INDEPENDENT AUDITOR'S REPORT

To the Verizon Employee Benefits Committee
Verizon Savings and Security Plan for
New York and New England Associates

Opinion

We have audited the accompanying financial statements of the Verizon Savings and Security Plan for New York and New England Associates (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Other Matter—Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at the end of the year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

VERIZON SAVINGS AND SECURITY PLAN FOR NEW YORK AND NEW ENGLAND ASSOCIATES

Notes to Financial Statements

December 31, 2024

1. Plan Description

The following description of the Verizon Savings and Security Plan for New York and New England Associates (the “Plan”) provides only general information. Participants should refer to the Summary Plan Description and Plan Document for a complete description of the Plan’s provisions. The Plan is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Eligibility

The Plan provides eligible employees, as defined by the Plan Document, of Verizon Communications Inc. (“Verizon” or “Plan Sponsor”) and certain of its subsidiaries (“Participating Affiliates”) with a convenient way to save for both short-term and long-term needs.

Covered employees are eligible to make before-tax, after-tax or Roth 401(k) contributions or a combination of all three contributions to the Plan and to receive employer-matching contributions upon completion of enrollment in the Plan as soon as practicable following the date of hire. Covered employees in certain bargaining groups who are not eligible to earn pension benefits and who are employed by Verizon or its Participating Affiliates on the last day of the year in a position subject to a collective bargaining agreement, may receive employer annual discretionary awards (“profit sharing contributions”) under the Plan.

An individual’s active participation in the Plan shall terminate when the individual ceases to be an eligible employee; however, the individual shall remain a participant until the entire account balance under the Plan has been distributed or forfeited.

Participant Accounts

Each participant account is credited with the participant’s contributions, rollovers, employer-matching contributions, profit sharing contributions, and allocations of Plan income. Allocations of Plan income are based on participant account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Vesting

Participants are always vested in the value of their contributions and earnings thereon. A participant shall be fully vested in the employer-matching and profit sharing contributions allocated to his or her account or Employee Stock Ownership Plan (“ESOP”) account and any income thereon upon completing three years of vesting service or upon death, disability, retirement from Verizon or its Participating Affiliates, attainment of normal retirement age, permanent layoff (subject to the terms of the applicable collective bargaining agreement), temporary layoff that continues for twelve months, involuntary separation that qualifies for benefits under a separation incentive program, transfer to salaried employee status that continues for twelve months, or a qualifying transfer to Bellcore (as defined in the Plan Document). Vesting shall also occur if a participant is hired by an entity subject to the Mandatory Portability Agreement (as defined in the Plan Document) within thirty days after terminating from Verizon.

Forfeitures

Forfeited balances of terminated participants' non-vested accounts are used to reduce future employer-matching and profit sharing contributions. Forfeitures used to reduce employer-matching contributions totaled \$72,297 for the year ended December 31, 2024. At December 31, 2024 and 2023, forfeited non-vested accounts totaled \$23,186 and \$40,224, respectively.

Contributions

The Plan is funded by employee contributions up to a maximum of 25% of eligible compensation, by profit sharing contributions, and subject to applicable collective bargaining agreements, by employer-matching contributions equal to a percentage of the initial 6% of eligible compensation that the participant contributes to the Plan. The matching contribution percentage is specified by the Plan or the participant’s collective bargaining agreement, as applicable, and different percentages may apply to participants in certain bargaining groups who are not eligible to earn pension benefits. The qualified default investment alternative designated by the Plan administrator is the Target Fund that corresponds most closely to the year the participant will turn age 65. Employees attaining the age of 50 or older can elect to make additional catch-up contributions to the Plan. Contributions are subject to certain Internal Revenue Service (“IRS”) limitations.

Participant contributions may be made on a before-tax, after-tax or Roth 401(k) basis or a combination of all three. Participants direct their contributions into various investment options offered by the Plan.

Employer-matching contributions and profit sharing contributions made in cash are invested in the same investment options as the participant’s contributions. Profit sharing contributions may also be provided in Verizon shares, as determined by Verizon. The Verizon shares are held by the Plan in a unitized fund, which means participants do not actually own shares of Verizon common stock but rather own an interest in the fund. There was no profit sharing contribution made for 2024.

Notes Receivable from Participants

The Plan includes a loan provision authorizing participants to borrow an aggregate amount generally not exceeding the lesser of (1) \$50,000 or (2) 50% of their vested account balance in the Plan, subject to certain limitations. Loans are generally repaid by payroll deductions. The general term of repayment for loans is a minimum of six months and a maximum of five years (and generally fifteen years for a loan to purchase a principal residence). For loans up to five years, each new loan will bear interest at a rate based upon the prime rate as of the last business day of the calendar month immediately preceding the date the loan is made. Loans for a period of longer than five years shall bear interest at prime rate plus one percentage point. Interest rates for loans outstanding at December 31, 2024 and 2023 were between 3.25% to 10.50%.

