INDEPENDENT AUDITOR'S REPORT

To the Plan Participants and Plan Administrator of the
MDU Resources Group, Inc. 401(k) Retirement Plan:

Opinion

We have audited the financial statements of MDU Resources Group, Inc. 401(k) Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

401(k) Retirement Plan
Notes to Financial Statements**

December 31, 2024 and 2023

Note 1 - Description of the Plan

The following description of the MDU Resources Group, Inc. 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions. As noted below in the following information, the Company completed the separation and distribution of Everus Construction Group, Inc. (Everus) from the Plan in 2024.

General

The Plan was initially adopted by the Board of Directors of MDU Resources Group, Inc. (the Company) on August 4, 1983, to be effective January 1, 1984, as a defined contribution plan. On May 25, 2006, the Plan designated the portion of the Plan invested in MDU Resources Group, Inc. common stock as an Employee Stock Ownership Plan (ESOP).

The Company and any of its affiliates that participate in the Plan are the Employers (the Employers). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Board of Directors of the Company may, at any time, amend or modify the Plan. The Company has delegated to the Employee Benefits Committee (the Committee) of the Company the authority to amend or modify the Plan; however, certain amendments identified in the Plan document are subject to approval by the Board of Directors of the Company.

Although it has not expressed any intent to do so, the Board of Directors of the Company has the right under the Plan to discontinue its contributions, at any time, and to terminate the Plan subject to the provisions of ERISA. The Board of Directors or governing entities of any Employer may, at any time, terminate participation in the Plan with respect to such Employer. In the event of a Plan termination, participants would become 100 percent vested in their employer contributions.

The Committee is the Plan Administrator. The Committee consists of the Chief Financial Officer of the Company and other individuals appointed by the Chief Executive Officer of the Company who are employed by the Company or a subsidiary of the Company. The recordkeeper of the Plan is Principal Financial Group (the Recordkeeper). The trustee of the Plan is Principal Trust Company (the Trustee).

Plan Transfers

On October 2, 2024, the Company's Board of Directors approved the separation and the distribution of all the outstanding shares of Everus to the Company's stockholders. On October 31, 2024, the participants of the Plan holding Company common stock received one share of Everus common stock for every four shares of the Company's common stock held as of the close of business on October 21, 2024, the record date for the distribution.

In preparation of and connection with the separation, effective September 1, 2024, the portion of the Plan attributable to Everus, including with respect to their active participants and vested terminated participants, was spun off into a separate plan, the Everus 401(k) Plan, with assets transferring in-kind of approximately \$180.8 million from the Plan to the Everus 401(k) Plan. Accordingly, the Plan only reflects Everus' activity for the period January 1, 2024 through August 31, 2024. Also effective September 1, 2024, Everus participants could no longer make new contributions or transfer new money to purchase Company stock in the Company's Plan.

Eligibility

As amended and effective January 1, 2024, in general, all employees of the Company who are at least 18 years of age are eligible to participate in the Plan upon hire, excluding leased employees, independent contractors and employees who are eligible to participate in a multiemployer plan to which the Company contributes or are covered by a collectively bargained unit that has not bargained for the Plan for such employees.

Deferral Contributions

The Plan allows a participant to contribute, by payroll deduction, any whole percentage not to exceed 75 percent of the participant's eligible compensation for each pay period up to a maximum pre-tax and/or Roth deferral contribution of \$23,000 for the 2024 Plan year. The Plan provides an automatic deferral election feature and an automatic deferral escalation feature, which increases an automatically enrolled participant's deferral percentage by one percent annually until the participant's deferral percentage reaches 15 percent, unless the participant opts out or changes their deferral election. Additionally, the Plan allows a participant who is eligible to make deferral contributions and will have attained age 50 before the close of the Plan year to make elective catch-up deferrals. The maximum catch-up deferral for 2024 was \$7,500.

Employer Matching Contributions

Each Employer may elect to provide matching contributions on behalf of participants employed by such Employer, equal to a percentage of such participant's pre-tax and Roth deferral contributions up to a specified percent of the participant's annual eligible compensation as provided under the Plan or as adopted by the Employer and approved by the Committee. All matching contributions are made in cash to the participant's matching contribution account and invested as directed by the participant.

