Independent Auditor's Report

Board of Trustees
Clothing and Tool Plan of the Electrical Industry

Opinion

We have audited the financial statements of Clothing and Tool Plan of the Electrical Industry (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits and of benefit obligations as of September 30, 2024 and 2023, the related statements of changes in net assets available for benefits and of changes in benefit obligations for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits and of benefit obligations of the Plan as of September 30, 2024 and 2023, and the changes in its net assets available for benefits and of changes in benefit obligations for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of September 30, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's (DOL's) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Clothing and Tool Plan of the Electrical Industry

Notes to Financial Statements

Note 1. Organization and Significant Accounting Policies

Organization: Clothing and Tool Plan of the Electrical Industry (the Plan) was established pursuant to an Agreement and Declaration of Trust dated June 11, 1992. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Plan, which is administered by the Joint Industry Board of the Electrical Industry (JIB), has as its principal activities the collection and investment of funds received from electrical contractors for the purpose of providing reimbursement for clothing and tools lost or destroyed at work sites due to fire or theft to eligible members of the electrical industry under the terms of collective bargaining agreements (CBAs) and the related Agreement and Working Rules between Local Union No. 3 of the International Brotherhood Of Electrical Workers, AFL-CIO (Local 3) and the electrical contractors' associations and independent electrical contractors (the Employers).

Contributions: Employers of the outside utility division contribute 2% of each employee's total gross wages into the Joint Safety, Education and Training Program. The 2% is divided amongst three programs: the programs are (1) safety director, 1%, (2) CDL driver training, medical testing and drug screening, 0.5% and (3) flame retardant clothing 0.5%. Contributions for the safety director and CDL driver training, medical testing and drug screening are made to the Educational and Cultural Trust Fund. Contributions for flame retardant clothing are made to the Plan. Contributions for flame retardant clothing and CDL driver training, medical testing and drug screening continue until their respective fund balances reach \$100,000 at which time those contributions are reallocated to the safety director program, until the fund balance reaches \$50,000, at which time the contributions will resume. Contributions to the Plan for fiscal years 2024 and 2023, were \$68,605 and \$40,327, respectively. Contributions continued throughout the entire plan years ended September 30, 2024 and 2023. As of September 30, 2024 and 2023, the fund balance was approximately \$65,000 and \$54,000, respectively.

Benefits: The Plan pays claims for damaged or stolen clothing and tools that had been stored in lockers or chests furnished by the Employers. The Plan pays claims, within defined limits, for the following items: overcoats, clothing, shoes, and tools.

The Plan also pays benefits to eligible participants of the outside utility agreement to reimburse for flame retardant clothing purchases. The flame retardant clothing allowance was \$800 per year through December 31, 2022 and increased to \$1,000 per year effective January 1, 2023. The boot reimbursement allowance was \$150 every two years through December 31, 2022 and increased to \$250 every two years effective January 1, 2023. In addition, apprentices are also entitled to an initial \$250 allowance upon beginning work with an outside utility contractor.

Basis of accounting: The financial statements of the Plan have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP).

Estimates: The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, benefit obligations and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). See Note 2 for further discussion of fair value measurements.

Clothing and Tool Plan of the Electrical Industry

Notes to Financial Statements

Note 1. Organization and Significant Accounting Policies (Continued)

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Cash: The Plan maintains its cash in bank deposit accounts at a high-credit quality financial institution. These balances are insured by the Federal Deposit Insurance Corporation up to \$250,000. The Plan balances may at times be in excess of the federal insured limit; however, the Plan has not experienced any losses and does not believe it is exposed to any significant credit risk.

Contributions receivable: Contributions receivable are reported at their outstanding balances net of an estimated reserve for doubtful accounts and are primarily composed of balances due from employers. The Plan estimates doubtful accounts based on historical bad debts, factors related to specific employers' or groups of participants' ability to pay, and current economic trends and conditions. Changes in the allowance for doubtful accounts are recorded in employers' contributions in the statements of changes in net assets available for benefits. The Plan deems all receivables collectible and expects to collect these receivables within one year.

Claim payments: Claim payments are recorded when paid.

Administrative expenses: Plan Administrator allocates certain administrative and record-keeping costs to the Plan, in addition to the cost of payroll and related payroll benefits directly attributable to the Plan. In computing these allocated costs, various factors were considered, including the time spent, space used, costs incurred, and volume of transactions relating to the Plan in relation to the various other entities administered by JIB.

