Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) ☒ Unmodified (2) ☐ Qualified (3) ☐ Disclaimer (4) ☐ Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) ☒ DOL Regulation 2520.103-8 (2) ☐ DOL Regulation 2520.103-12(d) (3) ☐ neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: **WIPFLI LLP**

(2) EIN: **39-0758449**

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) ☐ This form is filed for a CCT, PSA, DCG or MTIA. (2) ☐ It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		☒	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		☒	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		☒	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		☒	
e Was this plan covered by a fidelity bond?	☒		5000000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		☒	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)	☒		
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)		☒	
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		☒	
l Has the plan failed to provide any benefit when due under the plan?		☒	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)		☒	
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.			

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year? ☐ Yes ☒ No
If "Yes," enter the amount of any plan assets that reverted to the employer this year _____.

Independent Auditor's Report

Board of Trustees
Schreiber Foods, Inc. Employees Retirement Pension Plan
Green Bay, Wisconsin

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Schreiber Foods, Inc. Employees Retirement Pension Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of September 30, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years ended September 30, 2024 and 2023, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Schreiber Foods, Inc. Employees Retirement Pension Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended September 30, 2024 and 2023, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- The information in the financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Schreiber Foods, Inc. Employees Retirement Pension Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Schreiber Foods, Inc. Employees Retirement Pension Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Schreiber Foods, Inc. Employees Retirement Pension Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Schreiber Foods, Inc. Employees Retirement Pension Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Schreiber Foods, Inc. Employees Retirement Pension Plan

Notes to Financial Statements

Note 1: Plan Description

The following description of Schreiber Foods, Inc. Employees Retirement Pension Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit, noncontributory pension plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Retirement Plans Administrative Committee (the "Committee") has appointed an investment manager with discretionary authority as defined in Section 3(38) of ERISA, as amended, to act directly on behalf of the Committee in selecting, monitoring, and modifying the investment offerings. The Committee reports to the Board of Directors.

In December 2022, Securing a Strong Retirement Act (SECURE 2.0) was passed into law. The provisions of SECURE 2.0 continue the themes and reforms that began with the 2019 CARES Act. The effective date of the provisions of SECURE 2.0 vary from becoming effective immediately through 2028. Those provisions include both required and optional elements. Plan management will determine the optional provisions to elect in the future.

Transfers of Assets into Plan

Effective September 30, 2023, assets from the Schreiber Foods, Inc. Pension Plan for Hourly Employees at the Green Bay Wisconsin Plant and the Level Valley Creamery Hourly Employees Pension Plan were merged into the Plan in the amounts of \$8,516,458 and \$7,341,767, respectively, which is reflected in the accompanying statement of changes in net assets available for benefits for the year ended September 30, 2023.

The Schreiber Foods, Inc. Pension Plan for Hourly Employees at the Green Bay Wisconsin Plant includes participants who were hourly employees at Schreiber Foods, Inc.'s Green Bay, Wisconsin, plant and a member of General Teamsters Local Union #682 affiliated with the International Brotherhood of Teamsters prior to April 21, 2003, and previously met the respective eligibility requirements before merging with the Plan. Monthly pension benefits are based primarily on years of service, as defined.

The Level Valley Creamery Hourly Employees Pension Plan includes participants who were hourly employees at Level Valley Creamery, Inc.'s West Bend, Wisconsin, plant and were also a member of the Teamsters Union, Local #695 prior to November 1, 2006, and previously met the respective eligibility requirements before merging with the Plan. Monthly pension benefits are based primarily on years of service, as defined.

Schreiber Foods, Inc. Employees Retirement Pension Plan

Notes to Financial Statements

Note 1: Plan Description (Continued)

Participation

Effective October 1, 1999, participation in the Plan was frozen. Furthermore, no additional benefits accrued under the Plan, and credited service was frozen on April 30, 2006, for salaried participants and on April 30, 2015, for nonunion hourly participants. All salaried and nonunion hourly employees of Schreiber Foods, Inc. (the "Company"), except hourly employees at Arden International Kitchens and at the Alaska, Green Bay, and Wisconsin Rapids, Wisconsin, and Tempe, Arizona, plants, were eligible to participate in the Plan.

Funding Policy

The Plan provides for Company contributions only. Company contributions are based on a determination by an enrolled actuary and are in accordance with the Plan's requirements and the funding provisions of ERISA. The contributions include the current year's normal cost and an amount sufficient to fund the prior service cost. There were no employer contributions during 2024 and 2023. No Company contributions were necessary for the years ended September 30, 2024 or 2023, to satisfy the minimum funding requirements of ERISA.

