## Independent Auditor's Report

To the ESOP Committee and Participants  
Lift, Inc. Employee Stock Ownership Plan  
Mountville, Pennsylvania

### Opinion

We have audited the financial statements of Lift, Inc. Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets (deficit) available for benefits as of September 30, 2024 and 2023, the related statement of changes in net assets (deficit) available for benefits for the year ended September 30, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets (deficit) available for benefits of the Plan as of September 30, 2024 and 2023, and the changes in its net assets (deficit) available for benefits for the year ended September 30, 2024, in accordance with accounting principles generally accepted in the United States of America.

### Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

## **Responsibilities of Management for the Financial Statements (continued)**

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants to determine the benefits due or which may become due to such participants.

## **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

## **Supplemental Schedule Required by ERISA**

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of September 30, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

## **Lift, Inc. Employee Stock Ownership Plan**

---

Notes to Financial Statements

September 30, 2024 and 2023

### **Note 1 - Description of Plan**

The following description of the Lift, Inc. Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the plan agreement for more complete information.

#### **General and Eligibility**

The Plan is a defined contribution pension plan covering all full-time employees of Lift, Inc. (the Company) who have one year of service with at least 1,000 hours completed and are age 18 or older. The Plan provides retirement, death, and disability benefits. The Plan operates as a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (IRC), and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Company is responsible for the administration and management of the Plan. The Board of Directors has appointed the ESOP Committee (the Committee) to act as its agent in performing these duties. The Committee manages the operation of the Plan, including giving direction concerning all payments from the Plan. The Company has entered into a trust agreement with Prudent Fiduciary Services, LLC, the trustee.

The Plan purchased Company preferred stock using the proceeds of a bank borrowing and holds the preferred stock in a trust established under the Plan. As the Plan makes debt payments, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the IRC.

The borrowing is collateralized by the unallocated shares of preferred stock and is guaranteed by the Company. The lender has no rights against shares of preferred stock once they are allocated to participants in accordance with the terms of the employee stock ownership plan. Accordingly, the financial statements of the Plan as of September 30, 2024 and 2023, and for the year ended September 30, 2024, present separately the assets and liabilities and changes therein pertaining to:

- A. The accounts of employees with vested rights in allocated preferred stock (allocated), and
- B. Preferred stock not yet allocated to employees (unallocated).

#### **Contributions**

No contributions are made by participants. The Company may contribute a discretionary contribution, to be determined each year. The contribution may be in Company preferred stock or in cash. The discretionary contribution totaled \$1,003,412 for the year ended September 30, 2024. In addition, the Company is required to make annual contributions in an amount sufficient to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. Contributions are subject to certain IRS limitations.

Notes to Financial Statements

September 30, 2024 and 2023

### Note 1 - Description of Plan (continued)

#### Participant Accounts

Each participant's account is credited with allocations of (a) the Company's contribution, (b) plan earnings, and (c) forfeitures of terminated participants' nonvested accounts, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The employer contribution is allocated to eligible participants according to the ratio each participant's compensation for the plan year bears to the total compensation of all participants for the plan year. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

#### Vesting

Vesting is determined on a graded scale starting at 20% after two years of credited service and increasing 20% per year for each additional year of credited service until attaining 100% vesting after six years of credited service, based on the following vesting schedule:

<u>Years of Service</u>	<u>Vesting Percentage</u>
Less than 2	0 %
2	20
3	40
4	60
5	80
6	100

#### Payment of Benefits

No distributions from the Plan will be made until a participant retires, dies (in which case payment shall be made to his or her beneficiary or, if none, his or her legal representatives), or otherwise terminates employment with the Company. Distributions are made in cash or, if a participant elects, in the form of Company preferred shares plus cash for any fractional share. If a participant's vested account balance is \$20,000 or less at the time of separation from service, the balance shall be paid in a lump sum as soon as administratively feasible after the close of the plan year. For vested balances greater than \$20,000, the balance will be distributed as soon as administratively feasible following the earlier of (a) the end of the fifth plan year following the plan year in which the participant terminates employment or (b) the end of the plan year in which the participant attains normal retirement age, unless the participant elects a later date.

Under the provisions of the Plan, the Company is obligated to repurchase participant shares that have been distributed under the terms of the Plan, as long as the shares are not publicly traded or if the shares are subject to trading limitations.

#### Forfeited Accounts

Forfeitures of employer contributions will be allocated among the accounts of eligible participants. Forfeitures allocated to participants' accounts totaled \$57,867 for the year ended September 30, 2024. As of September 30, 2024 and 2023, there were no forfeited nonvested accounts.

Notes to Financial Statements

September 30, 2024 and 2023

### **Note 1 - Description of Plan (continued)**

#### **Put Option**

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market or is subject to trading limitations includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

#### **Dividends**

The Board of Directors of the Company can declare dividends on Company preferred stock. At the discretion of the trustee, dividends on Company preferred stock are allocated to the accounts of participants. If a participant was terminated and was 100% vested, payment shall be distributed to the participant within 90 days after the close of the plan year for which the dividends are paid. Dividends on the unallocated shares shall be used to repay the debt of the Plan. The shares released by the payment on the debt are allocated to eligible participants based on the ratio of their eligible compensation. No dividends were paid for the years ended September 30, 2024 and 2023.

#### **Diversification**

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company preferred stock into investments that are more diversified. Participants who are at least age 55 with at least ten years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. If a participant elects to diversify their stock, they may not elect to convert back to the Company preferred stock.

### **Note 2 - Summary of Significant Accounting Policies**

#### **Basis of Accounting**

The accompanying financial statements are prepared on the accrual basis of accounting.

