A. DESCRIPTION OF PLAN

The following description of Visiting Nurse Association of Florida Inc.'s ("VNA") Profit Sharing Plan and Trust (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. **General.** The Plan is a defined contribution plan covering all employees of VNA who have one year of service and have worked at least one thousand hours in the last year. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).
2. **Contributions.** Each year, VNA contributes to the Plan between zero and fifteen percent of each participant's eligible salary. Additional amounts may be contributed at the option of VNA's board of directors. Employees may elect to reduce their compensation and make a contribution on a pretax basis. These pretax contributions are known as elective deferrals.

Roth Contribution - The plan allows for employees to make contributions on an after tax basis. If certain requirements are met a "Qualified Distribution" from the Roth account in the plan will not be taxed.

With both elective referrals and Roth contributions the employee must designate how much he or she wishes to contribute on a pretax (normal 401k) basis and the amount, if any, of an after tax (Roth) basis.

Matching contributions

The company will make a matching contribution to the employees account if the employee makes a "matched employee contribution" during the plan year. The company will contribute a safe harbor matching contribution to the employee matching contribution account in an amount equal to 1) 100% of the matched employee contributions that are not in excess of 3% of compensation 2) 50% of the matched employee contributions that exceed 3% but to not exceed 5% of employee compensation. The foregoing matching contributions are fully invested.

3. **Participant Accounts.** Each participant's account is credited with VNA's contribution and allocation of (a) Plan earnings and (b) forfeitures of terminated participant's nonvested accounts. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.
4. **Vesting.** Vesting is based on years of continuous service. A participant is one-hundred percent vested after five years of credited service.
5. **Payment of Benefits.** On termination of service, a participant may elect to receive either a lump-sum amount equal to the value of his or her account, annual installments, or a life annuity.
6. **Expenses and Fees.** The plan paid advisory fees of \$33,382 and \$29,596 for the years ended September 30, 2024 and 2023, respectively.
7. **Forfeitures.** At September 30, 2024 and 2023, forfeited non vested accounts totaled -0-and -0-. These accounts are allocated to participants in the same manner as employer contributions.

B. SUMMARY OF ACCOUNTING POLICIES

1. **Basis of Presentation.** The financial statements are prepared in accordance with the AICPA Audit Guide for Employee Benefit Plans.
2. **Investments Valuation and Income Recognition.** The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.
3. **Estimates.** The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.
4. **Payment of Benefits.** Benefits are recorded when paid.
5. **Date of Managements Review.** Subsequent events were evaluated through July 10, 2024, which is the date the financial statements were available to be issued.

C. INVESTMENTS

Notes to Financial Statements
Years Ended September 30, 2024 and 2023

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority. Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were used only when Level 2 inputs were not available. For the years ending September 30, 2024 and 2023 there were no Level 2 or Level 3 Assets.

Level 1 Fair Value Measurements

The fair values of common stocks, certain corporate bonds, and U.S. government securities are based on the closing price reported in the active market where the individual securities are traded, when available.

Level 2 Fair Value Measurements

The fair value of certain corporate bonds for which quoted market price are not available are valued based on yields currently available on comparable securities of issuers with similar credit ratings. Investments in certain restricted common stocks are valued at the quoted market price of the issuer's unrestricted common stock less an appropriate discount. The fair value of the certificates of deposit is based on amortized cost or original cost plus accrued interest.

Level 3 Fair Value Measurements

The guaranteed investment contract with an insurance company is not actively traded and significant other observable inputs are not available. Thus, the fair value of the guaranteed investment contract is determined by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

D. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become one-hundred percent vested in their accounts.

E. TAX STATUS

The Internal Revenue Service had determined and informed the Company that the Plan is qualified and that the trust established under the Plan is tax-exempt, under the appropriate sections of the Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

F. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits. Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.