Retirement Benefits

Pension Benefits - Benefits are determined in accordance with the plan agreement and are based on years of service at age 65 (for hourly and salaried participants) in addition to average compensation (for salaried participants only). An early retirement option is available for participants age 55 or older who have 10 years of credited service, as well as a survivorship option, both at a reduced benefit amount. Upon termination of employment, participants have the option of receiving their vested benefit in the form of a monthly lifetime annuity payment or as a lump sum payment (if the present value meets the Plan's small balance requirements). Terminated vested participants and their surviving beneficiaries may elect an immediate lump sum distribution of their entire benefit under the Plan, provided the accrued benefits are between \$5,000 and \$50,000 before January 1, 2024. After January 1, 2024, the Plan was amended to change the accrued benefits requirement to be between \$7,000 and \$50,000.

All salaried employees included in the Plan also participated in Schreiber Foods, Inc. Profit Sharing Stock Plan for Salaried Partners (the "PSSP"). Effective September 30, 2021, the PSSP merged into the Schreiber Foods, Inc. Employee Stock Ownership Plan (the "ESOP"). Under the terms of the Plan, PSSP, and ESOP, a participant is entitled to a retirement benefit equal to the greater of the benefits earned under either plan, with benefits first funded from the PSSP or the portion of the PSSP transferred to the ESOP and the difference, if any, funded from the Plan.

Death and Disability Benefits - If an active employee dies before retirement, a death benefit equal to 50% of the value of the employee's accumulated pension benefits that would have been payable as a joint and 50% survivor annuity is paid to the surviving spouse. Active employees who become totally disabled receive annual disability benefits that are equal to the normal retirement benefits they have accumulated as of the time they become disabled.

Schreiber Foods, Inc. Employees Retirement Pension Plan

Notes to Financial Statements

Note 1: Plan Description (Continued)

Retirement Benefits (Continued)

With the plan transfer noted above, the retirement benefits for participants under the former Schreiber Foods, Inc. Pension Plan for Hourly Employees at the Green Bay Wisconsin Plant and the retirement benefits for participants under the former Level Valley Creamery Hourly Employees Pension Plan are as follows:

Schreiber Foods, Inc. Pension Plan for Hourly Employees at the Green Bay Wisconsin Plant

Pension Benefits - Employees who retired or terminated employment on or after October 1, 1990, are entitled to monthly pension benefits beginning at normal retirement age (65) equal to \$19.25 multiplied by the employee's years of continuous service up to 20 years plus \$3.00 for each year of continuous service in excess of 20 years. The Plan permits early retirement at ages 50 through 64 at a reduced benefit amount. Employees may elect to receive their pension benefits in the form of a joint and survivor annuity. Upon termination of employment, participants have the option of receiving their vested benefit in the form of a monthly lifetime annuity payment or as a lump sum payment (if the present value meets the Plan's small balance requirements). The employees covered under the Plan were formerly covered under a Teamsters Union plan. The benefits to which an employee is entitled under the Teamsters Union plan are deducted in determining the benefits payable under the Plan.

Death and Disability Benefits - If an active employee dies before retirement with at least 10 years of service, the employee's beneficiary will receive a lump sum death benefit of \$2,000, in addition to a death benefit to a surviving spouse equal to 50% of the value of the employee's accumulated pension benefit that would have been payable as a joint and 50% survivor annuity. A death benefit of \$1,000 is paid if the employee has retired but has not received 60 monthly payments. Active employees who become totally disabled receive annual disability benefits that are equal to the normal retirement benefits accumulated at the time they become disabled.

Level Valley Creamery Hourly Employees Pension Plan

Pension Benefits - Employees with five or more years of service are entitled to annual pension benefits beginning at normal retirement age (65) equal to years of service multiplied by an amount based on retirement date. The Plan permits early retirement at ages 55 through 64 at a reduced benefit amount. Employees may elect to receive their pension benefits in the form of a joint and survivor annuity. If employees terminate before completing five years of service, they forfeit the right to receive their entire accumulated plan benefits. Upon termination of employment, participants have the option of receiving their vested benefit in the form of a monthly lifetime annuity payment or as a lump sum payment (if the present value meets the Plan's small balance requirements).

