\$ 4,802,858	\$ 4,081,558

The Company also makes discretionary stock contributions to the Plan at the end of each Plan year as approved by the Board of Trustees. During the years ended September 30, 2024 and 2023, the Company contributed 11,640 and 13,933 shares of treasury stock to the Plan valued at \$220,000.

The Company also purchases shares throughout the year from participants who terminate from the Plan. During the years ended September 30, 2024 and 2023, the Company purchased 16,011 and 60,715 shares valued at \$252,807 and \$1,214,309, respectively.

There were no transfers into or out of Level 3 during the years ended September 30, 2024 and 2023.

NOTE F - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan subject to the provisions of ERISA. Upon termination of the Plan, the Plan Administrator shall direct the Trustee to pay all liabilities and expenses of the trust fund. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE G - RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

During the years ended September 30, 2024 and 2023, the Company paid administrative expenses incurred in connection with the operation of the Plan of approximately \$17,434 and \$19,000, respectively. The Company does not seek to be reimbursed by the Plan for payment of these expenses.

As the Plan holds shares of common stock in the Plan Sponsor, all common stock related transactions occurring during 2024 and 2023 are considered to be related party transactions.

Certain Plan investments are managed by the BOKF; therefore, these transactions qualify as party-in-interest transactions.

These transactions are covered by an exemption from the “prohibited transaction” provision of ERISA.

NOTE H - INFORMATION CERTIFIED BY BOKF

The Plan Administrator has elected the method of annual reporting permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, BOKF, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Collective trust, at fair value, as shown in the statements of net assets available for plan benefits as of September 30, 2024 and 2023.
- Appreciation (depreciation) in fair value of investments, net, as shown in the statements of changes in net assets available for plan benefits for the years ended September 30, 2024 and 2023, with the exception of the appreciation of the common stock of the Plan Sponsor of \$754,111.
- The schedule of assets (held at end of year) as of September 30, 2024, with the exception of the common stock of the Plan Sponsor.

Audit procedures were performed by the Plan’s independent certified public accountants on the investment in the Company’s common stock.

NOTE I - RISKS AND UNCERTAINTIES

The Plan’s investment in various investment securities and Company’s common stock is subject to various risks. The risks investment securities are subject to include interest rate, credit and overall market volatility. In addition to the risks noted above, the Company’s common stock is also subject to risks of valuation assumptions based on earnings, cash flows and/or other such techniques. Due to the level of risks and uncertainties inherent in the assumptions and estimations process, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and such changes could materially affect participant’s account and amounts.

NOTE J - SUBSEQUENT EVENTS

Management of the Plan has evaluated subsequent events through May 23, 2025, the date the financial statements were available to be issued.
