Independent Auditor's Report

Plan Administrator and Plan Participants
United Fire Group 401(k) Plan
Cedar Rapids, IA

Opinion

We have audited the financial statements of United Fire Group 401(k) Plan (the Plan), an employee benefit plan subject to the *Employee Retirement Income Security Act of 1974* (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of United Fire Group 401(k) Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the United Fire Group 401(k) Plan's ability to continue as a going concern within one year after the date that these financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules listed in the table of contents are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTE 1. PLAN DESCRIPTION

The following description of the United Fire Group 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering regular employees of United Fire Group, Inc. and its subsidiaries (collectively, the "Company") who have at least one hour of service and have attained the age of 21. Temporary employees who have at least 1,000 hours of service and have attained the age of 21 may also participate. United Fire & Casualty Company, a subsidiary of United Fire Group, Inc., serves as the plan administrator and "Plan Sponsor." The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The effective date of the Plan is August 1, 1989. There have been various amendments to the Plan since the effective date as described in the sections below.

Plan Custodian - The Plan custodian is Principal Financial Group (the "Plan Custodian").

Contributions - Participants may contribute up to an annual dollar limitation of their eligible compensation to the Plan through salary deferral either through pre-tax 401(k) contributions, Roth 401(k) contributions, or a combination of the two. The Plan includes an automatic enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 6 percent of eligible compensation with contributions invested in the designated default fund until changed by the participant. The deferral percentage for automatically enrolled participants increases by 1 percent per year up to a maximum of 15 percent of a participant's compensation.

The Company matches 50 percent of the first 8 percent of employee contributions. The Company may also make discretionary contributions to the Plan as defined by the Board of Directors of the Plan. The Company did not make any discretionary contributions during the year ended December 31, 2024.

Participant Accounts - Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution, the Company's matching contribution, and allocations of any (a) discretionary contributions (b) Plan earnings, and (c) Plan losses. Allocations are based on participant earnings, losses, or account balances per the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants direct the investment of participant and Company matching contributions into mutual fund, common collective trust, pooled separate account, employer stock fund, fixed income fund, and self-directed retirement account investment options offered by the Plan.

Vesting - Participants' contributions and subsequent earnings and losses immediately vest. Vesting of Company matching and discretionary contributions, plus actual earnings, is based on years of credited service. A participant is 100 percent vested after 3 years of credited service for employer matching contributions and 2 years of credited service for discretionary contributions. A participant with less than the required years of credited service is not vested except in the event of the participant's death or disability while employed by the Company, at which time the participant becomes 100 percent vested.

Forfeitures - Upon termination, the non-vested portion of a participant's account balance is forfeited. Forfeitures are used first to reduce the Plan's ordinary and necessary administrative expenses for the Plan year, and then, reduce the employer contributions for the Plan year. There is an immaterial amount of forfeited account balances included in the Plan's net assets available for benefits at December 31, 2024 and 2023.

Notes Receivable from Participants - Participants may borrow a minimum of \$1 up to a maximum equal to the lesser of \$50 or 50 percent of their vested account balance. Loan terms range from one to five years, except for the

purpose of acquiring the participant's principal residence for which the term is commensurate with local prevailing terms, as determined by the Company. The loans are secured by the balance in the participant's account and bear interest at a rate determined at the time of each loan by the Plan Custodian. Principal and interest is paid ratably through semi-monthly payroll deductions.

Payment of Benefits - Upon termination of service, a participant may elect to receive either a direct rollover, a lump-sum amount equal to the value of their vested account, or installment payments over a fixed period of time not to exceed the participant's life expectancy or the joint life expectancy of the participant and the participant's designated beneficiary. Prior to separation from service, participants may elect a hardship distribution in accordance with the Plan agreement. Additionally, prior to separation from service, participants are eligible for an in-service withdrawal after they have reached the age of 59 1/2.

Administrative Expenses - The Plan's administrative expenses are paid by either the Plan or the Company, as provided by the Plan agreement. Payments made by the Plan toward administrative expenses are done so through the use of forfeitures. The Company used \$3 from participant forfeitures to pay Plan administrative expenses of \$283 for the year ended December 31, 2024.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements have been prepared on the accrual basis of accounting in accordance with generally accepted accounting principles in the United States of America ("GAAP") and the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Use of Estimates - The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and changes therein during the reporting period. Actual results could differ from those estimates.

