Independent Auditor's Report

The Plan Administrator and Plan Participants of
Old Dominion 401(k) Retirement Plan
Thomasville, North Carolina

Opinion on the Financial Statements

We have audited the financial statements of the Old Dominion 401(k) Retirement Plan (the "Plan"), an employee benefit plan subject to the *Employee Retirement Income Security Act of 1974* (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion on the Financial Statements

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that these financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

The Plan Administrator and Plan Participants of
Old Dominion 401(k) Retirement Plan

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

**OLD DOMINION 401(k) RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS**

NOTE 1. DESCRIPTION OF PLAN

The following description of the Old Dominion 401(k) Retirement Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan covering all eligible employees of Old Dominion Freight Line, Inc. (the “Company” or “Employer”) who have completed 60 days of service and are age 18 or older. The Old Dominion Retirement Committee manages the operation and administration of the Plan (the “Plan Administrator”). Empower Trust Company, LLC serves as the trustee of the Plan (the “Trustee”), and Empower Plan Services, LLC (d/b/a Empower) serves as the recordkeeper of the Plan (the “Recordkeeper”). The Plan is a type of tax-qualified retirement plan commonly referred to as an employee stock ownership plan (“ESOP”) with a 401(k) plan feature. The Company common stock fund within the Plan constitutes an ESOP, which is designed to invest primarily in Employer securities, while the remainder of Plan assets constitutes the non-ESOP 401(k) portion of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

Contributions

Each year, participants may contribute from 1% to 60% of annual compensation, as defined in the Plan document, as pre-tax and/or Roth after-tax elective deferrals, subject to certain limitations set forth in the Internal Revenue Code of 1986, as amended (“IRC”). Participants who have attained age 50 before the end of the Plan year and have contributed the maximum allowable elective deferral contribution are also eligible to make catch-up contributions up to the maximum set forth in the IRC. Participants may also contribute certain amounts representing distributions from individual retirement accounts or other qualified defined benefit or defined contribution plans. Upon satisfying the Plan’s eligibility criteria, a participant will be automatically enrolled in the Plan to defer 3% of annual compensation on a pre-tax basis unless the participant (i) elects not to defer any annual compensation, (ii) elects to defer a different percentage of annual compensation, or (iii) elects to contribute Roth after-tax elective deferrals.

The Company matches 50% of the first 6% of compensation that a participant contributes to the Plan. Additional Employer matching contributions may be made at the Company's discretion. Eligible Plan participants who have completed 1,000 hours of service and who (i) were actively employed on the last day of the Plan year, or (ii) terminated employment due to death, disability, or attainment of normal retirement age during the Plan year, are eligible to share in any Company discretionary matching contributions for that Plan year. For the year ended December 31, 2024, the Company awarded an additional \$68,757,778 as an aggregate discretionary match contribution.

Investment Options

Participants may direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds, the Company's common stock, collective trust funds, pooled separate accounts and an insurance contract as investment options for participants. In addition, participants generally have the option of utilizing a self-directed brokerage account, through which participants are able to invest in a variety of securities, including mutual funds, equities, the Company's common stock or certain fixed-income securities, in accordance with the Plan document.

Participant Accounts

Each participant’s account is credited with the participant’s contributions and allocations of (a) the Company’s contributions and (b) Plan earnings (losses). In addition, each participant’s account may be charged with benefit payments, transaction fees and allocations of administrative expenses. Allocations are based on participants’ compensation or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of the participants' accounts plus actual earnings thereon is based on years of service in accordance with the following schedule:

Years of Service	Vested Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Notes Receivable from Participants

Participants may borrow from their vested accounts a minimum of \$500 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance.

The loans are secured by the balance in the participant's account and bear interest at the rate of prime, as published by the Wall Street Journal on the last business day of the month immediately preceding the month in which the loan is issued, plus 2%. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to disability or retirement at age 65, a participant may elect to receive an amount equal to the vested value of his or her account in installment payments or a lump sum. For termination of service for other reasons, a participant may receive the vested value of his or her account as a lump-sum distribution or may elect, subject to minimum balances as defined by the Plan document, to leave the vested portion of the account with the Plan. In addition, amounts contributed may be withdrawn upon demonstration of financial hardship or after a participant reaches the age of 59.5 years.

