Independent Auditor's Report

To the Plan Administrator
Precision Drive & Control, Inc. Employee Stock Ownership Plan
Monroe, Wisconsin

Opinion

We have audited the accompanying financial statements of Precision Drive & Control, Inc. Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of September 30, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended September 30, 2024, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of September 30, 2024 and 2023, and the changes in its net assets available for benefits for the year ended September 30, 2024, in accordance with accounting principles generally accepted in the United States of America (GAAP).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of September 30, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Employee Stock Ownership Plan

Notes to Financial Statements

Note 1: Description of Plan

The following description of the Precision Drive & Control, Inc. Employee Stock Ownership Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

Precision Drive & Control, Inc. (the "Employer") established the Employee Stock Ownership Plan effective as of October 1, 2018. The Plan is operated as a leveraged employee stock ownership plan designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code as amended (IRC) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) as amended.

On September 30, 2019, the Plan acquired 1,000,000 shares (100%) of Employer common stock valued at \$7.76 per share for a total purchase price of \$7,756,000. The purchase price was funded by a \$7,756,000 note payable due to Precision Drive & Control, Inc. (see Note 5). During the year ended September 30, 2024, a loan payment was made resulting in an additional 27,699.9505 shares being allocated to participants (see Note 5).

As the Plan makes future payments on the notes payable, an appropriate percentage of stock is allocated to eligible participants' accounts in accordance with applicable regulations under the IRC.

The note payable is collateralized by the unallocated shares of common stock. The note holder has no rights against shares of common stock once they are allocated to participants in accordance with the terms of the Plan. Accordingly, the financial statements of the Plan as of September 30, 2024 and 2023, and for the year ended September 30, 2024, present separately the assets and liabilities and changes therein pertaining to:

- (a) The accounts of participants with vested rights in allocated common stock ("allocated"), and
- (b) Common stock not yet allocated to participants ("unallocated").

Eligibility

Substantially all nonunion employees are eligible to participate in the Plan, provided they have completed at least one year of service with the Employer, as defined in the Plan, and are age 18 or older. Plan entry dates are October 1 or April 1.

Contributions

The Plan is funded by discretionary Employer contributions made in the form of cash. However, the Employer is generally obligated to make contributions in cash to the Plan, which, when aggregated with the Plan's dividend and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due under the note payable.

Precision Drive & Control, Inc.

Employee Stock Ownership Plan

Notes to Financial Statements

Note 1: Description of Plan (Continued)

Payment of Benefits

Distributions are made in a lump sum in the Plan year following a participant's death, disability, retirement or other separation from service if the participant's balance is less than \$5,000. When a participant's balance exceeds \$5,000, distributions will be made in five or more equal annual installments, with additional years being predicated on the amount of the withdrawal, as defined. Further, if a distribution that exceeds \$5,000 is not the result of death, disability or retirement, the distribution will commence during the sixth Plan year following the separation from service. The Plan provides for normal retirement at age 65. The Plan may distribute benefits entirely in cash, entirely in Employer common stock or a combination of each at the discretion of the Employer. However, the Employer is obligated to immediately repurchase at fair value such common stock which has been distributed under the terms of the Plan.

Administrative Expenses

Expenses of administering the Plan may be paid either by the Plan or by the Employer at its discretion.

Voting Rights

The Employer stock held in the Plan will be voted by the trustee. However, participants are entitled to direct the trustee on how to vote the shares of Employer stock allocated to their account with respect to approval or disapproval of any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, or sale of substantially all of the assets or any similar transactions.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Employer common stock released from the unallocated account and forfeitures of terminated participants' non-vested accounts. Only those participants who complete 1,000 or more hours of service and are employed as of the last day of the Plan year will receive an allocation. Cash contributions must be immediately applied to outstanding loans.

Precision Drive & Control, Inc.

Employee Stock Ownership Plan

Notes to Financial Statements

Note 1: Description of Plan (Continued)

Vesting and Forfeited Accounts

A participant is vested in Employer contributions and earnings thereon according to the following schedule:

<u>Years of Service</u>	<u>Vesting %</u>
Less than 2 years	0 %
2 years	20 %
3 years	40 %
4 years	60 %
5 years	80 %
6 years	100 %

Participants who die, become disabled or attain retirement age become fully vested in Employer contributions and earnings thereon regardless of years of service.

