INDEPENDENT AUDITOR'S REPORT

June 26, 2025

To the Administration Committee
ACCO Employee Stock Ownership Plan

Opinion

We have audited the accompanying financial statements of the ACCO Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of September 30, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended September 30, 2024, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the ACCO Employee Stock Ownership Plan as of September 30, 2024 and 2023, and the changes in its net assets available for benefits for the year ended September 30, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the ACCO Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the ACCO Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the ACCO Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the ACCO Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule of Assets (Held at End of Year) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

ACCO EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements

September 30, 2024

1. Plan Description

The following description of the ACCO Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

ACCO Engineered Systems, Inc. (ACCO or the Company) established the Plan effective October 1, 2007. The Plan operates as a leveraged employee stock ownership plan (ESOP), and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (Code) and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan is administered by an Administration Committee (Committee), and trustee, appointed by the Company's Board of Directors.

The Plan purchased Company common stock using the proceeds of a loan from the Company. On May 5, 2023, the outstanding original loan was replaced with a new promissory note. In addition, on September 15, 2023, the Plan purchased previously allocated common stock using the proceeds of an additional loan from the Company (Note 9). As the Plan makes each of the payments, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the Code.

The loans are collateralized by the unallocated shares of common stock and are guaranteed by the Company. The financial statements of the Plan as of September 30, 2024 and 2023, and for the year ended September 30, 2024, present separately the assets and liabilities and changes therein pertaining to:

1. the accounts of employees with vested rights in allocated common stock (Allocated), and
2. common stock not yet allocated to employees (Unallocated).

Eligibility

Employees of the Company are generally eligible to participate in the Plan after one year of service providing they worked at least 1,000 hours during the Plan year. Participants who do not have at least 1,000 hours of service during the Plan year, or are not employed on the last working day of the Plan year, are generally not eligible for an allocation of Company contributions for the year. With the exception of certain construction and service department management positions covered by a collective bargaining agreement, employees whose terms of service are covered by a collective bargaining agreement are not eligible to participate in the Plan.

Employer Contributions

The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. Employees are not permitted to make contributions.

1. Plan Description (continued)

Payment of Benefits

Distributions on account of normal retirement (age 65), death or disability will be paid in a lump-sum. Distributions prior to normal retirement age (age 65), and for reasons other than death or disability, will be paid in either a lump-sum distribution (for vested benefits of \$300,000 or less), or in five annual installments, subject to a \$300,000 minimum installment amount and one-year extensions for each \$275,000 by which the value exceeds \$1,380,000 as indexed for cost of living adjustments, up to a maximum of nine installments. All distributions are paid following completion of the recordkeeping for the preceding or current Plan Year, depending on the date of the termination. Distributions of benefits are made in either cash or shares, as selected by the Committee; however, distributions of shares are subject to the requirement that the shares be immediately resold back to the Plan or the Company. The total amount allocated to accounts of persons who have elected to withdraw from the Plan at September 30, 2024, but have not been paid is \$62,279,779.

Voting Rights

Company stock held in the trust is voted by the Trustee. In limited circumstances, each participant is entitled to direct the Trustee as to the exercise of voting rights attributable to shares allocated to his or her account.

Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will become 100% vested and will be distributed to the participant or his or her beneficiary at the time prescribed by the Plan terms and the Code.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's common stock released from the unallocated Suspense Account and forfeitures of terminated participants' non-vested accounts. Only those participants who are both eligible employees of the Company as of the last day of the plan year and who are credited with at least 1,000 Hours of Service for the plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. In general, Plan earnings and S Corporation distributions are allocated to each participant's account based on the ratio of the participant's beginning of the year account balance to all participants' beginning of the year account balances.

ACCO EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements

1. Plan Description (continued)

Vesting

If a participant's employment with the Company ends for any reason other than retirement or death, he or she will vest in the balances in his or her account based on total years of service with the Company. Participants vest 20% per year of service and are 100% vested after five years of service.

Put Option

Under Federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the appraised value of the stock. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a distribution in cash or to another qualified account.

Forfeitures

Employer contributions and Plan forfeitures are allocated to each participant's account based upon the relation of the participant's compensation to total compensation for the plan year. Forfeitures of terminated non-vested account balances allocated to remaining participants at September 30, 2024 and 2023, totaled \$1,357,167 and \$1,813,175, respectively.

2. Summary of Significant Accounting Policies

Basis of Presentation

The financial statements of the Plan are prepared using the accrual method of accounting.

ACCO EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements

September 30, 2024

2. Summary of Significant Accounting Policies (continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock (“allocated”) and (b) stock not yet allocated to employees (“unallocated”), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for the disclosure of fair value of investments.

