INDEPENDENT AUDITORS' REPORT

To the Trustee  
Dennis Beverage Company Employee Stock Ownership Plan:

**Opinion**

We have audited the accompanying financial statements of Dennis Beverage Company Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section, the amounts and disclosures in the financial statements referred to above are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

**Basis for Opinion**

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Dennis Beverage Company Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

**Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Dennis Beverage Company Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### **Auditors' Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Dennis Beverage Company Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Dennis Beverage Company Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

## Supplemental Schedule Required by ERISA

The supplemental Schedule H, line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

DENNIS BEVERAGE COMPANY EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2024 AND 2023

1. DESCRIPTION OF PLAN

The following description of the Dennis Beverage Company Employee Stock Ownership Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of Plan provisions

General - Dennis Beverage Company (the Plan Sponsor, or Company) established the Plan effective January 1, 2015. The Plan is a leveraged employee stock ownership plan (ESOP), and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (IRC), and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan is administered by the Company. It is a profit sharing plan covering all full-time employees of the Company. The Plan's trustee is appointed by the Company's board of directors.

In January 2015, the Plan purchased 100% of the Company's stock immediately after redemption of the stock by the Company's former stockholder. The Plan acquired the common stock in exchange for a \$500,000 note payable to the Company and holds the common stock in a trust established under the Plan.

The borrowing is collateralized by the unallocated shares of common stock. The lender has no rights against shares of common stock once they are allocated under the provisions of the ESOP.

Accordingly, the financial statements of the Plan as of December 31, 2024 and 2023, and for the year ended December 31, 2024, present separately the assets and liabilities and changes therein pertaining to:

1. the accounts of employees with vested rights in allocated common stock (allocated) and
2. common stock not yet allocated to employees (unallocated).

Eligibility - Employees of the Company who have completed at least one year of service are generally eligible to participate in the Plan. A year of service is defined as 1,000 hours of service, initially during the first twelve consecutive months of employment, and during the Plan year thereafter. An employee is considered a participant for the full Plan year in which eligibility requirements are met.

Contributions - The Company is obligated to make contributions in cash to the Plan which, when aggregated with any Plan dividends or interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. Employee contributions are not permitted. The Company has the discretion to make additional cash or stock contributions to the Plan beyond the terms of the Plan's loan commitment, within limitations set forth by the IRC.

Voting rights - Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the trustee prior to the time that such rights are to be exercised. In the event that instructions have not been given to the trustee by a participant, the trustee is to vote those shares based on the break-down of instructions received from participants. In certain situations, the trustee has the right to decide how shares of Sponsor common stock allocated to participant accounts will be voted. The trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of Plan participants and beneficiaries.

1. DESCRIPTION OF PLAN, CONTINUED

Participant accounts - The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of unallocated shares of Sponsor common stock released by the trustee, and any forfeitures of terminated participants' non-vested balances, Company discretionary contributions, Company distributions, and Plan earnings. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance.

Vesting - Participants vest 20% in the balances in his or her account per year of service after one year of service and are 100% vested after five years of service. Upon normal retirement age, permanent disability, or death, the participant will become fully vested in their account balance.

Payment of benefits - Distributions are made in annual cash installments over no more than five years. Participants or their beneficiaries may elect to have distributions commence no later than one year after death, disability, or attainment of age 59 1/2, and no later than five years after severance from employment.

Each installment is equal to the value of the participant's account at the time of the distribution, divided by the remaining number of installments to be paid; provided that, in the case of a participant with an account having a fair market value in excess of \$1,415,000, distribution of the participant's account will be made over one additional year (up to five years) for each \$280,000 or fraction thereof by which such account balance exceeds \$1,415,000.

Benefits of \$10,000 or less may be paid in cash, if liquidity allows. Benefits of \$5,000 or less may be paid in cash without participant consent.

Put option - Under Federal income tax regulations, the Company stock that is held by the Plan and its participants is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the most recent appraised value of the stock. The Company can pay for the purchase with interest over a period not exceeding five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification - Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Sponsor common stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of Company shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify will receive a cash distribution. Participants will be eligible to diversify after the Plan year ending December 31, 2024.

NOTES TO FINANCIAL STATEMENTS, CONTINUED

1. DESCRIPTION OF PLAN, CONTINUED

Forfeitures - Plan forfeitures are allocated to each participant's account in the same manner as annual contributions. Forfeitures of terminated non-vested account balances allocated to remaining participants totaled \$6,441 for the Plan year ending December 31, 2024.

Administration of plan assets - The trustee of the Plan holds the Plan's assets, which consist of Sponsor common shares. Company contributions are held and managed by the trustee, which invests cash received and any interest and dividend income. The trustee also administers the payment of interest and principal on the loan, which is reimbursed to the trustee through contributions as determined by the Company. The trustee makes distributions to participants. Officers or employees of the Company perform certain administrative functions. No such officer or employee receives compensation from the Plan. As provided in the Plan agreement, administrative expenses may be paid either by the Plan or by the Company. Administrative expenses for the trustee's fees are paid directly by the Company.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting - The accompanying financial statements are prepared using the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of estimates - The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Allocations - The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock (allocated) and (b) stock not yet allocated to employees, including shares that are committed to be released (unallocated). Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment valuation and income recognition - The shares of Company common stock are reported at estimated fair value as determined by annual independent appraisals. The per share market value at December 31, 2024 and 2023, was \$45.00 and \$27.90, respectively. See Note 4 for a discussion of fair value measurements.

