Independent Auditor's Report

The Plan Administrator
Harken, Inc. Employee Stock Ownership Plan
Pewaukee, Wisconsin

We have audited the financial statements of Harken, Inc. Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA). The financial statements comprise the statements of net deficit available for benefits as of September 30, 2024 and 2023, and the related statement of changes in net deficit available for benefits for the year ended September 30, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net deficit available for benefits of the Plan as of September 30, 2024 and 2023, and the changes in its net deficit available for benefits for the year ended September 30, 2024, in accordance with accounting principles generally accepted in the United States of America (GAAP).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of September 30, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial

statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying supplemental schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Harken, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

1. Plan Description

The following brief description of the Harken, Inc. (the Company or Harken) Employee Stock Ownership Plan (the Plan or ESOP) is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Company established the Plan, effective October 1, 2019, by purchasing 100% of the outstanding shares of Harken, Inc. common stock using the proceeds of a loan payable to the Company and holds the stock in a trust established under the Plan. The borrowing is to be repaid over a period of 30 years by Company contributions to the trust fund. As the Plan makes each payment of principal and interest, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the IRC. The Plan is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986 (IRC), as amended and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan is administered by Principal Financial (Principal), and an independent third party is the trustee of the Plan.

The borrowing is collateralized by the unallocated shares of common stock. The Company has no interest or rights in such shares once they are allocated under the ESOP. Accordingly, the financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to:

- a) The accounts of employees with rights in allocated stock (allocated).
- b) Shares not yet allocated to employees (unallocated).

Eligibility

Non-union employees of the Company are generally eligible to participate in the Plan after they have attained the age of 18 and completed 1,000 hours of service within a consecutive 12-month period. Participants who do not have at least 1,000 hours of service during such Plan year or are not employed on the last working day of a Plan year generally are not eligible for an allocation of Company contributions for such year. Eligible participants are allowed to enter the Plan on October 1, coinciding with or immediately following the date in which the participant satisfies the aforementioned service requirement.

Contributions

The participant must meet eligibility requirements and be employed by the Company on the last workday of the Plan year in order to be eligible for the employer contributions. The Company must contribute annually at least an amount equal to principal and interest payments due on the loan payable. This resulted in 31,447 shares being released and allocated for the plan year ended September 30, 2024. The cash contributions made to the Plan by the Company were \$2,101,856 for the year ended September 30, 2024.

Harken, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

Participant Accounts

Each participant's account is credited as of the last day of each Plan year to reflect their portion of the Company's contribution and forfeitures of terminated participants' non-vested accounts. All participant accounts are non-participant directed.

General contributions are allocated to each participant's account based upon the relation of the participant's eligible compensation to total compensation for the Plan year. Special contributions are allocated to each participant's account based upon the relation of the participant's eligible compensation to total compensation for the Plan year.

Plan earnings, net of expenses, are allocated to each participant's account based on the ratio of the participant's beginning of the year account balance to all participants' beginning of the year account balances. The Plan does not allow for loans from the participant accounts.

For participants who are eligible to receive distributions, but have not yet elected to do so, the Company may elect to reallocate the participant's Company stock account to the participant's other investment account as of the date the distribution would have otherwise been made. As of September 30, 2024 and 2023, there are no other investment accounts in the Plan.

Vesting

The Plan provides for 20% vesting of the participant's account balance after two years of continuous service, with 20% additional vesting after each successive year of employment. A participant becomes fully vested upon completion of six years of credited service.

If a participant leaves employment with the Company due to death, total disability, or attainment of normal retirement age (65), their accrued benefits shall become 100% vested.

Benefits Paid to Participants

Distributions from the Plan are allowed on termination from service, death, disability, retirement, or required minimum distributions. Such distributions are made in cash, rolled over into an individual retirement account, or into a participant-elected account. Distributions for other separations from service generally commence in the fifth Plan year following the separation from service and are made in five annual installments.

The Plan was amended on April 16, 2024 to increase the mandatory cash-out limit to \$7,000 to address required changes enacted pursuant to the Setting Every Community Up for Retirement Enhancement Act (SECURE 2.0 Act).

Forfeitures

Forfeitures shall be charged first against a participant's other investments account; second against Company stock, which was not acquired with the proceeds of a securities acquisition loan; and third against Company stock acquired with a securities acquisition loan. If a portion of a participant's account is to be forfeited and interests in more than one class of Company stock have been allocated to a participant's account, the participant shall forfeit the same percentage of each such class. During the Plan year ended September 30, 2024, the Company reallocated from unvested participants 1,354 shares at prices determined from an independent appraisal.

