INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator of
Beazer Homes USA, Inc. 401(k) Plan
Atlanta, Georgia

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Beazer Homes USA, Inc. 401(k) Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be

independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter—Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Beazer Homes USA, Inc. 401(k) Plan
Notes to Financial Statements

1. Description of Plan

The following description of the Beazer Homes USA, Inc. 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General — The Plan is a defined contribution plan established to encourage and assist employees in saving and investing payroll withholding for the purpose of receiving retirement benefits. The Plan is a savings and investment plan covering eligible employees of Beazer Homes USA, Inc. and subsidiaries (the “Company”). The Plan is administered by a committee appointed by the Company’s Board of Directors and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended. Effective February 2013, participants may choose to make contributions on an after-tax basis through a Roth 401(k) option. Contributions and earnings for the Roth 401(k) option are not subject to taxation at the time of distribution, as long as the distribution is a "qualified distribution" made no earlier than five years after the first Roth 401(k) contribution to the Plan. A qualified distribution is a distribution after separation of service, due to death, disability or after age 59½.

Eligibility — All employees are automatically enrolled in the Plan at a contribution rate of 6% of his/her pretax eligible earnings on the first day of the month following the completion of 35 days of service. If an employee does not make an election these contributions are initially invested in an age-based target retirement date investment fund. At any time an employee has the option to change his/her contribution rate, with changes becoming effective within two payroll cycles, and investment election(s), with changes becoming effective as soon as administratively feasible.

Contributions — Contributions to the Plan are comprised of salary deferral contributions by Plan participants, Company matching contributions, Company discretionary contributions and rollovers from other plans. Non-highly compensated employees may elect to make a salary deferral contribution of 1% to 80% of their annual compensation on a pre-tax basis or after-tax basis, up to the annual dollar Internal Revenue Code (“IRC”) limits. There is an administrative limit on the salary deferral contributions of highly compensated employees equal to 15% of annual compensation on a pre-tax basis, up to the annual dollar IRC limits. In addition, the Company’s matching contributions are discretionary, but the Company has historically made Company matching contributions equal to 50% of the first 6% of annual earnings contributed by the employees. The Company made such matching contributions for the year ended December 31, 2024.

The Company may elect, at the discretion of the Company's Board of Directors, to make an additional discretionary contribution. The Company did not make any additional discretionary contributions for the year ended December 31, 2024.

Participant Accounts — Individual accounts are maintained for each Plan participant. Participant accounts are credited with participant and Company contributions and an allocation of the Plan’s earnings and are charged with withdrawals and an allocation of the Plan’s losses and administrative expenses, as applicable. The benefit to which a participant is entitled is the vested balance in his or her account.

Gains and losses on Plan investments are allocated between all participants’ accounts in the same proportion that each participant’s account bears to the total of all participants’ accounts within specified investment funds.

Each participant may direct the investment of his or her account to the various investment options currently offered by the Plan. Participants are no longer allowed to purchase Company stock as an investment option in the Plan. However, existing participants who purchased Company stock prior to this change are able to hold or dispose of existing shares at their determination.

Vesting and Forfeitures — Participants become vested in the Company matching contributions and the Company discretionary contributions in accordance with the following schedule:

Completed Years of Service	Percentage Vested
Less than two years	0 %
Two, but less than three years	25 %
Three, but less than four years	50 %
Four, but less than five years	75 %
Five years or more	100 %

Non-vested amounts forfeited upon termination are used to reduce future Company contributions and eligible Plan expenses. As of December 31, 2024 and 2023, forfeited non-vested amounts available to reduce future Company contributions totaled approximately \$470,274 and \$469,454, respectively. During the year ended December 31, 2024, the Company's contributions were reduced by \$882,660 from forfeited non-vested amounts.

The participant salary deferral contributions are fully vested and non-forfeitable at all times.

Notes receivable from participants — A participant may request a loan equal to part or all of the value of his or her salary deferral contributions and the vested portion of the Company matching contributions subject to a minimum of \$1,000, but not to exceed the lesser of (1) one-half of the participant's vested percentage of his account or (2) \$50,000 reduced by the highest outstanding loan amount in the past 12 months. Such loans bear interest at a fixed rate for the term of the loan, equal to the prime rate at the beginning of the month in which the loan is made, plus 1% (4.25% to 9.50% as of December 31, 2024). The loan balance is collateralized by the participant's account. The loans are repaid through payroll deductions over periods generally ranging from one to five years, except that the repayment period for loans made for the purchase of a home may range from one to ten years. These periods may be extended for leaves of absence due to military duty or disability.

Distributions — Upon normal retirement, permanent disability, death or termination of employment, the participant or his or her designated beneficiary may receive his or her vested interest, net of any outstanding loan balance, in the Plan in the form of a lump-sum payment.

Payment of Benefits — Effective January 1, 2013, the Plan made changes regarding how distributions for terminated employees are handled. If a participant terminates, they will be notified that they can take a distribution. However, if the participant fails to respond and their account value is between \$1,000 and \$5,000, their account will be converted into a Fidelity IRA account outside of the Plan.

Administrative Expenses — Administrative costs and expenses are generally paid by the Company, as provided in the Plan document. Investment management fees for investments are included as a reduction of investment return and not reflected separately in the statement of changes in net assets available for benefits. The Plan has a revenue-sharing agreement whereby certain investment managers return a portion of the investment fees to the recordkeeper to offset the Plan's administrative expenses. The offset activity conforms to the revenue-sharing agreement requirements. For the year ended December 31, 2024, \$35,770 was used to offset Plan expenses. The Plan held undistributed administrative revenues of \$94,649 at December 31, 2024.