Profit Sharing/Retirement Contributions

The Employer, in its sole discretion and subject to the Committee's approval, may make either profit sharing or retirement contributions, or both to the Plan on behalf of certain eligible participants employed by that Employer. Participants may choose to invest profit sharing/retirement contributions allocated to their individual accounts in any or all of the available investment options. Profit sharing/retirement contributions totaling \$12.7 million were credited to participant accounts for the year ended December 31, 2024, of which \$7.4 million was accrued at year end but not paid until February 2025.

Rollover Contributions

The Plan accepts rollover contributions from eligible retirement plans, including after-tax employee contributions and designated Roth accounts.

Participant Accounts

The Employers remit all authorized contributions made by the participants to the Trustee to be held in trust and invested for the respective accounts of the participants, pursuant to the terms of a trust agreement effective April 1, 2020, as amended. Individual accounts are maintained for each participant of the Plan. Each participant's account is credited with pre-tax deferral contributions, Roth deferral contributions, employer matching contributions, profit sharing/retirement contributions, and rollover contributions, as applicable, and allocated investment earnings. Participant accounts are also charged withdrawals (see Distributions to Participants section below), allocated investment losses and per-participant administrative expenses that are not paid by Company.

Investment Options

An election is made by each participant to allocate contributions in one percent increments to be invested in any of the investment options available. Participants may change investments and transfer amounts between funds.

As a result of the October 31, 2024, separation of Everus from the Company, Plan participants received one share of Everus common stock for every four shares of the Company's common stock held as of the close of business on October 21, 2024, the record date for the distribution. Participants have until October 31, 2025, to transfer their balance of Everus common stock to another investment option in the Company's plan or take an in-kind distribution, if eligible.

If a participant does not specify how contributions to their account are to be invested, they will automatically be invested in the applicable T. Rowe Price Retirement Fund most closely aligned with the year the participant turns age 65.

Contributions to the MDU Resources Common Stock Fund are used by the Trustee to purchase shares of MDU Resources Group, Inc. common stock directly on the open market.

Vesting

A participant's interest in their pre-tax and Roth deferral accounts, matching contribution account, rollover account and ESOP account is at all times fully vested and nonforfeitable. Generally, a participant's interest in a profit sharing/retirement contribution account is 100 percent vested after completing three years of service. Participants are 100 percent vested in the dividends paid on the MDU Resources Common Stock Fund regardless of years of service. Participant accounts are valued on a daily basis.

Distributions to Participants

The amount credited to participant accounts shall become payable to the participant or the participant's beneficiary/beneficiaries, as applicable, upon death, retirement, disability or other termination of employment with the Employers. The distribution of such amounts will be in accordance with the Plan, based on the method of payment elected by the participant or designated beneficiary/beneficiaries. Generally, the Plan allows for a single-sum distribution or flexible installments over a period of time, not to exceed nine years.

Distributions with respect to investment options other than the MDU Resources Common Stock Fund are in the form of cash. Distributions with respect to the MDU Resources Common Stock Fund may be in the form of cash or in the form of MDU Resources Group, Inc. common stock. Distributions of fractional shares are in the form of cash. Any MDU Resources Group, Inc. common stock included in a direct transfer to an individual retirement account or other qualified plan will be electronically transferred to the individual retirement account or to the qualified plan's custodian. As of December 31, 2024 and 2023, there were approximately \$68,000 and \$933,000, respectively, of distributions requested prior to year end but not paid until after year end.

A participant may make in-service withdrawals (hardship or age 59 1/2) under certain conditions. Distributions from a participant's rollover account may be elected at any time.

Notes Receivable from Participants

A participant may be eligible to obtain a loan from the Plan. The minimum amount a participant can borrow is \$1,000 and the maximum amount available for a loan is the lesser of \$50,000 or one-half of the participant's vested account balance, subject to certain limitations. Loans must be repaid over specified periods generally through payroll deduction and bear interest at a commercially reasonable rate in effect at the time the loan is made, as established by the Committee. As of December 31, 2024, participant loans had maturities through 2039 at interest rates ranging from 4.25 percent to 9.5 percent.

