## Independent Auditor's Report

To the Plan Administrator of  
Arbor Biotechnologies 401(k) Plan:

### ***Scope and Nature of the ERISA Section 103(a)(3)(C) Audit***

We have performed audits of the financial statements of Arbor Biotechnologies 401(k) Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Arbor Biotechnologies 401(k) Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from the qualified institutions as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

### ***Opinion***

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by the qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

### ***Basis for Opinion***

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Arbor Biotechnologies 401(k) Plan, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Arbor Biotechnologies 401(k) Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Arbor Biotechnologies 401(k) Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Arbor Biotechnologies 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

***Auditor's Responsibilities for the Audit of the Financial Statements*** (Continued)

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

***Other Matter - Supplemental Schedule Required by ERISA***

The supplemental schedule, Form 5500, Schedule H, Part IV, Line 4i - Schedule of Assets Held at End of Year as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by the qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

## ARBOR BIOTECHNOLOGIES 401(K) PLAN

Notes to Financial Statements  
December 31, 2024 and 2023

---

### 1. DESCRIPTION OF THE PLAN

The following description of Arbor Biotechnologies 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

#### a. General

The Plan is a defined contribution 401(k) plan covering substantially all employees of Arbor Biotechnologies (the Plan Sponsor). The Plan Administrator is responsible for oversight of the Plan, the appropriateness of the Plan's investment offerings, and monitoring investment performance. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

#### b. Eligibility

All employees are eligible to participate in the Plan and receive the Plan Sponsor's discretionary matching contributions on their first day of employment. Non-resident aliens, leased employees, interns, and co-op employees are excluded from participating in the Plan.

#### c. Contributions

Participants may elect to contribute up to 100% of pre-tax annual compensation to the Plan, as defined by the plan document, up to the maximum allowed by the Internal Revenue Code (IRC). The Plan allows for catch-up contributions for participants who have attained age fifty by the end of the plan year. The Plan allows for participants to make post-tax (Roth) contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollover contributions). The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan. Automatically enrolled participants have their deferral rate set at 6% of eligible compensation. Participants may opt-out or elect a different deferral amount at any time. Participants direct investment of their contributions into various investment options offered by the Plan.

The Plan provides for Plan Sponsor discretionary matching contributions, which are calculated as a 50% match up to 6% of the participant's elected deferrals. The Plan Sponsor's discretionary matching contributions totaled \$579,702 for the year ended December 31, 2024.

#### d. Participant Accounts

Each participant's account is credited with the participant's contributions, allocations of the Plan Sponsor's discretionary matching contributions, if any, and plan earnings, and charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant's earnings, account balances, or specific participant transactions, as defined in the plan document. The benefit to which a participant is entitled to is the benefit that can be provided from the participant's vested account.

#### e. Vesting

Participants are vested immediately in their contributions and the Plan Sponsor's discretionary matching contributions plus actual earnings thereon.

### 1. DESCRIPTION OF THE PLAN (Continued)

#### f. Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or one-half of their vested account balance. The loans are secured by the balance in the participant's account. Participants may only have one loan outstanding at any time. Loan terms range from one to five years, unless for the purchase of a primary residence, in which case it is no longer than ten years. The interest rate is set at the prime rate plus 1% at the time of the loan. Principal and interest are paid ratably through payroll deductions.

#### g. Payment of Benefits

Upon normal retirement at age 65 or termination of services, a participant may elect to receive a lump-sum equal to the value of the participant's vested account balance, or leave their balance in the Plan if the balance is over \$5,000. The Plan requires balances up to \$5,000 be paid out to participants upon termination. There are also retirement benefits available upon disability or death. There is no option for early retirement. Effective January 1, 2025, the Plan Administrator adopted the optional SECURE Act 2.0 provision to increase the limit of force-out distributions from \$5,000 to \$7,000.

The Plan allows in-service withdrawals upon attainment of age 59½. A participant could also request a withdrawal upon demonstration to the Plan Administrator that they were suffering a "hardship". Hardship is defined in applicable regulations promulgated or to be promulgated pursuant to the applicable section of the IRC or standards established by the Secretary of the Treasury or their delegate.

#### h. Forfeitures

Forfeitures represent non-vested amounts forfeited by participants who terminate their employment or who withdraw from the Plan prior to January 1, 2023, as well as corrections of Plan Sponsor contributions that are forfeited by participants. Forfeitures may be used to reduce future Plan Sponsor contributions and to pay for plan expenses. As of December 31, 2024 and 2023, there were \$599 and \$116, respectively, of unallocated forfeitures. The Plan used \$5,370 of forfeitures to reduce the Plan Sponsor's discretionary matching contribution and pay plan expenses during 2024.

### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### Basis of Presentation

The Plan prepares its financial statements in accordance with generally accepted accounting principles established by the Financial Accounting Standards Board (FASB). References to generally accepted accounting principles (U.S. GAAP) in these notes are to the FASB Accounting Standards Codification (ASC).

