INDEPENDENT AUDITORS' REPORT

To the ESOP/Finance Committee

PRENTKE-ROMICH COMPANY EMPLOYEE STOCK OWNERSHIP PLAN

Opinion

We have audited the financial statements of the Prentke-Romich Company Employee Stock Ownership Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statements of net assets available for benefits as of September 30, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended September 30, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of September 30, 2024 and 2023, and the changes in its net assets available for benefits for the year ended September 30, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on these financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of September 30, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional

procedures; including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

PRENTKE-ROMICH COMPANY EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO FINANCIAL STATEMENTS

(1) Description of plan

The following description of the Prentke-Romich Company Employee Stock Ownership Plan (the "Plan") provides only general information. Participants should refer to the Plan document or Summary Plan Description, which are available from the Plan Administrator, for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan sponsored by Prentke-Romich Company (the "Company") for the benefit of substantially all domestic employees who have at least one year of service, defined as 1,000 hours, and are age twenty-one or older. Eligible employees may join the Plan on the first day of the Plan year in which the employee attained entry eligibility. The Plan is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended ("IRC") and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan is administered by the ESOP/Finance Committee of the Company. The Committee has overall responsibility for the operation and administration of the Plan. An entity that specializes in fiduciary services serves as the Plan's trustee.

During 2008, the Plan purchased all remaining shares of the Company's stock and issued a loan payable to the Company. The loan payable (Note 5) is collateralized by unallocated shares of Company stock. As the Plan makes each payment of principal, an appropriate percentage of stock is allocated to eligible employees' accounts in accordance with applicable regulations under the IRC. Allocated shares are subject to vesting. The Company has no rights against shares of Company stock once they are allocated under the ESOP. Accordingly, the financial statements of the Plan as of September 30, 2024 and 2023 and for the year ended September 30, 2024 present separately the assets and liabilities and changes therein pertaining to the accountings of employees with rights in allocated Company stock (allocated) and Company stock not yet allocated to employees (unallocated).

Employer contributions - Employer contributions shall be made in amounts determined by the Board of Directors in its sole discretion, provided that the Board of Directors shall direct that Employer contributions be made in an amount sufficient to allow the trust fund to satisfy any currently maturing obligations of the loan payable or, shall agree to extend the term of such loan payable so as to prevent default by the trust under such loan payable. During 2024, the Company did not contribute any additional amounts to cover the Plan's distribution obligations; however, the Company did contribute 122.2368 shares of Company stock valued at \$1,746,764.

Put option - Under Federal income tax regulations, the Company stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock and its purpose is to ensure that participants have the ability to ultimately receive cash.

PRENTKE-ROMICH COMPANY EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO FINANCIAL STATEMENTS

(1) Description of plan (Continued)

Participant accounts - Under the Plan, an account is maintained for each participant. Eligible participants must be employed by the Company on the last day of the Plan year to share in the annual allocation of the Company's stock released by the Plan. A participant who dies or becomes disabled during the Plan year may also share in that Plan year's allocation. Each participant's account is credited as of the last day of the Plan year with an allocation of shares of the Company's stock released by the Trustee from the unallocated account and forfeitures of terminated participants' non-vested accounts. The allocation of non-highly compensated participants' contributions and forfeitures to participant accounts is determined based on compensation as defined in the plan document. Highly compensated participants' allocations are based on their individual compensation relative to total highly compensated employees compensation. Plan earnings and expenses are allocated to each participant's account based on a proportion of the participant's stock or cash account as defined to the stock or cash accounts of all participants.

Vesting - A participant is fully vested after six years of credited service.

Forfeitures - The non-vested portion of a participant's account is forfeited upon the completion of a five-year break in service. If a former participant is rehired by the Company before incurring the break in service, their non-vested account balance is then reinstated to that participant. Any remaining forfeited balances are deemed to be a Company contribution. As of September 30, 2024 and 2023, forfeited balances from participants' accounts totaled \$1,020,726 and \$886,916, respectively. In 2024, no forfeited amounts were used to reinstate non-vested accounts of formerly terminated participants. Also in 2024, amounts for nonvested forfeited shares totaling \$280,313 were allocated among remaining eligible participants.

Payment of benefits - Benefits are paid upon retirement, death, disability or, in certain cases, termination of employment. The Plan administrator may automatically make a lump-sum distribution for account balances less than \$1,000 or an automatic rollover distribution to an IRA for account balances between \$1,000 and \$5,000. Distributions on account of death, disability or retirement are made available for payout over a five year period beginning in the Plan year following the event. Distributions for other separations from service commence at the end of the sixth Plan year following the separation from service and are made in five substantially equal annual installments. A participant or beneficiary will receive an amount equal to the value of the participant's vested interest in his or her account.

Under the provisions of the Plan, the Company is obligated to repurchase participant shares which have been distributed under the terms of the Plan if the shares are not publicly traded or if the shares are subject to trading limitations.

Administrative expenses - Certain expenses of the Plan are paid by the Company and are not included in the statement of changes in net assets available for benefits.

PRENTKE-ROMICH COMPANY EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO FINANCIAL STATEMENTS

(1) Description of plan (Continued)

Voting rights - The Trustee shall vote all employer stock held in the Plan, irrespective of whether such stock is allocated or unallocated. However, each participant or beneficiary shall have the right to direct the Trustee as to voting of shares of Company stock in their participant account with respect to certain delineated corporate transactions specified in the Plan document.

Diversification - Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 and have 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25 percent of the number of shares allocated to his or her account. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify may transfer the diversification amounts into another qualified plan sponsored by the Company or receive a distribution under the Plan.

(2) Summary of significant accounting policies

Basis of accounting - The financial statements of the Plan are prepared on the accrual method of accounting.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the management to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Allocations - The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to: (a) the accounts of employees with rights in allocated stock ("allocated") and (b) stock not yet allocated to employees ("unallocated"), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment valuation and income recognition - The shares of Company stock are valued at estimated fair value. See Note 4 for discussions of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payment of benefits - Benefits are recorded when paid.

NOTES TO FINANCIAL STATEMENTS

(3) Investments

At September 30, 2024 and 2023, the Plan held 8,012 and 8,162 shares, respectively, which represented 100% of the outstanding shares of the Company's common stock. For the plan years ended September 30, 2024 and 2023, the appraised value of the Company's common stock was \$14,290 and \$10,440 per share, respectively. At September 30, 2024, the Plan also held \$436 in a money market fund.

The Plan's investments in Prentke Romich Company common shares, at September 30, 2024 and 2023, are presented in the following table:

	September 30, 2024		September 30, 2023	
	Allocated	Unallocated	Allocated	Unallocated
Prentke-Romich Company common stock				
Number of shares	6,286.4959	1,726.1205	6,369.8994	1,792.510
Cost	\$ 7,211,994	\$ 6,301,895	\$ 7,178,469	\$ 4,772,655
Estimated fair value	\$ 89,834,026	\$ 24,666,262	\$ 66,501,750	\$ 18,713,801

(4) Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board (FASB) Accounting Standards Codifications (ASC) 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

(4) Fair value measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at September 30, 2024 and 2023.

Prentke-Romich Company common stock: The Prentke-Romich Company common stock held by the Plan is valued at fair value based upon an independent appraisal. This appraisal was based on an income valuation technique consistent with prior years as illustrated in the following table:

Instrument	September 30, 2024 Fair Value	September 30, 2023 Fair Value	Principal Valuation Technique	Unobservable Inputs
Prentke Romich Company common stock	\$ 114,500,288	\$ 85,215,551	Income	EBITDA (11.3% to 11.9%) Weighted average cost of capital (16.35%) Long-term growth rate (3.5%) Discount for lack of marketability (2.5%)

The market approach was not utilized for the valuation due to the limited number of comparable publicly traded companies and corporate transactions. The cost (asset) approach was not utilized due to the expected operating profitability of the Company and its significant intangible assets. The valuation process involves plan management's selection of an independent appraiser under contract for a term of 3 years with the right to cancel such contract at any time. Plan management accumulates the data for the appraiser from the audited financial statements and projected financial information of the Company. The appraiser prepares a preliminary report of estimated per share value which plan management, along with the ESOP trustee, reviews in detail, discusses and approves. The results of this process are documented in minutes of the plan fiduciary.

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTES TO FINANCIAL STATEMENTS

(5) Loan payable

During 2008, the Plan entered into a \$7,966,846 term loan agreement with the Company that bore interest at 4.58% and was scheduled to mature on September 30, 2027. The proceeds of the loan were used to purchase the Company's common stock. Unallocated shares are collateral for the loan. In October 2020, the agreement was amended and provided for the loan maturity date to be extended to September 2050 with interest at 1.12%. The scheduled amortization of the loan for the next five years and thereafter is as follows:

2025	\$	82,313
2026		83,235
2027		84,167
2028		85,110
2029		86,063
Thereafter		2,047,534

The Company is obligated to make cash contributions to enable the Plan to make its regularly scheduled payments of principal and interest due on this loan payable.

As the Plan makes each payment of principal and interest, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the IRC. During the year ended September 30, 2024, 66.389 shares were allocated to participants. For financial reporting purposes, the shares pledged as collateral are reported as unallocated ESOP shares in the statement of changes in net assets.

(6) Related party and party in interest transactions

The Plan has invested in the common stock of the Company using proceeds of the loan from the Company. This investment, transactions in this investment and the loan from the Company qualify as party-in-interest transactions. The Plan also has a number of service providers that qualify as parties in interest under ERISA.

(7) Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Each participant's interest in the Plan becomes fully vested at the time of termination and is not subject to forfeiture. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and related regulations. Upon termination of the Plan, the Trustee shall pay all liabilities and expenses of the trust fund and sell shares of financed Company stock to the extent it determines such sale to be necessary in order to repay the loan.

NOTES TO FINANCIAL STATEMENTS

(8) Tax status

The Internal Revenue Service has determined and informed Prentke-Romich Company by letter dated September 27, 2013, that the Plan and the related trust are designed in accordance with the applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan and related trust are currently designed and being operating in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate the tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(9) Reconciliation of financial statements to Schedule H of Form 5500

The following is a reconciliation of total additions per the financial statements for the year ended September 30, 2024 to Schedule H of Form 5500:

Total additions per the financial statements	\$ 33,183,821
Allocation of 66.389 shares of common stock of Prentke-Romich Company at fair value	<u>(948,702)</u>
Total additions per Schedule H of Form 5500	<u>\$ 32,235,119</u>

The following is a reconciliation of total deductions per the financial statements for the year ended September 30, 2024 to Schedule H of Form 5500:

Total deductions per the financial statements	\$ 3,817,247
Allocation of 66.389 shares of common stock of Prentke-Romich Company at fair value	<u>(948,702)</u>
Total deductions per Schedule H of Form 5500	<u>\$ 2,868,545</u>

(10) Risks, uncertainties and concentrations

The Plan's investments consist primarily of the Company's common stock, which is exposed to various risks such as interest rate, market, and credit risk, as well as valuation assumptions based on earnings, cash flows and/or other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the values of the common stock will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