Purchases and sales of securities are recorded on a trade-date basis. Investment income is recorded on the accrual basis. Net appreciation or depreciation includes the plan’s gains and losses on investments bought and sold as well as held during the year.

Administrative Expenses

All expenses of maintaining the Plan are paid by the Company.

Payment of Benefits

Benefits are recorded when paid.

Evaluation of Subsequent Events

The Administration Committee has evaluated subsequent events through June 26, 2025, which was the date the financial statements were available to be issued, and has determined that with the exception of the refinance of the Plan Loan with the Company, there were no subsequent events requiring recognition or disclosure in the financial statements.

ACCO EMPLOYEE STOCK OWNERSHIP PLAN

3. Fair Value Measurements

The Plan's investments are reported at estimated fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurements at the reporting date. The following tables present fair value measurement information for certain financial instruments.

Description	Quoted prices in active markets for identical assets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)	Total
<u>September 30, 2024</u>				
ACCO Engineered Systems, Inc. common stock	\$ -	\$ -	\$ 1,441,375,365	\$ 1,441,375,365
Mutual Funds	-	952,166	-	952,166
Total	\$ -	\$ 952,166	\$ 1,441,375,365	\$ 1,442,327,531
<u>September 30, 2023</u>				
ACCO Engineered Systems, Inc. common stock	\$ -	\$ -	\$ 1,215,874,779	\$ 1,215,874,779
Bonds	-	1,300,946	-	1,300,946
Total	\$ -	\$ 1,300,946	\$ 1,215,874,779	\$ 1,217,175,725

The fair value measurements accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets; and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

ACCO EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements

September 30, 2024

3. Fair Value Measurements (continued)

Level 3 Fair Value Measurements

The fair value of the Company common stock is determined by an annual independent appraisal. This appraisal was based on a combination of the market and income valuation approaches consistent with prior years. The appraiser took into account historical and projected cash flow and net earnings, weighted average cost of capital, market comparables, applicable discounts and premiums, and the estimated fair value of company assets and liabilities.

The trustee determines the fair value measurement policies and procedures. Those policies and procedures are reassessed at least annually to determine if the current valuation techniques are still appropriate. At that time, the unobservable inputs used in the fair value measurements are evaluated and adjusted, as necessary, based on current market conditions and other third-party information.

The following table presents the fair value measurement information for the Plan's investment in Company common stock. The carrying value of cash and loans payable approximated fair value at September 30, 2024 and 2023, and are thus not included in the following table.

ACCO Engineered Systems, Inc.

<u>Common Stock at September 30,</u>	<u>2024</u>	<u>2023</u>

Notes to Financial Statements

September 30, 2024

3. Fair Value Measurements (continued)

Gains and losses (realized and unrealized) included in the changes in net assets available for benefits for the year ended September 30, 2024 are reported in net appreciation or depreciation in fair value of investments.

The Plan's policy is to recognize transfers into and out of Level 3 as of the date of the event or change in circumstances that caused the transfer. For the years ended September 30, 2024 and 2023, there were no transfers into or out of Level 3.

4. Tax Status

The IRS has determined and informed the Plan sponsor by a letter dated August 19, 2017, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

5. Administration of Plan Assets

The Plan's assets, which consist principally of Company common stock, are held by the Trustee of the Plan.

Company contributions are held and managed by the Trustee, which invests cash received, interest, dividends, and S Corporation distribution income and makes distributions to participants.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

7. Risks and Uncertainties

The Plan's investments consist primarily of the Company's common stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

8. Related Party and Party-in-Interest Transactions

The Plan invests in common stock of the Company, which is a related party. In addition, the Plan has a number of service providers which are parties in interest under ERISA. The Company pays most of the expenses of maintaining the Plan, which are party-in-interest transactions.

9. Loans Payable

Notes payable consist of the following as of September 30:

	2024	2023
Note payable to the Company, with annual payments of \$4,943,951 including interest fixed at 3.72%, maturing September 30, 2061.	\$ 98,497,165	\$ 99,731,119
Note payable to the Company, with annual payments of \$4,582,971 including interest fixed at 4.19%, maturing September 30, 2062.	86,388,531	87,313,083
	\$ 184,885,696	\$ 187,044,202

The scheduled amortization of notes payable is as follows, for the years ending September 30:

2025	\$	2,243,148
2026		2,331,121
2027		2,422,556
2028		2,517,589
2029		2,616,365
Thereafter		172,754,917
	\$	184,885,696

Unallocated shares are collateral for the loan. The fair value of the Plan's note payable approximates its carrying amount. Each year, shares are released from the pledge as the loan is repaid, according to the following formula: the total number of shares held under pledge (immediately before the release) multiplied by the ratio of total interest and principal payments for the year to total interest and principal payments remaining on the loan. For the year ended September 30, 2024, approximately 57,592 shares were released from the pledge.