Terminated vested participants and their surviving beneficiaries may elect an immediate lump sum distribution of their entire benefit under the Plan, provided the accrued benefits are between \$5,000 and \$50,000 before January 1, 2024. After January 1, 2024, the Plan was amended to change the accrued benefits requirement to be between \$7,000 and \$50,000.

Notes to Financial Statements

Note 1: Plan Description (Continued)

Retirement Benefits (Continued)

Death and Disability Benefits - If an active employee dies, a death benefit equal to 50% of the value of the employee's accumulated pension benefits that would have been payable as a joint and 50% survivor annuity is paid to a surviving spouse.

Vesting

Benefits under the provisions of the Plan become fully vested at the time the participant completes five years of credited service. The vesting provision applied until credited service was frozen on April 30, 2006, for salaried participants and on April 30, 2015, for nonunion hourly participants.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates

The preparation of the financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

Investment in a Master Trust Valuation

The Plan's investments are invested in the Schreiber Foods, Inc. Master Pension Trust (the "Master Trust").

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and trustee. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants or their beneficiaries are recorded when paid.

Schreiber Foods, Inc. Employees Retirement Pension Plan

Notes to Financial Statements

Note 2: Summary of Significant Accounting Policies (Continued)

Administrative Expenses

The Plan's expenses, including Pension Benefit Guaranty Corporation (PBGC) insurance premiums, are paid by the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. In addition, certain investment-related expenses are included in interest in net appreciation in fair value of Schreiber Foods, Inc. Master Pension Trust presented in the accompanying statements of changes in net assets available for benefits.

Subsequent Events

Subsequent events have been evaluated through July 8, 2025, which is the date the financial statements were available to be issued.

Note 3: Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump sum distributions, which are attributable under the Plan's provisions to the service employees have rendered (for hourly and salaried participants) in addition to average compensation (for salaried participants only). Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' length of service. Benefits payable under all circumstances are included to the extent they are deemed attributable to employee service rendered to the earlier of the valuation dates or the date credited service was frozen.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount which results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected payment dates.

The significant actuarial assumptions used in the valuation as of October 1, 2023, were as follows:

- a) Assumed rate of return - 7.30%
- b) Discount rate used to discount plan benefits - 5.20%
- c) Life expectancy - Non-Annuitants: The Pri-2012 "Employees" table, without collar or amount adjustments, projected generationally using Scale MP-2021; Annuitants: The Pri-2012 "Healthy Annuitants" table, without collar or amount adjustments, projected generationally using Scale MP-2021; Lump sums: The 50/50 male/female blended Pri-2012 mortality tables, projected generationally using Scale MP-2021.
- d) Benefit commencement - Age 65

Schreiber Foods, Inc. Employees Retirement Pension Plan

Notes to Financial Statements

Note 3: Actuarial Present Value of Accumulated Plan Benefits (Continued)

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits as of October 1, 2023, was as follows:

Actuarial present value of accumulated plan benefits:	
Vested benefits:	
Participants currently receiving benefit payments	\$ 47,960,452
Other participants	17,509,118
Total vested benefits	65,469,570
Nonvested benefits	455,273
Actuarial present value of accumulated plan benefits as of October 1, 2023	\$ 65,924,843

The changes in the present value of accumulated plan benefits for the year beginning October 1, 2023, were as follows:

Actuarial present value of accumulated plan benefits as of October 1, 2022	\$ 51,029,124
Increase (decrease) during the year attributable to:	
Actuarial assumption changes	2,535,331
Net actuarial gain	(251,478)
Increase for interest due to decrease in the discount period	3,793,059
Benefit payments	(4,800,320)
Transfers from other plans	13,619,127
Actuarial present value of accumulated plan benefits as of October 1, 2023	\$ 65,924,843

The computations of the actuarial present value of accumulated plan benefits were made as of October 1. Had the valuations been performed as of September 30, there would be no material differences.

In 2024, the actuarial assumption changes were the result of the following:

- Change in the assumed rate of return from 7.80% to 7.30%.
- Change in segment interest rates used to calculate the funding target and target normal cost updated from an applicable month of June 2022 to June 2023 as required by IRC Subsection 430.

Note 4: Interest in Master Trust

The Plan's investments are in the Master Trust, which was established for the investment of assets of the Plan. The Plan has an undivided interest in the Master Trust. The assets of the Master Trust are held by SEI Private Trust Company (SEI), the Plan's trustee.