Harken, Inc. Employee Stock Ownership Plan

Notes to Financial Statements

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account for certain circumstances and is notified by the trustee prior to the time that such rights are to be exercised. The trustee is permitted to vote any allocated shares for which instructions have not been given by a participant and all unallocated shares. The trustee is required to vote on behalf of the collective best interest of Plan participants and beneficiaries.

Put Option

Under federal income tax regulations, the Company stock that is held by the Plan and its participants is not readily tradable on an established market or is subject to trading limitations and includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash. The option shall commence as of the day following the date the Qualifying Company Securities, as defined by the Plan, are distributed to the participant and end 60 days thereafter. If not exercised within such 60-day period, an additional 60-day option shall commence in the following Plan year.

Diversification

Diversification is offered to participants close to retirement so they may have the opportunity to move part of the value of their investment in Company stock into other investments, which are more diversified. Participants who are at least age 55 with at least ten years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of Qualifying Company Securities, as defined by the Plan, allocated to his or her account, less any shares previously diversified. In the sixth year of the election period, the percentage changes to 50%.

Administrative Expenses

The Company shall pay all expenses in connection with the design, establishment, or termination of the Plan. The Trust shall pay all costs of administering the Plan and Trust, unless such expenses are paid by the Company.

2. Summary of Significant Accounting Policies

Basis of Presentation

The financial statements of the Plan are prepared using the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. The most significant assumptions and estimates relate to the

valuation of Company common stock. Application of these assumptions requires the exercise of judgment as to future uncertainties and, as a result, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The investments of the Plan are reported at fair value. The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). See Note 3 for a discussion on fair value measurements. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Harken, Inc. Common Stock

The Harken, Inc. common stock (Harken common stock) represents investments in the common stock of the Plan sponsor. The fair value is determined annually by an independent valuation.

Benefits Paid to Participants

Benefits are recorded when paid.

3. Fair Value Measurements

GAAP established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liabilities.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Notes to Financial Statements

The following tables set forth by level, within the fair value hierarchy, the Plan's investment assets at fair value. As required, assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Level 3 Investment in Company Stock

The valuation process involves the Plan trustee's selection of an independent appraiser. The independent valuation of the Harken common stock uses both a forecasted future cash flows income approach (discounted cash flow method) and a market-based approach based on the guideline public company method (GPC method) in the valuation. Inputs from several Company personnel are used to compile a five-year forecast used in the discounted cash flow method. The discounted cash flow method received a weighting of 50% and the Guideline Merged and Acquired Company method (GMAC method) and GPC method received a weighting of 25% for both 2024 and 2023. Other unobservable inputs and significant input values used in the stock valuation are capitalization rates of 13.7% and 13.4%, discount rates for the present value of cash flows of 13.5%, and discount rates for lack of marketability of the stock of 5% for 2024 and 2023, respectively.

The Plan's valuation method may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the trustee believes the valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plan's investments in Company common stock are as follows:

September 30,

	2024			2023		
	Allocated	Unallocated	Total	Allocated	Unallocated	Total
Number of shares	182,378	817,622	1,000,000	150,931	849,069	1,000,000

4. Loan Payable

Effective September 11, 2020, the Plan entered into a \$51,389,500 note payable agreement with the Company. The proceeds of the loan were used to purchase the remaining shares of the Company's common stock. Unallocated shares serve as collateral for repayment of the loan. The agreement provides for the loan to be repaid in annual installments, including interest at 1.0%, over 30 years.

Scheduled principal maturities of the loan payable are as follows:

Year ending September 30,

2025	\$	1,436,628
2026		1,450,995
2027		1,465,505
2028		1,480,160
2029		1,494,961
Thereafter		35,089,113
Total	\$	42,417,362

5. Administration of Plan Assets

The Plan's assets are held by the trustee of the Plan.

Company contributions are administered by Principal, who invests cash received, interest, and dividend income and makes distributions to participants. Certain administrative functions are performed by officers or employees of the Company or its subsidiaries. No such officer or employee receives compensation from the Plan.

6. Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company, by a letter dated August 11, 2021, that the Plan is qualified and the Trust established under the Plan is tax-exempt under the appropriate sections of the IRC. Although the Plan has been amended since the date of the determination letter, the Company believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan was qualified and the related Trust was tax-exempt as of the financial statement date.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Related Party and Party-in-Interest Transactions

The Plan invests in Company common stock and has indebtedness guaranteed by the Company. The Company is the Plan sponsor; therefore, these transactions qualify as party-in-interest and related party transactions.

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right to discontinue contributions and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

9. Risks and Uncertainties

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net deficit available for benefits.

10. Subsequent Events

The Plan has evaluated subsequent events through July 11, 2025, the date the financial statements were available to be issued.
