## **INDEPENDENT AUDITOR'S REPORT**

To the Plan Administrator and Participants of the  
Valmont Employee Retirement Savings Plan

### **Opinion**

We have audited the financial statements of Valmont Employee Retirement Savings Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the years ended December 31, 2024, and 2023, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the years ended December 31, 2024 and 2023, in accordance with accounting principles generally accepted in the United States of America.

### **Basis for Opinion**

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants

### **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the

aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### **Supplemental Schedule Required by ERISA**

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

**VALMONT EMPLOYEE RETIREMENT SAVINGS PLAN  
NOTES TO THE FINANCIAL STATEMENTS**

**(1) DESCRIPTION OF THE PLAN**

The following description of the Valmont Industries, Inc. (the “Company” or “Plan Sponsor”) Valmont Employee Retirement Savings Plan (the “Plan”) provides general information. Participants should refer to the Plan document for a complete description of its provisions.

***General***

The Plan qualifies under Section 401(a) of the Internal Revenue Code (“IRC”) of 1986 and covers regular employees, as defined in the Plan document, beginning on the first day of the month following their date of hire. The Human Resources Committee of the Company’s Board of Directors oversees the Plan’s operation and administration. Fidelity Investments (“Fidelity”) serves as the Plan’s trustee. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

***Contributions***

Participants may contribute to the Plan on a pre-tax or Roth basis, up to 75% of their annual eligible compensation (as defined by the Plan), subject to IRC limitations. Prior to October 16, 2023, participants could contribute up to 60% of their annual eligible compensation. Employees who do not make an affirmative deferral election are automatically enrolled with a pre-tax deferral of 6% of their eligible compensation. Participants may modify their contributions at any time to select a different deferral amount or opt out of the Plan. Additionally, participants may make rollover contributions from previous employers’ qualified plans or Individual Retirement Accounts (“IRAs”).

The Company matches 75% of the first 6% of eligible compensation that a participant contributes to the Plan unless the participant is covered by a collective bargaining agreement, in which case the agreement’s terms apply.

***Participant Accounts***

Each participant’s account is credited with their contributions and any associated Company contributions. The account also reflects allocations of Plan earnings or losses based on the participant’s investment elections and is subject to certain administrative expenses. Allocations of earnings and losses are based on participant account balances, as defined in the Plan. The benefit a participant is eligible to receive is determined by the value of their vested account balance.

***Investments***

Upon enrollment in the Plan, participants may allocate employee and employer contributions in 1% increments across various investment options. The Plan currently offers common collective trusts (including a stable value fund), mutual funds, and Valmont Industries, Inc. common stock. Participants may change their investment allocations daily, subject to individual fund restrictions and the Company’s Insider Trading Policy. Participants may not elect more than 25% of their contributions to be invested in the Valmont Stock Fund and no transfer of funds may be made of another fund into the Valmont Stock Fund to the extent such transfer would result in the participant’s interest in the Valmont Stock Fund being greater than 25% of the participant’s combined account.

***Vesting***

Participants’ contributions and related investment earnings are immediately vested. Vesting in the Company’s matching contributions and related earnings occurs at a rate of 25% per year of service, with full vesting after four years.

***Notes Receivable from Participants***

The Plan allows participants to borrow a minimum of \$1,000, with a maximum loan amount equal to the lesser of \$50,000 or 50% of their vested account balance. Loans bear a reasonable interest rate, determined by the Plan Administrator, and remain fixed throughout the loan’s duration. Participants may only have one outstanding loan at a time. All loans must be

repaid in at least quarterly installments over no more than five years. Loan origination transactions are treated as transfers between the investment funds and participants' loan balances.

### ***Benefit Payments***

Upon termination of employment with the Company (including due to death, disability, or retirement), participants may receive distributions as a lump sum or periodic installments. Participants may also take hardship withdrawals under certain financial hardship conditions, subject to Internal Revenue Service ("IRS") guidelines. After a hardship withdrawal, participants remain eligible to contribute to the Plan without delay.

### ***Forfeitures***

When a participant's Plan participation terminates under certain conditions, the nonvested portion of their account, as defined by the Plan, is forfeited. As of December 31, 2024 and 2023, forfeited nonvested account balances totaled \$160,864 and \$212,428, respectively. These forfeitures are used to reduce future employer contributions. During the years ended December 31, 2024 and 2023, employer contributions were reduced by \$1,541,774 and \$1,282,750, respectively, due to forfeited nonvested accounts.

### ***Subsequent Events***

Subsequent events were evaluated through June 19, 2025, the date on which the financial statements were available to be issued. No events occurred that require additional disclosure or adjustments to the Plan's financial statements.

## **(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

### ***Basis of Accounting***

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

### ***Use of Estimates***

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, as well as the disclosure of contingent assets and liabilities. Actual results may differ from these estimates.

### ***Risks and Uncertainties***

The Plan invests in various investment securities, which are subject to risks such as interest rate, market, and credit risks. Due to the inherent risks associated with certain investment securities, it is at least reasonably possible that changes in their values could occur in the near term and materially impact the amounts reported in the Statements of Net Assets Available for Benefits.

### ***Investment Valuation and Income Recognition***

The Plan's investments are reported at fair value. The fair value of a financial instrument represents the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Shares of mutual funds managed by registered investment companies are valued at quoted net asset values. Common collective trusts are valued based on their proportionate share of gains, losses, and income from the underlying pooled assets, which primarily consist of open-ended mutual funds. The Company's common stock is valued at its quoted market price. Realized gains and losses on sales of investments, as well as unrealized appreciation and depreciation, are based on market values at the beginning of the year or, if acquired during the year, at cost.