Benefit payments - Benefit payments are recorded when paid.

Subsequent events - The Plan has evaluated events, if any, that have occurred subsequent to December 31, 2024, through July 2, 2025, the date the financial statements were available to be issued, and included information in the notes to the financial statements related to any identifiable events, if necessary.

DENNIS BEVERAGE COMPANY EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO FINANCIAL STATEMENTS, CONTINUED

3. INVESTMENT IN THE PLAN SPONSOR COMPANY STOCK

The Plan's non-participant directed investments in common shares of the Plan Sponsor at December 31, are as follows:

	<u>2024</u>		<u>2023</u>	
	<u>Allocated</u>	<u>Unallocated</u>	<u>Allocated</u>	<u>Unallocated</u>
Number of shares of common stock	<u>110,576</u>	<u>375,000</u>	<u>98,076</u>	<u>387,500</u>
Cost	<u>\$ 110,576</u>	<u>375,000</u>	<u>98,076</u>	<u>387,500</u>
Estimated fair value	<u>\$ 4,975,942</u>	<u>16,875,000</u>	<u>2,736,334</u>	<u>10,811,250</u>

4. FAIR VALUE MEASUREMENTS

U.S. GAAP provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under U.S. GAAP are described as follows:

- Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

4. FAIR VALUE MEASUREMENTS, CONTINUED

The following table sets forth by level, within the fair value hierarchy, the Plan's investment at fair value as of December 31, 2024 and 2023:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
December 31, 2024				
Plan Sponsor common stock	\$ -	-	21,850,942	21,850,942
December 31, 2023				
Plan Sponsor common stock	\$ -	-	13,547,584	13,547,584

The table below sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2024:

Balance, beginning of year	\$ 13,547,584
Net unrealized appreciation in fair value of Plan Sponsor common stock	<u>8,303,358</u>
Balance, end of year	<u>\$ 21,850,942</u>

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

The Plan Sponsor common stock held by the Plan is reported at fair value based upon an appraisal. This appraisal was based upon income valuation techniques consistent with prior years and as illustrated in the following table.

<u>Principal Valuation Technique</u>	<u>Unobservable Inputs</u>
Income	EBITDA Net income Discount rate Discount for lack of marketability

The valuation process involves the selection of an independent appraiser. Plan management accumulates the data for the appraiser from historical and projected financial information of the Company. The appraiser prepares a report of estimated per share value that a participant will receive upon distribution. Management is provided with a draft of the report prior to a meeting with the trustee. Management provides the trustee with copies of the draft report, and a trustee meeting is scheduled to review the draft and ask questions of the appraiser and management. After all questions have been answered to the satisfaction of the trustee, the trustee approves a value for year-end accounting.

## NOTES TO FINANCIAL STATEMENTS, CONTINUED

4. FAIR VALUE MEASUREMENTS, CONTINUED

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. LOAN PAYABLE

On January 1, 2015, the Plan entered into a \$500,000 loan agreement with the Plan Sponsor in connection with the acquisition of the shares of the Plan Sponsor's common stock. The outstanding balance on the loan payable was \$447,939 and \$454,360 at December 31, 2024 and 2023, respectively. The loan payable is collateralized by the unallocated shares of Plan Sponsor common stock. The Plan Sponsor is obligated to make contributions in cash to the Plan which equals the amount necessary to enable the Plan to make its annual payments of principal and interest due on the loan payable.

Shares are released from collateral and allocated to participants when principal and interest payments are made. The number of shares released in any year is the number of shares held as collateral, multiplied by the ratio of the current year payments, divided by the total of this year's payments, plus all future years' principal and interest payments. This resulted in 12,500 shares being released and allocated for the Plan year ended December 31, 2024. The loan bears an interest rate of 5%. The agreement provides for the loan to be paid in full in December 2054.

The scheduled amortization of the loan is as follows:

2025	\$	6,742
2026		7,079
2027		7,433
2028		7,805
2029		8,195
Thereafter		<u>410,685</u>
	\$	<u>447,939</u>

6. PLAN TERMINATION

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the Plan Administrator directs the trustee to pay all liabilities and expenses of the ESOP and to sell shares of the financed common stock held as collateral to the extent it determines such sale to be necessary in order to repay the loan. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC.

7. TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated August 18, 2017, that the Plan is qualified and the related trust established under the Plan is tax-exempt under the appropriate sections of the IRC. The Plan has been amended since receiving the determination letter; however, the Plan Administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC, and they believe, therefore, that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

8. PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in common stock of, and has a note payable to, the Company. These are related party and party-in-interest transactions. As described in Note 1, the Company pays all Plan expenses. The Plan has a number of service providers. Such service providers are parties-in-interest under ERISA.

9. RISKS AND UNCERTAINTIES

The Plan investments consist primarily of the Plan Sponsor's common stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.
