Report of Independent Certified Public Accountants

Plan Administrator and Plan Participants
Fastenal Company & Subsidiaries 401(k) and Employee Stock Ownership Plan

Opinion

We have audited the financial statements of Fastenal Company & Subsidiaries 401(k) and Employee Stock Ownership Plan (the 'Plan'), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets available for benefits as of December 31, 2024, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024, and the changes in its net assets available for benefits for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for opinion

We conducted our audit of the financial statements in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of management for the financial statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental schedule required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures. These additional procedures included comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with US GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying supplemental schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Other matter - auditor's report on the 2023 financial statements

The financial statements of the Plan as of and for the year ended December 31, 2023 were audited by other auditors. Those auditors expressed an unmodified opinion on those 2023 financial statements in their report dated June 6, 2024.

Independent Auditors' Report

To the Plan Participants and Plan Administrator
Fastenal Company & Subsidiaries 401(k) and Employee Stock Ownership Plan:

Opinion

We have audited the financial statements of the Fastenal Company & Subsidiaries 401(k) and Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets available for benefits as of December 31, 2023, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2023, in accordance with U.S. generally accepted accounting principles.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. generally accepted accounting principles, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

FASTENAL COMPANY & SUBSIDIARIES 401(k) AND EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements

As of December 31, 2024 and 2023, and for the year ended December 31, 2024

(1) Description of the Plan

The following description of the Fastenal Company & Subsidiaries 401(k) and Employee Stock Ownership Plan (the Plan), which is sponsored by Fastenal Company and its Participating Affiliates ('Fastenal', 'we', 'our', 'us', or 'employer'), provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time and part-time U.S. employees of Fastenal. Employees are eligible to participate in the Plan beginning on the first of the month on or after completing 60 days of service and attaining the age of 18. Merrill Lynch, a division of Bank of America, N.A., serves as the trustee and recordkeeper of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). Under the Plan, the 401(k) Plan Committee is responsible for administration, management, and control of the assets of the Plan (including the designation of investment funds).

Our common stock is available through the portion of the Plan that is classified as an Employee Stock Ownership Plan (ESOP). The Plan is intended, in part, as a voluntary stock ownership vehicle for those participants who wish to use the Plan for that purpose. The Plan offers participants a voluntary dividend pass-through option to have dividends paid in cash, which would otherwise be automatically reinvested. Any dividends paid by us on stock held by the Plan are deductible to Fastenal for federal income tax purposes.

On December 20, 2024, the Plan was amended, effective August 1, 2024, to increase the involuntary force out threshold from \$5,000 to \$7,000 for participants, in accordance with the changes allowed under the Setting Every Community Up for Retirement Enhancement 2.0 Act of 2022.

Contributions

Contributions to the Plan include (i) salary deferral contributions authorized by participants, (ii) participant rollover contributions from another qualified plan, and (iii) discretionary matching contributions made by Fastenal.

Participants' contributions are recorded in the period that the participants' payroll deductions are made and are 100% vested at all times. Salary deferral contributions include pre-tax deferrals and Roth 401(k) deferrals. The Plan includes an automatic enrollment provision for newly hired and rehired employees meeting eligibility requirements, unless they affirmatively elect not to participate in the Plan. Participants are automatically enrolled with a 5% pre-tax deferral and contributions are invested in an age-based target retirement investment option. Alternatively, participants may contribute an amount not less than 1% or more than 100% of their eligible compensation. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Changes in contributions are allowed based on the provisions of the Plan.

The Plan allows for rollover contributions to be made to the Plan by eligible participants. These rollover contributions are eligible distributions from other tax-qualified plans or individual retirement accounts that participants elect to have invested in the Plan either by a direct rollover to the Plan or by a distribution followed by a contribution within 60 days of receipt.

The Plan's discretionary employer matching contributions are 100% vested when made. Discretionary contributions are reported as employer contribution receivables on the Statement of Net Assets Available for Benefits and were paid to the Plan subsequent to the respective year end.

