INDEPENDENT AUDITOR'S REPORT

Plan Participants and Plan Administration
First Bancorp Employees' 401(k) Savings Plan
Southern Pines, North Carolina

Opinion on the 2024 Financial Statements

We have audited the financial statements of First Bancorp Employees' 401(k) Savings Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets available for benefits as of December 31, 2024, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024, and the changes in its net assets available for benefits for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion on the 2024 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2024 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the 2024 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year from the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2024 Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

2024 Supplemental Schedules Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, Line 4(i) – Schedule of Assets (Held at End of Year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Auditor's Report on the 2023 Financial Statements

The 2023 financial statements of First Bancorp Employees' 401(k) Savings Plan were audited by predecessor auditors whose report dated June 28, 2024, expressed an unmodified opinion on those financial statements and included an other-matter paragraph that provided an opinion that the information in the 2023 supplemental schedule was fairly stated in all material respects in relation to the financial statements as a whole.

First Bancorp Employees' 401(k) Savings Plan
Notes to the Financial Statements

Note 1. Description of the Plan

The following description of the First Bancorp Employees' 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan covering all employees of First Bancorp (the "Company", "Plan Sponsor", or "Employer"), who are age 21 or older except union and part time employees with less than 1,000 hours of service, beginning on the employment commencement date. First Bank, a wholly owned subsidiary of the Company, serves as the Plan administrator. The Plan is subject to provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Trustee and Recordkeeper:

The trustee and recordkeeper of the Plan is Fidelity Management Trust Company ("Fidelity").

Contributions:

Employees electing participation in the Plan may contribute up to the annual Internal Revenue Service ("IRS") deferral limit, pursuant to a salary reduction agreement. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 6% of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant.

The Plan allows for Roth elective deferrals. The Roth deferrals are included in a participant's ordinary taxable income and are maintained in a separate account from pre-tax deferrals. Earnings on a participant's Roth account accumulate on a tax-free basis. Plan participants may elect all pre-tax, all Roth, or a combination of elective deferrals each pay period. In addition, the Plan accepts direct rollovers from other Roth 401(k) accounts. Upon hardship withdrawals, an employee's Roth account is distributed last.

The Company has elected a safe harbor match and contributed 100% of the first 4% of participant deferrals in 2024 and the first 6% in 2023. Employer safe harbor matching contributions totaled approximately \$4.1 million in 2024. The Company may make additional discretionary contributions to the Plan to be allocated amongst participants. The Company made a discretionary contribution for the 2024 Plan year as discussed below. Employer contributions are invested according to the same investment elections each participant has established for their deferral contributions. Contributions are subject to certain IRS limitations.

As of year end, the Plan performs a true-up calculation of the employer matching contribution for all participants and makes any necessary additional matching contributions. True-up contributions received in 2024 totaled \$218,310.

With the termination of the First Bancorp Employees' Pension Plan (the "Pension Plan") in 2023, the Pension Plan settled benefits, reducing the Pension Plan's obligations at December 31, 2023 to zero. After the settlement of the benefit obligations and payment of expenses, the Company had excess assets in the Pension Plan of approximately \$3.0 million. The Company transferred the remaining surplus to the Plan in 2024. During 2025, the Company allocated the remaining Pension Plan surplus to participants calculated as approximately 3% of eligible 2024 compensation for all employees, regardless of the employee's deferral rate in 2024.

Participant accounts:

Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's discretionary contributions and net Plan earnings or losses. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the amount in the participant's vested account.

Vesting:

Participants are vested immediately in their contributions, the Company's matching contribution portion, any discretionary contribution and the actual earnings on the aforementioned contributions.

Notes receivable from participants:

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. Only one loan per participant may be outstanding at a time. The highest outstanding balance for prior loans plus any new loans may not exceed \$50,000 in a 12-month period. The loans are secured by the balance in the participant's account and bear interest at rates that are commensurate with the prime rate plus 1.00%, as fixed at inception of the loan. Principal and interest are paid ratably through bi-weekly payroll deductions.

Payment of benefits:

On termination of service, a participant may elect to receive an amount equal to the value of the participant's interest in his or her account in either a lump sum, other installment options as provided by the Plan, or may be kept in the Plan. If a participant's account is less than \$5,000, the participant will receive a lump-sum distribution as soon as practical following termination. Any distribution greater than \$1,000 and less than \$5,000 that is made to the participant without the participant's consent before the participant's normal retirement age will be rolled over to an individual retirement plan designated by the Plan Administrator. Hardship distributions are permitted upon demonstration of financial hardship. All balances are available for distribution after the participant reaches the age of 59 ½. In the event of the death of a participant, the total account shall be paid to the participant's beneficiary.

