INDEPENDENT AUDITOR'S REPORT

To the Trustee, Participants and Administrator of the
Martin/Brattrud, Inc. Employee Stock Ownership Plan:

Opinion

We have audited the financial statements of Martin/Brattrud, Inc. Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for twelve months from the date these financial statements were issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

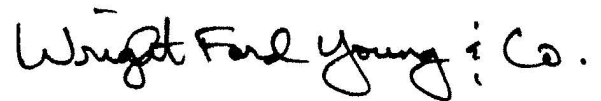

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule, Schedule H, Line 4i - Schedule of Assets (Held at End of Year), as of and for the year ended December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing

and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

MARTIN/BRATTRUD, INC. EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2024 AND 2023

1. DESCRIPTION OF PLAN

The following description of the Martin/Brattrud, Inc. Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

Martin/Brattrud, Inc. (the Company) established the Plan, which commenced on January 1, 2014. The Plan is structured to operate as a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (the IRC) and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Plan had purchased shares of Company common stock using borrowed proceeds secured by the purchased shares and holds the Company common stock in a trust established under the Plan. The Plan paid off the debt during the year ended December 31, 2019, and all Company common stock is fully allocated to participants as of December 31, 2024 and 2023.

Eligibility

Employees who have completed at least 1,000 hours of service during the plan year will become a participant in the Plan retroactive to January 1 of the plan year in which the eligibility requirements are satisfied.

Company Contributions

The Company may make discretionary contributions to the Plan in an amount determined each year by the Company's Board of Directors. In order to be eligible for the Company contributions, a participant must complete at least 1,000 hours of service during the plan year. For the year ended December 31, 2024, the Company elected to make a discretionary contribution to the Plan of \$400,000. Employee contributions to the Plan are not permitted.

Plan Administration

The independent trustee of the Plan holds the Plan's assets and invests cash received, interest, and dividend income and makes distributions to participants. The Company is the Plan Administrator. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Administrative expenses for the Trustee's fees are paid directly by the Company.

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2024 AND 2023

1. DESCRIPTION OF PLAN – (Continued)

Participant Accounts

Each participant's account is credited with allocations of (a) the Company's contributions, (b) forfeitures, (c) net change in value of Company common stock, (d) dividends and (e) other investment earnings net of plan expenses.

The Company's contributions may consist of cash or Company stock contributions and are allocated to active participants based on the percentage that their eligible compensation is representative to total eligible compensation.

Forfeitures of terminated participant's non-vested account balances are allocated to active participants based on the percentage that their eligible compensation is representative to total eligible compensation.

Net appreciation of Company stock, as determined by an independent appraiser, is allocated based on the number of shares held by the participants at year-end multiplied by the change in the per share value.

Cash dividends paid on shares of Company stock allocated to participants will, at the discretion of the Plan Administrator, be either (1) distributed to participants in cash or (2) allocated to each participant's account based on the number of shares owned.

Other investment earnings (primarily earnings from a registered investment company), net of plan expenses, is allocated to participants based on the percentage that their other investment account balance as of the preceding allocation date, as defined, is representative to the total other investment account balances.

The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Payment of Benefits

Distribution of Plan benefits due to termination for retirement, disability, death or other reasons will be made in shares of Company stock (see Put Option below), cash or a combination of Company stock and cash at the discretion of the Plan Administrator. Annual installments are paid after a one to five year waiting period in annual installments over no more than five years, unless the participants vested account balance exceeds the amount as defined under the IRC, in which case installments could exceed five years. All vested account balances not exceeding \$5,000 may be distributed in a lump-sum payment.

MARTIN/BRATTRUD, INC. EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2024 AND 2023

1. DESCRIPTION OF PLAN – (Continued)

Vesting

Vesting in the Company's contributions is based on years of service. A participant is 20% vested after two years of service, increasing 20% each year thereafter. A participant is fully vested after the earlier of six years of service, attaining normal retirement age, death or disability.

Diversification

Diversification will be offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Participants eligible for diversification may elect to direct the Plan to diversify a portion of their account during a 90 day election period which begins on the first day of the plan year that follows each of the six plan years beginning with the plan year in which the participant becomes eligible for diversification. In each of the first five years, a participant may diversify up to 25% of the number of shares of Company stock allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify may elect to receive a cash distribution or to rollover the amount to one or more of at least three diversified investment options, which may be made available in another qualified plan maintained by the Company. During the year ended December 31, 2024, \$377,809 in diversification distributions were taken and included within benefits paid to participants on the statement of changes in net assets available for benefits. As of December 31, 2024, 3,083 shares of Company common stock were eligible for diversification.

Right of First Refusal

An agreement between the Company, the Plan and all participants who receive a distribution of Company stock, has placed restrictions on the transfer or sale of Company stock. Shares cannot be sold or transferred without first offering them to the Company at a per-share price no greater than that tendered by a prospective third party purchaser or the last ESOP valuation. If the Company does not exercise its right to purchase the shares, then the shares must be offered to the Plan.

MARTIN/BRATTRUD, INC. EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2024 AND 2023

1. DESCRIPTION OF PLAN – (Continued)

Put Option

Under Federal income tax regulations, the Company stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option (the liquidity put). The liquidity put is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The Plan may also honor the put, although it is not required to do so. The put price is the fair market value of the stock as determined as of the most recent valuation date, as defined.