Contributions are subject to certain Internal Revenue Code (IRC) limitations. Highly compensated employees may be limited to lower contribution percentages in order for the Plan to satisfy the nondiscrimination tests of the IRC.

Notes to Financial Statements

As of December 31, 2024 and 2023, and for the year ended December 31, 2024

Participant Accounts and Allocation of Income and Loss

Individual accounts are maintained for each participant of the Plan. Each participant's account is credited with the participant's contributions, employer contributions, and allocations of Plan earnings (losses) as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options

Participants direct elective contributions and discretionary employer matching contributions into a variety of fund options and Fastenal common stock. Changes to contribution allocations may be made by participants on a daily basis. Exchanges between investment options may also be made by participants on a daily basis; however, exchanges involving Fastenal common stock are subject to our Confidentiality and Securities Trading policy. Participants may elect to invest no more than 25% of the value of each incoming Plan contribution into our common stock. Subsequent participant-directed investment fund transfers into Fastenal common stock are not subject to this limit.

Payment of Benefits

On termination of employment with Fastenal and its subsidiaries (including termination of service due to death or retirement), a participant may generally elect to receive distribution equal to the value of the participant's account balance by a single lump-sum payment, two or more partial distributions (not to exceed four partial distributions during a plan year), or under installment payments paid monthly, quarterly, semi-annually or annually over a period that does not exceed applicable life expectancies.

Participants are also eligible to make in-service withdrawals from their account balance upon occurrence of certain events. In-service withdrawals are permitted if a participant is still employed and has reached age 59 1/2, has been called to active military service for more than thirty days, or has completed a rollover of funds into the Plan. Participants are also eligible to make hardship withdrawals in the event of certain financial hardships. In-service withdrawals are not eligible for installment payments. To the extent an account is invested in Fastenal common stock, a withdrawal or distribution can be in the form of Fastenal common stock or cash. However, any hardship distribution will be made in the form of cash.

Forfeitures

Forfeitures may be used as defined in the Plan document including to reduce discretionary matching contributions to the Plan or to pay other miscellaneous Plan expenses. The forfeiture account totaled \$43,859 and \$57,116 at December 31, 2024 and 2023, respectively. Total forfeitures used in 2024 were \$27,470.

Administrative Expenses

Fees associated with the fund options, such as investment management fees, are generally deducted from the investment fund, reducing the net returns of the investment fund. Recordkeeping, trustee/custodial services, and other administrative costs are paid quarterly using any applicable investment-related revenue, and any remaining amounts are paid by participants quarterly on a per capita basis. Fastenal pays for investment advisory services, audit fees, and ad hoc administrative services.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares of Fastenal common stock allocated to his or her account and will be notified prior to the time that such rights are to be exercised.

Fastenal will vote shares for which no directions have been timely received in proportion to the vote cast by participants who have responded timely.

Plan Termination

Although we have not expressed any intention to do so, we have the right under the Plan to discontinue our contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

(2) Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting and in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risk and Uncertainties

The Plan offers a number of investment options to participants that are exposed to various risks, such as interest rate, credit, and overall market volatility risk. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statements of net assets available for benefits and participant accounts.

At December 31, 2024 and 2023, approximately 27% and 29%, respectively, of the Plan's total investments were invested in our common stock. The underlying value of our common stock is entirely dependent upon the performance of Fastenal and the market's evaluation of such performance. It is at least reasonably possible that changes in the fair value of our common stock in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the sales price of an asset in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements.

Purchases and sales of investments are reflected on a trade-date basis. Net appreciation (depreciation) in the fair value of investments includes gains and losses on investments bought and sold, as well as held during the year. Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis.

Benefits

Benefit payments to participants are recorded upon distribution.

Excess Contributions Payable

The Plan is required to return contributions received during the Plan year in excess of the IRC limits. These amounts have been recorded as liabilities on the statements of net assets available for benefits.

