Independent Auditor's Report

Board of Trustees, Plan Administrator, and Plan Participants
Middlesex School Savings Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We were engaged to perform audits of the financial statements of Middlesex School Savings Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of August 31, 2024 and 2023, the related statement of changes in net assets available for benefits for the year ended August 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of August 31, 2024 and 2023, and for the year ended August 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Disclaimer of Opinion

We do not express an opinion on the accompanying financial statements of the Plan. Because of the significance of the matters described in the Basis for Disclaimer of Opinion section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements.

Basis for Disclaimer of Opinion

The Plan has not maintained sufficient accounting records and supporting documents relating to certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the accompanying financial statements may have been affected by these conditions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our responsibility is to conduct an audit of the Plan's financial statements in accordance with auditing standards generally accepted in the United States of America and to issue an auditor's report. However, because of the matters described in the Basis for Disclaimer of Opinion section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

We are required to be independent of the Plan, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits.

Other Matter—Supplemental Schedule Required by ERISA

The supplemental schedule of Schedule H, line 4i—Schedule of Assets (Held at End of Year), is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Because of the significance of the matters described in the Basis for Disclaimer of Opinion section of our report, it is inappropriate to and we do not express an opinion on the supplemental schedule referred to above.

Middlesex School Savings Plan

Notes to Financial Statements

Note 1. Plan Description

The following description of the Middlesex School Savings Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions. The Plan operates under the provisions of the Internal Revenue Code (the Code) Section 403(b).

General and eligibility: The Plan is a defined contribution plan covering all eligible employees of Middlesex School (the School). All employees are eligible to make elective contributions into the Plan upon date of hire except for student employees who are currently enrolled at the School. As of May 15, 2023, the plan has an auto enrollment provision after 35 days of employment unless the employee actively elects not to participate. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan, originally effective September 1, 1980, was most recently amended on October 1, 2023, to exclude from participant income any income tax gross-up payments paid by the employer to the participating employee.

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security Act (the CARES Act) was enacted. The CARES Act provides Plan participants with temporary options for borrowing from the Plan. The Plan has adopted these provisions but has not been amended to reflect the changes in the CARES Act.

Contributions: Participants may elect to reduce their compensation by a specific percentage of eligible compensation to be contributed to the Plan on a pre-tax, after-tax, or Roth basis up to the annual dollar limits as determined by the Code. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also rollover amounts representing distributions from other qualified retirement plans. As of May 15, 2024, the plan has an auto enrollment and annual auto escalation provision that takes effect unless the employee actively elects not to participate.

Participant accounts: Each participant's account is credited with the participant's contribution and the earnings or losses of the particular investments in their account and may be charged with fees related to the administration of that particular account. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately fully vested in their elective and rollover contributions plus actual investment earnings thereon.

Participant investment options: Participants direct the investments of their accounts into various investment options offered by the Plan, as more fully described in the Plan's literature. The Plan currently offers various mutual funds, including target date funds, and money market funds as investment options for participants. Participants may change their investment options daily.

Notes receivable from participants: Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to \$50,000 or 50% of their vested account balance, whichever is less. Loan terms range up to five years or over a reasonable period of time for the purchase of a primary residence, as established by the Plan Administrator at the time of the loan. The loans are secured by the vested balance in the participant's account and bear interest at a rate equal to the prime rate at the date of loan origination. Participants may have two loans outstanding at any time. The interest rates on loans outstanding at August 31, 2024, were between 3.25% and 8.50%. The loans mature through 2029. Principal and interest are paid ratably through biweekly payroll deductions.

Note 1. Plan Description (Continued)

Payment of benefits: The Plan permits withdrawals when a participant terminates employment, retires, or becomes disabled or deceased. In-service withdrawals are also permitted for certain financial hardships or when a participant attains age 59½. Benefits are payable in lump-sum payments with certain exceptions allowed as defined by the Plan.

Plan administration: Certain administrative functions are performed by officers or employees of the School. No such officer or employee received compensation from the Plan. Administrative expenses are paid by the School at management's discretion.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The Plan's financial statements are prepared in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) and are presented on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of estimates: The preparation of financial statements in conformity with U.S. GAAP requires the Plan's management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Administrator determines the Plan's valuation policies utilizing information provided by investment advisors, custodians, and the insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable are treated as distributions based upon the terms of the Plan document.

Payment of benefits: Benefit payments are recorded when paid.

Administrative expenses: Certain expenses of maintaining the Plan are paid directly by the School and are excluded from these financial statements. Certain fees related to the administration of the Plan and recordkeeping may be charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) of fair value of investments.

