Independent Auditor's Report

To the Plan Administrator of Yokohama Tire Corporation
Frozen Non-Contributory Pension Plan
Salem, Virginia

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Yokohama Tire Corporation Frozen Non-Contributory Pension Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of September 30, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Yokohama Tire Corporation Frozen Non-Contributory Pension Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of September 30, 2024 and 2023 and for the years then ended, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Yokohama Tire Corporation Frozen Non-Contributory Pension Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Yokohama Tire Corporation Frozen Non-Contributory Pension Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Yokohama Tire Corporation Frozen Non-Contributory Pension Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Yokohama Tire Corporation Frozen Non-Contributory Pension Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Actuarial methods for funding

Asset methods

The asset valuation method is an average of the adjusted market value for each year during the last two years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of the asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all plan participants as of the valuation date.
- **Participants excluded:** None.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum funding methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual are the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Miscellaneous

- **Maximum benefits** Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2023, the limit is \$265,000.
-

Benefits included or excluded

Unless noted below, all benefits provided by the plan, as restated November 16, 2009 and amended through the valuation date, are included in this valuation:

- **Most recent plan amendments included:** Amendments adopted after the valuation date or effective after the current plan year are excluded from the valuation.
- **Plan amendments excluded:** None.
- **Late retirement increases:**
 - *Active participants:* There are no active participants in the plan.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.
- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* The plan does not have any unpredictable contingent event benefits.
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

To the Plan Administrator of Yokohama Tire Corporation
Frozen Non-Contributory Pension Plan
Salem, Virginia

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Yokohama Tire Corporation Frozen Non-Contributory Pension Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of September 30, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Yokohama Tire Corporation Frozen Non-Contributory Pension Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of September 30, 2024 and 2023 and for the years then ended, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Yokohama Tire Corporation Frozen Non-Contributory Pension Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Yokohama Tire Corporation Frozen Non-Contributory Pension Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Yokohama Tire Corporation Frozen Non-Contributory Pension Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Yokohama Tire Corporation Frozen Non-Contributory Pension Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Note 1 – Plan Description

General

Yokohama Tire Corporation Frozen Non-Contributory Pension Plan (the “Plan”), formerly Yokohama Tire Corporation Non-Contributory Pension Plan – Distribution Center Hourly (the “Distribution Center Plan”), is a non-contributory defined benefit pension plan that covers eligible employees, as defined, of the Yokohama Tire Corporation (the “Company”), a California corporation and successor-in-interest to the Mohawk Rubber Company.

Effective September 30, 2001, at midnight, the Distribution Center Plan merged with three other plans of the Company, the 1959 Non-Contributory Pension Plan of the Mohawk Rubber Company (the “Akron Plan”), the 1959 Non-Contributory Guards Pension Plan (the “Guards Plan”), and the Non-Contributory Pension Plan of the Yokohama Tire Corporation (the “Guntersville Plan”). Effective as of that date, the assets of the Plans (the Akron Plan, the Guards Plan, and the Guntersville Plan), were transferred into the Plan, maintained by Keybank National Association (“Keybank”). The Plan’s assets are held in the Yokohama Tire Corporation Pension Master Trust (the “Master Trust”).

Participation in the Akron Plan and the Guards Plan was frozen effective as of November 29, 1978. Participation in the Distribution Center Plan was frozen effective as of April 1, 1993. Participation in the Guntersville Plan was frozen effective as of August 25, 1995. The Company, in conjunction with the advice and consent of the Pension Benefit Guaranty Corporation (the “PBGC”), is continuing to fund the Plan for all accrued benefits earned under the terms of the Plan at the date of plant shutdown.

Effective September 30, 2024 the Plan was merged into the SAS Rubber Company Non-Contributory Pension Plan for Hourly Employees. See Note 5.

Pension Benefits

Prior to Plan merger, retirement benefits paid to participants were defined by the Plan based upon the number of years of credited service earned by the employee. The Plan also defined normal retirement benefit, early retirement benefit, deferred vested benefit, and disability benefit. See Note 5.

Information about the Plan agreement, including vesting and benefit provisions, is contained in the Amendment and Restatement of the Yokohama Tire Corporation Non-Contributory Pension Plan.

