INDEPENDENT AUDITOR'S REPORT

Plan Administrator
Intertape Polymer Corp. Menasha Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Intertape Polymer Corp. Menasha Retirement Plan (the Plan) an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of September 30, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of September 30, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and; therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of September 30, 2024 and Schedule H, Line 4(j) - Schedule of Reportable Transactions for the year ended September 30, 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits

of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

1 – Description of the Plan

The following description of the Intertape Polymer Corp. Menasha Retirement Plan ("Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit plan providing pension benefits for eligible employees (as defined below) of the former Central Products Company ("Central"). On December 31, 2006, Central was merged into Intertape Polymer Corp. ("Company"). Effective on August 12, 2008, the name of the Plan was changed from the Central Products Company Retirement Plan to the Intertape Polymer Corp. Menasha Retirement Plan. The Plan is administered by the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA") and subsequent legislation.

Eligibility

Substantially all full-time nonunion employees of Central were eligible for participation in the Plan. An employee was eligible to participate in the Plan on April 1 or October 1 after the later of reaching age 21 or completing 1,000 hours of service in the calendar year that began with the participant's first day of active employment with Central. Effective on December 31, 1999, this Plan was frozen and, from such date, existing participants accrued no additional benefits and no new participants were permitted in the Plan.

Funding Policy

The Company shall make contributions to the Plan in such amounts as computed by the Plan's actuary, which shall be consistent with the Plan's objectives and in full compliance with the minimum funding requirements imposed under ERISA. For the Plan years ended September 30, 2024 and 2023, the Plan has complied with the minimum funding requirements imposed under ERISA. There were no employer contributions for the Plan years ended September 30, 2024 and 2023.

Payment of Benefits

Employees with five years of vesting service, as defined by the Plan, are entitled to annual pension benefits. There is no partial vesting of benefits. The Plan provides for normal retirement benefits upon reaching age 65 and has provisions for early retirement, death and disability benefits. Benefits under the Plan are determined as one percent of the participant's average final compensation multiplied by the number of years of benefit service, as defined by the Plan document.

Participants may elect to receive their pension benefits in various ways, including by lump-sum payment subject to spousal consent, as applicable, or by annuity.

Death and Disability Retirement Benefits

The spouse or beneficiary of a participant will receive a survivor annuity, as defined in the Plan, upon the death of the participant unless a survivorship benefit is elected. The survivor annuity is equal to fifty percent of the participant's monthly benefit, and payable immediately if the participant was already receiving benefits. If the participant was not already receiving benefits, payments to the spouse or beneficiary may commence as of the earliest date the participant would have received benefits.

A participant who has completed at least fifteen years of credited service and retires prior to reaching the retirement age for reason of total and permanent disability is entitled to pension benefits equal to their accrued benefit as of the date of retirement. Total and permanent disability shall mean a disability as determined for purposes of the Federal

Social Security Act which qualifies the participant for permanent disability insurance payments in accordance with such Act.

Termination of Plan

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. Upon termination of the Plan, benefits vested will not be affected. Plan assets will be allocated to benefit categories in a specific order. Beginning with the benefit category that has first claim on Plan assets, payments will be made for:

- those currently receiving benefits and who have been receiving benefits for at least three years prior to Plan termination;
- those currently receiving benefits and began receiving benefits, and active employees who were eligible to retire, within three years prior to Plan termination;
- benefits guaranteed by the Pension Benefit Guaranty Corporation ("PBGC");
- all other benefits vested under the Plan;
- all other benefits accrued but not yet vested under the Plan.

If the Plan's assets upon termination are not sufficient to fund benefits under the Plan in the above sequence, the Company is not required to fund the deficit. The PBGC will fund the remaining benefits as described below.

Benefits under this Plan are insured by the PBGC if the Plan terminates. The PBGC covers most vested retirement benefits and certain disability and survivor benefits. However, the PBGC does not insure all types of benefits and the amount of benefit protection is subject to certain limitations. The PBGC guarantees benefits vested on the date the Plan terminates. However, if the level of benefits have been increased within five years prior to Plan termination, the entire amount of the Plan's vested benefits or the benefit increases may not be guaranteed. In addition, there is a ceiling on the amount of monthly benefits that the PBGC guarantees. The PBGC adjusts this ceiling periodically.