Participant-Directed Investments - The Plan's investments are reported at fair value, with the exception of fully benefit-responsive investment contracts, which are reported at contract value. Purchases and sales of investments are recorded as of the trade date. See Note 3 Fair Value Measurements for discussion of fair value measurements and Note 6 Group Annuity Contract for discussion of benefit-responsive investment contracts.

Investment Income - Interest income is recorded as earned on the accrual basis. Dividends are recorded on the ex-dividend date. The net appreciation in fair value of investments includes the gain or loss on investments bought, sold, and held during the year, as well as, the unrealized change in fair value of investments.

Contributions - Participant contributions are made through payroll deductions and recorded in the period they are withheld from compensation. The Company's matching contribution are recorded in the year they are earned.

Distributions to Participants - Benefit payments and participant withdrawals are recorded when paid by the Plan.

Notes Receivable from Participants - Represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred.

Risks and Uncertainties - The Plan invests in various investment securities. Investments, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investments, including the Plan's investment in United Fire Group, Inc. common stock, will occur in the future and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Subsequent Events - In the preparation of the accompanying financial statements, the Plan Sponsor has evaluated all material subsequent events or transactions that occurred after December 31, 2024 through the date on which the financial statements were issued for potential recognition or disclosure in the Plan's financial statements.

NOTE 3. FAIR VALUE MEASUREMENTS

Current accounting guidance on fair value measurements includes the application of a fair value hierarchy that requires us to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The Plan's financial instruments that are recorded at fair value are categorized into a three-level hierarchy, which is based upon the priority of the inputs to the valuation technique. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets (i.e., Level 1) and the lowest priority to unobservable inputs (i.e., Level 3). Financial instruments recorded at fair value are categorized in the fair value hierarchy as follows:

- *Level 1:* Valuations are based on unadjusted quoted prices for identical financial instruments in active markets that we have the ability to access at the measurement date.
- *Level 2:* Valuations are based on quoted prices for similar financial instruments in active markets, in markets that are not active or on inputs that are observable either directly or indirectly for the full term of the financial instrument.
- *Level 3:* Valuations are based on pricing or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement of the financial instrument. Such inputs may reflect management's own assumptions about the assumptions a market participant would use in pricing the financial instrument.

If the inputs used to measure fair value fall within different levels of the hierarchy, the category level is based on the lowest priority level input that is significant to the fair value measurement of the financial instrument. Our assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the investment. We review the fair value hierarchy categorizations on an annual basis at which time the classification of certain financial instruments may change if the input observations have changed. Transfers between levels, if any, are recorded as of the beginning of the reporting period.

The following tables present the categorization of the Plan's investments measured at fair value on a recurring basis in the accompanying statements of net assets available for benefits at December 31, 2024 and 2023:

Description	December 31, 2024	Fair Value Measurements

The fair value of the majority of the Plan's investments is determined using a market-based approach with prices obtained from the Plan Custodian which prices the investments daily using independent pricing sources. The valuation technique and market inputs that our Plan Custodian normally seeks to value our securities include the following, depending on the security type: net asset value ("NAV") calculated and reported by the issuer or its agent, last trade, bids and closing price. The Plan Sponsor has determined the pricing information obtained at December 31, 2024 and 2023 was reasonable. There was no change in the valuation methodologies during the year ended December 31, 2024.

Investments in mutual funds are stated at fair value based on quoted market prices reported on recognized and active market securities exchanges on the last business day of the year, which represent the NAV of shares held by the Plan in the respective funds at the reporting date.

Investments in common collective trusts are valued at the NAV of units of the bank collective trust. NAV is a readily determinable fair value and is the basis for current transactions.

Investments in the United Fire Stock Fund are stated at fair value based on quoted market prices of United Fire Group, Inc. common stock. Included in the fund is an immaterial amount of interest-bearing cash.