Forfeited Accounts

The following is a reconciliation of the change in forfeited non-vested accounts for the year ended December 31, 2024:

Forfeited non-vested accounts at beginning of year	\$	5,798,390
Forfeitures		5,553,446
Forfeitures used to reduce Company matching contributions		(6,245,556)
Forfeited non-vested accounts at end of year	\$	<u>5,106,280</u>

Forfeitures of Company matching contributions will be used to reduce future Company matching contributions. These forfeitures may also be used to pay Plan expenses.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting in conformity with U.S. generally accepted accounting principles ("GAAP").

Estimates

The preparation of financial statements in conformity with GAAP requires the Plan's management to make estimates and assumptions that affect certain reported amounts of assets, liabilities and changes therein, and disclosures. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments in mutual funds and the Company's common stock are stated at fair value using quoted market prices. The collective trust funds and pooled separate accounts are valued at net asset value ("NAV"), as provided by the Trustee, which is used as a practical expedient to estimate fair value. The collective trust funds are valued at the NAV of units of a collective trust and the NAV is based on the fair value of the underlying investments held by the funds less liabilities. The pooled separate accounts are valued at the NAV of units of the pooled separate accounts and the NAV is determined by the issuer of the accounts based on the fair value of the underlying investments. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management utilizes information provided by the Trustee to determine the valuation of the Plan's investments. See the "Fair Value Measurements" disclosure in Note 3 for a discussion of fair value measurements.

The Plan's insurance contract investment is a fully benefit-responsive investment contract that is reported at contract value. Because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan, it is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to a fully benefit-responsive investment contract.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Contributions Receivable from Participants and Employer

The contributions receivable from participants and Employer are related to contributions from compensation paid prior to the Plan's year-end, but where contributions have not yet been deposited in the Plan, in accordance with the ERISA definition of "plan assets."

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan.

Payment of Benefits

Benefits paid to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses of the Plan are paid by either the Plan or the Company, as provided in the Plan document. Certain administrative functions are performed by the employees of the Company. No such employee receives compensation from the Plan. Recordkeeping fees and expenses relating to specific participant transactions, such as participant loans and distributions, are charged directly to the participant's account.

NOTE 3. FAIR VALUE MEASUREMENTS

GAAP defines fair value and establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs are described as follows:

- Level 1: Unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access;
- Level 2: Quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable; and inputs that are derived from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability; and
- Level 3: Unobservable inputs used to the extent that observable inputs are unavailable, which typically reflect the Plan's judgments and estimates using the best information available about the assumptions that would be used by market participants in pricing the asset or liability.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques that are used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

A description of the valuation methodologies used for assets measured at fair value for December 31, 2024 and 2023 is presented below. There were no changes made in the valuation methodologies used to determine the fair value of financial assets during the year ended December 31, 2024.

Mutual Funds

Mutual funds are public investment vehicles valued using the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and classified within Level 1 of the valuation hierarchy.

Old Dominion Freight Line, Inc. Common Stock

Common stock is valued at the closing price reported on the active market on which the individual security is traded and is classified within Level 1 of the valuation hierarchy.

Self-Directed Brokerage Accounts

Self-directed brokerage accounts may include mutual funds, equities, the Company's common stock or certain fixed-income securities. These investments are valued by the administrator of the fund based on quoted market prices and are classified within Level 1 of the valuation hierarchy.

Collective Trust Funds

The collective trust funds are measured at the NAV of the underlying investments, as provided by the Trustee, using the practical expedient. Participant transactions in the collective trust funds (purchases and sales) may occur daily. If the Plan were to initiate a full redemption of the collective trust funds, the issuer reserves the right to temporarily delay withdrawal from the trust in order to ensure the securities liquidations will be carried out in an orderly business manner.

Pooled Separate Accounts

The pooled separate accounts are measured at the NAV of the underlying investments, as provided by the Trustee, using the practical expedient. The prices and unit values of the investments within the pooled separate accounts are calculated daily by the issuer.