The value of the Plan's interest in the Master Trust is based on the beginning-of-year value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income, less actual distributions. The Plan's interest in the net assets of the Master Trust was 100% (as a result of the mergers discussed in Note 1) at September 30, 2024 and 2023.

Transfers in and out of the Master Trust are specifically identified with the particular plan. Investment income is allocated to the individual plan based on the ratio of the investment balance of the plan.

The following table summarizes the net assets held by the Master Trust at September 30:

	2024	2023
Investments, at fair value:		
Common/collective trust funds	\$ 9,397,099	\$ 14,510,204
U.S. government obligations	8,468,070	10,527,592
Mutual funds	59,488,397	48,321,806
Partnership funds - Private equity	30,151	28,935
Receivable for securities sold	238,159	208,079

Note 5: Fair Value Measurements

GAAP establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority level; Level 2 inputs consist of observable inputs other than quoted prices for identical assets (Level 1); and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs are used for investments for which Level 1 inputs were not available. Level 3 inputs would be used only if Level 1 or Level 2 inputs were not available.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of September 30, 2024 and 2023.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective trust fund - Partnership fund: Investments are priced based on valuations provided by independent, third-party pricing agents using their proprietary valuation methodology. The third-party pricing agents may value structured credit investments at an evaluated bid price by employing methodologies that utilize actual market transactions, broker-supplied valuations, or other methodologies designed to identify the market value for such securities. Such methodologies generally consider such factors as security prices, yields, maturities, call features, ratings, and developments relating to specific securities in arriving at valuations.

If a price for a structured credit investment cannot be obtained from an independent, third-party pricing agent, the fund shall seek to obtain a bid price from at least one dealer who is independent of the fund. In such cases, the independent dealer providing the price on the structured credit investment may also be a market maker, and in many cases the only market maker, with respect to that security. Most asset-backed securities are valued by an independent dealer who is also a market maker.

Common/collective trust funds (other than partnership fund): Valued at the NAV of units held by the Plan at year-end provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding. The NAV's unit price is quoted on a private market that is not active; however, the unit price is based on the underlying investments that are traded on an active market.

Partnership funds - Private equity: Investments are valued using the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding. The NAV is a quoted price on a private market that is not active, and the unit price is based on underlying investments in nonmarketable, privately held equity. The valuation of nonmarketable, privately held equity investments is based on the capital account balances reported by the underlying partnerships subject to management review and adjustment. These capital account balances reflect the fair value of the underlying partnership funds' investment as reported in the NAV of the underlying partnership.

Quantitative Information About Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following tables represent the Master Trust's Level 3 financial instrument, the valuation technique used to measure the fair value of the financial instrument as of September 30, 2023, and the significant unobservable input and the range of values for that input:

Instrument	Fair Value 9/30/23	Principal Valuation Technique	Significant Unobservable Input	Range of Significant Input Values
Common/collective trust fund - Partnership Fund	\$ 1,821,412	Market quotes	Broker quote	\$0 - \$94

Note 6: Net Asset Value Per Share

The following tables set forth additional disclosures of the Plan's investments, whose fair value is estimated using NAV per share as of September 30, 2024 and 2023:

<i>September 30, 2024</i>	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period	Other Redemption Restrictions
Common/collective trust funds (other than partnership fund):

Partnership Funds - Private Equity (a)	28,935	170,737	N/A	N/A	N/A

(a) The investment was formed for the purpose of investing in private markets limited partnerships (primary investments). Primary investments are investments in an original issuance of a private markets fund. It is expected that the liquidation of the limited partnership interests will generally coincide with the term of the investment. Primary investments are generally illiquid and cannot be redeemed.

Note 7: Information Prepared and Certified by Trustee

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Certain information disclosed in the accompanying financial statements, including investments - interest in Schreiber Foods, Inc. Master Pension Trust at September 30, 2024 and 2023, and investment income - interest in net appreciation in fair value of Schreiber Foods, Inc. Master Pension Trust for the years ended September 30, 2024 and 2023 was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by SEI, the trustee of the Plan.

Note 8: Party-in-Interest Transactions

Certain plan investments are managed by SEI, the Plan's trustee. Therefore, these transactions qualify as party-in-interest transactions. These transactions are not, however, considered prohibited transactions under 29 CFR 408(b) of the ERISA regulations.