Forfeited accounts:

Forfeited accounts are used to reduce future employer contributions or pay administrative expenses. At December 31, 2024 and 2023, the balance in the forfeited accounts were not material to the Plan's financial statements. During 2024, \$1,579 of forfeited account balances were used by the Plan to offset employer contributions.

Note 2. Summary of Significant Accounting Policies

Basis of accounting:

The financial statements of the Plan have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of estimates:

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

Investment valuation and income recognition:

The Plan's investments are reported at fair value with the exception of fully benefit-responsive contracts. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the Plan's valuation policies utilizing information provided by the investment advisors. See Note 3 for discussion of fair value measurements.

The Plan's fully benefit-responsive investment contracts (Note 4) are valued at contract value.

The Revenue Credit Program provides income in situations where recordkeeping revenue earned in connection with plan services exceeds agreed-upon compensation. Fidelity will deposit any excess revenue, regardless of source, in a plan-level suspense account (i.e. Revenue Credit Account) in the Plan. The Plan Administrator can then direct Fidelity to pay qualified plan-level expenses or allocate unused credit to eligible participants via funds from the Revenue Credit Account. At December 31, 2024 and 2023, the balances in the Revenue Credit Account was \$48,591 and \$26,334, respectively. No credits were utilized by the Plan during 2024.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of benefits:

Benefit payments are recorded when paid.

Expenses:

All reasonable expenses of administering the Plan are either charged to participants and paid out of the Plan or paid by the Company. Expenses paid by the Company are not included in the Plan's financial statements. Fees related to participant requested transactions are charged to the participant's account. All other administrative fees are charged on a pro-rata basis based upon account balances of participants. Investment related expenses reduce the reported amount of net appreciation in the fair value of investments on the Statement of Changes in Net Assets Available for Benefits.

Note 3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Money market fund: Valued at net asset value ("NAV") of \$1 per share. The money market fund is invested in the Fidelity Government Money Market Fund. The Plan invests in the money market fund to provide daily liquidity.

Common collective trust fund: Valued at NAV. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in

order to ensure that securities liquidations will be carried out in an orderly business manner. This investment is a direct filing entity.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common stock: Valued at the closing price reported on the active market on which the individual securities are traded.

The following table sets forth by level, within the fair value hierarchy, the Plan's fair value measurements as of December 31, 2024 and 2023.

	December 31, 2024			
	Level 1	Level 2	Level 3	Total
Money market fund	\$ —	\$ 8,662,962	\$ —	\$ 8,662,962

Total assets included in the fair value hierarchy	<u>\$ 146,068,733</u>	<u>\$ 8,662,962</u>	<u>\$ —</u>	154,731,695
Investments measured at NAV (a)				6,227,287
Total investments at fair value				<u>\$ 160,958,982</u>

	December 31, 2023			
	Level 1	Level 2	Level 3	Total
Money market fund	\$ —	\$ 3,405,694	\$ —	\$ 3,405,694
Mutual funds	111,270,555	—	—	111,270,555
Common stock	13,050,412	—	—	13,050,412
Total assets included in the fair value hierarchy	<u>\$ 124,320,967</u>	<u>\$ 3,405,694</u>	<u>\$ —</u>	127,726,661
Investments measured at NAV (a)				7,009,972
Total investments at fair value				<u>\$ 134,736,633</u>

- (a) Investments reported at NAV as a practical expedient to estimate fair value include a common collective trust fund. The investment has not been classified in the fair value hierarchy. The fair value amounts presented in the above tables are intended to permit reconciliation of the fair value hierarchy to investments at fair value presented in the Statements of Net Assets Available for Benefits.

The following table for December 31, 2024 and 2023 sets forth a summary of the Plan's investments reported at NAV as a practical expedient to estimate fair value:

Investment	December 31, 2024			
	Fair Value	Unfunded commitment	Redemption frequency	Redemption notice period
Common collective trust fund	<u>\$ 6,227,287</u>	<u>\$ —</u>	(b)	(b)

Investment	December 31, 2023			
	Fair Value	Unfunded commitment	Redemption frequency	Redemption notice period
Common collective trust fund	<u>\$ 7,009,972</u>	<u>\$ —</u>	(b)	(b)

- (b) The NAV of the common collective trust fund (the “Fund”) is determined each business day (valuation date) by the fund trustee. Contributions to the Fund may be made daily at the current NAV and are considered as made immediately after the daily valuation. Withdrawals from the Fund for benefit payments and participant transfers to noncompeting options to be paid to plan participants shall be made within 30 days after written notification has been received and are considered as made immediately after the next valuation date subsequent to the fund trustee's approval. Withdrawals, other than for benefit payments and participant transfers to noncompeting options, require a ninety day advance written notice. Included in this advance written notice requirement are full or partial withdrawals of assets invested in the Fund resulting from plan sponsor directed actions.

