Independent Auditor's Report

Finance Committee and Plan Administrator
Columbus Regional Healthcare System Employees' Pension Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of the Columbus Regional Healthcare System Employees' Pension Plan (the "Plan"), an employee benefit plan subject to the *Employee Retirement Income Security Act of 1974* (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of September 30, 2024 and 2023, and the related statement of changes in net assets available for benefits for the years then ended and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's Financial Statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended September 30, 2024 and 2023, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that these financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedules Required by ERISA

The supplemental schedules listed in the table of contents are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Columbus Regional Healthcare System Employees' Pension Plan
Notes to Financial Statements
September 30, 2024 and 2023

Note 1. Description of Plan

The following description of the Columbus Regional Healthcare System Employees' Pension Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory defined benefit pension plan sponsored by Columbus Regional Healthcare System (the "Company") which provides a "cash balance" benefit to participants. The Finance Committee of the Company controls and manages the operation and administration of the Plan. State Street Bank and Trust Company ("State Street") serves as the trustee of the Plan. Together with the Finance Committee, State Street manages the Plan's investments. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* ("ERISA"). The Plan was frozen on September 30, 2013 and there were no new entrants to the Plan after that date. Effective October 31, 2013 the Plan was amended to permanently suspend benefit accruals; therefore, employees' benefits will not be increased for any pay earned after October 31, 2013. However, employees will be credited with service and pay up to October 31, 2013 and will continue to accrue years of service for purposes of qualifying for vesting, early retirement, and normal retirement.

Pension Benefits and Vesting

The Plan was amended and restated effective October 1, 2009, to be a cash balance plan. Under the cash balance formula, an account balance is the sum of the initial account balance, if any, and interest credits as of the date of the account balance. An initial account balance was established for all cash balance plan participants as of October 1, 2009, and was based on final average salary and accrual service as of September 30, 2009.

Interest credit is determined by multiplying the beginning of year account balance by the applicable interest rate published in October of the previous year by the Internal Revenue Service ("IRS"). That rate is an average of the 10-year Treasury rates during the previous August but shall not be less than 3%. As a pension plan is subject to Internal Revenue Code Section 412, participants receive their accrued vested benefits in the form of a lump sum payment, Life Annuity, or a Qualified Joint and Survivor Annuity depending on traditional or cash balance participant. Under the terms of the Plan, a Qualified Joint and Survivor Annuity is a joint and 100% survivor annuity.

Participants become fully vested in the Plan upon attaining normal retirement age or a participant's early retirement date, death, total disability, or upon the completion of five years of vesting service. Normal retirement age is defined as the older of age 65 or the age of the participant on the date five years after the first day of the Plan year in which their Plan entry date occurred. A participant's early retirement date is the first day of the month on which the participant ceases to be an employee and has attained age 55 and completed 10 years of vesting service.

Death (and Disability) Benefits

If a vested employee dies at age 55 or older, a death benefit equal to the value of the employee's accumulated pension benefits is paid to the employee's beneficiary. Vested employees who become totally disabled receive annual disability benefits that are equal to the normal retirement benefits they have accumulated as of the time they become disabled. Disability benefits are paid until normal retirement age at which time disabled participants begin receiving normal retirement benefits computed as though they had been employed to normal retirement age with their annual compensation remaining the same as at the time they became disabled.

Note 2. Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and the actuarial present value of accumulated plan benefits and changes therein at the date of the financial statements. Accordingly, actual results could differ from those estimates and assumptions.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefit Payments

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

The Plan's expenses are paid by the Company as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements.

Subsequent Events

The Plan has evaluated subsequent events through June 26, 2025, the date the financial statements were available to be issued.

Note 3. Funding Policy

Contributions to provide benefits under the Plan are made solely by the Company. The Company's funding policy is to make cash contributions to the Plan in amounts as determined by the Plan's independent actuary. During the years ended September 30, 2024 and 2023, no minimum funding contributions were required or made to meet the minimum funding requirements of ERISA.

Although it has not expressed any intentions to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Note 4. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to service rendered by employees as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (1) retired or terminated employees or their beneficiaries, (2) beneficiaries of employees who have died, and (3) present employees or their beneficiaries. The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The effect of plan amendments on accumulated plan benefits is recognized during the year in which such amendments become effective.