Forfeitures of nonvested participant balances may be used to pay expenses of the Plan or may be allocated among participants in the same manner as Employer contributions. During the year ended September 30, 2024 1,181.1736 shares were forfeited and were reallocated to eligible participants. There are no unallocated forfeitures as of September 30, 2024 and 2023.

Put Option

Under federal income tax regulations, the Employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Employer buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current value of the stock. The Employer can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants as they approach retirement by liquidating amounts pursuant to the participant's election and transferring such amounts to cash or the Employer's 401(k) Plan which maintains diversified investment funds. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify up to 25 percent of the balance in their Employer stock account each year during the first five years of the diversification period. In the sixth and final year of the diversification period, a participant can elect to diversify up to 50 percent of the balance in their Employer stock.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates in Preparation of Financial Statements

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from these estimates.

The financial statements include Precision Drive & Control, Inc. common stock whose value has been estimated by an independent valuation specialist in the absence of a readily ascertainable market value. Because of the inherent subjectivity in any valuation, the estimated value may differ significantly from the value that would have been used had a ready market for the securities existed, and the difference could be material.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Administrator determines the Plan's valuation policies utilizing information provided by the trustee. Purchases and sales of securities are recorded on a trade-date basis. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The Plan has evaluated subsequent events through June 30, 2025, the date the financial statements were available to be issued.

Precision Drive & Control, Inc.

Employee Stock Ownership Plan

Notes to Financial Statements

Note 3: Fair Value Measurements

GAAP establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority level; Level 2 inputs consist of observable inputs other than quoted prices for identical assets (Level 1); Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs are used for investments for which Level 1 inputs were not available. Level 3 inputs would only be used if Level 1 or Level 2 inputs were not available.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used as of September 30, 2024 and 2023.

Precision Drive & Control, Inc. Common Stock: Shares of Precision Drive & Control, Inc. common stock are valued at fair value based upon an independent appraisal. This appraisal was based upon a combination of acceptable valuation methods: a debt-free discounted cash flow method was the primary valuation method which was supplemented with a high-level market transaction approach.

The following tables set forth by level, within the fair value hierarchy, the Plan's investment assets at fair value as of September 30, 2024 and 2023. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement:

	Assets at Fair Value as of September 30, 2024

Notes to Financial Statements

Note 5: Long-Term Note Payable

On September 30, 2019, the Plan entered into a note payable with the Employer for \$7,756,000 with interest at 2.21%. The proceeds were used to acquire Employer common stock. Unallocated shares are collateral for the note. Shares are released from collateral and allocated to participants as payments of principal and interest are made. For the Plan year ended September 30, 2024, 27,699.9505 shares were released and allocated. The balance of the note payable at September 30, 2024 and 2023 was \$5,308,177 and \$5,466,014.

Scheduled maturities for the note payable at September 30, 2024, are summarized as follows:

2025	\$	161,325
2026		164,891
2027		168,535
2028		172,259
2029		176,066
Thereafter		4,465,101
<hr/>		
Total	\$	5,308,177

Note 6: Related-Party Transactions and Party-in-Interest Transactions

The Plan invests in Employer common stock (see Note 4) and maintains a note payable (see Note 5) to Precision Drive & Control, Inc. Contributions received from the Employer were \$383,386 for the year ended September 30, 2024. These are related party and party-in-interest transactions.

The Plan retains a number of service providers which are considered parties-in-interest under ERISA. The Plan's third party administrator received \$2,053 for administrative fees from the Plan during the year ended September 30, 2024.

Note 7: Plan Termination

The Employer reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant would become 100% vested and distributed at the time prescribed by the Plan terms and the IRC. Upon termination of the Plan, the Plan Administrator should direct the Trustee to pay all liabilities and expenses of the Plan and to sell shares of unallocated shares of common stock to the extent it determines such sale to be necessary in order to repay the note payable.

Precision Drive & Control, Inc.

Employee Stock Ownership Plan

Notes to Financial Statements

Note 8: Tax Status

The IRS has determined and informed the Company by a letter dated May 5, 2020, that the Plan and related trust are designed in accordance with applicable sections of the IRC. The plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

Note 9: Risks and Uncertainties

The Plan invests in common stock of Precision Drive & Control, Inc., which is exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with the common stock held, it is at least reasonably possible that changes in values will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