Payment of Benefits

Benefits are payable in a lump sum cash payment or a retired participant can elect, once per year, to take a partial withdrawal. A participant can also elect one of the following optional forms of benefit payment: (1) payment in Verizon shares for investments in the Verizon Company Stock Fund, with the balance in cash; (2) in annual installments in cash of approximately equal amounts to be paid out for a period of 2 to 20 years, as selected by the participant; (3) in monthly or annual installments over a period equal to the life expectancy of the participant; or (4) for those participants eligible to receive their distribution in installments as described in (2) and (3) above, a pro rata portion of each installment payment in Verizon shares for investments in the Verizon Company Stock Fund, with the balance of each installment in cash.

Administrative Expenses

Plan administrative expenses may include legal, accounting, trustee, recordkeeping, and other administrative fees and expenses associated with maintaining the Plan. The cost of administering the Plan is paid by Verizon, but those fees may be reduced by credits provided by the Plan trustee/record keeper for the net float income it earns with respect to the Plan. The Plan does not charge any other administrative expenses directly to participant accounts other than fees for overnight delivery of distribution, loan, or withdrawal checks.

Master Trust

The Plan holds an interest in the net assets of the Verizon Master Savings Trust (“Master Trust”).

Fidelity Management Trust Company (“Fidelity”) has been designated as the trustee and record keeper of the Master Trust and is responsible for the control and disbursement of the funds and portfolios of the Plan. Fidelity is also responsible for the investment and reinvestment of the funds and portfolios of the Plan, except to the extent that it is directed by Verizon Investment Management Corp. (“VIMCO”) or by third-party investment managers appointed by VIMCO.

Plan Modification and Plan Termination

The Board of Directors of Verizon may modify, alter, amend, terminate or partially terminate the Plan at any time, subject to collective bargaining requirements. The Verizon Employee Benefits Committee may also make amendments to the Plan that do not materially alter the cost to the Participating Affiliates of providing benefits under the Plan. The chief legal counsel to the Committee may amend the Plan for changes required by the IRS in connection with a determination letter or voluntary compliance application. No amendment may permit any of the assets held pursuant to the Plan to be used for any purpose other than for the exclusive benefit of Plan participants and their beneficiaries or for paying reasonable expenses of administering the Plan. In the event the Plan terminates, participants will become fully vested in their accounts.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein. Actual results could differ from those estimates.

Payment of Benefits

Benefits are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. A participant loan is in default if loan repayments are delinquent beyond the end of the Plan's grace period. Defaulted loans are treated as an offset distribution or deemed distribution for tax purposes and become taxable income to the participant in the year in which the default occurs. In the case of an offset distribution, the participant loan balance is reduced and a distribution is recorded on the participant's account.

Investment Valuation and Income Recognition

The Plan's interest in the Master Trust is reported at fair value (except for Fully Benefit-Responsive Investment Contracts ("FBRICs"), which are reported at contract value). The investment in the Master Trust represents the Plan's interest in the net assets of the Master Trust. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The Statement of Changes in Net Assets Available for Benefits reflects the net increase/(decrease) in the Plan's interest in the Master Trust which consists of the realized gains or losses and the unrealized appreciation/(depreciation) in fair value, or contract value of those investments, as well as interest and dividends earned.

Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses on sales of investments are determined on the basis of average cost. Dividend income is recorded on the ex-dividend date. Interest earned on investments is recorded on the accrual basis. Net appreciation/(depreciation) includes gains and losses on investments bought and sold, as well as held during the year.

3. Investments in Master Trust

The Plan's investments are held in the Master Trust. The Plan's participating interest in the investment funds of the Master Trust is based on account balances of the participants and their elected investment funds. The net assets of the Master Trust, which may include receivables and payables from unsettled trades, are allocated by assigning to each plan participating in the Master Trust those transactions that can be specifically identified as related to the plan, such as contributions, benefit payments, and plan-specific expenses. The income and expenses resulting from the collective investments of the Master Trust's assets are allocated in proportion to the fair value of the assets assigned to such plan.

On a monthly basis, investments, investment income and expenses are allocated to the Plan in accordance with its specific interest in the Master Trust. Investment fees are charged against the earnings of the funds and portfolios.

The Plan's interest in the investments in the Master Trust is reported as "Plan interest in Verizon Master Savings Trust" in the Statements of Net Assets Available for Benefits. The related investment gains (losses) are reported within "Net increase in Plan's interest in Verizon Master Savings Trust" in the Statement of Changes in Net Assets Available for Benefits.