Note 2 – Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are held in the Master Trust and are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated Plan benefits are those estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to services rendered by the participants to the valuation date. Accumulated Plan benefits include benefits expected to be paid to (a) retired or terminated participants or their beneficiaries, and (b) present participants or their beneficiaries. Benefits for retired or terminated participants or their beneficiaries are based on participants' years of service. The accumulated Plan benefits for active participants are based on their years of service preceding the valuation date. Benefits payable under all circumstances, retirement, death, disability, and termination of employment are included, to the extent they are deemed attributable to participant service rendered to the valuation date.

An independent actuary estimates the actuarial present value of accumulated Plan benefits. This is the amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The valuation date is October 1, 2023.

The accumulated Plan benefit information is as follows:

	2023
Actuarial present value of accumulated Plan benefits:	
Vested benefits:	
Participants receiving payments	\$ 351,871
Other participants	58,586
	\$ 410,457

The changes in the actuarial present value of accumulated Plan benefits are as follows:

Actuarial present value of accumulated Plan benefits;	
As of October 1, 2022:	\$ 427,556
Benefits accumulated and (gains) losses	9,729
Increase for interest due to decrease in discount period	20,511
Benefits paid	(38,014)
Change in actuarial assumptions	(9,325)
Net decrease	(17,099)
Actuarial present value of accumulated Plan benefits:	
As of October 1, 2023	\$ 410,457

The actuarial assumptions employed to determine Plan liabilities are as follows:

Discount rate	Segmented rates in 2023 and 2022, including 3.82% and 1.57%, respectively, for the first 5 years, 5.49% and 3.21%, respectively, for the next 15 years, and 4.63% and 3.66%, respectively, after 20 years.
Healthy mortality basis	PRI-2012, employee and retiree, sex distinct, blue collar, generational mortality table, with separate annuitant & contingent annuitant tables (where the primary annuitant is already deceased as of the valuation date), projected with scale MP-2021.
Retirement	Age 65.
Expenses	Administrative expenses will be paid by the employer.
Form of payment	Assume 75% elect the five-year certain and life annuity and 25% elect the 50% joint and survivor annuity.
Expected investment return	5.35% in 2023; 5.04% in 2022.

For the October 1, 2023 valuation, the following change in assumptions was made and included: the expected investment return was changed from 5.04% to 5.35%.

For the October 1, 2023 valuation, the actuarial assumptions were based on presumptions that the Plan will continue. As of the date of the valuation, the decision to merge the Plan had not been made. See Note 5.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Plan Expenses

Administrative expenses shall be paid by the Company.

Subsequent Events

Subsequent events have been evaluated through July 14, 2025, the date the financial statements were available to be issued.

Note 3 – Funding Policy

The contributions of the Company are determined by the actuary to maintain the Plan as a qualified employee benefit plan meeting the minimum funding standard requirements of the Employee Retirement Income Security Act of 1974 (ERISA).

The Company has the right under the Plan to discontinue its contributions at any time. Upon Plan merger, participants became 100% vested in their accounts. See Note 5.

Note 4 – Investment in Master Trust

Prior to Plan merger, Principal Bank (“Principal”), Trustee of the Plan, held substantially all of the Plan’s investment assets and executed transactions therein. Keybank National Association (“Keybank”), Custodian of the Plan, administered the payment of benefits and maintained sufficient operating funds to permit that function.

Prior to Plan merger, the Plan’s investments were held by the Master Trust in a trust fund administered by Principal and Keybank for the year ended September 30, 2024 and 2023. Financial information relating to these assets are held by the Master Trust and the allocation to each participating plan is based on information provided and certified by the Trustee and Custodian. Investment income and certain administrative expenses associated with the Master Trust are allocated to individual plans based upon its pro rata share of the net assets. The following tables present the investments and other assets and liabilities of the Master Trust.