The actuarial present value of accumulated plan benefits as of September 30, 2024 and 2023 is as follows:

	<u>2024</u>	<u>2023</u>
Vested benefits:		
Participants and/or beneficiaries currently receiving benefits	\$ 10,800,288	\$ 10,268,101
Other participants	9,991,504	10,091,757
Total vested benefits	<u>20,791,792</u>	<u>20,359,858</u>
Nonvested benefits	<u>142,102</u>	<u>155,000</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 20,933,894</u>	<u>\$ 20,514,858</u>

The changes in the actuarial present value of the Plan's accumulated plan benefits for the years ended September 30, 2024 and 2023 are as follows:

	<u>2024</u>	<u>2023</u>
Actuarial present value of accumulated plan benefits – beginning of year	\$ 20,514,858	\$ 20,680,564
Changes during the year attributable to:		
Benefits accumulated and losses	274,928	(65,254)
Benefits paid	(1,340,710)	(1,399,908)
Changes in actuarial assumptions	194,239	-
Increase for interest due to the decrease in the discount period	<u>1,290,579</u>	<u>1,299,456</u>
Actuarial present value of accumulated plan benefits – end of year	<u>\$ 20,933,894</u>	<u>\$ 20,514,858</u>

The significant actuarial assumptions used in the valuations as of October 1, 2024 and 2023 were:

- Mortality – the PRI-2012 Employee Tables with the Retiree and Contingent Survivor Tables for annuitants projected forward with Scale MP-2021 (previously, projected forward with Scale MP-2020).
- Retirement age – average retirement age of 65 in 2024 and 2023.
- Investment return – 6.50% per annum in 2024 and 2023.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Note 5. Unaudited Investment Information Certified By The Trustee

The accompanying financial statements and supplemental schedules include the following unaudited information as of September 30, 2024 and 2023, and for the years then ended, that was obtained from data prepared and certified to be complete and accurate by the Plan's trustee:

	<u>2024</u>	<u>2023</u>
Investments at fair value	\$ 28,909,794	\$ 23,811,826
Net appreciation in fair value of investments	\$ 5,730,588	\$ 2,590,318
Interest and dividends	\$ 708,090	\$ 708,643

The certification mentioned above includes all investment information discussed Note 6.

Note 6. Fair Value Measurements

Fair value as defined under GAAP is an exit price, representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include:

- Level 1** – Observable inputs such as quoted prices in active markets.
- Level 2** – Inputs other than quoted prices in active markets that are either directly or indirectly observable.
- Level 3** – Unobservable inputs about which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at September 30, 2024 and 2023.

When quoted prices are available in active markets for identical instruments, investment securities are classified within Level 1 of the fair value hierarchy. Level 1 investments include mutual funds.

Mutual Funds

Mutual funds are classified within Level 1 of the fair value hierarchy because they are valued using quoted market prices in active markets, which represent the net asset value of shares at year end.

Columbus Regional Healthcare System Employees' Pension Plan
Notes to Financial Statements
September 30, 2024 and 2023

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of September 30, 2024 and 2023:

	Fair Value as of September 30, 2024			Fair Value
	Level 1	Level 2	Level 3	
Mutual funds	\$ 28,909,794	\$ -	\$ -	\$ 28,909,794
Total assets	\$ 28,909,794	\$ -	\$ -	\$ 28,909,794

	Fair Value as of September 30, 2023			Fair Value
	Level 1	Level 2	Level 3	
Mutual funds	\$ 23,811,826	\$ -	\$ -	\$ 23,811,826
Total assets	\$ 23,811,826	\$ -	\$ -	\$ 23,811,826

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 7. Exempt Party-In-Interest Transactions

Plan investments are managed by State Street Bank and Trust Company, the trustee. State Street is the trustee as defined by the Plan, and, therefore, these transactions qualify as exempt party-in-interest transactions.

Note 8. Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated July 22, 2016, that the Plan and related trust were designed in accordance with the applicable regulations of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter; however, the Company and plan management believe that the Plan is currently designed and operated in compliance with the applicable requirements of the Internal Revenue Code and the Plan and related trust continue to be tax-exempt.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of September 30, 2024 and 2023, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9. Plan Termination

In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder, and the plan document in the order indicated:

- a. Benefits attributable to employee contributions, taking into account those paid out before termination
- b. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination
- c. Other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC") (a U.S. government agency) up to the applicable limitations discussed below
- d. All other vested benefits (that is, vested benefits not insured by the PBGC)
- e. All nonvested benefits

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal-age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

Note 10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

A ACTUARIAL COST METHOD

The actuarial cost method used to determine the target normal cost, target liability and required contribution amounts for the plan is the Traditional Unit Credit Actuarial Cost Method. Under this method, both the target normal cost and target liability are based on the annual accrual of benefits as accruals occur each year.