Cash receipts and payments derived from investment trades involving foreign currency denominated investments are translated into U.S. dollars at the prevailing exchange rate on the respective transaction date. Net realized gains and losses on foreign currency transactions, upon disposition of foreign currency denominated investments, arise as a result of fluctuations in foreign exchange rates between the trade and settlement dates and the difference between the amount of net investment income accrued and the U.S. dollar amount actually received.

The foreign exchange effect on foreign currency denominated investments is not segregated from the impact of changes in market prices in the Statement of Changes in Net Assets Available for Benefits.

The following table presents the net assets of the Master Trust and the Plan's interest in the Master Trust as of December 31, 2024 and 2023 (in thousands), respectively:

The total Master Trust's net appreciation was \$4.2 billion for the year ended December 31, 2024. Interest and dividend income for the Master Trust was \$672.2 million for the year ended December 31, 2024.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 – Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specific (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for the investments measured at fair value:

Cash and cash equivalents include short-term investment funds, primarily in diversified portfolios of investment grade money market instruments, and are valued using quoted market prices or other valuation methods. The carrying value of cash equivalents approximates fair value due to the short-term nature of these investments.

Investments in securities traded on national and foreign securities exchanges are valued by the custodian at the last reported sale prices on the last business day of the year or, if no sales were reported on that date, at the last reported bid prices.

Government obligations, corporate bonds, international bonds and asset-backed securities are valued using matrix prices with input from independent third-party valuation sources. Over-the-counter securities are valued at the bid and ask prices or the average of the bid and ask prices on the last business day of the year from published sources or, if not available, from other sources considered reliable such as multiple broker quotes.

Commingled funds not traded on national exchanges are valued by the custodian or fund administrator at their NAV. Commingled funds held by third-party custodians appointed by the fund managers provide the fund managers with a NAV. The fund managers have the responsibility for providing this information to the custodian of the respective plan. Commingled funds for which fair value is measured using the NAV per share as a practical expedient are not leveled within the fair value hierarchy and are included as a component of the total investments in the Master Trust.

The accounting records of the Master Trust is maintained in U.S. dollars. Foreign currency denominated assets and liabilities are translated into U.S. dollars at the prevailing rates of exchange at the end of each accounting period, with the impact of fluctuations in foreign exchange rates reflected as an unrealized gain or loss in the fair value of the investments.

The following table sets forth by level, within the fair value hierarchy, the Master Trust's assets measured at fair value as of December 31, 2024 (in thousands):

6. Derivatives

In the normal course of operations, the Master Trust's investments may include derivative financial instruments. Derivatives are synthetic instruments used to get various market exposures with limited margin requirements and therefore with leverage risk involved. The notional amounts disclosed in this footnote provide a measure of the Master Trust's involvement in such instruments but are not indicative of potential loss. The intent is to use derivative financial instruments to gain market exposure or as economic hedges to manage various risks associated with the Master Trust's investments or to express investment managers' views of future market movements efficiently.

At December 31, 2024 and 2023, the Master Trust utilized futures, swaps, options, and foreign currency forward contracts to manage risks such as price risk, interest rate risk and foreign currency exchange rate risk. At December 31, 2024 and 2023, the gross notional value of the derivative instruments was \$4.0 billion and \$3.5 billion, respectively. At December 31, 2024 and 2023, the fair value of the derivative assets was \$37.8 million and \$48.7 million, respectively. At December 31, 2024 and 2023, the fair value of derivative liabilities was \$9.4 million and \$37.2 million, respectively. The total gains for the year ended December 31, 2024 was \$16.0 million.

7. Securities Lending

The Master Trust maintains Securities Lending Agreements (the "Agreements") with the custodian, BNY Mellon ("Custodian"). The Agreements permit the Custodian to loan certain domestic and international securities held by the Master Trust to borrowing counterparties who provide collateral for the loans. There is generally no stated repayment term for such loans and either party can terminate the loans at any time. Upon loan termination, the loan securities are returned to the Master Trust and the collateral is paid back to the borrowing counterparty.

Risk of credit loss from securities lending is mitigated by obtaining sufficient collateral, transacting only with borrowing counterparties of high credit quality and being indemnified against borrowing counterparty default by the Custodian. During the years ended December 31, 2024 and 2023, the Master Trust did not experience any losses arising from securities lending transactions.

The securities on loan may be sold at the Master Trust's discretion, in which case the Custodian will reallocate or recall positions in order to satisfy sale delivery. Securities on loan may not be re-pledged by the Master Trust.

Securities on loan continue to be recorded as assets in the Master Trust. The Master Trust recognizes loan collateral, held in separate accounts managed by the Custodian, as an asset and also recognizes an equal and offsetting liability, representing their obligation to return the collateral upon termination of the loan. The collateral and offsetting liability are not reflected in the Master Trust listing of investments. Loan collateral can be in the form of cash equivalents or non-cash assets. Collateral in cash equivalents can be invested and reinvested in approved investments by the Custodian according to guidelines set forth in the Agreements. Non-cash collateral is held in the form received and not subject to investing activities by the Custodian. Collateral received is not sold or pledged as loaned securities. Investment gains are shared amongst the Master Trust, Custodian and borrowing counterparties based on an agreed allocation. Investment losses, if any, arising from such investing activities are borne by the Master Trust.

