The York Water Company Pension Plan for Union Represented Employees
Actuarial Valuation as of January 1, 2024

Summary of Plan Provisions

The York Water Company Pension Plan for Union Represented Employees is a defined benefit pension plan that was established May 1, 1959, and was last amended and restated effective as of January 1, 2019. The plan year begins January 1 and ends December 31.

Eligibility To Participate

Participation under this Plan was frozen effective July 8, 2010, with respect to employees with a first day of employment on or after that date.

An employee becomes a participant in the Plan on the first day of the month following his first day of employment. Provided he is a member of the following eligible class of employees:

- A union employee covered by the United Steelworkers of America, AFL-CIO, Local Union No. 1852.
- Not an independent contractor.

Normal Retirement Benefit

Normal Retirement Date

A participant is eligible for his normal retirement pension as of the first day of the month on or after the participant satisfies the following conditions:

- Attainment of age 65.
- Participation in the Plan for five years.

Normal Retirement Benefit

The normal retirement pension is payable monthly as long as the participant lives, with payments ceasing upon the participant's death.

Normal Retirement Pension Formula

If the participant retires as of his normal retirement date, his monthly pension will equal:

- \$19.25, plus
- 1.5% of average monthly compensation in excess of 1/12 of the Social Security integration level,

both multiplied by years of benefit service.

The crediting of years of benefit service and compensation on or after May 1, 2014, shall be restricted as follows:

- Each participant credited with 40 or more years of service as of May 1, 2014, shall receive a monthly benefit payable at normal retirement age equal to his normal retirement benefit as determinable under the terms of the plan in effect as of May 1, 2014, taking into account years of benefit service and compensation as of that date.
- Each participant credited with 25 or more years of service but less than 40 years as of May 1, 2014, shall be permitted to be credited with up to 5 more years of benefit service, provided the total service credited to the participant does not exceed 40 years. For the purpose of determining such a participant's average monthly compensation, the plan shall take into account compensation paid after May 1, 2014, through the last day benefit service is credited under this restriction.

The York Water Company Pension Plan for Union Represented Employees
Actuarial Valuation as of January 1, 2024

Summary of Plan Provisions

- Each participant credited with less than 25 years of service as of May 1, 2014, shall be permitted to be credited with additional years of benefit service, provided the total service credited to the participant does not exceed 30 years. For the purpose of determining such a participant's average monthly compensation, the plan shall take into account compensation paid after May 1, 2014, through the participant's last day of employment under this restriction.

Social Security Integration Level

The annual Social Security integration level equals \$4,800.

Average Monthly Compensation

"Average monthly compensation" means the participant's monthly compensation averaged over the highest 60-consecutive-month period out of the last 120 months.

Compensation

For the purposes of the Plan, "compensation" means the participant's earnings for the plan year. The Plan takes into account W-2 wages for federal income tax withholding purposes including 401(k) and similar contributions, but subject to the Code section 401(a)(17) dollar limitation. Compensation excludes wages payable after employment termination under a severance agreement.

The Plan does not take into account:

- Deferrals under or distributions from a nonqualified deferred compensation plan
- Moving expenses
- Expense allowances or reimbursements
- Welfare benefits to the extent includable in compensation
- Taxable fringe benefits (including group term life insurance in excess of \$50,000, auto insurance)

Accrued Benefit

The accrued benefit on any date other than the normal retirement date is determined according to the normal retirement pension formula, but based upon the participant's compensation and benefit service to date as restricted under the normal retirement pension formula.

Retirement Payment Options

A participant may elect to receive his monthly pension in one of these optional forms of payment:

- **Lifetime Pension**
- **Joint and Survivor Pension** with 100%, 75%, 66⅔%, or 50% survivor pension.

If the present value of the vested pension does not exceed \$5,000, a lump sum is the only payment option. If the present value of the vested pension does not exceed \$1,000, the Plan will automatically distribute the benefit in cash if there is no election.

If the participant is married at the time payments are to begin, the automatic form of payment will be a Joint and 50% Survivor Pension with the spouse named as survivor annuitant. If the participant is not married at the time payments are to begin, the automatic form of payment will be a Lifetime Pension.

The York Water Company Pension Plan for Union Represented Employees
Actuarial Valuation as of January 1, 2024

Summary of Plan Provisions

Employment after Retirement. If a participant in pay status returns to employment, retirement benefits will not be suspended.

Other Retirement Benefits

Late Retirement

If a participant continues working after his normal retirement date, his pension will not commence until he actually retires. The late retirement benefit is the normal retirement benefit determined under the pension formula using compensation and benefit service to date.