The target liability for each active plan participant is equal to the actuarial present value of the participant's accrued benefit as of the valuation date. The total target liability of the plan is equal to the sum of such liabilities as determined for each active participant plus the actuarial present value of benefits being paid, or due to be paid, to retirees, beneficiaries and former participants with deferred vested benefits.

The target normal cost for each active participant is equal to the actuarial present value of the benefit expected to be earned during the year starting on the valuation date. The total target normal cost of the plan is the sum of the target normal costs for each active plan participant.

All employees who are plan participants on a valuation date are included in the actuarial valuation.

B ASSET VALUATION METHOD

The actuarial value of assets is equal to the market value of assets on the valuation date reduced by the sum of:

1. 66.67% of gains and losses of the prior year;
2. 33.33% of gains and losses of the second prior year.

Investment gains and losses are determined by the excess or deficiency of the expected return over the actual return on the market value (including employer contributions receivable for any given year. However, the expected return on assets may be limited by certain statutory interest rates.

The actuarial valuation of assets is further constrained to be not less than 90% or more than 110% of market value (including employer contributions receivable).

<u>Plan Status</u>	Frozen Plan.
<u>Effective Date</u>	August 1, 1969, as amended and restated October 1, 2010. Further amended effective September 30, 2013.
<u>Plan Year</u>	The twelve-month period ending September 30.
<u>Participation Date</u>	October 1 or April 1 coincident with or following age 21 and completion of one year of service. No new participants will enter the Plan after September 30, 2013.
<u>Vesting Service</u>	One year of service is earned for each Plan Year in which an employee completes 1,000 hours.
<u>Benefit Service</u>	One year of service is earned for each Plan Year in which an employee completes 1,000 hours. Years of Service shall not be credited under the Plan for accrual purposes after October 31, 2013.
<u>Compensation</u>	Total compensation for the prior Plan Year, including Section 125, 401(k), 403(b), or 408(k) employee deferrals, but excluding any special forms of compensation.
<u>Final Average Earnings</u>	The average of the highest five consecutive Plan Years of pensionable pay out of the last 10 Plan Years prior to September 30, 2009. Effective October 1, 2009, benefits and contributions computed under the Cash Balance formula are based on each Plan Year's actual compensation.
<u>Normal Retirement Date</u>	First of month coinciding with or next following the later of attainment of age 65 and five years of participation.
<u>Normal Retirement Benefit</u>	Effective September 30, 2009, the total Normal Retirement Benefit is the sum of the Traditional Retirement Benefit accrued as of September 30, 2009, and the Retirement Growth Account for service beginning October 1, 2009.

Normal Retirement Benefit (cont'd)

Traditional Benefit

For Service Prior to August 1, 1992, 1.0% of Final Average Earnings multiplied by Years of Benefit Service prior to August 1, 1992, plus 0.75% of Final Average Earnings multiplied by Years of Benefit Service after August 1, 1992, plus 0.65% of Final Average Earnings in excess of covered compensation multiplied by Benefit Service after August 1, 1992 (maximum 35 years).

Covered compensation is the average of Social Security Taxable Wage Base for the 35-year period ending at the Participant's Social Security Retirement Age.

Service and Final Average Compensation after September 30, 2009 are excluded.

*Retirement Growth Account
(Cash Balance)*

The Account Balance for each Participant consists of the following:

Contribution Credits

A Participant's Retirement Growth Account will be credited each Plan Year (beginning with the October 1, 2009 Plan Year) with a contribution credit equal to a percentage of the Participant's Retirement Growth Compensation for the portion of the Plan Year during which he or she worked at least 1,000 hours, such percentage to be determined pursuant to the Pay Credit Percentage. Contribution credits will be credited as of the last day of the Plan Year.