Participant-paid recordkeeping fees are allocated pro rata to each participant. Participants also pay administrative costs for loans, distributions and qualified domestic relation orders.

Subsequent Events — Subsequent events were evaluated through June 16, 2025, the date the financial statements were available to be issued.

2. Summary of Significant Accounting Policies

Basis of Accounting — The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Investment Valuation and Income Recognition — The Plan's investments are stated at fair value. Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion on fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in the fair value of investments represents the change in fair value during the year, including realized gains and losses on investments purchased and sold during the period.

Notes Receivable from Participants — Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are recorded as distributions based on the terms of the Plan document.

Use of Estimates and Risks and Uncertainties — The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates. The Plan utilizes various investment instruments, including mutual funds, employer securities, self-managed accounts, collective trust funds, and stable value funds (described below in Note 4). Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the value of the participants' account balances and the amounts reported in the financial statements.

Concentrations of Investments — The following table shows details on investments that represent a concentration of greater than 10% of the Plan's net assets available for benefits:

	December 31, 2024		December 31, 2023	
	Balance	%	Balance	%
Fidelity 500 Index Fund	\$ 24,759,601	14.2 %	\$ 17,091,805	10.7 %

A significant decline in the market value of these investments would significantly affect the net assets available for benefits.

Payment of Benefits — Benefit payments are recorded upon distribution.

3. Information Certified by the Trustee

The following is a summary of the information regarding the Plan as of December 31, 2024 and 2023, and for the year ended December 31, 2024, included in the Plan's financial statements and supplemental schedule that were prepared or derived from information prepared by Fidelity Management Trust Company, the trustee of the Plan, and furnished to the Plan administrator. The Plan administrator has obtained certifications from the trustee that such information is complete and accurate. All investment balances and information, excluding the level of investments in Note 4, *Fair Value Measurements*, have been prepared based on information certified as complete and accurate by the trustee of the Plan.

Net appreciation in fair value of investments	\$ 17,388,171

⁽¹⁾ All investment balances and information are included in the supplemental schedule, *Schedule of Assets (Held at End of Year)*.

4. Fair Value Measurements

The Plan accounts for its investments under the fair value hierarchy of Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures* (ASC 820). The hierarchy gives the highest priority to Level 1 measurements and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1	Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;
Level 2	Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly;
Level 3	Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

As required by ASC 820, the Plan's assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan held no Level 3 assets as of December 31, 2024 or 2023. The following table presents by level within the fair value hierarchy the Plan's investment assets at fair value as of December 31, 2024 and 2023:

	Investment Assets at Fair Value as of December 31, 2024

Total investment assets at fair value	\$ 127,750,763	\$ —	\$ —	\$ 156,874,973

⁽¹⁾Mutual Funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

⁽²⁾Beazer Homes USA, Inc. Company Stock Fund – A separately managed account that is a unitized stock fund that operates similarly to a mutual fund, in that it is composed of stock, and a small percentage of cash or another short-term interest-bearing vehicle. The inclusion of cash provides liquid assets to allow for the daily processing of transfers, loans, and withdrawals. The value of a unit in a unitized stock fund is based on the Net Asset Value (NAV), which is the value of the underlying common stock and the cash piece held by the fund, divided by the number of units outstanding. Therefore, the NAV of the fund (the “unit price”) will, as a rule, be different from the closing price of the underlying stock on the applicable exchange. The individual assets of a stock fund are considered separately as individual investments for accounting, auditing, and financial statement reporting purposes.

⁽³⁾The self-managed account is a self-directed brokerage account that consists of common stock investments, mutual fund investments, and money market funds. The fair value of the common stock, mutual funds, and money market funds are determined on the basis of quoted prices in an active market. Accordingly, these investments have been classified as Level 1.

⁽⁴⁾Stable value funds that are composed primarily of fully benefit-responsive investment contracts and are valued at the net asset value of units of the bank collective trust. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 12 months' notification in order to confirm that securities liquidations will be carried out in an orderly business manner. The fund has no unfunded commitment.

⁽⁵⁾Collective trust funds valued at the net asset value of units of a bank collective trust. The net asset value as provided by the trustee is used as a practical expedient to estimate fair value. The net asset value is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported net asset value. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves

the right to temporarily delay withdrawal from the trust in order to confirm that securities liquidations will be carried out in an orderly business manner. The fund has no unfunded commitment.

5. Federal Income Tax Status

Effective August 1, 2021, the Plan adopted a Pre-Approved Plan document. The Plan Administrator believes that the Plan is currently designed and is being operated in compliance with the applicable requirements of the IRC and therefore, the Plan continues to qualify under Section 401(a). This was confirmed on June 30, 2020, by the receipt of an opinion letter from the Internal Revenue Service. Accordingly, the related trust continues to be tax exempt as of December 31, 2024 and no provision for income tax has been included in the Plan's financial statements.

6. Exempt Party-In-Interest Transactions

Party-in-interest investments held by the Plan included 10,364 shares and 12,001 shares of Beazer Homes USA, Inc. common stock as of December 31, 2024 and 2023, respectively, with a cost basis of \$1,384,832 and \$1,578,403, respectively. There were no dividends earned on Beazer Homes USA, Inc. common stock for the year ended December 31, 2024.

Certain Plan investments are shares of investment funds managed by Fidelity Management Trust Company ("Fidelity"). Fidelity is the trustee, as defined by the Plan, and, therefore, these transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan for the investment management services were included as a reduction of the return earned on each fund.

The Plan issues loans to participants under the deferred arrangement portion of the Plan, which are secured by the vested balances in the participants' accounts.

7. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination participants will become 100% vested in their accounts.

8. Reconciliation of Financial Statements to Form 5500
