Independent Auditor's Report

To the Plan Administrator
Materials Processing, Inc. Employee Stock Ownership Plan

Opinion

We have audited the accompanying financial statements of **Materials Processing, Inc. Employee Stock Ownership Plan**, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets (deficit) available for benefits as of September 30, 2024 and 2023, and the related statement of changes in net assets (deficit) available for benefits for the year ended September 30, 2024, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of **Materials Processing, Inc. Employee Stock Ownership Plan** as of September 30, 2024 and 2023, and the changes in its net assets available for benefits for the year ended September 30, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of **Materials Processing, Inc. Employee Stock Ownership Plan** and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about **Materials Processing, Inc. Employee Stock Ownership Plan's** ability to continue as a going concern within one year after the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Materials Processing, Inc. Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Materials Processing, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of September 30, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

MATERIALS PROCESSING, INC. EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO FINANCIAL STATEMENTS September 30, 2024 and 2023

NOTE 1 - DESCRIPTION OF PLAN

The following description of Materials Processing, Inc. Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General: Materials Processing, Inc. and its affiliated participating employers (collectively, the Employer) established the Plan effective October 1, 2021, as a leveraged employee stock ownership plan (ESOP) designed to comply with Sections 401 and 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (IRC). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by the ESOP Committee as appointed by the Employer's Board of Directors. An independent third-party service provider serves as the Plan's Trustee.

Effective December 31, 2021, the Plan purchased 100% (2,000,000 shares) of the outstanding common stock of the Employer at a total purchase price of \$28,381,185 which was funded with an acquisition loan from the Employer (see Note 5) and holds the common stock in a trust established under the Plan. The note is collateralized by the unallocated shares of common stock. The lender has no rights against shares of common stock once they are allocated to participants in accordance with the terms of the ESOP. Accordingly, the financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to the accounts of employees with rights in allocated common stock (allocated) and common stock not yet allocated to employees (unallocated).

Eligibility: Employees of the Employer are generally eligible to participate in the Plan after completion of one year of service and attainment of age 19, as defined in the Plan Agreement.

Employer Contributions: The Employer is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, if any, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. Contributions are allocated to participants based on their respective eligible compensation during the year and their respective number of years of service, as well as employee deferral contributions made to Employees' Savings and Investment Plan of Materials Processing, Inc., subject to the maximum amount permitted under the IRC. Participants who do not have at least 1,000 hours of service during such Plan year and are not employed as of September 30th are generally not eligible for an allocation of Employer contributions for such year.

Participant Accounts: The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Employer's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' nonvested accounts. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance to total plan assets, as defined in the Plan Agreement.

Voting Rights: The Trustee votes all of the Employer's common stock held by it as part of the Plan assets as directed by the Employer, provided that the participant or participant's beneficiary is entitled to direct the Trustee as to the manner in which voting rights on shares of the Employer's common stock which are allocated to the participant's account are to be exercised with respect to the approval or disapproval of any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, sale of substantially all assets, or such similar transaction. If the participant does not exercise his or her right to vote the Employer's common stock, the Trustee will vote such shares on behalf of the collective best interest of Plan participants and beneficiaries, subject to the Trustee's fiduciary duties under ERISA.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

Vesting and Forfeitures: If a participant's employment with the Employer ends for any reason other than retirement, permanent disability, or death, he or she will vest in the balances in his or her account based on total years of service with the Employer. A participant becomes 20% vested after one year of service, increasing each year thereafter by 20%, with full vesting after five years of credited service. Although participants become vested in their account balances, the timing of the payment of their benefits is subject to certain restrictions as specified below under *Benefits*.

Plan forfeitures are allocated to each participant's account the earlier of the Plan year in which the participant is fully paid out or after a former participant incurs five consecutive one-year breaks in service based upon the relation of the participant's eligible compensation to total eligible compensation for the Plan year. There were no forfeitures allocated to participants during the year ended September 30, 2024.

Benefits: Distributions from the Plan will commence, in the form of lump-sum payments, as soon as practicable in the first Plan year following the Plan year in which a participant attains Normal Retirement Age (65) or as the result of the participant's death or disability.

For a participant who terminates for a reason other than attaining age 65, disability or death, the timing of when the Plan commences distributions is based on the participant's vested account balance. If the participant's vested account balance is less than \$5,000, a distribution is made in a single lump-sum as soon as administratively practicable in the first Plan year following the year of termination. If a participant's vested account balance is greater than \$5,000, the distributions are made in annual installments up to five years depending on the participant's vested account balance as soon as administratively practicable following the earlier of the end of the fifth Plan year following the year of termination, or the end of the Plan year in which the participant attains age 65. Vested account balances exceeding a certain dollar threshold as defined in the Plan Agreement may be paid in annual installments exceeding five years.

Notwithstanding the above, no portion of a participant's account attributable to the Employer's common stock acquired with the proceeds of a loan will be distributed until the Plan year following the Plan year in which the loan to which the shares are attributable is fully paid.

Put Option: Under federal income tax regulations, the Employer's common stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Employer buy any shares of its common stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Employer can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification: Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in the Employer's common stock into investments that are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. The election to diversify is made subsequent to year-end based upon the shares of the Employer's common stock in the participant's account at year-end. As the Plan was newly established in 2021, these diversification rules will not apply until the 2031 Plan year.

Plan Termination: The Employer reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the Employer's Board of Directors should direct the Trustee to pay all liabilities and expenses of the trust fund and to sell shares of financed common stock held as collateral to the extent it determines such sale to be necessary in order to repay the loan. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Allocations: The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of participants with rights in allocated stock (allocated) and (b) stock not yet allocated to participants (unallocated), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment Valuation and Income Recognition: The shares of the Employer's common stock are valued at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of the fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits: Benefits are recorded when paid.

