Independent Auditor's Report

To the Plan Administrator and Those Charged with Governance of
Ennis Electric Company, Inc.
Employee Stock Ownership Plan and Trust
Manassas, Virginia

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Ennis Electric Company, Inc. Employee Stock Ownership Plan and Trust (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Ennis Electric Company, Inc. Employee Stock Ownership Plan and Trust's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023 and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 10 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Ennis Electric Company, Inc. Employee Stock Ownership Plan and Trust and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion on the financial statements.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Ennis Electric Company, Inc. Employee Stock Ownership Plan and Trust's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Ennis Electric Company, Inc. Employee Stock Ownership Plan and Trust’s internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Ennis Electric Company, Inc. Employee Stock Ownership Plan and Trust’s ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

The supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2024 and Schedule H, Line 4a – Schedule of Reportable Transactions for the year ended December 31, 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental

schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Ennis Electric Company, Inc. Employee Stock Ownership Plan and Trust

Notes to Financial Statements

December 31, 2024

Note 1 – Plan Description

The following description of Ennis Electric Company, Inc. Employee Stock Ownership Plan and Trust (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General

The Plan is designed to comply with Section 4975(e)(7) and the regulations thereunder of the *Internal Revenue Code* of 1986 (*IRC*), as amended and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (*ERISA*), as amended. The Plan is administered by the Board of Trustees, as appointed by the Company’s Board of Directors, who hold and invest the Trust assets. The Plan’s third-party recordkeeper and ERISA compliance service provider is Principal Financial Group.

The Plan has purchased Ennis Electric Company, Inc. (the “Company”) stock utilizing Company contributions and proceeds from a note payable to the Company (see Note 5). The stock is held in a trust established under the Plan. The Company has no rights against shares once they are allocated under the ESOP. Accordingly, the financial statements of the Plan present separately the assets and liabilities pertaining to:

- The accounts of employees with vested rights in allocated stock (Allocated)
- Stock not yet allocated to employees (Unallocated).

Employees of the Company are generally eligible to become participants in the Plan upon the completion of one year of service in which they work 1,000 hours during the Plan year and have attained 21 years of age. Eligible employees become participants of the Plan on the January 1 or July 1 entry date following the date on which the eligibility requirements are met.

Employer Contributions

Each year, the Company may make cash or stock contributions to the Plan as determined by the Board of Directors. The Company is obligated to make contributions in cash to the Plan which equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its note payable. During 2024, the Company made cash contributions of \$481,939 to satisfy the Plan’s required principal and interest payments.

Participant Accounts

Each participant’s account reflects their portion of the Company’s contributions and allocations of shares of Company stock, income or loss from Plan investments and forfeitures, and charged with benefit payments and an allocation of administrative expenses. Allocations are based on a combination of years of service, compensation, account balances, or Company stock shares, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Vesting

Vesting in a participant's account is based on years of service, as defined in the Plan document. Participants become vested at a rate of 20% per year beginning with the second year of service with full vesting occurring upon completion of six years of service. Participants become fully vested upon retirement, death, or disability.

Payment of Benefits

Accounts of former participants shall be segregated from the accounts of other participants. This segregation will occur after the allocation of employer contributions for a Plan year in which a former participant terminates employment, and only to the extent cash subaccounts of participants contain cash or other liquid assets for such Plan year, and only after the payment of any Plan administrative expenses. Participants are allowed to take distributions immediately upon their accounts becoming 100% segregated.

At a participant's retirement, disability, or death, distribution of his or her vested account balance begins no later than the end of the Plan year following the event. Distributions for participants who terminate employment due to disability, death, or normal retirement and whose account balance has been fully segregated and converted to cash will be made in a single lump-sum payment. If the participant's account balance has not been fully segregated and converted to cash, distributions shall be made in five or more equal installments, as stated in the Plan's distribution policy.

Distributions for participants who terminate for reasons other than death, disability, or retirement and whose account balance has been fully segregated and converted to cash, will be made in a single lump-sum payment. If the participant's account balance has not been fully segregated and converted to cash, distributions shall commence one year after the close of the 5th Plan year following termination or after the end of the Plan year in which the former participant attains normal retirement age. If the participant's balance is \$7,000 or less, the distribution will be made as a lump-sum at the end of the Plan year following their termination. If their balance is over \$7,000, then it will be paid in five or more equal installments if the participant elects, as stated in the Plan's distribution policy.

Account balances of \$7,000 or less do not require consent of the participant and may be paid in cash or rolled over to an eligible individual retirement account in accordance with the Plan's distribution policy.

Each installment is the participant's vested balance of cash, noncompany investments, and the current fair market value of Company stock at the end of the Plan year prior to the date of payment divided by the remaining number of installments. Distributions are paid in cash or shares of common stock.

Under the provisions of the Plan, the Company is obligated to repurchase participant shares, which have been distributed under the terms of the Plan if the shares are not publicly traded or if the shares are subject to trading limitations. The Company did not repurchase any shares from participants during 2024.

Administrative Expenses

Plan administrative expenses are paid by either the Plan or the Company, as provided in the Plan document.

December 31, 2024

Voting Rights

Participants can only vote on those matters required by ERISA, otherwise the Trustee votes in their best interest. The Trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of Plan participants and beneficiaries.