Fees incurred by the Plan for the investment management services are included in interest in net appreciation in fair value of Schreiber Foods, Inc. Master Pension Trust because they are paid through revenue sharing rather than a direct payment.

Schreiber Foods, Inc. Employees Retirement Pension Plan

Notes to Financial Statements

Note 9: Plan Termination

While the Company has not expressed any intention to do so, it has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a) Annuity benefits that former employees or their beneficiaries have been receiving for at least three years or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.
- b) Other vested benefits insured by PBGC (a U.S. government agency) up to the applicable limitations.
- c) All other vested benefits (that is, vested benefits not insured by PBGC).
- d) All nonvested benefits.

Certain benefits under the Plan are insured by PBGC if the Plan terminates. Generally, PBGC guarantees most vested normal-age retirement benefits, early-retirement benefits, and certain disability and survivors' pensions. However, PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan's sponsor and the level of benefits guaranteed by PBGC.

The freeze of the Plan described in Note 1 is not considered termination of the Plan.

Note 10: Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated May 9, 2017, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator and the Plan's tax counsel believe the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified and that the related trust is tax-exempt.

Notes to Financial Statements

Note 11: Risks and Uncertainties

The Master Trust invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Spouse age	Husbands are assumed to be three years older than wives.
Covered pay	Gross plan benefits, before offsetting for the Profit Sharing Equivalent, are frozen for salaried participants as of April 30, 2006. Only past actual compensation is used in this valuation to determine future benefits. Current and future compensation does not affect plan benefits.
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on the date of decrement.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year.
Decrement timing	The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.
Profit sharing offset	The value of assets held in the Schreiber Profit Sharing Stock Plan are assumed to increase 5% during the 2017 plan year and 7% per annum thereafter. It is assumed that there will be no future contributions to the Profit Sharing Stock Plan.

Actuarial value of assets for determining minimum required contributions

Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year.)

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

WTW has reviewed the plan provisions with Schreiber Foods, Inc. and, based on that review, is not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

The plan sponsor furnished participant data via DataLink as of October 1, 2023. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen for IRC 430 purposes was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Lump sum conversion rate	As required by IRC 430, lump sum benefits are valued using “annuity substitution”, so that the interest rates assumed are effectively the same as described above for the discount rate.

Assumptions Rationale - Significant Demographic Assumptions

Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Termination rates are set based on plan design and expected participant behavior with periodic monitoring of observed gains and losses caused by termination patterns different from assumed, and vary by age and gender.
Disability	Disability rates are based on a published table for pension participants believed to have reasonably similar characteristics participating in pension plans with similar disability provisions.
Retirement	Retirement rates are based on plan sponsor expectations for the future with periodic monitoring of observed gains and losses caused by retirement patterns different than assumed.

Source of Prescribed Methods

Funding methods	The methods used for funding purposes as described herein, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Schedule SB, Part V Summary of Plan Provisions

Summary of Principal Plan Provisions of Salaried Employees' Benefits

Plan Provisions

The plan was originally effective October 1, 1976. The plan was amended effective April 30, 2006. Gross benefits before determination of the Profit Sharing Equivalent were frozen for all Salaried Participants. The plan was most recently amended effective August 10, 2017.

Plan year	The twelve-month period ending September 30.
Covered employees	The plan covers all clerical or salaried employees who are not covered under any other retirement plan to which the company contributes. Effective September 30, 1999 the Plan was frozen to new participation.

Definitions

Vesting service	Elapsed time from date of hire to date of termination.
Pension service	Credited service is the employee's total years of service rendered prior to the earlier of his retirement date or April 30, 2006 (including periods of disability for employees becoming disabled after 10 years of service).
Final monthly compensation	The term "final monthly compensation" means the average monthly compensation of the employee for the last five consecutive calendar years out of the last ten calendar years preceding normal retirement date or earlier termination of employment on April 30, 2006. Monthly compensation includes base salary, overtime and bonuses. Final monthly compensation is frozen as of April 30, 2006.
Profit sharing equivalent	The amount of pension payable at Normal Retirement Date equivalent in value to the account balance of the employee under the Schreiber Profit Sharing Stock Plan at the date of termination of employment accumulated with interest at 7% per annum to the Normal Retirement Date.