Benefit obligations: The Plan recognizes as benefit obligations claims submitted and not paid, claims incurred but not received and benefits accumulated and not paid. Participants of the outside utility agreement are generally eligible for benefits in any year where they worked more than 1,000 hours in the previous calendar year.

Subsequent events: The Plan evaluates events occurring after the date of the financial statements to consider whether or not the impact of such events needs to be reflected and/or disclosed in the financial statements. Such evaluation is performed through the date the financial statements are available for issuance, which was June 19, 2025, for these financial statements.

Note 2. Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1: Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Clothing and Tool Plan of the Electrical Industry

Notes to Financial Statements

Note 2. Fair Value Measurements (Continued)

Level 2: Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- Quoted prices for similar assets and liabilities in active markets. Quoted prices for identical or similar assets or liabilities in markets that are not active
- Observable inputs other than quoted prices that are used in the valuation of the asset or liability (e.g., interest rate and yield curve quotes at commonly quoted intervals)
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

Level 3: Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumptions about the estimated valuations that market participants would use in pricing the asset or liability (including assumptions about risk).

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at September 30, 2024 and 2023.

Mutual funds: Valued at the daily closing price as reported by the funds. The mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price, which constitutes an active market.

State Street Institutional Liquid Reserves Fund: The NAV is used as a practical expedient to estimate fair value.

The valuation method described above may produce fair value calculations that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes that its valuation method is appropriate and consistent with those of other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables present the Plan's investments by type at fair value as of September 30, 2024 and 2023:

Type of Security	Investments	
	September 30, 2024	
	Level 1	Total
Mutual funds	\$ 1,105,208	\$ 1,105,208
Total assets in the fair value hierarchy	<u>\$ 1,105,208</u>	1,105,208
Investments measured at NAV (a)		39,119

Investments measured at NAV (a)		17,981
Total investments at fair value		\$ 1,042,219

(a) In accordance with the guidance by FASB Accounting Standards Update (ASU) 2015-07, Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits and of benefit obligations.

The following table sets forth additional disclosures of the Plan's investment whose fair value is estimated using NAV per share as of September 30, 2024 and 2023:

Investment	2024	2023	Unfunded Commitment	Redemption Frequency	Redemption
	Fair Value	Fair Value			Notice Period
State Street Institutional Liquid Reserves Fund (a)	\$ 39,119	\$ 17,981	\$ -	Daily	None

(a) State Street Institutional Liquid Reserves Fund has no restrictions on the NAV price or its equivalent. There are no known or anticipated redemptions. The fund's investment objective is to provide safety of principal, daily liquidity and a competitive yield over the long term by investing in securities of a short-term nature.

Note 3. Risk and Uncertainties

The Plan's investment securities are subject to various risks, such as interest rate and credit risks. Due to the risks associated with certain investment securities, values of investment securities could change, affecting the amounts reported in the accompanying financial statements.

Note 4. Due to JIB

	September 30	
	2024	2023
JIB	\$ 19,755	\$ -

Amounts due to JIB result from the annual review of the expense allocation (see Note 1).

Clothing and Tool Plan of the Electrical Industry

Notes to Financial Statements

Note 5. Tax Status

The trust funding the Plan has received an exemption letter from the Internal Revenue Service dated April 17, 1995, stating that the trust is tax-exempt under the provisions of Section 501(c)(5) of the Internal Revenue Code of 1986 (the Code), as amended. The Plan and the trust are required to operate in conformity with the Code to maintain the tax-exempt status of the trust. JIB, as the Plan Administrator, believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Management evaluated all of the Plan's tax positions for all open tax years and has concluded that the Plan has taken no uncertain tax positions that require adjustment to the financial statements.

Note 6. Plan Termination

Although they have not expressed any intent to do so, the trustees have the right under the Agreement and Declaration of Trust to modify the benefits provided to participants and to terminate the Plan subject to the provisions of applicable laws and the terms of the CBAs.

Note 7. Related-Party and Party-in-Interest Transactions

The Plan invests in a short-term investment fund managed by State Street Bank and Trust Company, the Plan's custodian. The Plan also holds bank accounts at Deutsche Bank used for cash transactions in the ordinary course of administering the Plan. In addition, as described in Note 1, the Plan has several other arrangements with JIB and service providers related to Plan operations. These transactions are considered exempt party-in-interest transactions under ERISA.

Note 8. Reconciliation of Financial Statements to Form 5500

The following are reconciliations of net assets available for benefits and claims paid per the financial statements to the Form 5500:
