INDEPENDENT AUDITOR'S REPORT

December 31, 2024 and 2023

June 17, 2025

First State Bank and Trust Employee Stock Ownership Plan and Trust
Tonganoxie, Kansas

Independent Auditor's Report

Scope and Nature of the ERISA Audit

We have performed audits of the financial statements of First State Bank and Trust Employee Stock Ownership Plan and Trust (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section, the amounts and disclosures in the accompanying financial statements are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

June 17, 2025

First State Bank and Trust Employee Stock Ownership Plan and Trust
(Continued)

Auditor's Responsibilities for the Audit of the Financial Statements (Continued)

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter — Supplemental Schedule Required by ERISA

The supplemental Schedule of Assets Held for Investment Purposes at December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

Note 1: Description of the Plan

The following description of the First State Bank and Trust Employee Stock Ownership Plan and Trust (the Plan), provides only general information. Refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering employees of First State Bank and Trust, Inc (the Company). Employees of the Company are eligible to participate in the Plan after six months of service and attaining the age of 18. Employees can enter the Plan the earlier of first day of the plan year or the first day of the 7th month of the Plan following the completion of six months of employment. Only participants who have completed 1,000 hours of service during a plan year and are employed on the last day of the Plan year are eligible to receive an allocation of the employer contribution. Employees terminated during the Plan year due to retirement, disability, or death are still eligible for the employer contribution. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Employer Contributions

At the discretion of the Company's Board of Directors, the Company may make contributions as defined in the Plan document. Employer contributions are allocated to eligible participants based upon the percentage of the participant's compensation to the total compensation of all eligible participants. The discretionary contributions resulted in employer contributions of \$176,826 and \$131,183 for the years ended December 31, 2024 and 2023, respectively.

Participant Accounts

Each participant's account is credited with the allocations of the employer's contribution and allocated forfeitures. Plan earnings are allocated proportionately among all participants based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants will become vested in the employer contributions, and any earnings attributable to these contributions on a six year graduated vesting schedule.

Payment of Benefits

Distributions are made upon death, disability, retirement, or termination of employment. Participants can choose to receive their distributions from available options as described in the Plan document. Mandatory distributions can be made following severance from employment when the participant's account balance is \$5,000 or less without written consent.

Forfeitures

Forfeitures represent the non-vested portion of participant account balances upon termination. Participants forfeit the non-vested portion of employer contributions made on their behalf upon the earlier of the date they withdraw from the Plan or upon Plan-specified number of breaks in service. Forfeited amounts are allocated to remaining participants based on the participant's share of total eligible compensation received during the Plan year. There were no unallocated forfeitures at December 31, 2024 or 2023, as such the balance of the forfeiture account was \$0 for both years. The amount forfeited and allocated to remaining participants for years ended December 31, 2024 and 2023 were \$1,559 and \$5,589, respectively.

Note 1: Description of the Plan (Continued)

Put Option

Under Federal income tax regulations, the Company stock that is held by the Plan and not readily tradable on the market or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock for which there is no market that is distributed to participants. The put option period begins on the date following the date of distribution and ends 60 days after such date. The put price is representative of the fair valuation of the stock. The Company can pay for the purchase with interest over a period of five years.

Voting Rights

Normally, all shares of Company stock held by the Plan are voted by the Plan Trustee at the direction of the Plan Administrator. However, participants or beneficiaries have the right to direct the Plan Trustee how to vote the shares of Company stock credited to their Employee Stock Ownership Plan (ESOP) accounts with respect to the following limited matters: the approval or disapproval of any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, sale of substantially all of the assets of the Company, or any similar transaction set forth in Internal Revenue Service (IRS) regulations. If the participant or beneficiary does not timely exercise the right to vote Company stock, the Trustee, at the direction of the Plan Administrator will vote such Company stock.

Diversification

Diversification is offered to participants so that they may have the option to move part of the value of their investment in Company common stock to investments that are more diversified. Participants who have completed at least 10 years of participation in the Plan and have attained the age of 55 are able to diversify their employer stock holdings. Participants can choose to receive their distribution in cash, invest in other investments, or transfer their holdings to the First State Bank and Trust of Tonganoxie 401(k) Profit Sharing Plan & Trust. Participants can elect to diversify 25% of the Company's common stock annually under the Plan. This election right extends for a six-year period commencing with the Plan year in which they first become qualified to diversify. The amount the participant can diversify is cumulative for the six years and for the final election year, the election percentage increases to 50%.