Annuity Buy-Out Transaction

Effective June 12, 2024, the Company entered into an agreement with an insurance company to purchase a group annuity buy-out contract and transfer approximately $5 million of the Plan's projected benefit obligations to the insurance company. The transaction was funded with Plan assets. This annuity buy-out transaction transferred responsibility for pension benefits for approximately 112 retirees and their beneficiaries with a total monthly benefit of $43,360 to the insurance company.

2 – Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared using the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America as applied to pension plans.

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for disclosures regarding fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes gains (losses) on investments bought and sold as well as held during the year.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who are deceased, and (c) present employees or their beneficiaries.

The actuarial present value of accumulated plan benefits is determined annually by an independent actuary. Present value is determined by discounting future cash outflows using interest rates of high-quality corporate bonds that have terms to maturity approximating the terms of the related plan benefits and from applying actuarial assumptions to reflect the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in determining accumulated plan benefits as of September 30, 2023 were (a) the mortality rates based on the Pri-2012 Mortality table for annuitants and non-annuitants with separate tables for contingent annuitants, projected fully generationally using Scale MP-2021, (b) the Unit Credit actuarial cost method, (c) an expected rate of return of 5.00% per annum (a change from the prior year rate of 5.25% per annum), compounded annually and (d) weighted average retirement age of 65 based on assumed rate of retirement from 1% at 55 to 100% at 70.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of October 1, 2023. Had the valuation been performed as of September 30, there would be no material differences. As the Plan was merging out of existence there was no final actuarial valuation at October 1, 2024.

A summary of the actuarial present value of the accumulated plan benefits at September 30, 2023 is shown below:

	2023
Vested benefits:	
Participants currently receiving benefits	$ 5,096,784
Terminated vested participants	976,803
Other vested benefits	324,954
Total vested benefits	6,398,541
Non-vested benefits	—
Actuarial present value of accumulated plan benefits	$ 6,398,541

Changes in the actuarial present value of the accumulated plan benefits for the year ended September 30, 2023 are presented below:

	2023
Actuarial present value of accumulated plan benefits at beginning of plan year	$ 6,701,081
Increase (decrease) during the plan year attributed to:	
Benefits paid to participants	(813,794)
Increase due to passage of time	330,718
Benefits accumulated and plan experience	51,225
Change in assumptions	129,311
Net decrease in actuarial present value of accumulated plan benefits	(302,540)
Actuarial present value of accumulated plan benefits at end of plan year	$ 6,398,541

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation of fair value of investments presented in the statements of changes in net assets available for benefits.

Risks and Uncertainties

In general, the investments provided by the Plan are exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Use of Estimates

Preparing financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and the disclosure of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Subsequent Events

The Plan has evaluated subsequent events through July 14, 2025, which is the date these financial statements were available to be issued. All subsequent events, if any, requiring recognition as of September 30, 2024, have been incorporated into these financial statements.

Effective October 1, 2024, the Plan merged into the Intertape Polymer Corp. Menasha Union Pension Plan, a qualified plan. Assets of $1,893,695, and corresponding liability, transferred out of the Plan on May 8, 2025. Upon the merger, the plan name was changed to the Intertape Polymer Corp. Menasha Pension Plan. There were no changes to benefit formulas under either plan as a result of the merger.

3 – Tax Status

The Plan obtained its latest determination letter dated July 29, 2016, in which the Internal Revenue Service ("IRS") stated that the Plan, as designed, was in compliance with the applicable requirements of the Internal Revenue Code ("Code"). Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code and believes the Plan, as amended, is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of September 30, 2024 and 2023, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the

financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

4 – Fair Value Measurements

The *Fair Value Measurements and Disclosures* topic of the Financial Accounting Standards Board Accounting Standards Codification (the "Codification") provides a framework for measuring fair value.

This framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under this guidance are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; or
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methods used for assets measured at fair value at September 30, 2024 and 2023. There have been no significant changes in the methods used at September 30, 2024 and 2023:

Mutual funds: Valued at the quoted market price available on an active market.

Pooled Separate Accounts: Units of participation in pooled separate accounts invested in properties are public investment vehicles valued using the net asset value ("NAV") provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. Units of participation in pooled separate accounts invested in mutual funds and common stock, are valued based on the NAV of the underlying investments held in the pooled separate accounts at year-end. In each case, NAV is used as a practical expedient to estimate fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of September 30, 2024 and 2023, respectively:

	September 30, 2024			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds	$ 723,222	$ —	$ —	$ 723,222
Total assets in the fair value hierarchy	723,222	—	—	723,222
Investments measured at NAV *				
Pooled separate accounts				1,253,053
Total investments at fair value				$ 1,976,275

	September 30, 2023			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds	$ 5,350,474	$ —	$ —	$ 5,350,474
Total assets in the fair value hierarchy	5,350,474	—	—	5,350,474
Investments measured at NAV *				
Pooled separate accounts				1,252,997
Total investments at fair value				$ 6,603,471

*In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The following table summarizes investments measured at NAV as of September 30, 2024 and 2023:

Pooled separate accounts	**Fair value**	**Unfunded commitments**	**Redemption frequency**	**Redemption notice period**
September 30, 2024	$ 1,253,053	$—	Daily	12 months
September 30, 2023	$ 1,252,997	$—	Daily	12 months

5 – Related Party and Party-In-Interest Transactions

A portion of the costs of administering the Plan are paid by the Company. These costs are insignificant to the Plan's net assets available for benefits, but are considered to be related-party transactions.

As of September 30, 2024 and 2023, Plan investments were managed by Principal Trust Company ("Principal"). As of September 30, 2024 and 2023, Principal holds the Plan's investment assets and executes investment transactions.

Any transactions with Principal qualify as party-in-interest transactions.

6 – Information Certified by a Qualified Institution

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Management has determined that Principal is a qualified institution and the information prepared and certified by Principal meets the requirements of ERISA Section 103(a)(3)(C). Accordingly, Principal has certified that the following data included in the financial statements and supplemental schedules is complete and accurate:

- Investments at fair value, as shown in the statements of net assets available for benefits as of September 30, 2024 and 2023.
- Investment income (loss), as shown in the statements of changes in net assets available for benefits for the years ended September 30, 2024 and 2023.

- Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of September 30, 2024

- Schedule H, Line 4(j) - Schedule of Reportable Transactions for the year ended September 30, 2024

The Plan's independent certified public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

Schedule SB, Part V - Statement of Actuarial Assumptions/Methods
Intertape Polymer Corp. Menasha Retirement Plan
EIN 57-1088158 Plan No. 008

Assumptions prescribed by law

Mortality

Before benefit payment period

IRS Prescribed Mortality - Static Non-annuitant, male and female.

During benefit payment period

IRS Prescribed Mortality - Static Annuitant, male and female.

Assumptions selected by actuary

Inflation

2.40% increase per year.

Our long-term inflation assumption considered the current economic environment, recent and historical data, and forecasts from Federal Reserve Bank FOMC, Congressional Budget Office, and Survey of Professional Forecasters. See Long-Term Capital Market Assumptions link.

Asset return

5.25% for the current plan year.

The asset return is developed as a weighted average rate based on the target asset allocation of the plan and the long-term capital market assumptions. The calculated return is on an arithmetic mean basis. For details, see the Long-Term Capital Market Assumptions link.

Expected expense

The expected expense included in target normal cost is an estimate based on prior year expenses paid from plan assets, with an updated estimate of PBGC premiums. This is the best estimate available of upcoming year's expenses.

Retirement

Active participants

Age	Probability of retirement	Age	Probability of retirement
55	1%	65	35%
56-57	2%	66-67	25%
58-59	3%	68	33%
60	5%	69	50%
61-63	10%	70	100%
64	20%		

Inactive participants are assumed to retire at age 65.

Due to the short tenure as actuaries on this plan, we do not have the experience necessary to set this assumption and we are relying on the assumption set by the prior actuary. This assumption is reasonable with the plan's design and as we gain experience, we will continue to monitor and make appropriate adjustments to this assumption in the future.

Disability

None.

Marriage	85% married; husbands are 3 years older than wives. This assumption does not have material impact on the results of this report and has been selected based on our best estimate of active workforce.
Withdrawal	Selected rates of withdrawal are shown below:

Age	Rate of withdrawal
25	5.27%
35	4.47%
45	3.22%
55	0.33%

Due to the short tenure as actuaries on this plan, we do not have the experience necessary to set this assumption and we are relying on the assumption set by the prior actuary. This assumption is reasonable with the plan's design and as we gain experience, we will continue to monitor and make appropriate adjustments to this assumption in the future.

Form of benefit	Participants are assumed to receive their benefits on the normal form at the assumed retirement age.
Methods prescribed by law	
Liability measure	Funding target is the present value of the benefits accrued on the valuation date. Target normal cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year.
Methods selected by plan sponsor	
Asset method	Market value
Yield curve rates	Full yield curve. Use the rates through the month of October.
PBGC premium basis	Full yield curve. Use the rates through the month of October.
Methods elected by actuary	
Retirees	Assets and liabilities for current and future retirees are included.
Vested benefits	A benefit is included in vested benefits if it meets the requirements under PBGC. The benefit is multiplied by the participant's vesting percentage applicable to each benefit on the valuation date. The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, pre-retirement death benefits in excess of the survivor annuity death benefit and post retirement death benefits for non-retired participants except as noted in the Plan provisions.

Assumptions and methods elected by actuary - plan accounting (ASC 960)

With the exceptions below, all assumptions and methods are the same as those used in determining your plan's regular funding target and target normal cost.

Mortality	Based on Pri-2012 Total dataset base rate mortality table projected generationally using MP-2021.
Mortality base rates	Before benefit payment period Employee amount-weighted, male and female During benefit payment period Retiree amount-weighted, male and female The Society of Actuaries (SOA) is an actuarial organization that periodically reviews mortality data and publishes mortality tables and improvement scales. In October 2019, the SOA released the Pri-2012 Mortality Tables for private-sector retirement plans in the U.S. The Pri-2012 report contains different sets of mortality tables based on complete dataset or various subsets. The Total dataset base rate table was selected based on information provided by the plan sponsor. Pri-2012 section 12.4. provided three approaches for designated beneficiaries in the calculation of joint-and-survivor annuities. We believe "Approach 1" is reasonable for this plan.
Mortality improvement	MP-2021 is the most recent improvement scale published by the SOA in October 2021. In selecting this assumption, we considered the other parameters available in the MIM-2021-v4 application tool issued by the SOA in October 2023 and consider the selections in MP-2021 reasonable. Based on the sponsor's input, plan experience does not show a need for long-term excess death or Covid death load adjustments.
Interest rate used to value liabilities	5.00% The interest rate used to value ASC 960 liabilities is developed as long-term expected geometric return on plan assets. Arithmetic expected return is calculated as the weighted average of broad asset classes' arithmetic returns of the plan's target asset allocation, and then converted to the geometric under lognormal distribution assumption. For details, see Long-Term Capital Market Assumptions link.

Treatment of administrative expenses	No adjustments are made for administrative expenses, either through a reduction in the discount rate or by calculating a present value of future expenses. Plan sponsors may change their administrative expense handling at any time. Our approach provides consistent handling of ASC 960 liabilities from year to year, whether expenses are paid with plan assets or directly by the employer. Note - expenses paid with plan assets are required to be included in funding normal cost. As a result, the plan is reimbursed annually through required funding. Exception – contributions are not required due to assets sufficiently in excess of liabilities to fund both expenses and normal cost. In this case, administrative expenses are taken from the excess assets.

Schedule SB, Line 22 - Description Of Weighted Average Retirement Age
Intertape Polymer Corp. Menasha Retirement Plan
EIN 57-1088158 Plan No. 008

The weighted average retirement age is weighted by the expected percentage of active participants retiring at each age. The retirement rate reflects only those participants who meet retirement eligibility. An active participant working past assumed retirement age is expected to retire at current age.

Schedule SB, Part V - Summary of Plan Provisions
Intertape Polymer Corp. Menasha Retirement Plan
EIN 57-1088158 Plan No. 008

This report reflects the maximum benefit limits under Internal Revenue Code (IRC) Section 415 and maximum compensation limits under IRC Section 401 in effect on the first day of each plan year.

The following is a summary of plan provisions and does not alter the intent or meanings of the provisions contained in the contract or plan document.

Plan eligibility	
Service	Completion of 1,000 hours in first year of service.
Entry date	An employee will enter the plan date of hire with the completion of the service requirement. No new participants will enter the plan after 12/31/1999.

Normal retirement benefit	
Age	Attained age 65.
Form	Monthly annuity payable for life. (Other optional forms are available.)
Amount	1.0% of average compensation multiplied by accrual service.
(accrued benefit)	The accrued benefit will be frozen effective 12/31/1999.

Early retirement benefit	
Age	Attained age 55.
Service	5 years of service.
Form	Same as normal retirement benefit.
Amount	Accrued benefit at date of actual retirement payable at normal retirement.
Reduction for early commencement	Benefit may be elected immediately, but reduced by 1/180 for each of the first 60 months and 1/360 for each of the next 60 months by which the early retirement date precedes the normal retirement date.

Late retirement benefit	
Age	No maximum age.
Form	Same as normal retirement benefit.
Amount	Accrued benefit accrued to late retirement.

Termination benefit	
Vesting percentage	100% after five years of vesting service.
Form	Same as normal retirement benefit.
Amount	Accrued benefit at date of termination multiplied by the vested percentage payable at normal retirement.

Disability benefit	
Eligibility	Total disability and completion of 15 years of service.
Form	Same as normal retirement benefit.
Amount	Accrued benefit at date of disability, without reduction for early retirement but reduced by payments under Workers Compensation.

Death benefit	
Eligibility	Qualified married participant fully vested in an accrued benefit.
Form	Monthly annuity payable to spouse, deferred to participant's earliest retirement date if later than the date of death.
Amount	If death occurs before the participant's earliest retirement date, the amount paid to the surviving spouse is equal to the amount that would have been paid had the participant terminated employment on the date of death and survived to his/her earliest retirement age, retired with a qualified joint and 50% survivor annuity in effect, then died the next day. If death occurs after the participant's earliest retirement date, the spouse is entitled to a monthly life annuity equal to the benefit which would have been payable had the participant retired

Definitions	
Average final compensation	Frozen as of December 31, 1999. Average monthly compensation will be equal to the average of the highest consecutive 3 years of compensation during the most recent 10 years.
Accrued benefit	Frozen as of December 31,2017. An employee's accrued benefit will be based upon the formulas described under normal retirement benefit, the participant's current average monthly earnings, and accrual service.
Vesting service	A full year is credited for each employment year in which 1,000 or more hours of service are credited.
Accrual service	A full year is credited for each employment year in which 1,000 or more hours of service are credited.

Optional forms of benefit payments	Actuarial equivalent of normal form of payment available as: Life annuity, life annuity with periods certain of 10 years; joint and survivor annuity with 50%, 75% or 100% continuing to surviving spouse; lump sum. The optional form conversion factors disclosed in plan document for payments other than lump sums. The optional form conversion basis uses the applicable interest rate and applicable mortality table as set forth in Code Section 417 for lump sum payments. The applicable interest rate uses the third calendar month preceding the first day of the stability period which is one calendar quarter.

Changes in Principal Eligibility or Benefit Provisions

There have been no changes in principal eligibility or benefit provisions since the last valuation.

Significant Event

The enrolled actuary has not been made aware that any significant events have occurred during the year.