Forfeited Accounts

Forfeited non-vested accounts are used to reinstate reemployed participant accounts, reduce employer contributions to the Plan and reduce administrative expenses incurred by the Plan. Forfeited non-vested accounts totaled approximately \$39,000 and \$38,000 at December 31, 2024 and 2023, respectively. Approximately \$317,000 in forfeitures were used to reduce employer contributions for the year ended December 31, 2024.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value, except for the fully benefit-responsive investment contract, the New York Life Insurance Investment Contract, which is stated at contract value. Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Contract value is the amount Plan participants would receive if they were to initiate permitted transactions under the terms of the Plan (see Note 3). For more information on fair value measurements, see Note 4.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued interest. Delinquent notes receivable from participants are recorded as distributions based on the terms of the Plan document.

Distributions to Participants

Distributions to Plan participants are recorded when paid.

Contributions

Employee contributions are recorded when withheld through payroll reductions. Employer contributions are recorded when determined to be earned.

Excess Contributions Payable

The Plan is required to return contributions to participants in the event certain nondiscrimination tests and/or contribution limits defined under the Internal Revenue Code (Code) are not satisfied. There were no excess contributions payable which were due to participants at December 31, 2024 and 2023.

Administrative Expenses

Administrative expenses of the Plan related to Trustee, recordkeeping and audit fees are paid primarily by the participants. Certain administrative expenses of the Plan, such as legal fees, are paid by the Employer. Administrative expenses of the Plan were approximately \$592,000 for the year ended December 31, 2024, including the MDU Resources Common Stock Fund commissions, loan fees and terminated participant account fees that were paid by participants through the Plan.

Fees or commissions associated with each of the investment options other than the MDU Resources Common Stock Fund are paid by participants as an offset to investment earnings and were approximately \$2.4 million for the year ended December 31, 2024, which was net of revenue-sharing adjustments for fee levelization of \$267,000 that were credited back directly to the participants' accounts.

Risks and Uncertainties

Investments, in general, are subject to various risks, including credit, interest rate and overall market volatility risks. Market risks include changes in economic indicators, such as consumer spending, tariffs, inflation data, interest rate changes, political developments and threats of terrorism, among other things. Due to the level of risk associated with certain investment securities, it is likely that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Concentration of Investments

The following presents investments that represent 10 percent or more of the Plan's net assets available for benefits at December 31. A significant decline in the market value of these investments would significantly affect the net assets available for benefits.

	2024		2023	
	Amount	Percent of net assets	Amount	Percent of net assets

Note 3 - Investment Contract with Insurance Company

The Plan has a fully benefit-responsive investment contract with New York Life Insurance Company (NYL Insurance). NYL Insurance maintains the contributions in a pooled separate account, which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. This investment contract meets the fully benefit-responsive investment contract criteria and therefore, is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contract, plus interest and dividends credited, less participant withdrawals and administrative expenses. As of December 31, 2024 and 2023, the contract value of the fully benefit-responsive contract with NYL Insurance was approximately \$37.5 million and \$59.3 million, respectively. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The contract has certain restrictions that impact the ability to collect the full contract value. For example, withdrawals due to events initiated by the Company including, but not limited to, total or partial termination of the Plan, group lay-offs or early retirement incentives, may result in a penalty if these withdrawals exceed limitations defined in the contract. The Company believes that the occurrence of events that would cause the plan to transact at less than contract value is not probable. NYL Insurance may not terminate the contract at any amount less than contract value.

NYL Insurance is contractually obligated to pay the principal and any interest and dividends that have been credited to the Plan. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than zero percent. Such interest rates are reviewed not less frequently than quarterly nor more frequently than daily for resetting.

Note 4 - Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants at the measurement date. The Financial Accounting Standards Board Accounting Standards Codification (ASC) establishes a hierarchy for grouping assets and liabilities, based on the significance of inputs. The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. There are three levels of inputs that may be used to measure fair value:

Level 1 - quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity can access at the measurement date;

Level 2 - inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; or

Level 3 - unobservable inputs for the asset or liability.

The estimated fair values of the Plan's assets measured on a recurring basis are determined using the market approach and are corroborated using third-party market data. There have been no changes in the methodologies used at December 31, 2024.

Common stock: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective trust funds: Investments in the collective trust funds are valued at fair value reported by the fund managers based on the underlying investments within each fund, less liabilities, and are expressed in units representing the net asset value as a practical expedient of each fund. Due to the nature of these funds, there are no unfunded commitments or redemption restrictions. The practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported net asset value. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of a collective trust fund, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidation will be carried out in an orderly business manner.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the valuation methods are considered appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan's assets measured at fair value were as follows:

Note 5 - Federal Income Taxes

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated June 6, 2017, that the Plan and related trust are designed for qualification as exempt from federal income taxes in accordance with applicable sections of the Code. Although the Plan has been amended since the determination letter application was filed, the Company believes that the Plan is currently designed and is being operated in compliance with the applicable requirements of the Code, and the Plan continues to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan. The effects of an uncertain tax position are recognized in the financial statements when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2024 and 2023, there are no uncertain positions taken or expected to be taken and no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions.

Note 6 - Related-Party and Exempt Party-In-Interest Transactions

At December 31, 2024 and 2023, the Plan held 4.8 million and 4.2 million shares, respectively, of common stock of MDU Resources Group, Inc., the Plan sponsor. These shares qualify as exempt party-in-interest transactions and are allowable under ERISA. The market value of these shares totaled approximately \$87.2 million and \$83.6 million at December 31, 2024 and 2023, respectively. Shares of the plan sponsor were bought and sold in the open market at quoted fair market values at the date of purchase and sale.

At December 31, 2024, the Plan held 1.1 million shares of common stock of Everus, which was spun off from the Company in October 2024, with a market value of \$70.7 million. These shares qualify as exempt party-in-interest transactions and are allowable under ERISA. The shares were received as a dividend upon completion of the spinoff on October 31, 2024, and all subsequent sale transactions occurred in the open market at quoted fair market values at the date of sale; however, the ability to repurchase any additional shares was not allowed. Participants are required to sell any common stock of Everus within one year following the spinoff date, with proceeds reinvested as directed by the participant, or if eligible, taken as an in-kind distribution. Any shares that are not sold by October 31, 2025, are to be aggregated and sold over one or more trading days, with participants receiving an average stock sale price and proceeds reinvested based on the participant's current investment allocation for deposits.

Principal Diversified Real Asset Fund is a mutual fund managed by Principal. Principal is the trustee and recordkeeper, as defined by the Plan, and therefore transactions for this fund qualify as exempt party-in interest transactions. Fees paid for investment management services, net of revenue-sharing adjustments for fee levelization, were included as a reduction of the return earned on the fund.

The Plan allows participants to borrow from their fund accounts and, therefore, these transactions qualify as exempt party-in-interest transactions, which are secured by the vested balances in the participants' accounts. Notes receivable from participants were approximately \$7.4 million and \$10.5 million as of December 31, 2024 and 2023, respectively.

Note 7 - Reconciliation of the Financial Statements to the Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

December 31,	2024	2023
Net assets available for benefits per the financial statements	\$ 775,585,972	\$ 829,914,865
Deemed distributions of participant loans *	(34,836)	(34,377)
Net assets available for benefits per the Form 5500	\$ 775,551,136	\$ 829,880,488

*Includes defaulted loans considered to be deemed distributions.

The following is a reconciliation of the changes in net assets available for benefits per the financial statements to the Form 5500 for the year ended December 31, 2024:

Net decrease in net assets available for benefits per the financial statements	\$ (54,328,893)
Change in deemed distributions of participant loans including defaulted loans	(459)
Total net loss per the Form 5500	\$ (54,329,352)

Note 8 - Subsequent Events

The Plan has evaluated the impact of events occurring after December 31, 2024, up to the date of issuance of these financial statements on June 18, 2025, that would require recognition or disclosure in the financial statements.