#### Use of Estimates

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Notes to Financial Statements  
December 31, 2024 and 2023

---

### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Investment Valuation and Income Recognition

The Plan's mutual funds are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Shares of mutual funds are valued at fair value at the daily closing price on an open exchange, which represents the net asset value (NAV) of shares held by the Plan at year-end. The fixed annuity contract is valued at contract value. The Plan Administrator determines the Plan's valuation policies utilizing information provided by the investment advisor and the qualified institutions. See Note 4 for discussion of fair value measurement.

Investment contracts held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation of investments includes gains and losses on investments bought and sold, as well as held during the year.

#### Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when incurred. No allowances for credit losses have been recorded as of December 31, 2024 and 2023. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced, and a benefit payment is recorded. During the year ended December 31, 2024, there were \$21,843 of defaulted loans that have been deemed distributed and are included in benefits paid to participants in the accompanying statement of changes in net assets available for benefits.

#### Contributions

Contributions from plan participants and the Plan Sponsor discretionary matching contributions are recorded in the year which the participant contributions are withheld from compensation.

#### Payment of Benefits

Benefits are recorded when paid.

#### Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Plan Sponsor and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and processing of distributions are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net appreciation of investments.

### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Subsequent Events

Subsequent events have been evaluated through June 13, 2025, which is the date the financial statements were available to be issued. Except as disclosed in Note 1g, there were no events that met the criteria for recognition or disclosure in the financial statements.

### 3. INFORMATION PREPARED AND CERTIFIED BY THE PLAN'S QUALIFIED INSTITUTIONS

The Plan Administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Empower Annuity Insurance Company of America and Empower Trust Company, LLC, the qualified institutions, have certified to the completeness and accuracy of all investments and notes receivable from participants reported in the accompanying statements of net assets available for benefits as of December 31, 2024 and 2023, and the supplemental schedule, Form 5500, Schedule H, Part IV, Line 4i - Schedule of Assets Held at End of Year as of December 31, 2024, and the related investment transactions and investment income and interest income on notes receivable from participants reported in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2024.

At the request of the Plan Administrator, the Plan's independent auditors did not perform auditing procedures with respect to certified investment information, except for comparing such certified investment information included in the accompanying financial statements and supplemental schedule.

### 4. FAIR VALUE MEASUREMENT

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date. *Fair Value Measurement* establishes a hierarchy of the valuation techniques based upon whether the inputs to those valuation techniques reflect assumptions other market participants would use based upon market data obtained from independent sources (also referred to as observable inputs).

The fair value hierarchy is as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

## ARBOR BIOTECHNOLOGIES 401(K) PLAN

Notes to Financial Statements  
December 31, 2024 and 2023

---

### 4. FAIR VALUE MEASUREMENT (Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value:

*Mutual funds:* Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price, and, accordingly, these investments are valued using observable inputs. The mutual funds held by the Plan are deemed to be actively traded.

There has been no change in the methodology used at December 31, 2024 and 2023.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31:

<u>Description</u>	<u>2024</u>			<u>Total</u>
	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	
Mutual funds, at fair value	<u>\$ 8,577,299</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 8,577,299</u>

  

<u>Description</u>	<u>2023</u>			<u>Total</u>
	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	
Mutual funds, at fair value	<u>\$ 6,097,039</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 6,097,039</u>

### 5. PLAN TERMINATION

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become fully vested in their employer contributions and all accrued benefits shall be paid to participants in accordance with plan provisions.

### 6. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Section 3(14) of ERISA defines a party-in-interest to include, among others, fiduciaries or employees of the Plan, any person who provides services to the Plan or an employer whose employees are covered by the Plan. Accordingly, transactions with investment funds managed and held by the Plan's qualified institutions, expenses paid to the Plan's third-party administrator from plan assets, and notes receivable from participants are considered party-in-interest transactions. During plan year 2024, there were \$9,604 of administrative expenses paid to the qualified institutions and third-party administrator.

## ARBOR BIOTECHNOLOGIES 401(K) PLAN

Notes to Financial Statements  
December 31, 2024 and 2023

---

### 7. FIXED ANNUITY CONTRACT WITH AN INSURANCE COMPANY

The Plan has a contract with Empower Annuity Insurance Company of America (the insurance company) (Empower Retirement). Contributions are held in the Empower Retirement general account and are maintained in a group annuity account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is considered fully benefit-responsive and reported at contract value. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses.

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. However, there are certain events that limit the Plan's ability to transact at contract value with the insurance company. Such events include the following: (1) premature termination of the contract by the Plan, (2) plant closings, (3) layoffs, (4) plan termination, (5) bankruptcy, and (6) early retirement incentives. The insurance company may not terminate the contract at any amount less than contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the insurance company. Such interest rates are reviewed on a quarterly basis for resetting.

### 8. TAX STATUS

The Plan Sponsor has obtained an opinion letter dated June 30, 2020, in which the Internal Revenue Service stated that the restated prototype plan document was in compliance with applicable requirements of the IRC. The Plan Administrator timely adopted the restated prototype plan. Although the Plan has been amended since receiving the opinion letter, the Plan Administrator believes that the Plan is currently being operated in accordance with the IRC.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognizes a tax liability (or asset) if the Plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the applicable authorities. The Plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress.

### 9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant account balances, and the amounts reported in the statements of net assets available for benefits.