Notes to Financial Statements

As of December 31, 2024 and 2023, and for the year ended December 31, 2024

(3) Fair Value Measurements

Under Accounting Standards Codification (ASC) 820 *Fair Value Measurements and Disclosures*, various inputs are used in determining the fair value of the Plan's investments. These inputs are summarized in a hierarchy that segregates fair value measurements into three levels (Levels 1, 2, and 3), determined by the nature of input as follows:

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities. An active market is a market in which transactions occur with sufficient frequency and volume to provide pricing information on an ongoing basis. A quoted price in an active market provides the most reliable evidence of fair value.
- Level 2 – Other significant observable inputs, including quoted prices for similar securities in active markets, quoted prices for identical securities in markets that are not active, and other market-corroborated inputs.
- Level 3 – Significant unobservable inputs, including the Plan's own assumptions in determining the fair value of investments, based on the best information available in the circumstances.

The level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. Valuation levels are not necessarily an indication of the risk associated with investing in those securities.

The following is a description of the valuation methodologies used for assets held and carried at fair value:

- *Mutual funds* – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded. Mutual funds also include interest-bearing cash and money market funds.
- *Fastenal Company common stock* – Valued daily based on quoted prices from national exchanges.
- *Stable value fund* - The stable value fund has the characteristics of a structure similar to a mutual fund, therefore, its value is considered readily determinable. As such, the fair value of the stable value fund, based on the published net asset value and the resulting daily transactions of the fund, is reflected in the fair value hierarchy as a Level 2 investment.
- *Common/collective trust funds* - Common/collective trust funds have the characteristics of a structure similar to a mutual fund and are valued based on the readily determinable quoted market price that each fund publishes at the end of each day. While the underlying assets in a common/collective trust fund are actively traded on an exchange, the funds themselves are not, and therefore, are classified as Level 2 assets in the fair value hierarchy.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain instruments could result in a different fair value measurement at the reporting date.

The following tables present the level within the fair value hierarchy at which the investments are measured on a recurring basis as of December 31, 2024 and 2023:

	Fair value at December 31, 2024			
	Level 1	Level 2	Level 3	Total

2023 excess contributions payable	(1,064)
Total expenses per the Form 5500	<u>\$ (67,224,038)</u>

(5) Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated August 29, 2017, stating that the Plan is qualified under Section 401(a) of the IRC, and exempt from taxation. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and related trust is tax exempt. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires management to evaluate tax positions taken by the Plan and recognize a tax liability, or asset, if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Notes to Financial Statements

As of December 31, 2024 and 2023, and for the year ended December 31, 2024

(6) Exempt Party-in-Interest Transactions

The Plan allows for transactions with certain parties who may perform services or have fiduciary responsibilities to the Plan, including Fastenal. Certain Plan investments are shares of our common stock and we are the Plan sponsor. Therefore, these transactions qualify as exempt party-in-interest transactions.

At December 31, 2024 and 2023, the Plan held 3,965,417 and 4,067,613 shares, respectively, of common stock of Fastenal. During the year ended December 31, 2024, the Plan made purchases of \$48,049,952 and sales of \$56,403,176 of our stock. During the year ended December 31, 2024, the Plan recorded gross dividend income of \$6,354,241.

(7) Subsequent Events

Effective May 1, 2025, Fastenal elected to allow participants to complete Roth in-plan conversions of certain amounts allocated to the participants' accounts, whereby the participant elects to change the tax treatment of the converted amounts from pre-tax (which is subject to taxation on distribution) to Roth (which is tax free, if the distribution is a qualified distribution under applicable law). The amounts converted are subject to income tax to the participant in the year of the conversion. The written amendment to reflect these operational changes will be adopted at a later date in accordance with applicable law and IRS guidance. There are no other subsequent events that require recognition or disclosure in these financial statements through June 5, 2025, the date these financial statements were issued.