Financial assets measured at fair value on a recurring basis are listed below and are categorized by level of the fair value hierarchy. In accordance with GAAP, investments that are measured at NAV using the practical expedient are not classified in the fair value hierarchy. The fair value amounts presented in the table below are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statements of Net Assets Available for Benefits:

	Level 1	Level 2	Level 3	Total Fair Value at December 31, 2024
Financial Assets:

The valuation methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 4. INVESTMENT IN INSURANCE FUND

As of December 31, 2024 and 2023, the Plan held a fully benefit-responsive group annuity contract, the Empower Investments Fixed Account - Series Class V, with Empower Annuity Insurance Company of America. The Empower Investments Fixed Account - Series Class V is a general account product of Empower Annuity Insurance Company of America. The methodology for calculating the interest crediting rate is based on the earnings of the underlying assets in the entire medium-long term new portfolio compared to the minimum interest crediting rate, and prevailing market conditions. The interest crediting rate is reset quarterly by Empower Annuity Insurance Company of America. As described in Note 2, contract value is the relevant measurement attribute for this fund.

Certain events limit the ability of the Plan to transact at contract value with Empower Annuity Insurance Company of America. Such events include premature termination of the contracts by the Plan, layoffs, Plan termination, bankruptcy, mergers and early retirement incentives. The Plan does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable. There are no reserves against contract value for credit risk of Empower Annuity Insurance Company of America or otherwise.

NOTE 5. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Plan investments include shares of the Company's common stock. Transactions in the Company's common stock qualify as exempt party-in-interest transactions. The Company's common stock reported in the Statements of Net Assets Available for Benefits was \$547,228,495 and \$629,529,980 at December 31, 2024 and 2023, respectively, which represented 3,102,202 and 3,106,258 shares, respectively, as adjusted to reflect the two-for-one stock split of the Company's outstanding shares of common stock effected in March 2024.

The Recordkeeper, the Trustee and their subsidiaries, as well as the Company and Plan participants, are each a "party-in-interest" to the Plan as defined by ERISA. Fees charged to the Plan for investment management services are reflected as a reduction of the return

on each fund or included in administrative fees. Participants are also charged for certain transactions, such as the processing of a loan or a distribution. Each of these transactions qualifies as an exempt party-in-interest transaction under ERISA.

Effective for dividends payable with respect to shares of the Company’s common stock held in a participant’s account under the Plan on or after January 25, 2023, a participant who receives a dividend of \$20 or more may elect to have it distributed from the Plan in cash or reinvested in shares of the Company’s common stock in the Plan. Dividends of \$132,313 were distributed as cash from the Plan in 2024.

NOTE 6. FEDERAL INCOME TAX STATUS

The Plan is a type of tax-qualified retirement plan commonly referred to as an ESOP with a 401(k) plan feature. Effective January 25, 2023, the Plan was amended and restated to utilize a non-standardized ESOP pre-approved plan document. The Plan has not obtained a determination letter from the Internal Revenue Service (“IRS”), as it relies on the IRS approval of the pre-approved plan being utilized. The IRS has determined and informed the pre-approved plan sponsor by an opinion letter dated June 30, 2020 that the pre-approved plan was designed in accordance with applicable sections of the IRC. The Plan Administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan Administrator believes the Plan was qualified and the related trust was tax-exempt as of December 31, 2024 and 2023.

GAAP requires the Plan's management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024 and 2023, there are no uncertain positions taken or expected to be taken that would require recognition of a liability, asset or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 7. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants’ account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

NOTE 8. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would be deemed 100% vested in Company contributions.

NOTE 9. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

NOTE 10. LEGAL PROCEEDINGS

The Plan is involved in various legal proceedings that are incidental to the operations of the Plan. As of the date of this report, the Plan Administrator does not expect that any of such legal proceedings will have a material adverse effect on the Plan's financial statements.

NOTE 11. SUBSEQUENT EVENTS

The Plan Administrator has evaluated all events subsequent to December 31, 2024, through June 24, 2025, the date the Plan's financial statements were available to be issued. The Plan Administrator has determined none of these events were required to be recognized or disclosed based on this evaluation.