Put Option

Under Federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market or is subject to trading limitations includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who have attained age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage increases to 50%. Participants who elect to diversify shall receive a cash distribution or be made as a transfer to the Company's 401(k) Plan or rollover into an IRA. As of December 31, 2024, participants diversified their account balance for a total of \$103,062. Diversified account balances of \$25,875 were transferred to the 401(k) Plan during 2024.

Forfeitures

Forfeited non-vested accounts will be reallocated to eligible participants based on years of service and compensation. During 2024, cash of \$13,348 was reallocated to eligible participants. No shares were reallocated to participants. There were no unallocated forfeited amounts at December 31, 2024 and 2023.

Note 2 – Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America (GAAP).

Ennis Electric Company, Inc.

Employee Stock Ownership Plan and Trust

Notes to Financial Statements

December 31, 2024

Estimates

The preparation of financial statements in conformity with GAAP requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Valuation of Investments

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on the trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Benefit Payments

Benefit payments are recorded when paid.

Subsequent Events

Subsequent events were evaluated through June 20, 2025, the date the financial statements were available to be issued.

Note 3 – Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with those of other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority; Level 2 inputs consist of observable inputs other than quoted prices for identical assets; and Level 3 inputs consist of unobservable inputs and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were used only when Level 1 or Level 2 inputs were not available.

Notes to Financial Statements

December 31, 2024

The Plan holds investments in the Principal Liquid Assets Separate Account at December 31, 2024 and 2023. The investments seek a high level of current income as are considered consistent with preservation of principal and maintenance of liquidity. They invest in a portfolio of high quality, short-term money market instruments. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the Plan will sell the investments for an amount different from the reported net asset value. Transactions (purchases and sales) may occur daily.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

Investment at fair value	\$ 16,838,081	\$ 909,722	\$ 13,880,925

^(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Level 1 Fair Value Measurements

The fair value of mutual funds are based on quoted net asset values of the shares held by the Plan at year end.

Level 3 Fair Value Measurements

The fair value of the Ennis Electric Company, Inc. Common Stock is determined by independent appraisal. This appraisal was based upon an income valuation technique consistent with prior years. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparable, and fair value of the Company

assets and liabilities, as well as applying a discount for the lack of marketability for non-publicly traded stock. Significant changes to these inputs could have resulted in significantly higher or lower fair value measurement for the Company stock. The following table provides further details of this Level 3 fair value measurement.

Fair Value Measurements Using Significant Unobservable Inputs (Level 3)

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net appreciation in fair value of investments in the statement of changes in net assets available for benefits.

The Plan's policy is to recognize transfers into and out of Level 3 as of the date of the event or change in circumstances that caused the transfer. For the year ended December 31, 2024, there were no significant transfers into or out of Level 3.

Investments Measured Using the NAV per Share Practical Expedient

The following table, which includes the Principal Liquid Assets Separate Account, summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2024 and 2023. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

Note 4 – Investment in Company Common Stock

In June 2012, the independent trustee of the ESOP purchased 185,186 shares of common stock from one of the Company's stockholders. The purchased shares were financed with a note payable from the ESOP to the selling stockholder for \$6,000,026, which has been paid in full.

Ennis Electric Company, Inc.
Employee Stock Ownership Plan and Trust

Notes to Financial Statements

December 31, 2024

In January 2017, the Company repurchased 197,314 shares of common stock from one of the Company's stockholders in exchange for a note payable. The Company then sold the acquired shares to the ESOP for \$6,116,734 in exchange for a note receivable.

Information about the Plan's investment in Company common stock at December 31 is as follows:

	2024		2023	
	Allocated	Unallocated	Allocated	Unallocated
Number of shares	287,132	95,368	273,977	108,523

Fair value	\$ 11,106,249	\$ 3,688,851	\$ 9,942,636	\$ 3,938,289

Note 5 – Loan Payable

The Plan entered into a \$6,116,734 term loan agreement with the Company. The proceeds were used to purchase 197,314 shares of the Company's stock. The loan is being repaid beginning April 4, 2017, with sixty quarterly payments of \$120,485 of principal and interest. Interest is accrued at 2.26% per annum. Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, times the ratio of current year payments divided by the total of this year's payments, plus all future years' principal and interest payments. During the Plan year ended December 31, 2024, loan repayments resulted in 13,154 shares being released and allocated.

Estimated aggregate maturities required on principal as required under the agreement for each of the succeeding five years are as follows:

Year Ending	
2025	\$ 412,774
2026	422,182

Notes to Financial Statements

December 31, 2024

During 2024, the Plan received S Corporation dividends from the Company of \$2,323,302, of which \$1,664,136 related to allocated shares and \$659,166 related to unallocated shares.

Note 7 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 8 – Tax Status

The Internal Revenue Service has determined and informed the Company by letter dated April 9, 2015, that the Plan and related trust are designed in accordance with applicable sections of the *IRC*. The Plan has been amended since receiving the determination letter; however, the Plan Administrator believes that the Plan is designed and currently being operated in compliance with the applicable requirements of the *IRC*.

GAAP requires plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements.

Note 9 – Risks and Uncertainties

The Plan invests in the Company's common stock. There are certain business risks with the industry in which the Company operates; therefore, it is at least reasonably possible that changes in the fair value of the Company's common stock may occur in the near-term and that such changes could materially affect participant's account balances and the amounts reported in the statements of net assets available for benefits.