Plan Name:	Schreiber Foods, Inc. Employees Retirement Pension Plan
EIN / PN:	39-1017450/002
Plan Sponsor:	Schreiber Foods, Inc
Valuation Date:	October 1, 2023

SCHEDULE SB ATTACHMENTS

Normal retirement date (NRD)	The first day of the month coincident with or next following the attainment of age 65.
Monthly pension benefit	As of October 1, 1991, the monthly amount of retirement benefit payable in the life annuity form to an employee who retires on his normal retirement date shall be equal to the greater of: a) 1% of his final monthly compensation times his credited service plus 0.25% of his final monthly compensation in excess of \$833.33 times his credited service (up to 35 years), and b) \$11.00 times credited service (maximum 40 years) reduced by the Profit Sharing Equivalent.

Eligibility for Benefits

Normal retirement	Retirement on NRD
Early retirement	Age 55 with 10 or more years of service.
Deferred vested termination	Termination before NRD with 5 years of vesting service.
Preretirement death benefit	In the event of the death of a participant who is eligible for a vested benefit and who has been married at least one year on the date of death, a pension will be payable to the spouse of such participant.

Benefits Paid Upon the Following Events

Normal retirement	Monthly pension benefit determined as of NRD.

SCHEDULE SB ATTACHMENTS

Early retirement

In the event of early retirement, an employee shall be entitled to receive a monthly benefit for life commencing at normal retirement date in an amount equal to the normal retirement benefit which would have been payable to him under the plan at normal retirement date, based on credited service, final monthly compensation, and Profit Sharing Equivalent at early retirement date. An employee who has taken early retirement may elect to receive a monthly benefit, commencing on the first day of any month prior to normal retirement date. The amount of such monthly benefit shall be the monthly benefit otherwise commencing at age 65 reduced by 1/3 of 1% for each month by which the commencement date of such income precedes his attainment of age 62.

Deferred vested termination

The monthly amount of such deferred vested retirement benefit shall be equal to the amount which would be payable at normal retirement date based on his final monthly compensation, credited service, and Profit Sharing Equivalent as of the date of termination.

Preretirement death

A benefit equal to 50% of the pension that would have been payable to the participant if he had commenced his early retirement income on the date of his death (or on the date he would have been eligible for early retirement if a vested employee) in the form of the reduced qualified spouse's benefit described above.

Other Plan Provisions

Forms of payment

Normal, early and deferred vested retirement income payable to a participant who is unmarried at his annuity commencement date or who has been married less than one year shall be payable monthly during the lifetime of the employee and shall terminate at his death. Such retirement income payable to a participant who has been married for at least one year on his annuity commencement date shall be reduced and payable in the form of a "qualified spouse benefit" unless the employee elects prior to retirement to receive the full amount of income payable during his lifetime only.

Plan Name:	Schreiber Foods, Inc. Employees Retirement Pension Plan

SCHEDULE SB ATTACHMENTS

Under the "qualified spouse benefit" form, the amount of retirement income otherwise payable is reduced to an income of equivalent value which is paid during the lifetime of the employee with 50% of such reduced amount continued after the death of the employee during the remaining lifetime of the spouse.

Participants may elect a single life annuity, life annuity with 10 or 15 years certain, or 50%, 75%, or 100% joint and survivor annuity, or a lump sum distribution that does not exceed \$50,000. All annuity optional forms of payment are actuarially equivalent to the single life annuity based on the 2017 Applicable Mortality Table of IRC Section 417(e) and an interest rate of 6.0%.

Pension Increases

None

Plan participants' contributions

None

Limits on benefits and pay

All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are assumed for determining pension cost but not for determining contributions.

Prior plan premiums and special provisions

The monthly amount of retirement benefit under the plan payable to participants who were employees on August 31, 1980 shall not be less than the amount that would have been payable under the terms of the plan as in effect on August 31, 1980 assuming that the plan as then in effect had continued in full force and effect except that final monthly compensation shall not change after August 31, 1985 and the benefit shall be reduced by the Profit Sharing Equivalent.

Salaried participants under the Clearfield Cheese Company, Inc. Retirement Plan became participants on January 1, 1986. The benefits accrued as of December 31, 1985 are based on service and the plan in effect on December 31, 1985 and final pay at date of termination.

Disability	An employee becoming totally and permanently disabled after completing 10 or more years of service.
Preretirement death benefit	In the event of the death of a participant who is eligible for a vested benefit and who has been married at least one year on the date of death, a pension will be payable to the spouse of such participant.