Expenses: Administrative expenses for maintaining the Plan may be paid by the Employer or the Plan, at the Employer's discretion. The Employer has historically paid the administrative expenses for the Plan.

Tax Status: The Internal Revenue Service (IRS) has determined and informed the Employer by a letter dated September 28, 2022, that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan Administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC. Therefore, the Plan Administrator believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require the Plan's management to evaluate tax positions taken by the Plan and to recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other taxing authorities.

The Plan is subject to routine audits by taxing authorities; however, there are currently no audits for any tax periods in process.

Subsequent Events: The Plan Administrator has evaluated the financial statements for subsequent events occurring through July 7, 2025 the date the financial statements were available to be issued.

NOTE 3 - FAIR VALUE MEASUREMENTS

The Plan has categorized its assets and liabilities that are measured at fair value into a three-level fair value hierarchy. The hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 3 - FAIR VALUE MEASUREMENTS (CONTINUED)

The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement. In situations where there is little or no market activity for the asset or liability, the Plan makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

Following is a description of the valuation methodology used by the Plan for assets that are measured at fair value on a recurring basis. There have been no changes in the methodology used at September 30, 2024 and 2023.

Common Stock of Materials Processing, Inc.: Valued at the aggregate fair value as determined annually by the Plan Trustee based on a report from an independent valuation specialist at the reporting date. The independent valuation specialist utilized a weighted valuation considering the discounted cash flow and the guideline public companies methods based on the Employer's current and historical operations and future financial projections, with a certain adjustment related to lack of marketability to determine the fair value.

The preceding method may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan's management believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of these assets could result in a different fair value measurement at the reporting date.

Following is a summary, within each level of the fair value hierarchy, of the Plan's assets that are measured at fair value on a recurring basis as of September 30, 2024 and 2023:

2024	Level 3	Total
Common stock of Materials Processing, Inc.	<u>\$14,100,000</u>	<u>\$14,100,000</u>
2023		
Common stock of Materials Processing, Inc.	<u>\$ 4,420,000</u>	<u>\$ 4,420,000</u>

Following is a summary of the changes in the fair value of the Plan's Level 3 asset for the year ended September 30, 2024:

	Common Stock of Materials Processing, Inc.
Balance at beginning of year	\$ 4,420,000
Unrealized appreciation (depreciation) in estimated fair value	<u>9,680,000</u>
Balance at end of year	<u>\$14,100,000</u>

NOTE 4 - INVESTMENT IN EMPLOYER COMMON STOCK

Quantitative fair value disclosures about significant unobservable inputs used in the fair value measurement for the Employer's common stock have been omitted as the Plan previously adopted ASU No. 2013-09, *Fair Value Measurement (Topic 820): Deferral of the Effective Date of Certain Disclosures for Nonpublic Employee Benefit Plans in Update No. 2011-04*, which allows for the indefinite deferral of these disclosure requirements.

The Plan's investment in the Employer's common stock at September 30, 2024 and 2023, was as follows:

	2024		2023	
	Allocated	Unallocated	Allocated	Unallocated
Number of Shares	200,001	1,799,999	133,334	1,866,666
Cost (see Note 5)	<u>\$2,838,133</u>	<u>\$25,543,052</u>	<u>\$1,892,088</u>	<u>\$26,489,097</u>
Fair Value	<u>\$1,410,000</u>	<u>\$12,690,000</u>	<u>\$ 294,667</u>	<u>\$ 4,125,333</u>

The net appreciation of the Employer's common stock was \$9,680,000 for the year ended September 30, 2024.

NOTE 5 - NOTE PAYABLE

Effective December 31, 2021, the Plan entered into a \$28,381,185 term loan agreement with the Employer. The note bears interest at 1.90% and matures in September 30, 2051. The proceeds of the loan were used to purchase the Employer's common stock. Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, times the ratio of the current year payments divided by the total of the year's payments, plus all future years' principal and interest payments. This resulted in 66,667 shares being released and allocated for the Plan year ended September 30, 2024.

Aggregate annual principal maturities of the note payable at September 30, 2024, are as follows:

Payable In Fiscal Year Ending September 30,	Principal
2025	748,363
2026	762,582
2027	777,071
2028	791,836
2029	806,880
Thereafter	<u>22,198,666</u>
Total	<u>\$26,085,398</u>

NOTE 6 - TERMINATED PARTICIPANTS

Included in net assets available for benefits are amounts allocated to terminated participants who have vested account balances but are not eligible for a withdrawal from the Plan until they reach retirement age, become disabled, deceased, or the earlier of the end of the fifth Plan year following the year of termination or the year following the Plan year in which the stock acquisition loan is repaid to the Employer (see Note 5). Net assets available for benefits allocated to these individuals who have partially vested accounts total \$0 at September 30, 2024 and 2023. Net assets available for benefits allocated to these individuals who have fully vested accounts total \$0 at September 30, 2024 and 2023.

NOTE 7 - RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association, or relatives of such persons.

The Plan's assets are invested in the Employer's common stock. As discussed in Note 5, the Plan has a note payable to the Employer for the unallocated shares held by the Plan and pays interest to the Employer. These transactions qualify as exempt party-in-interest transactions.

The Employer provides certain accounting and administrative services to the Plan for which it receives no compensation.

NOTE 8 - RISKS AND UNCERTAINTIES

The Plan's investments consist of the Employer's common stock, which is exposed to various risks, such as interest rate, market and credit risks, as well as valuation assumptions based on earnings, cash flows and/or other such techniques. Due to the level of risk associated with the investment in the Employer's common stock and to uncertainties inherent in the estimates and assumptions process, it is at least reasonably possible that changes in the value of the Employer's common stock will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Plan's financial statements.