The Pay Credit Percentage is determined by the following chart, based on the sum of the Participant's whole years of attained age and whole years of vesting service, both as of the beginning of the Plan Year:

<u>Age Plus Years of Vesting Service</u>	<u>Pay Credit Percentage</u>
Less than 35	2%
At least 35 but less than 45	2.5%
At least 45 but less than 55	3%
At least 55 but less than 65	3.5%
At least 65 but less than 75	4%
75 or greater	5%

**Attachment to 2023 Form 5500 Schedule SB,
Part V – Summary of Plan Provisions**

**Plan Name: Columbus Regional Healthcare System Employees' Pension Plan
EIN/PN: 56-0538020/001**

Normal Retirement Benefit (cont'd)

Contribution Credits (cont'd)

The Pay Credit Percentage for a Participant who is at least age fifty and has been credited with at least ten years of Vesting Service as of September 30, 2009 will be determined pursuant to the above chart, plus an additional one percent.

The Pay Credit Percentage for a Participant who is at least age fifty-five and has been credited with at least fifteen years of Vesting Service as of September 30, 2009 will be determined pursuant to the above chart, plus an additional two percent.

The Plan was frozen effective October 31, 2013, and no Participant can accrue additional Contribution Credits after that date.

Interest Credits

A Participant's Retirement Growth Account will be credited each Plan Year with an interest credit equal to the product of the applicable Interest Crediting Rate and the balance of the Participant's Retirement Growth Account as of the last day of the prior Plan Year. Interest credits will be credited as of the last day of the Plan Year.

Interest Crediting Rate is equal to the average Treasury yield on 10-year constant maturity for the month of August prior to the beginning of the Plan Year, but not less than 3%.

Early Retirement

Age 55 with at least 15 years of Vesting Service.

Early Retirement Benefit

The Participant's Traditional Accrued Benefit as of September 30, 2009, reduced by 1/180 for each of the first 60 months, and 1/360 for each of the next 60 months by which the benefit commences prior to Normal Retirement Date, plus the actuarial equivalent of the Retirement Growth Account.

Late Retirement

The greater of continued accruals, or the Normal Retirement Date benefit actuarially increased to the date of late retirement.

Vesting

Participants are 100% vested upon attainment of 3 years of Vesting Service or Normal Retirement Age.

Prior to October 1, 2009, Participants were 100% vested upon attainment of 5 years of Vesting Service.

**Attachment to 2023 Form 5500 Schedule SB,
Part V – Summary of Plan Provisions**

**Plan Name: Columbus Regional Healthcare System Employees' Pension Plan
EIN/PN: 56-0538020/001**

Employee Contributions

Employee contributions were mandatory prior to August 1, 1992. As of August 1, 1992, employee contributions are neither required nor permitted. Employees may elect to receive a refund of employee contributions with interest upon termination of employment.

Disability Retirement

Monthly pension benefit determined as of termination date, reduced under the same conditions as early retirement, except that it may commence prior to age 55, and there is no service requirement.

Preretirement Death Benefit

The surviving spouse becomes eligible upon the death of an employee or former vested employee.

The surviving spouse will receive the benefit that would have been paid if the employee or former employee had retired on the day prior to his death and had elected a 50% Joint & Survivor option. Benefits to surviving spouses of employees or former employees who have died prior to age 55 will be deferred to the date the decedent would have turned age 55. The spouse can delay commencement of payments, but not beyond the date the Participant would have reached age 70 ½.

The surviving spouse may elect to receive the portion of the benefit attributable to the Cash Balance Account in the form of a lump sum.

Under no circumstances will a spouse receive less than the amount of a participant's employee contributions with interest.

If an unmarried participant dies with a vested benefit, no death benefit is payable with the exception of a return on any contributions made to the plan prior to August 1, 1992 plus interest to the date of death.

Part V – Summary of Plan Provisions**

**Plan Name: Columbus Regional Healthcare System Employees' Pension Plan
EIN/PN: 56-0538020/001**

Forms of Payment

The normal form of payment is a Single Life annuity. Optional forms are a 100%, 75%, or 50% joint and survivor annuity, ten-, fifteen-, or twenty-year certain and life annuities.

The lump sum form of payment is available if the present value of the participant's total accrued benefit is less than \$10,000. If the lump sum exceeds \$5,000 spousal consent is required. Alternatively, if the present value is greater than \$10,000, the participant may still elect to take a portion of their benefit equal to either the present value of the Accrued Benefit as of July 31, 1992, or the portion of the benefit equal to their Cash Balance in the form of a lump sum.

Actuarial equivalence for non-lump sum forms of payment and for late retirement is 83 GAM male mortality table and 8% interest (for early retirement adjustments prior to age 55 for disability benefits, 5% interest is used). For lump sums or cash balance conversions, actuarial equivalence is based on the applicable mortality table and interest rates in accordance with Code Section 417(e).