#### **Use of Estimates**

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

## **Lift, Inc. Employee Stock Ownership Plan**

---

Notes to Financial Statements

September 30, 2024 and 2023

### **Note 2 - Summary of Significant Accounting Policies (continued)**

#### **Investment Valuation and Income Recognition**

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

#### **Payment of Benefits**

Benefits are recorded when paid.

#### **Administrative Expenses**

As provided in the plan agreement, administrative expenses may be paid either by the Plan or by the Company. The Company has historically paid the operating expenses for the Plan. Investment related expenses are included in net appreciation in fair value of investments.

### **Note 3 - Fair Value Measurements**

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board Accounting Standards Codification 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

## Lift, Inc. Employee Stock Ownership Plan

### Notes to Financial Statements

September 30, 2024 and 2023

#### Note 3 - Fair Value Measurements (continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following are descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at September 30, 2024 or 2023.

The fair value of the Company preferred stock held by the Plan is valued at fair value based upon an independent appraisal. For the years ended September 30, 2024 and 2023, the appraisal was based upon two commonly accepted market approaches to valuation: the guideline public company methodology and the discounted cash flow methodology. The appraiser took into account the general economic outlook, the financial condition of the Company, and the results of operations of the Company, among other factors. A fair market value of \$88.65 and \$74.81 per share of preferred stock was calculated as of September 30, 2024 and 2023, respectively.

Mutual fund is valued at the daily closing price as reported by the fund and is an open-end mutual fund that is registered with the Securities and Exchange Commission. This fund is required to publish its daily net asset value and to transact at that price. The mutual fund held by the Plan is deemed to be actively traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value:

Fair Value Measurements at September 30, 2024				
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Lift, Inc. preferred stock	\$ -	\$ -	\$ 88,650,000	\$ 88,650,000
Mutual fund	1,469,919	-	-	1,469,919

### Note 3 - Fair Value Measurements (continued)

#### Changes in Fair Value of Level 3 Assets

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another.

Plan management evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended September 30, 2024 and 2023, there were no significant transfers in or out of Level 3.

#### Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs:

Instruments	Fair Value		Principal Valuation Technique	Unobservable Inputs
	September 30, 2024	September 30, 2023		
Preferred stock	<u>\$ 88,650,000</u>	<u>\$ 74,810,000</u>	Capitalization of benefits (income approach)	Weighted average cost of capital  Discount for lack of marketability

### Note 4 - Investments

The Plan's investment in Lift, Inc. preferred stock is presented in the following tables (all non-participant directed) at September 30:

## Lift, Inc. Employee Stock Ownership Plan

---

### Notes to Financial Statements

September 30, 2024 and 2023

#### Note 5 - Note Payable

On October 4, 2019, the Plan entered into an agreement to purchase 1,000,000 shares of Lift, Inc. preferred stock from the Company. The purchase price was \$97,655,943. The purchase is subject to a promissory note and is payable in annual payments of \$3,820,440 plus one payment of \$2,200,393. The note bears interest at 1.86% and matures in September 2048. The shares purchased are pledged as collateral on the note.

Under the terms of the Plan, the Company preferred stock acquired with the promissory note is held in a suspense account, as defined by the Plan. Company preferred stock held in the suspense account is released as the promissory note is repaid in accordance with a formula as set forth in the plan agreement.

The future maturities of the note payable are as follows for the five subsequent years ending September 30 and thereafter:

2025	\$ 2,474,214
2026	2,520,235
2027	2,567,111
2028	2,614,859
2029	2,663,496
Thereafter	<u>59,537,848</u>
	<u>\$ 72,377,763</u>

#### Note 6 - Tax Status

The IRS has determined and informed the Company by a letter dated November 23, 2020, that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the determination letter. The plan administrator believes that the Plan is currently designed and is currently being operated in compliance with the applicable requirements of IRC. The Plan is exempt from federal and state income taxes under current regulations.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the U.S. Federal, state, or local tax authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

#### Note 7 - Administration of Plan Assets

The Plan's assets, which consist principally of Company preferred stock, are held by the trustee of the Plan.

Company contributions are held and managed by the trustee, which invests cash received, interest and dividend income, and makes distributions to participants.

### **Note 7 - Administration of Plan Assets (continued)**

Certain administrative functions are performed by the officers or employees of the Company. No such officer or employee receives compensation from the Plan. Certain administrative expenses are paid directly by the Company.

### **Note 8 - Plan Termination**

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in the Company contribution portion of their account. Upon termination of the Plan, the Committee, consisting primarily of the officers of the Company, shall direct the trustee to pay all liabilities and expenses of the trust fund and to sell shares of encumbered stock held in the suspense account, if any, to the extent that such sale is necessary in order to pay any outstanding loans.

### **Note 9 - Risks and Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets (deficit) available for benefits.

The financial statements include Lift, Inc. preferred stock, whose value has been estimated by the plan administrator with the assistance of an independent valuation specialist in the absence of readily ascertainable market value. Because of the inherent subjectivity in any valuation, the estimated value may differ significantly from the value that would have been used had a ready market for the securities existed and the difference could be material.

The Plan also maintains cash in a bank deposit account which, at times, may exceed federally insured limits. The Plan has not experienced any losses in the account. The Plan believes it is not exposed to any significant credit risk on cash.

### **Note 10 - Related Party and Party-In-Interest Transactions**

The Plan invests primarily in the Company's preferred stock and has indebtedness guaranteed by the Company. These are related party and party-in-interest transactions. As described in Note 2, the Company pays plan expenses. The Plan has a number of service providers. Such providers are parties-in-interest under ERISA.

### **Note 11 - Subsequent Events**

Plan management has evaluated subsequent events through July 14, 2025. This date is the date the financial statements were available to be issued. No material events subsequent to September 30, 2024 were noted.