Note 4. Fully Benefit-responsive Investment Contracts

As of December 31, 2023, the Plan held an investment contract that comprised a traditional investment contract. This contract met the fully benefit-responsive investment contract criteria and therefore was reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses. The following represents the contract value of the investment contract held by the Plan.

	December 31,	
	2024	2023
Key Guaranteed Portfolio Fund	\$ —	\$ 977,943

The guaranteed portfolio option held by the Plan was a guaranteed investment contract. The contract issuer was contractually obligated to repay the principal and interest at a specified interest rate that was guaranteed to the Plan. There were no reserves against contract value for credit risk of the contract issuers or otherwise. The crediting interest rate was based on a formula agreed upon with the issuers, but it could not be less than 0%. Such interest rates were reviewed on a quarterly basis for resetting.

The Plan’s ability to receive amounts due in accordance with fully benefit-responsive investment contracts was dependent on the third-party issuer’s ability to meet its financial obligations. The issuer’s ability to meet its contractual obligations could have been affected by future economic and regulatory developments.

Note 5. Related Party and Party-In-Interest Transactions

Certain Plan investments are managed by Fidelity. Fidelity is the trustee as defined by the Plan and, therefore, these transactions and any revenue credits received qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. The Plan made direct payments to the third party administrator totaling \$125,906 in 2024 which were not covered by revenue sharing. The Company pays directly any other fees related to the Plan’s operations.

Certain administrative functions are performed by officers or employees of the Company or its subsidiaries. No such officer or employee receives compensation from the Plan.

Investments in First Bancorp common stock represent investment in shares of common stock of the Company, which is the Plan Sponsor. As of December 31, 2024, the Plan held 294,110 shares of First Bancorp common stock with a cost basis of \$7,817,752. As of December 31, 2023, the Plan held 352,563 shares of First Bancorp common stock with a cost basis of \$9,320,371. In 2024, the net appreciation in the First Bancorp common stock was \$960,516 and the Plan received First Bancorp stock dividends totaling \$302,382. Transactions in First Bancorp common stock also qualify as party in interest transactions. For the year ended December 31, 2024, the Plan purchased, on behalf of participants, \$525,229 and sold \$3,290,990 of the Company's common stock.

Participants may borrow from their fund accounts and these loans are considered party-in-interest transactions.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 7. Tax Status

Effective April 25, 2022, the Plan was restated under the Fidelity Pre-Approved Plan Document. Fidelity has received an advisory letter from the IRS dated June 30, 2020 which states the form of the Fidelity Pre-Approved Plan is acceptable under Section 401 of the Internal Revenue Code ("IRC"). Although the Plan has been amended since the date of the IRS advisory letters, Plan management believes that the Plan currently is designed and is being operated in compliance with the applicable requirements of the IRC.

GAAP requires management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the related taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Risks and Uncertainties

Concentration of market risk:

The Plan invests certain Plan assets in the Company's common stock. These investments comprised approximately 7.9% and 9.4% of Plan net assets at December 31, 2024 and 2023, respectively. It is reasonably possible that a decline in the value of the Company's common stock could occur and that such a change could severely impact certain participant account balances and the amounts reported on the Statements of Net Assets Available for Benefits. At December 31, 2024 and 2023, the Plan held Company stock valued at \$12,934,398 and \$13,050,412, respectively.

Other risks:

The Plan invests in various investment securities which are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, including investments in excess of 10% of Plan net assets, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Note 9. Transfer from ADP TotalSource Retirement Savings Plan, a multiple employer plan, in regards to employees of SBA Complete, Inc.

In conjunction with the Company's dissolution of SBA Complete, Inc., a subsidiary of First Bank, the Plan was amended effective August 12, 2024 to provide for the partial plan merger of assets related to employees of SBA Complete, Inc. that were previously in the ADP TotalSource Retirement Savings Plan, a multiple employer plan. Net assets of approximately \$2.7 million, including loan balances, were transferred to the Plan in 2024.

Note 10. Subsequent Events

The Plan has evaluated events and transactions for potential recognition or disclosure through the date the financial statements were issued. Except as disclosed below, there were no events that require adjustment to or disclosure in the financial statements of the Plan.

Effective January 1, 2025, the Company amended the Plan such that the safe harbor match is 100% of the first 6% of participant deferrals into the Plan.

Effective May 1, 2025, the Company amended the Plan by reducing the minimum age for participation from 21 to 18.