The Galliard Stable Return Fund Q is a bank common collective trust fund that invests in fully benefit-responsive investment contracts. It is valued at the fair market value of its underlying investments and reported at fair value in the Statement of Net Assets Available for Benefits, using net asset value as a practical expedient (further discussed in Note 3). The fund requires a 12-month written notice period for withdrawals initiated by the Plan Sponsor.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis, and dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes gains and losses on investments bought and sold, as well as those held during the year.

Management fees and operating expenses for mutual funds and common collective trust funds are deducted from investment income daily and are not separately disclosed. Accordingly, these fees and expenses reduce reported investment returns.

#### ***Notes Receivable from Participants***

Notes receivable from participants are recorded at their unpaid principal balance, plus any accrued but unpaid interest. Delinquent participant loans are reclassified as benefits paid to participants in accordance with Plan terms.

#### ***Administrative Expenses***

Administrative expenses of the Plan are paid by either the Plan or the Plan Sponsor, as specified in the Plan document.

#### ***Payment of Benefits***

Benefits are recorded when paid. As of December 31, 2024 and 2023, no participants had elected to withdraw from the Plan but had not yet been paid.

#### ***Excess Contributions Payable***

The Plan is required to return contribution received during the Plan year in excess of IRC limits. As of December 31, 2024 and 2023, there were excess contributions due to participants of \$2,054 and \$0, respectively.

### **(3) FAIR VALUE MEASUREMENTS**

The Financial Accounting Standards Board Accounting Standards Codification (“FASB ASC”) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. This framework establishes a fair value hierarchy that prioritizes the inputs used in valuation techniques to measure fair value. The hierarchy assigns the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

*Level 1:* Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

*Level 2:* Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

*Level 3:* Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for assets measured at fair value.

*Common Stock:* Valued at the closing price reported in the active market where the securities are traded.

*Mutual Funds:* Valued at the daily closing price as reported by the fund. The mutual funds held by the Plan are open-end mutual funds registered with the Securities and Exchange Commission (“SEC”). These funds are required to publish their daily net asset value and transact at that price, making them actively traded.

*Stable Value Fund:* Composed primarily of fully benefit-responsive investment contracts and reported at fair value using net asset value (“NAV”) as a practical expedient. The stable value fund calculates NAV per share in accordance with the measurement principles in FASB ASC 946, *Financial Services—Investment Companies*. Those measurement principles indicate that, in the determination of a stable value fund’s NAV, the relevant measurement is net assets which include the fully benefit-responsive investment contracts held by the fund at contract value. This NAV represents the Plan’s fair value, as it is the NAV at which the Plan transacts with the fund. This practical expedient is not used when it is probable that the fund will sell the investment for an amount different from the reported NAV. Participant transactions may occur daily, with no redemption notice period for individual participant commitments, redemption restrictions, or notice period requirements. If the Plan initiates a full redemption of the fund, the issuer reserves the right to require 12 months’ notice to ensure orderly securities liquidation.

*Common Collective Trusts:* Valued at the NAV of shares held by the Plan at year-end, based on the quoted market prices of the underlying pooled assets, which primarily consist of open-end mutual funds registered with the SEC. NAV is used as a practical expedient for estimating the fair value of common collective trusts. Participant transactions may occur daily, with no redemption notice period for individual participant commitments, redemption restrictions, or notice period requirements.

The following tables set forth by level, within the fair value hierarchy, the Plan’s investments at fair value as of December 31, 2024 and 2023:

	<b>December 31, 2024</b>			<b>Total</b>
	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>

Investments at net asset value:				
Common collective trusts (including stable value fund)				445,028,146
Total investments, at fair value				<u>\$ 594,223,905</u>

#### **(4) PARTY-IN-INTEREST TRANSACTIONS**

Certain Plan investments include shares of mutual funds managed by Fidelity, the Plan’s trustee. As a result, these transactions qualify as party-in-interest transactions. Fees paid by Plan participants to Fidelity for investment management

and other transaction-related services totaled \$823,846 and \$732,314 for the years ended December 31, 2024 and 2023, respectively.

As of December 31, 2024 and 2023, the Plan held 104,852 and 119,530 shares, respectively, of the Company's common stock, with a cost basis of \$10,699,557 and \$11,759,866, respectively. During the years ended December 31, 2024 and 2023, the Plan recorded dividend income from the Company totaling \$268,348 and \$290,970, respectively.

#### **(5) PLAN TERMINATION**

Although the Company has not expressed any intent to terminate the Plan, it reserves the right to do so at any time, subject to the provisions of ERISA. In the event of Plan termination, all participants would become 100% vested in the Company's contributions to their accounts.

#### **(6) FEDERAL INCOME TAX STATUS**

The IRS determined, in a letter dated June 30, 2020, that the Plan and related trust were designed in accordance with the applicable sections of the IRC. The Company and Plan management believe the Plan remains compliant with IRC requirements in both design and operation. Accordingly, the Plan and related trust continue to be tax-exempt, and no provision for income taxes has been included in the Plan's financial statements.

Under U.S. GAAP, Plan management must evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if an uncertain tax position is determined to be more likely than not unsustainable upon IRS examination. After analyzing the Plan's tax positions, the Plan Administrator concluded that as of December 31, 2024 and 2023, no uncertain positions were taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, no audits are currently in progress for any tax periods. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to 2020.