	September 30, 2024	
	Master Trust Balances	Plan’s Interest in Master Trust
Cash and short-term investments	\$ 845,930	\$ -
Mutual funds	5,140,178	-
Common collective funds	167,104,958	-
	173,091,066	
Accrued employer receivable	2,501,200	-
Total net assets	\$ 175,592,266	\$ -
	September 30, 2023	
	Master Trust Balances	Plan’s Interest in Master Trust
Cash and short-term investments	\$ 1,554,265	\$ 226,246
Mutual funds	4,625,400	9,861
Common collective funds	145,901,662	311,046
	152,081,327	547,153
Accrued employer receivable	4,453,200	-
Total net assets	\$ 156,534,527	\$ 547,153

Cash and short-term investments above are maintained at Keybank and utilized to fund benefit obligations of each plan in the Master Trust. Keybank requires sufficient funds be maintained to satisfy the following month’s expected benefit payments for all plans combined, but does not specifically allocate funds to each plan. Financial reporting standards require allocation, and plan management has consistently allocated funds at Keybank based on specific plan activity. Although an individual plan’s master trust investment in cash and short-term investments may at times indicate a deficit position, surplus funds from the other two related plans in the Master Trust are utilized to temporarily fund the deficit.

The following table presents the net appreciation and investment income for the Master Trust for the years ended September 30:

	2024	2023
Net appreciation	\$ 25,936,021	\$ 2,193,174
Interest and dividends	271,973	382,420
	\$ 26,207,994	\$ 2,575,594

Notes to Financial Statements

September 30, 2024

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were used only when Level 1 or Level 2 inputs were not available.

The following table sets forth by level, within the fair value hierarchy, the Master Trust's assets at fair value as of September 30, 2023. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

	Fair Value Measurements at Reporting Date Using:		
	Fair Value	Quoted Prices in	Significant Other
		Active Markets for Identical Assets (Level 1)	Observable Inputs (Level 2)
<u>September 30, 2023</u>			
Common collective funds	\$ 145,901,662	\$ -	\$ 145,901,662
Mutual funds	4,625,400	4,625,400	-
Cash equivalents	1,554,265	1,554,265	-
Total	\$ 152,081,327	\$ 6,179,665	\$ 145,901,662

Level 1 Fair Value Measurements

The fair values of mutual funds and the money market fund are based on quoted net asset values of the shares held by the Plan at year-end.

Level 2 Fair Value Measurements

The fair values of common collective funds are based on inputs that are observable for valuing the asset or liability, either directly or indirectly (i.e., interest rate and yield curves observable at commonly quoted intervals, default rates, etc.). Observable inputs include quoted prices for similar assets or liabilities in active or non-active markets. Level 2 inputs may also include insignificant adjustments to market observable inputs.

The common collective funds invest in securities that have observable Level 2 pricing inputs, including quoted prices for similar assets in active or non-active markets. While the underlying assets values are quoted prices, the net asset value (NAV) of a unit in these funds is not publicly quoted. Units can be issued and redeemed on any business day at the NAV.

Notes to Financial Statements

September 30, 2024

All earnings and losses are reflected in the computation of the NAV and are realized by the participant upon withdrawal. No distributions of income and gain or loss are made to participants.

Note 5 – Plan Merger

Effective September 30, 2024 the Plan was merged into the SAS Rubber Company Non-Contributory Pension Plan for Hourly Employees. As of September 30, 2024, all assets were transferred to the SAS Rubber Company Non-Contributory Pension Plan for Hourly Employees. Remaining accumulated plan benefits will be distributed to participants according to provisions adopted under the SAS Rubber Company Non-Contributory Pension Plan for Hourly Employees.

Note 6 – Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated May 31, 2013 stating that the Plan is qualified, in form, under Section 401(a) of the *Internal Revenue Code* (the “IRC”), and therefore the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the *IRC* to maintain its qualification. The Plan Administrator believes the Plan is being operated in compliance with applicable requirements of the *IRC*, and therefore believes the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of September 30, 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements.

Note 7 – Trustee’s and Custodian’s Certifications

Certain information was certified as complete and accurate by Principal Bank and KeyBank, the Trustee and Custodian. This information is as follows:

- Investment assets
- Investment transactions
- Investment income

Note 8 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statements of net assets available for benefits.

Any Plan contributions made and the actuarial present value of accumulated Plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.
