## REPORT OF INDEPENDENT AUDITORS

To the Investment and Administrative Oversight Committee, Ashland Inc.  
Retirement Plan for Hourly Paid Employees of International Specialty Products Inc.  
Wilmington, Delaware

### Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Retirement Plan for Hourly Paid Employees of International Specialty Products Inc. (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of September 30, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year then ended, September 30, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the years ended September 30, 2024 and 2023, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

### Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

### Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole

are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgement, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

## **Notes to Financial Statements**

**September 30, 2024 and 2023**

**(\$ in thousands, except participant data)**

### **1. Description of the Plan**

The following brief description of the Retirement Plan for Hourly Paid Employees of International Specialty Products Inc. (the Plan) is provided for general information purposes only. The information in this Note is not a Summary Plan Description or Plan document, as these terms are defined under the Employee Retirement Income Security Act of 1974 (ERISA). Instead, this information merely summarizes selected aspects of the Plan. Read the Summary Plan Description or the Plan document for more information about the Plan. The Plan document controls the terms of the Plan and supersedes any inconsistencies contained herein or in the Summary Plan Description. Ashland Inc. (Ashland), as Plan Administrator, retains all rights to determine, interpret and apply the Plan's terms to factual matters and matters of law. This retained discretionary authority is more particularly described in the Summary Plan Description and in the Plan document.

#### **General**

The Plan is sponsored by International Specialty Products Inc. and subsidiaries (the Company or ISP) and is a noncontributory defined benefit plan covering eligible hourly employees of the Company. The Plan is subject to the current provisions of ERISA.

After a legal restructuring effort to simplify the corporate entity structure, Ashland Inc. became the legal successor to Ashland Global Holdings Inc., which had been established in 2016 in connection with the spin-off of a former business segment, while legacy Ashland Inc. had been converted to Ashland LLC. In connection with the 2022 restructuring efforts, Ashland LLC has been eliminated.

The Plan Administrator is Ashland Inc., the parent company of International Specialty Products Inc.

#### **Eligibility**

Each hourly employee of the Company generally became eligible to participate in the Plan upon completion of one hour of service, as defined, on or after January 1, 1990. Effective January 1, 1998, according to the restated Plan Document, the Plan was frozen and not open to new participants. All new employees are eligible to participate in the International Specialty Products Inc. 401(k) Plan upon the first day of the calendar month immediately following their date of hire.

#### **Vesting**

Vesting is based on years of service. A participant is 100% vested after five years of service in which the participant works for more than 1,000 hours in each year. All participants are fully vested.

#### **Pension Benefits**

Generally, normal retirement age is 65. A participant who attains normal retirement shall be 100% vested in the retirement benefit. The retirement benefit represents the applicable benefit rate, as defined, multiplied by the participant's years of credited service, as defined.

Generally, early retirement age is 55 and retirement due to disability is at age 50. Benefits are paid to the retirees in the form of a monthly annuity payment or a lump-sum distribution. If the actuarial present value of a participant's monthly benefit does not exceed \$5,000, the participant's entire interest in the Plan will be paid to them in a single lump sum.

## **Notes to Financial Statements (continued)**

### **Fees**

Fees for administration, investment advice, actuarial and other third-party services are paid by the Ashland LLC Pension Trust (the Trust). The Trust is not charged for administrative services performed on its behalf by Ashland.

## **2. Summary of Significant Accounting Policies**

### **Basis of Presentation**

The accompanying financial statements are prepared on the accrual basis of accounting.

### **Master Trust**

As of September 30, 2024 and 2023, the Plan's investments were held in the Trust, which resulted in the commingling of funds and thus, the master trust presentation. The Bank of New York Mellon (the Trustee) allocates the earnings from Trust investments to participating plans based on each plan's participation in separate investment pools within the Trust. Accordingly, the Plan's investment gain or loss, upon commingling, represents its allocable share of the Trust's investment income and appreciation (depreciation) in fair value of investments.

### **Investment Valuation**

The Plan's investment in the Trust is reported at fair value. The fair value of the Plan's interest in the Trust is based on the beginning of the year value of its interest in the Trust plus actual contributions, transfers and allocated investment income less actual distributions and allocated administrative expenses (see Note 3). Investments in the Trust include cash and cash equivalents, government securities and obligations, debt instruments, corporate stocks, and listed real assets. See Note 4 for a discussion of fair value measurements within the Trust.

Purchases and sales of securities are reflected on a trade date basis. Gains or losses on sales of securities are based on average cost. Dividend income is recorded on the ex-dividend date. Income from other investments is recorded as earned on an accrual basis. The Plan presents in the Statements of Changes in Net Assets Available for Benefits the Plan's interest in the Ashland Inc. Pension Trust investment income.

### **Actuarial Present Value of Accumulated Plan Benefits**

Accumulated plan benefits (see Note 5) are those estimated future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions for services rendered by the employees to the valuation date.

Accumulated plan benefits include benefits expected to be paid to retired or terminated employees or their beneficiaries, beneficiaries of deceased employees, and active employees or their beneficiaries. Benefits payable under all circumstances are included to the extent they are deemed attributable to employee service rendered to the valuation date. The actuarial present value of these accumulated plan benefits, as determined by the Plan's actuary, is the result from applying actuarial assumptions to reflect the time value of money (through discounts for interest) and the probability of payment between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations were as follows:

Discount rate: 5.98% per year, compounded annually (5.70% in 2023)

Mortality: PRI-2012 sex-distinct, separate annuitant and nonannuitant tables with no collar adjustment and mortality improvement projected generationally using 2023 Social Security Administration projection scale.

# **Retirement Plan for Hourly Paid Employees of International Specialty Products Inc.**

## **Notes to Financial Statements (continued)**

Inflation: 2.20% per year increase in IRC Section 415 and 401(a)(17) limitations  
(2.50% per year increase in 2023)

### **Benefit Payments**

Benefit payments to participants are recorded upon distribution.

### **Use of Estimates**

The preparation of the Plan's financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the amounts reported in these financial statements and accompanying notes. Actual results could differ from those estimates.

### **Date of Management's Review**

The Plan evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through July 14, 2025, which is the date the financial statements were available to be issued.

### **3. Investments**

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee of the Plan has certified to the completeness and accuracy of all investments reflected on the accompanying Statements of Net Assets Available for Benefits as of September 30, 2024 and 2023, and the related investment activity reflected in the Statements of Changes in Net Assets Available for Benefits for the years ended September 30, 2024 and 2023, respectively.

## Retirement Plan for Hourly Paid Employees of International Specialty Products Inc.

### Notes to Financial Statements (continued)

The Plan's interest in the net assets of the Trust was approximately 30% at September 30, 2024 and 2023, respectively. The following table presents the net assets, including investments, receivables, and liabilities, of the Trust and the Plan's interest in the net assets of the Trust as of September 30:

(a) The above total excludes administrative and other expenses of \$9 and \$17 for the years ended September 30, 2024 and 2023, respectively.

#### 4. Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). An instrument's categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the instrument's fair value measurement. The three levels within the fair value hierarchy are described as follows:

# Retirement Plan for Hourly Paid Employees of International Specialty Products Inc.

## Notes to Financial Statements (continued)

Level 1 - Observable inputs such as unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2 - Inputs, other than quoted prices included in Level 1, which are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active.

Level 3 - Unobservable inputs for the asset or liability for which there is little, if any, market activity at the measurement date.

Following is a description of the valuation methodologies used for investments measured at fair value:

Cash and cash equivalents - The carrying value of cash approximates fair value and is classified within Level 1 of the fair value hierarchy.

Government securities and obligations, debt instruments and corporate stocks - U.S. Treasury, U.S. Government securities, certain debt instruments, and corporate stocks are valued based on quoted market prices that are readily and regularly available and are classified within Level 1 of the fair value hierarchy. Others are valued based on quoted prices in markets that are not active or for which significant inputs are observable either directly or indirectly and are classified within Level 2 of the fair value hierarchy.

Listed real assets – Real estate investments comprised of public listed real estate securities (REITs), or Real Estate Investment Trusts, and trusts invested in listed infrastructure securities. Both types of trusts are valued at Net Asset Value (NAV). The NAV is based on the market value of the underlying securities.

As of September 30, 2024 and 2023, the Plan held no investments outside its interest in the Trust.

The following table sets forth by level, within the fair value hierarchy, the Trust's investments at fair value as of September 30, 2024:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
<b>Assets</b>

In developing an investment strategy for the Plan, Ashland has considered the following factors: the nature of the Plan's liabilities, the allocation of liabilities between active, deferred, and retired members, the funded status of the Plan, the applicable investment horizon, the respective size of the Plan, and historical and expected capital market returns. The Plan's assets are managed by outside investment managers, which are monitored against investment return benchmarks and Ashland's established investment strategy. Investment managers are selected based on an analysis of, among other things, their investment process, historical investment results, frequency of management turnover, cost structure and assets under management. Assets are periodically reallocated between investment managers to maintain an appropriate asset mix, diversification of investments and to optimize returns.

Investment decisions and review of investment performance for the Plan are made by the Investment and Administrative Oversight Committee (IAOC), which includes members of Ashland senior management. The IAOC meets on a semi-annual basis.

### 5. Actuarial Present Value of Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits is shown below as of the beginning of each plan year.

	October 1	
	2023	2022
Vested benefits:		
Participants currently receiving benefits	\$ 22,962	\$ 23,860
Other participants	2,982	3,383
	25,944	27,243
Nonvested benefits	7	11
Total actuarial present value of accumulated plan benefits	\$ 25,951	\$ 27,254

The changes in the actuarial present value of accumulated plan benefits from the previous valuation date were as follows:

Actuarial present value of accumulated plan benefits at October 1, 2022	\$ 27,254
Increase (decrease) during the plan year attributable to:	
Benefits accumulated and (gains) losses	262
Interest due to decrease in discount period	1,473
Benefits paid to participants	(2,622)
Change in actuarial assumptions	(416)
Actuarial present value of accumulated plan benefits at October 1, 2023	\$ 25,951

### 6. Funding Policy and Plan Termination

The Plan meets the Employee Retirement Income Security Act of 1974 (ERISA) minimum funding requirements. Ashland seeks a long run funding level of 100% on a projected benefit obligation basis, but recognizes that year-to-year funding levels may vary widely.

The Company has the right to discontinue its contributions and to terminate the Plan at any time. In the event of termination, the net assets of the Plan shall be first used to pay expenses of administration, and then to provide benefits to participants in accordance with Section 4044 of ERISA, generally to provide the following benefits in the order indicated:

1. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a United States government agency) up to the applicable limitations (discussed below).
3. All other vested benefits (that is, vested benefits not insured by the PBGC).
4. All nonvested benefits.

Any residual assets remaining after all liabilities are satisfied would be returned to the Company.

# **Retirement Plan for Hourly Paid Employees of International Specialty Products Inc.**

## **Notes to Financial Statements (continued)**

If the Plan's net assets are inadequate, the PBGC generally guarantees the payment of vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For Plan terminations during 2024 and 2023 that ceiling was \$7,108 and \$6,750 per month, respectively. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether a particular participant's accumulated plan benefits will be paid should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations, and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

### **7. Tax Status of Plan**

The Plan has received a determination letter from the IRS dated May 5, 2017, stating that the Plan is qualified under Section 401(a) of the IRC and, therefore, the related trust is exempt from taxation. The Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes the Plan, as amended, is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of September 30, 2024 and 2023, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for the plan years prior to 2020.

### **8. Risks and Uncertainties**

The Trust invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

• Expenses	\$784,000 added to current year normal cost	

**Rationale for economic assumptions**

- Discount rate: The discount rate assumption for funding purposes is prescribed by the IRS and elected by the plan sponsor.
- Expected investment return – The expected investment return is based on an analysis of the strategic asset allocation targets for the Ashland Inc. Defined Benefit Master Trust and the median simulated investment return using capital market assumptions published by Mercer Investment Consulting, net of an adjustment of 24 basis points for investment expenses assumed to be paid from plan assets.
- Expenses – The funding normal cost includes an expense load, which reflects the actual administrative expenses for the most recent plan year, adjusted for the expected change in the PBGC premium, rounded to the nearest \$1,000.

**Schedule SB, Part V — Statement of Actuarial Assumptions/Methods****Rationale for demographic assumptions**

- **Withdrawal** – The exclusion of pre-retirement voluntary termination rates were based on an experience study conducted in 2015, with annual consideration of whether any conditions have changed that is expected to lead to different employee behavior in the future.
- **Disability incidence** – Disability rates were based on an experience study conducted in 2006, with annual consideration of whether any conditions have changed that is expected to lead to different experience in the future.
- **Retirement age** – Retirement rates were based on an experience study conducted in 2015, with annual consideration of whether any conditions have changed that is expected to lead to different employee behavior in the future.
- **Benefit commencement age for deferred benefits:**
  - *Preretirement death benefit.* Surviving spouses are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start then unless the spouse elects to defer. If the spouse elects to defer, actuarial increases from the earliest commencement date must be given, so that a later commencement date is expected to be of approximately equal value, and experience indicates that most spouses do take the benefit as soon as it is available.
  - *Deferred vested benefit.* Deferred vested participants are assumed to begin benefits at age 62 (or current age if later) based on an experience study conducted in 2015, with annual consideration of whether any conditions have changed that is expected to lead to different participant behavior in the future.
- **Spouse assumptions** – The assumed spouse age is based on an experience study conducted in 2006. A high-level review of spouse demographics is conducted annually to confirm the reasonableness of the current assumptions.
- **Form of payment** – The percentage of retiring participants assumed to take joint & survivor annuities, and the assumed contingent annuitant percentages, are based on an experience study conducted in 2015. A high-level review of benefit elections is conducted annually to confirm the reasonableness of the current assumption.

**Schedule SB, Part V — Statement of Actuarial Assumptions/Methods****Actuarial methods for funding****Asset methods**

The asset valuation method is an average of the adjusted market value for each year during the last 2 years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

**Participant methods**

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break-in-service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have insurance contracts. Participants' normal accrued plan benefit is reduced by the benefit included in an annuity (buyout) purchased from John Hancock Mutual Life Insurance Company. Upon retirement, these participants receive the full benefit from plan assets and the trust is reimbursed by John Hancock. The liability is calculated reflecting the net plan benefit.

**Minimum funding methods**

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual are the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

---

**Late Retirement**

---

- Eligibility Retirement after Normal Retirement Date
  - Benefit The monthly pension benefit actuarially increased from the Normal Retirement Date to the actual retirement date.  
Actuarial equivalence is based on:
    - Mortality: Applicable mortality table under 417(e)(3)
    - Interest: Annual Interest Rate based on the 30 year Treasury Constant Maturities rate for the first full calendar month preceding the first day of the Plan Year
- 

**Deferred Vested**

---

- Eligibility Termination for reasons other than death or retirement after completing five years of vesting service
  - Benefit Normal retirement benefit commencing on the later of age 55 and separation of service reduced in the same manner as early retirement from active employment
-

## Schedule SB, Part V — Summary of Plan Provisions

### Benefits included or excluded

Unless noted below, all benefits provided by the plan are included in this valuation:

- **Most recent plan amendments included:** Amendment No. 4 adopted October 26, 2022.
- **Plan amendments excluded:** None.
- **Late retirement increases:**
  - *Active participants:* The plan applies late retirement actuarial increases for participants who defer retirement beyond their normal retirement date and this valuation includes those increases.
  - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** The plan is not top-heavy due to the fact that there are no key employees in the plan. Therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

### Plan Provisions Specific to Funding

#### Additional Benefits Included or Excluded

- **IRC Section 436 benefit restrictions:**
  - *Unpredictable contingent event benefits:* The plan does not have any unpredictable contingent event benefits.
  - *Plan amendments:* See above.
  - *Prohibited payments:* None.
  - *Benefit accruals:* Neither the plan's funding target nor target normal cost reflect any limitation on benefit accruals.

### Plan Provision Changes Since Prior Valuation

Maximum benefit amounts under IRC Section 415(b) were updated from 2022 to 2023. There have been no other plan provision changes that impact the valuation since the prior valuation date.

***Schedule SB, line 25 — Change in Method***

- The funding valuation results reflect a change from the Willis Towers Watson valuation system to the Mercer valuation system as of October 1, 2023. The magnitude of the impact on results qualified the change for automatic IRS approval. No other method changes have occurred since the October 1, 2022 valuation.

***Schedule SB, line 24 — Change in Actuarial Assumptions*****Actuarial assumption changes since prior valuation**

- Interest discount and mortality table rates were updated from 2022 to 2023 in accordance with PPA and plan sponsor elections.
- The expense component of normal cost increased from \$326,000 to \$784,000 to reflect our expectations for the current plan year.
- The expected return on assets assumption has been updated from 6.30% to 6.20% based on an analysis of the strategic asset allocation targets for the Ashland Inc. Defined Benefit Master Trust, the median simulated investment return using capital market assumptions published by Mercer Investment Consulting, and an adjustment of 24 basis points for investment expenses assumed to be paid from plan assets.
- The actuarial equivalence basis has been updated to reflect the 30-year Treasury rate for September 2023 and the IRC Section 417(e)(3) mortality table for 2023.