Benefits Paid Upon the Following Events

Normal retirement	Monthly pension benefit determined as of NRD.
Early retirement	In the event of early retirement, an employee will be eligible to retire on the first day of any month thereafter and receive a deferred income payable at age 65 in an amount equal to the amount of normal retirement income accrued based on his credited service to early retirement date. Alternatively, the employee would have the right to receive an income, commencing on his early retirement date or on the first day of any month thereafter, in which case the deferred income otherwise payable would be reduced by 1/3% for each month by which the commencement date precedes age 62.
Deferred vested termination	A monthly retirement income commencing at age 65 in an amount equal to the accrued retirement benefit. Upon attainment of age 55, the vested participant may elect to receive such retirement income reduced for early commencement on the basis described for early retirement above.
Disablement	Disability income, in an amount determined under the formula for computation of the normal retirement benefit, based on employment prior to the date of disability, is payable monthly during continued disability until age 65, after which the benefit is payable during the employee's remaining lifetime, whether or not the employee continues to be disabled.

Preretirement death

A benefit equal to 50% of the pension that would have been payable to the participant if he had commenced his early retirement income on the date of his death (or on the date he would have been eligible for early retirement if a vested employee) in the form of the reduced qualified spouse's benefit described above.

Other Plan Provisions

Forms of payment

Normal, early and deferred vested retirement income payable to a participant who is unmarried at his annuity commencement date or who has been married less than one year shall be payable monthly during the lifetime of the employee and shall terminate at his death. Such retirement income payable to a participant who has been married for at least one year on his annuity commencement date shall be reduced and payable in the form of a "qualified spouse benefit" unless the employee elects prior to retirement to receive the full amount of income payable during his lifetime only.

Under the "qualified spouse benefit" form, the amount of retirement income otherwise payable is reduced to an income of equivalent value which is paid during the lifetime of the employee with 50% of such reduced amount continued after the death of the employee during the remaining lifetime of the spouse.

Participants may elect a single life annuity, life annuity with 10 or 15 years certain, or 50%, 75%, or 100% joint and survivor annuity, or a lump sum distribution that does not exceed \$50,000. All annuity optional forms of payment are actuarially equivalent to the single life annuity based on the 2017 Applicable Mortality Table of IRC Section 417(e) and an interest rate of 6.0%.

Early retirement	The amount of benefit is computed as for normal retirement, based on the employee's Benefit Service as of his Early Retirement Date. The benefit is payable in full at age 65, or in a reduced amount if the date benefits commence precedes age 65. The reduction for early retirement is 1/2% for the first 84 months and 1/3% thereafter.
Deferred vested termination	The amount of the benefit shall be calculated as for normal retirement, based on the member's earnings and Benefit Service as of his date of termination. An employee's deferred vested benefit shall commence in full on his Normal Retirement Date or, at his option, in a reduced amount prior to his Normal Retirement Date (but after age 55). The reduction for early commencement is 1/2% for each month that the date benefits commence precedes age 65.
Preretirement death	The surviving spouse shall receive a lump sum benefit. The amount of the benefit shall be the actuarial equivalent of the annuity which would have been payable to the spouse had the employee retired immediately prior to the date of his death and elected the 50% joint and survivor option. At the election of the spouse, the benefit may be payable as a single life annuity.

Other Plan Provisions

Forms of payment	Benefits are normally payable in an unreduced amount as a life annuity for unmarried participants and in a reduced amount on a joint and 50% survivor basis for married participants. Participants may elect a single life annuity, life annuity with 10 or 15 years certain, or 50%, 75%, or 100% joint and survivor annuity, or a lump sum distribution that does not exceed \$50,000. Monthly preretirement death benefit

50% of the monthly pension benefit as of the date of death, reduced for the 50% joint and survivor election and reduced for payment as early as the participant's 55th birthday.

Eligibility for Benefits

Normal retirement

Retirement on NRD

Twenty-year service retirement

An employee with 20 or more years of continuous service retiring at or after age 60.

Early retirement

An employee retiring at or after age 50 with 20 or more years of continuous service or with 30 or more years of continuous service regardless of age.

Vested termination

An employee with 5 or more years of continuous service will be entitled to receive a vested monthly pension commencing at his normal retirement age of 65.

Disability

An employee becoming totally and permanently disabled before age 65 and after completing 10 or more years of continuous service.

SCHEDULE SB ATTACHMENTS

Preretirement death benefit In the event of the death of an active employee with 10 or more years of continuous service, before becoming eligible for early retirement.