Early Retirement

A participant is eligible for early retirement after attainment of age 62 and completion of 25 years of vesting service. The early retirement pension is the pension accrued to the date of early retirement. Also, a participant is eligible for early retirement after attainment of age 55 and completion of 5 years of vesting service. The early retirement pension is the actuarial equivalent of the pension accrued to the date of early retirement.

Disability Benefit

The participant is entitled to receive a disability benefit if he meets all of the following requirements as of the date he becomes disabled:

- Is actively employed.
- Becomes disabled.
- Completes 10 years of vesting service.

A participant is disabled if he is eligible for Social Security disability benefits. The benefit will be payable in the form of a Lifetime Pension until the earliest of: recovery, death, or normal retirement date. The participant's monthly disability benefit will be equal to his normal retirement pension accrued as of the date the disability occurred. The disability benefit will not be less than a Lifetime Pension of \$1,000.00 per month.

Death Benefit

Preretirement Survivor Benefit

If a participant dies after he has become vested under the Plan but before he begins to receive a retirement pension benefit, his surviving spouse will receive a survivor benefit if he has been married at least one year. The spouse may elect to commence payments as of the first day of any month within a reasonable period after the participant's death. The amount of the surviving spouse's benefit is equal to 50% of the benefit payable under the lifetime pension option, based upon his accrued pension at the date of death and reduced for early commencement of benefits, if applicable. If the participant is not married or has not been married for a full year at the time of death, no benefit will be paid by the Plan.

Termination Of Employment Benefits

Vesting in Accrued Pension

If employment terminates other than by retirement or disability, the amount payable from the Plan is based upon the following vesting schedule:

The York Water Company Pension Plan for Union Represented Employees
Actuarial Valuation as of January 1, 2024
Summary of Plan Provisions

Years of Vesting Service	Vesting Percentage
0–4 Years	0%
5 or More Years	100%

Time of Payment

The participant may elect payment after his early retirement date, reduced to reflect the early commencement of benefits. No pension payment is available under the Plan prior to early retirement, disability, or death, with one exception. If the present value of the vested accrued benefit does not exceed \$5,000, the lump sum value can be paid following termination of employment. If the present value of the participant's vested accrued benefit does not exceed \$1,000, the Plan will automatically distribute the amount in cash, if the participant does not elect a rollover to an IRA or another qualified plan.

Forfeitures and Restoration

Forfeiture occurs when the participant terminates employment before being vested. If a participant terminates employment after he is 100% vested and receives a distribution of his accrued pension, he will be permitted to return his distribution to the Plan if he is reemployed during the restoration period. However, before repayment, in determining a participant's accrued benefit, the Plan will reduce the benefit by the accrued benefit previously distributed.

Service Rules

Vesting Service Rules

Vesting service is determined using the elapsed time method. Fractional years of vesting service will be credited to the completed day.

Benefit Service Rules

A participant is credited with a year of benefit service for each 12-month period he is employed by the employer. Fractional years of benefit service will be credited to the completed day.

For the purpose of determining years of benefit service, the Plan excludes the following service:

- Service when the employee is not a member of the eligible class of employees.
- Service after May 1, 2014, as described in the normal retirement pension formula.

Actuarial Equivalence

Actuarial equivalence is determined based on the following mortality and interest rate assumptions:

Mortality table:	Preretirement	–	UP1984 (set back 4 years for the participant, forward 1 year for the beneficiary)
	Postretirement	–	UP1984 (set back 4 years for the participant, forward 1 year for the beneficiary)
Interest rate:	Preretirement	–	7%
	Postretirement	–	7%

For the purpose of determining the amount of a lump sum payment, the actuarial equivalence determination uses the Code section 417 mortality table and the Code section 417 interest rates.

The York Water Company Pension Plan for Union Represented Employees
Actuarial Valuation as of January 1, 2024

Summary of Plan Provisions

Early Retirement – For the purpose of determining an early retirement benefit the accrued benefit is adjusted by the early retirement factors. The accrued benefit is reduced by 5/9 of 1% for each of the first 60 months by which the early retirement date precedes the normal retirement date and is further reduced by 5/18 of 1% for each month in excess of 60 months by which the early retirement date precedes the normal retirement date.

The lump sum payment option payable upon early retirement will be equal to the greater of the present value of the early retirement benefit or the present value of the normal retirement benefit, in each instance subject to the Code section 417 mortality table and the Code section 417 interest rates requirements.

Code Section 417 Mortality Table

The Code section 417 mortality table is the Applicable Mortality Table released annually by the Internal Revenue Service.

Code Section 417 Interest Rates

The Code section 417 interest rates are the Transitional Segment Rates for the second month preceding the first day of the plan year that contains the annuity starting date.