Investments in the pooled separate accounts are valued using the NAV of units, as determined by the insurance company. NAV is a readily determinable fair value and is the basis for current transactions.

Investment in self-directed retirement accounts include common stocks and mutual funds, which are stated at fair value based on quoted market prices reported on recognized and active market securities exchanges on the last business day of the year.

NOTE 4. PLAN TERMINATION

Although it has not expressed any intention to do so, United Fire & Casualty Company has the right under the Plan agreement to terminate the Plan subject to the provisions set forth in ERISA. In the event of Plan termination, participants will become fully vested in their accounts, and would be entitled to receive the entire amount of their account.

NOTE 5. FEDERAL INCOME TAX STATUS

The Plan has received a determination letter from the Internal Revenue Service ("IRS") dated August 6, 2010, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the "Code") and therefore the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan has had various amendments as described in Note 1 "Plan Description." Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator believes the Plan is operating in compliance with the applicable requirements of the Code and therefore believes the Plan, as amended, is qualified and the related trust is tax-exempt for the years ended December 31, 2024 and 2023.

GAAP requires plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2024, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 6. GROUP ANNUITY CONTRACT WITH PRINCIPAL LIFE INSURANCE COMPANY

The Plan previously entered into a guaranteed investment contract ("GIC") that is a group annuity contract, backed by the assets of the general account of Principal Life Insurance Company. The GIC, the Principal Fixed Income Guarantee Option fund, is considered a fully benefit-responsive investment contract and is measured, presented and disclosed at contract value within the Statements of Net Assets Available for Benefits. Participant transactions are

executed using contract value without adjustment. The GIC issuer guarantees to pay a specified interest rate which is reset semi-annually on June 1 and December 1. The GIC's guaranteed crediting rate as of December 31, 2024 was 4.75 percent with a contract value of \$6,233. This compares with a crediting rate of 1.55 percent and a contract value of \$8,697 at December 31, 2023. The contract has a surrender charge of 5% if it is terminated by the contract holder or the Plan terminates its interest in the contract, unless there is agreed upon notice given and transfers out of the contract prior to termination of the Plan's interest do not exceed the contractual limitations. In the event of termination, contract value less surrender charges is used to determine the fair value of the contract.

This GIC is reported at contract value as it meets the fully benefit-responsive investment contract criteria. Contract value is calculated as contributions, plus earnings, less withdrawals and administrative expenses. Participant transactions are executed at contract value less surrender charges, if applicable, which is the relevant measure for fully benefit-responsive investment contracts. The Plan's ability to meet its contractual obligations to settle amounts due is dependent on the issuer, which could be impacted by economic and regulatory changes. Currently, there is no probability of the issuer not being able to fulfill its contractual obligations at contract value.

NOTE 7. PARTY-IN-INTEREST TRANSACTIONS

At December 31, 2024 and 2023, the Plan held units of collective investment trust funds, pooled separate accounts, fixed-income guaranteed fund and self-directed brokerage accounts managed by the Plan Custodian. The Plan also invests in the common stock of United Fire Group, Inc. via the United Fire Stock Fund. These transactions qualify as party-in-interest transactions (as defined by ERISA); however, they are exempt from the prohibited transaction rules under ERISA.

Participants have loans from their fund accounts outstanding in the amount of \$91 as of December 31, 2024.

NOTE 8. PARTICIPANT CONTRIBUTIONS TRANSFERRED LATE TO PLAN

In 2024, based on the timing of historical remittances to the Plan which established the earliest date on which contributions could reasonably be segregated from the Company's general assets, the Company made one late remittance of Plan contributions relating to the May 15, 2024 pay period. This remittance totaled \$428. Using the Department of Labor's Voluntary Fiduciary Correction Program ("VFPC") calculator, the Company determined the lost earnings relating to the late remittances were \$1. Refer to the Supplemental Table, Schedule H Part IV Line 4a, for further detail. The contributions relating to the calculated lost earnings are reported in these financial statements as the corrected contributions were made during the year ended December 31, 2024. Additionally, during 2023, the plan remitted contributions in the amount of \$373 related to the December 30, 2022 pay period. The plan remitted lost earnings of \$1 during 2024 related to those untimely contributions.
