Independent Auditor's Report

To the Trustees
Chesapeake Financial Shares, Inc. Employee Stock Ownership Plan
Kilmarnock, Virginia

Opinion

We have audited the financial statements of Chesapeake Financial Shares, Inc. Employee Stock Ownership Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's (DOL's) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Supplemental Schedule Required by ERISA, Continued

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Chesapeake Financial Shares, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2024 and 2023

Note 1. Description of the Plan

The following description of the Chesapeake Financial Shares, Inc. Employee Stock Ownership Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution employee stock ownership plan (ESOP) covering all employees of Chesapeake Financial Shares, Inc. (the "Company") and its participating subsidiaries who are age eighteen or older and have completed one year of credited service consisting of 1,000 hours. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by the ESOP Trustees appointed by the Company's Board of Directors.

Contributions:

Each year, the Company may contribute cash and/or shares of Company stock as determined by the Board of Directors. Company contributions are allocated among participants' accounts based on participants' eligible compensation, in relation to total compensation. For the year ended December 31, 2024, the Company made \$600,000 in contributions to the Plan.

Participant accounts:

Participants who are actively employed on the last day of the Plan year and have worked 1,000 hours during the Plan year are eligible to share in the allocations of any contributions made for that Plan year, as well as forfeitures of terminated participants' nonvested accounts. Participants also receive an allocation of the dividends paid to the common stock. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance, relative to total plan assets. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting:

If a participant's employment with the Company ends for any reason other than retirement, permanent disability or death, he or she will vest in the balances in his or her account based on total years of service with the Company. A participant is 100 percent vested after 6 years of vesting service, in accordance with the gradual vesting schedule.

Voting rights:

The Trustees of the Plan usually decide how shares of Company stock held by the Plan will be voted. However, with respect to certain corporate matters presented to the Company's shareholders for a vote, such as a merger, consolidation, recapitalization, liquidation, dissolution, or similar transaction, each participant will be entitled to give directions as to the voting of shares of Company stock allocated to his or her account. If the participant does not provide the Trustees with voting instructions, the shares will be voted in the manner determined by the Trustees.

Note 1. Description of the Plan, Continued

Put option:

The Company common stock that is held by the Plan and its participants and is not readily tradable on an established market or is subject to trading limitation includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market within the two put option periods. The put price is representative of the fair market value of the stock as determined by an independent valuation specialist. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash. The first put option period is at least 60 days beginning on the date of distribution. The second put option period is for at least 60 days beginning after the new determination of fair market value (and notice to all participants thereof) in the following Plan Year. No put options were received during 2024.

Payment of benefits:

No distributions from the Plan will be made until a participant retires, becomes permanently disabled, dies (in which case, payment shall be made to his or her beneficiary or, if none, his or her legal representatives), or otherwise terminates employment with the Company and its participating subsidiaries. Distributions are made in cash or, if a participant elects, in the form of Company common stock plus cash for any fractional share. On termination of service, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount or other installment options as provided by the Plan. All fully vested balances are available for distribution after the participant reaches the age of 55.

Forfeited accounts:

Forfeited nonvested amounts are treated as additional Company contributions and are reallocated among active participants' accounts. Allocations are based upon the relation of the participant's total eligible compensation to total eligible compensation for the Plan. Forfeitures totaling \$6,321 and 122 shares of company stock were reallocated during the year ended December 31, 2024.

Diversification:

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25 percent of his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify receive a cash distribution.

Note 2. Summary of Significant Accounting Policies and Activities

Basis of accounting:

The financial statements of the Plan are prepared on the accrual basis of accounting.

Chesapeake Financial Shares, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2024 and 2023

Note 2. Summary of Significant Accounting Policies and Activities, Continued

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition:

The Company's common stock is valued at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the Plan's valuation policies utilizing information provided by an independent appraisal. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Expenses:

The majority of expenses incurred to maintain the Plan are paid by the Company and are excluded from these financial statements.

Payment of benefits:

Benefits paid to participants are recorded when paid.

Subsequent events:

The Plan has evaluated subsequent events through June 5, 2025, the date the financial statements were available to be issued.

Recently issued accounting pronouncements:

Accounting standards that have been issues or proposed by the Financial Accounting Standards Board or other standards-setting bodies are not expected to have a material impact on the Plan's financial statements.

Note 3. Administration of Plan Assets

The Plan's assets, which consist principally of Company's common stock, are held by the Trustees of the Plan. Company contributions are held and managed by the Trustees, which invests cash received, interest, and dividend income and makes distributions to participants. Certain administrative functions are performed by officers or employees of the Company or its subsidiaries. No such officer or employee receives compensation from the Plan. Administrative expenses for the Trustees' fees are paid directly by the Company.

Note 4. Investments

The Plan's investments in Company common stock as of December 31 are presented in the following table:

	<u>2024</u>	<u>2023</u>
Sponsor Company Common Stock		
Number of shares	308,353	306,353
Cost	\$ 3,652,808	\$ 3,617,876
Fair value	\$ 8,300,863	\$ 5,918,740
Fair value per share	\$ 26.92	\$ 19.32

Note 5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Cash, interest bearing: Valued based on amortized cost or original cost plus accrued interest, which approximates fair value.

Chesapeake Financial Shares, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2024 and 2023

Note 5. Fair Value Measurements, Continued

Certificates of deposit: Valued based on amortized cost plus accrued interest, which approximates fair value.

Company common stock: Value is determined by an independent valuation specialist using unobservable inputs. Factors considered in determining the fair market value included historical and projected cash flow and net income, return on assets, return on equity, and market comparables.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's fair value measurements:

	<u>December 31, 2024</u>			
	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Cash, interest bearing	\$ -	\$ 372,453	\$ -	\$ 372,453

Changes in fair value of Level 3 assets:

The Plan acquired 2,000 shares valued at \$34,931 of Level 3 investments during the year ended December 31, 2024.

Chesapeake Financial Shares, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2024 and 2023

Note 6. Tax Status

The IRS has determined and informed the Company by a letter dated May 2, 2017, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC") and therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification.

Although the Plan has been amended since receiving the determination letter, the plan administrator and the Plan's tax counsel believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Company has taken a significant uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their Company contributions.

Note 8. Risks and Uncertainties

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks such as interest rate, market and credit risks, as well as valuation assumptions based on earnings, cash flows, and/or other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the 2024 statement of net assets available for benefits.

Note 9. Related-Party and Party in Interest Transactions

The Plan invests in Company common stock and received dividends of \$192,101 during the year ended December 31, 2024. The Plan holds interest-bearing cash of \$372,453 and \$701,586 in a Company bank account as of December 31, 2024 and 2023, respectively. The Plan holds certificates of deposit totaling \$875,892 and \$153,694 in a Company account as of December 31, 2024 and 2023, respectively. The Plan received interest income of \$27,401 during the year ended December 31, 2024 from this account. These are related-party and party in interest transactions. As described in Note 3, the Plan assets are held by the Trustees. Such parties are parties in interest under ERISA.

Note 10. Plan Amendment

Effective January 1, 2025 the Plan was amended to increase the mandatory small account force-out threshold from \$5,000 to \$7,000.