Death benefits after retirement In the event of the death during the first 60 months of retirement of a retired employee who is not survived by a spouse.

Benefits Paid Upon the Following Events

Normal retirement The monthly pension benefit determined as of NRD.

Twenty-year service retirement Monthly pension benefit for life equal to the scheduled benefit calculated under the Normal Retirement Benefit formula.

Early retirement Monthly pension benefit projected under the 20-year service formula based on projected service at age 60 and the rate in effect at the time of early retirement multiplied by the ratio of service at retirement to projected service at age 60. Such pension shall be reduced by .50% for each month by which the income commences before age 60. Alternatively, an employee with 20 or more years of service retiring at or after age 57 and before age 60 could elect to receive a monthly benefit of \$300 for 5 years, and \$200 per month thereafter for life.

Vested termination The amount of monthly pension would equal the scheduled benefit multiplied by the first 20 years of continuous service plus \$3.00 for each additional year of service projected to age 65, multiplied by the ratio of service at termination to projected service to age 65. An employee age 50 with 10 or more years of continuous service could elect to commence such income prior to age 65 reduced by .50% for each month by which the income commences before age 65.

Disablement

A monthly disability pension, payable for life equal to the basic monthly pension if he is age 60 or older or a monthly pension projected under the 20-year service formula based on projected service at age 60 and the rate in effect at the time of the disability multiplied by the ratio of service at retirement to projected service at age 60 if he is under age 60; provided, however, the monthly pension shall not be less than \$150. The monthly pension shall commence 6 calendar months after the month in which the disability commences.

Preretirement death

In the event of the death of an active employee with 10 or more years of continuous service, before becoming eligible for early retirement, a lump sum amount of \$2,000 would be payable.

In the event of the death of an active employee, eligible for early retirement, but prior to his normal retirement date, and who has been married for at least one year on the date of death, a pension will be payable to the spouse of such employee equal to 50% of the pension that would have been payable to the employee if he had commenced his early retirement income on the date of his death.

Death benefits after retirement

In the event of the death during the first 60 months of retirement of a retired employee who is not survived by a spouse, a death benefit of \$1,000 shall be payable to the beneficiary designated by the employee. Such death benefit shall also be payable to the beneficiary of a participant who elects not to receive the qualified spouse benefit.

In the event of the death of a retired employee who elected not to be covered under qualified spouse benefit provisions of the plan or was not eligible for this benefit, a pension benefit equal to the monthly amount the employee was entitled to immediately prior to death shall be payable to his spouse if surviving, or if his spouse is deceased, to their surviving dependent children who are either under age 23 or are adjusted to be mentally or physically incompetent. Such benefit will be payable for the lifetime of his spouse for a maximum of 60 months less the number of months paid to the retiree prior to death.

Other Plan Provisions

Forms of payment

Twenty year service, early, disability and deferred vested retirement income payable to an employee who has not been married for at least a year on his annuity commencement date shall be payable monthly during the lifetime of the employee and shall terminate at his death. Such retirement income payable to an employee who has been married for at least one year on his annuity commencement date shall be reduced and payable in the form of a "qualified spouse's benefit" unless the employee elects prior to retirement to receive the full amount of income payable during his lifetime only. The spouse of an employee married for less than a year or an employee who elects not to receive the qualified spouse benefit shall be entitled, after the death of the employee, to receive a continuation of the income payable to the employee for the remainder of a 60-month period from the date of retirement of the employee.

Under the "qualified spouse's benefit" form, the amount of pension otherwise payable is reduced to a pension of equivalent value which is paid as a level amount during the lifetime of the employee with 50% of such reduced amount continued after the death of the employee during the remaining lifetime of the spouse.

Participants may elect a single life annuity or 50% or 75% joint and survivor annuity, or a lump sum distribution if the value is less than \$50,000. All annuity optional forms of payment are actuarially equivalent to the single life annuity based on the 2017 Applicable Mortality Table of IRC Section 417(e) and an interest rate of 6.0%.

Pension Increases

Not applicable

Plan participants' contributions

Not applicable

Non-duplication offset

The benefits to which an employee is entitled under the Central States Plan shall be deducted from the benefits payable under the Schreiber Foods Plan.

Maximum on benefits and pay

All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are assumed for determining pension cost but not for determining contributions.

Future Plan Changes

No future plan changes were recognized in determining pension cost or in determining minimum and maximum contributions.

Changes in Benefits Valued Since Prior Year

None.