Note 2: Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America. Contributions from the Company are accrued in the period in which they become an obligation of the employer by declaration of the Board of Directors.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Payment of Benefits

Benefits are recorded when paid. As of December 31, 2024 and 2023 the Plan had no pending distributions of a participant requesting distribution but not receiving it until the subsequent year.

Investment Valuation and Income Recognition

The Plan's investments are presented at fair market value as of the Plan's year end. Fair market value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Trustee Committee determines the Plan's valuation policies.

The Plan is required to allow participants to direct the investment of the portion of their account attributable to deferral contributions transferred from the 401k Plan. If participants do not elect to direct the investment of this portion of their account, the Trustee is responsible for the investment of these assets. As of December 31, 2024 and 2023, all investments are nonparticipant directed.

Investments

The primary investment of the Plan is the common shares of Tonganoxie Bankshares, Inc. The Plan's investment in Tonganoxie Bankshares, Inc. is summarized as follows:

	2024	2023
	Allocated	Allocated
Number of Shares	<u>10,729</u>	<u>10,729</u>
Cost	<u>\$ 1,484,287</u>	<u>\$ 1,484,287</u>
Fair Value	<u>\$ 5,053,359</u>	<u>\$ 4,425,713</u>

Administrative Fees

Certain expenses of maintaining the Plan are paid by the Plan Sponsor without charge to the Plan.

Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

See Note 3 for further documentation on fair value measurements.

Note 3: Fair Value Measurements

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
December 31, 2024				
Deposit Account - Cash Equivalent	\$ 31,597	\$ -	\$ -	\$ 31,597
Tonganoxie Bankshares, Inc	-	-	5,053,359	5,053,359
Total Fair Value Investments	<u>\$ 31,597</u>	<u>\$ -</u>	<u>\$ 5,053,359</u>	<u>\$ 5,084,956</u>
	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
December 31, 2023				
Deposit Account - Cash Equivalent	\$ 30,043	\$ -	\$ -	\$ 30,043
Tonganoxie Bankshares, Inc	-	-	4,425,713	4,425,713
Total Fair Value Investments	<u>\$ 30,043</u>	<u>\$ -</u>	<u>\$ 4,425,713</u>	<u>\$ 4,455,756</u>

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The valuation methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There have been no changes in the methodologies used at December 31, 2024 and 2023. Following is a description of the valuation methodologies used for assets measured at fair value.

Company Stock

The common stock of Tonganoxie Bankshares, Inc has been determined by an independent annual appraisal under contract for a term of one year. The appraisal was based on a combination of various market and income valuation techniques consistent with prior years. The appraiser took into account historical and projected net income, return on assets, return on equity, various ratios, market comparables, banking and industry trends, and several other statistics. The appraiser prepares a valuation report, on which Plan management review in detail and approves.

The following table sets forth the summary of changes in the fair value of the Plan's level 3 assets for the years ended December 31;

	<u>2024</u>	<u>2023</u>
Beginning balance	\$ 4,425,713	\$ 4,270,142
Appreciation in fair value of common stock	627,646	155,571
Ending Balance	<u>\$ 5,053,359</u>	<u>\$ 4,425,713</u>

Money Market Accounts

Money market accounts held by the Plan are valued at fair market value. Cost approximates fair value for this account. This is the only asset, other than Company stock, that the Plan holds.

Note 4: Related Party and Party in Interest Transactions

The Company absorbs the cost of audit fees related to the Plan, some administrative fees and the cost of fidelity bonds. The Company provides administrative services on behalf of the Plan. As the Plan does not reimburse the Company for the cost of such services, they are not included in these financial statements.

Administrative functions are performed by officers or employees of the Company. Additional party-in-interest transactions include audit fees paid to Varney & Associates, CPAs, LLC in 2024, and third party administration fees to TPP Retirement Plan Specialists, LLC. These transactions qualify as exempt party-in-interest transactions.

Note 5: Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 6: Tax Status

The Company adopted a non-standardized prototype Plan document. The Internal Revenue Service issued an opinion letter, dated June 30, 2020, on the prototype Plan document, indicating the basic plan document is acceptable under Code Section 401 of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the letter, the Plan Administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service or the Department of Labor. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for the years prior to 2021.

Note 7: Risks and Uncertainties

The Plan's assets include common stock of Tonganoxie Bankshares, Inc. Investment securities are exposed to various risks such as interest rate, economic risk, lack of diversification, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 8: Reconciliation of Financial Statements to Form 5500

Schedule H of Form 5500 reconciles to the financial statement amounts.