The required collateral ranges from an amount equal to or greater than 102% to 106% of the fair value of the securities loaned for U.S. and non-U.S. securities, respectively. Additional collateral is required if the fair value of the borrowed securities increase.

The Master Trust's fees earned from these Agreements amounted to approximately \$3.5 million for the year ended December 31, 2024. These earnings are included in the total investment income of the Master Trust.

Total securities on loan were approximately \$944.5 million and \$838.8 million as of December 31, 2024 and 2023, respectively. Total collateral assets and liabilities to repay borrowing counterparties were each approximately \$972.2 million and \$860.9 million as of December 31, 2024 and 2023, respectively. The percentage of collateral was approximately 103% of the fair value of securities on loan as of December 31, 2024 and 2023. As of December 31, 2024 and 2023, total fair value of collateral included cash equivalents of \$595.6 million and \$636.6 million, of which \$87.6 million and \$92.4 million, respectively, represents the Plan's estimated allocated interest. Cash equivalents collateral is generally held in U.S. and foreign currency denominations and non-cash collateral is generally held in U.S. and international fixed income securities. Cash equivalents collateral assets are classified as Level 2 fair value measurements.

8. Fully Benefit-Responsive Investment Contracts

The Master Trust holds a portfolio of synthetic investment contracts that meet the criteria of a FBRIC. The underlying investments of the FBRICs are included in the Master Trust's assets at contract value, which as reported by the insurance companies and banks, was approximately \$638.5 million and \$652.8 million at December 31, 2024 and 2023, respectively.

The Plan's share of the total contract value of the FBRICs was approximately \$386.0 million and \$395.0 million at December 31, 2024 and 2023, respectively, which is reflected in the Statements of Net Assets Available for Benefits. The contract value is the relevant measurement of the FBRICs because it represents the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The contract value of the investment contracts represents contributions plus earnings, less participant withdrawals and administrative expenses.

The synthetic investment contracts held by the Master Trust include wrapper contracts that provide a guarantee that the credit rate will not fall below zero percent. The wrap contracts are held with insurance companies and banks. In

a typical wrap contract, the wrap issuer agrees to pay the fund the difference between the contract value and the fair value of the covered assets once the fair value has been totally exhausted. Though relatively unlikely, this could happen if the fund experiences significant redemptions during a time when the fair value of the fund's covered assets is below their contract value and fair value is ultimately reduced to zero. As of December 31, 2024 and 2023, Standard & Poor's rated the issuers of these contracts and the contracts underlying the securities from AA- to A+.

Certain events limit the ability of the Plan to transact at contract value with the issuer. These events include the following: (1) substantive modification of the Plan, including complete or partial plan termination or merger with another plan; (2) any change in law, regulation, or administrative ruling that could have a material adverse effect on the fund's cash flow; (3) the Plan's failure to qualify under section 401(k) of the Internal Revenue Code (the "IRC"); (4) bankruptcy of the Plan Sponsor or other Plan Sponsor events which cause a significant withdrawal from the Plan; and (5) defaults in the debt securities that comprise the covered assets in excess of certain limits. The Plan administrator does not believe the occurrence of any such event is probable at this time.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Such events may include the following: (1) an uncured violation of the Plan's investment guidelines; (2) a breach of material obligation under the contract; (3) a material misrepresentation; and (4) a material amendment to the agreements without the consent of the issuer.

9. Related-Party Transactions

VIMCO, an indirect, wholly-owned subsidiary of Verizon, is the investment advisor for certain investment funds and, therefore, qualifies as a party-in-interest. VIMCO received no compensation from the Plan other than reimbursement of certain expenses directly attributable to its investment advisory and investment management services rendered to the Plan. In addition, certain investments held by the Master Trust are managed by BNY Mellon, as Custodian, and Fidelity, as trustee and record keeper. Therefore, these investments qualify as parties-in-interest transactions. The Plan also allows an investment, through a unitized fund, in Verizon common stock, which is a party-in-interest transaction. All of these transactions are exempt from the prohibited transaction rules.

10. Income Tax Status

The IRS has determined and informed the Plan Sponsor by a letter dated April 21, 2015 that the Plan and related trust is designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax exempt.

U.S. GAAP requires the Plan's management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024, there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2021.

11. Risks and Uncertainties

The Plan provides investment options for participants who can invest in combinations of stocks, fixed income securities, and other investment securities. Investment securities are exposed to various risks, such as interest rate, market, equity price, and credit risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in these financial statements.