The purpose of the liquidity put is to ensure that the participant has the ability to ultimately obtain cash. If the put option is not exercised within 60 days, it temporarily lapses; put options may then be exercised during the first 60 days of the following plan year. In the event a put option is exercised, the Company shall have the option of paying the purchase price either in a lump sum within 30 days of exercise or in a series of five equal installments, with the first payment to be made within 30 days of exercise and the four remaining payments to be made annually on the exercise date.

Voting Rights

Participants may direct the voting of shares of the Company stock allocated to their accounts on any matter on which shareholders are allowed to vote. Such matters are limited to the approval or disapproval of any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, sale of substantially all assets of a trade or business, or other similar transactions. Each participant will be provided with notification of the shareholders meeting and the proxy voting instruction form, which will need to be returned to the trustee prior to said meeting. The trustee will vote all shares according to those instructions. The trustee will vote all shares for which no instruction was received in its discretion.

Plan Termination

The Company intends to continue the Plan indefinitely for the benefit of its participants; however, it reserves the right to terminate and/or modify the Plan at any time by resolution of its Board of Directors and subject to the provisions of ERISA. In the event the Plan is terminated in the future, participants would become fully vested in their accounts.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

MARTIN/BRATTRUD, INC. EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2024 AND 2023

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the period. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates. Significant estimates include the valuation of Company common stock.

Risks and Uncertainties

The Plan invests in the common stock of the Company and a registered investment company, which are exposed to various risks, such as interest rate risk, credit risk and market risks, as well as valuation assumptions based on earnings, cash flows or other techniques. Due to the level of risk associated with these investments and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of these investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Payment of Benefits

Benefits are recorded when paid.

Plan Fees and Administrative Expenses

Plan fees and administrative expenses are generally paid by the Company, unless paid by the Plan. Plan expenses paid by the Company are not included in these financial statements.

MARTIN/BRATTRUD, INC. EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2024 AND 2023

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

Subsequent Events

The Company has evaluated subsequent events through the date of the independent auditor's report, which is the date the accompanying financial statements were available to be issued.

3. FAIR VALUE MEASUREMENTS

The Financial Accounting Standards Board provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under this framework are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

MARTIN/BRATTRUD, INC. EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2024 AND 2023

3. FAIR VALUE MEASUREMENTS – (Continued)

Martin/Brattrud, Inc. common stock: The fair value of the Company’s common stock was determined by an independent appraisal on a minority interest basis. This appraisal was based upon a combination of the income and market valuation techniques. The asset-based approach was not used as it provides no consideration of earnings. The appraiser took into account historical and projected cash flows and market comparables. Plan management has concluded that a market participant would also recognize a discount for lack of marketability. This investment is classified within level 3 of the valuation hierarchy because the asset value is not based on an active market with quoted prices and was determined using observable and unobservable inputs.

Registered investment company: This investment is a public investment vehicle valued using the net asset value (the NAV) provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and classified within level 1 of the valuation hierarchy.

Interest-bearing cash: Interest-bearing cash consists of money market investments and cash balances held at a financial institution. The carrying value is believed to be representative of its fair value based on its short term nature and are classified within level 1 of the valuation hierarchy.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan’s investments at fair value as of December 31, 2024 and 2023:

<u>Description</u>	<u>Total</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
<u>December 31, 2024</u>

Total investments at fair value	<u>\$ 11,371,566</u>	<u>\$ 5,283,966</u>	<u>\$ -</u>	<u>\$ 6,087,600</u>

In regards to the classification of investment options offered by the Plan, there were no reclassifications in or out of levels 1, 2 or 3 during the year ended December 31, 2024.

The following table presents a summary of changes in the fair value of the Plan’s level 3 assets for the year ended December 31, 2024:

	<u>Investment in Company Stock</u>
Balance, beginning of year	\$ 6,087,600
Net unrealized appreciation	<u>1,251,000</u>
Balance, end of year	<u>\$ 7,338,600</u>

4. INVESTMENT IN COMMON STOCK

The following table summarizes the investment in Company common stock as of December 31, 2024 and 2023:

	<u>2024</u>	<u>2023</u>
Martin/Bratrud, Inc. Common stock		
Number of shares	60,000	60,000
Cost	\$ 6,498,549	\$ 6,014,363
Market	\$ 7,338,600	\$ 6,087,600

The cost amounts above include cumulative basis adjustments of \$1,048,549 and \$564,363 as of December 31, 2024 and 2023, respectively.

MARTIN/BRATTRUD, INC. EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2024 AND 2023

5. COMPANY DIVIDENDS

The Company paid dividends on allocated shares to the Plan of \$870,000 during the year ended December 31, 2024.

6. TAX STATUS

The Company received a favorable opinion letter from the Internal Revenue Service (IRS), on October 21, 2015, which stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has since been amended. The plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. PARTY-IN-INTEREST TRANSACTIONS

The Plan allows for transactions with certain parties who may perform services or have fiduciary responsibilities to the Plan. Such parties are parties-in-interest under ERISA. The Plan invests in Company common stock. Certain Plan investments were held by Wells Fargo Bank N.A., the custodian of the Plan, during 2024. The Company paid certain administrative expenses, including recordkeeping, valuation, trustee and audit fees. These transactions qualify as party-in-interest transactions for which a statutory exemption exists.

8. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

Dividends earned on registered investment company is reported separately on the accompanying statement of changes in net assets available for benefits, however, dividends totaling \$313,393 are reported within net investment gain (loss) from registered investment companies on the Form 5500.