Note 2. Summary of Significant Accounting Policies (Continued)

Income taxes: U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan, and recognize a tax liability (or asset) if the Plan has taken any uncertain tax positions that more likely than not would not be sustained upon examination by a tax authority. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state or local tax authorities after three years from the filing date.

Subsequent events: The Plan has evaluated subsequent events through June 12, 2025, the date the financial statements were available to be issued.

Note 3. Information Certified or Provided by Fidelity Management Trust Company (Custodian)

The following is a summary of the Plan's asset information as of August 31, 2024 and 2023, and for the year ended August 31, 2024, included throughout the Plan's financial statements and ERISA-required supplemental schedule, that was prepared by or derived from information provided by the custodian, Fidelity Management Trust Company (Fidelity), and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodian that information provided to the Plan Administrator by the custodian related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information that appears throughout the financial statements and ERISA-required supplemental schedule related to the following assets:

	August 31	
	2024	2023
Investments at fair value:		
Mutual funds	\$ 22,962,788	\$ 18,219,500
Money market funds	482,638	454,570
Investments at contract value:		
Fixed annuity contract	264,122	517,937
Total investments	<u>\$ 23,709,548</u>	<u>\$ 19,192,007</u>
Notes receivable from participants	<u>\$ 92,302</u>	<u>\$ 63,489</u>

Fidelity also certified to the completeness and accuracy of \$3,091,189 of net appreciation in fair value of investments and \$573,916 of interest and dividends related to the aforementioned investments and \$3,883 of interest income on notes receivable from participants for the year ended August 31, 2024.

Note 4. Fair Value Measurements

U.S. GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at August 31, 2024 and 2023.

Money market funds: The fair value of the money market funds has been estimated under the practical expedient approach using the net asset value (NAV) per share. The fair value of the underlying investments is determined using the amortized cost method which approximates fair value. Under this method, investments are valued at cost when purchased and, thereafter, a constant proportionate accretion and amortization of any discounts and premiums are recorded until the maturity of the security. The fund seeks to maintain its NAV per share at \$1, although there is no assurance that it will be able to do so on a continuing basis.

Mutual funds: Mutual funds are valued at quoted market prices. These securities are categorized as Level 1 as they are actively traded and no valuation adjustments have been applied.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4. Fair Value Measurements (Continued)

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of transfer relative to total net assets available for benefits. For the year ended August 31, 2024, there were no transfers in or out of Level 3.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of August 31, 2024 and 2023:

Description	Assets at Fair Value as of August 31, 2024			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 22,962,788	\$ -	\$ -	\$ 22,962,788
Investments measured at NAV (a)				482,638
Investments at fair value				<u>\$ 23,445,426</u>

Description	Assets at Fair Value as of August 31, 2023			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 18,219,500	\$ -	\$ -	\$ 18,219,500
Investments measured at NAV (a)				454,570
Investments at fair value				<u>\$ 18,674,070</u>

(a) In accordance with the Fair Value Measurements topic, certain investments that are measured at fair value using NAV per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using NAV per share (or its equivalent) as a practical expedient as of August 31, 2024 and 2023:

Investment	Fair Value		Unfunded Commitment	Redemption Frequency	Redemption Notice Period
	2024	2023			
Money market funds (a)	<u>\$ 482,638</u>	<u>\$ 454,570</u>	None	Daily	None

(a) Funds seek a high level of current income as is consistent with the preservation of capital and liquidity. Funds invest in money market securities of domestic and foreign issuers and repurchase agreements.

Note 5. Group Annuity Contract With Standard Insurance Company

The Plan has entered into a traditional fully benefit-response guaranteed investment contract with Standard Insurance Company (Standard) totaling \$264,122 and \$517,937, as of August 31, 2024 and 2023, respectively. Standard maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and specified interest rate that is guaranteed by the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 1%. The crediting rate is reviewed periodically for resetting. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Standard, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that cause a significant withdrawal from the Plan, (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, or (5) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include: (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, (4) a material amendment to the agreement without the consent of the issuer.

Note 6. Party-in-Interest Transactions

The Plan's investments consist of mutual funds and money market funds managed by Fidelity Management Trust Company, the custodian of the Plan; therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to the custodian totaled \$31,125 for the year ended August 31, 2024. Notes receivable from participants also qualify as party-in-interest transactions.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the School has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, benefits will be provided as if all participants were then eligible for retirement.

Notes to Financial Statements

Note 8. Income Tax Status

The Plan has adopted a volume submitter plan sponsored by Fidelity. The volume submitter plan provider has received an advisory letter dated August 7, 2017, from the Internal Revenue Service as to the volume submitter plan's qualified status. The volume submitter plan advisory letter has been relied upon by the Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Code.

Note 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.
