INDEPENDENT AUDITORS' REPORT

To the Plan Administrator of the
GIROUX GLASS, INC. EMPLOYEE STOCK OWNERSHIP PLAN
Los Angeles, California

Opinion

We have audited the accompanying financial statements of Giroux Glass, Inc. Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of September 30, 2024 and 2023, the related statement of changes in net assets available for benefits for the year then ended September 30, 2024, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Giroux Glass, Inc. Employee Stock Ownership Plan as of September 30, 2024 and 2023, and the changes in its net assets available for benefits for the year then ended September 30, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Giroux Glass, Inc. Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Giroux Glass, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Giroux Glass, Inc. Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Giroux Glass, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

EMPLOYEE STOCK OWNERSHIP PLAN

Notes to the Financial Statements
September 30, 2024 and 2023

Note 1 – Plan Description and Basis of Presentation

The following description of the Giroux Glass, Inc. Employee Stock Ownership Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan agreement for complete information regarding all Plan issues related herein.

General – Giroux Glass, Inc. (the “Company”) established the Giroux Glass, Inc. Employee Stock Ownership Plan effective as of October 1, 2006. The Plan was amended and restated as of October 1, 2008. The restatement was adopted January 28, 2014 as part of the Internal Revenue Service (IRS) Closing Agreement Program. The Plan had various amendments subsequent to October 1, 2008. The Plan operates, in relevant part, as an employee stock ownership plan (“ESOP”), and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986 as amended (“IRC”), and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). The Plan is administered by a Committee appointed by the Company’s Board of Directors.

Eligibility – Employees of the Company are generally eligible to participate in the plan retroactively to the first day of the plan year in which the employee has completed 90 days of service providing they worked at least 1,000 hours during the plan year, and the employee has attained age twenty-one (21).

Participants who are not age 21, have not completed the required minimum hours of service during such plan year, are not employed on the last working day of a plan year, employees who are covered by a collective bargaining agreement, employees who are a nonresident alien, or leased employees are generally not eligible for an allocation of Company contributions for such year.

Payment of Benefits – The Plan provides for the payment of benefits to participants (or, if applicable, the beneficiary) as soon as administratively feasible after the last day of the Plan year in which the participant separates from service by reason of reaching normal retirement date, disability, death, or as soon as administratively feasible following the fifth Plan year in which the participant otherwise separates from service. Distributions are made in cash or, if a participant elects, in the form of Company common shares plus cash for any fractional shares. The methods of distributing benefits are defined in the Plan Agreement.

Voting Rights – Each participant is entitled to exercise limited voting rights attributable to the shares allocated to his or her account and is notified by the Plan Committee prior to the time that such rights are to be exercised. The Trustee shall vote any allocated shares for which instructions have not been given by a participant as the Plan Committee shall direct. The Trustee is also required to vote on behalf of the collective best interest of plan participants and beneficiaries.

Plan Termination – Although the Company has expressed no intent to do so, it reserves the right to amend or terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the interest of each participant in the trust fund shall immediately become fully vested and will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC.

GIROUX GLASS, INC.

EMPLOYEE STOCK OWNERSHIP PLAN

Notes to the Financial Statements
September 30, 2024 and 2023

Note 1 – Plan Description and Basis of Presentation (Continued)

Participant Accounts – The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of an allocation date with an allocation of employer contributions, shares of the Company's common stock, and forfeitures of terminated participants' non-vested accounts. Only those participants who are eligible employees of the Company as of the allocation date will receive an allocation. Allocations are based on a participant's eligible compensation relative to total eligible compensation for the allocation period. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance.

Vesting – If a participant's employment with the Company ends for any reason other than retirement, permanent disability or death, he or she will vest in the balances in his or her account based on years of service with the Company. Participants will vest 0% until the first two years of service are completed, and an additional 20% each year until fully vested in the sixth year.

Put Option – Under Federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option available in various situations as defined in the agreement. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase in a single payment or with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification – Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least 55 years of age with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%.

Forfeitures – No forfeiture shall occur on non-vested account balances until either the earlier of a distribution of the entire vested portion of the participant account or until the plan year in which a participant incurs five consecutive 1-year breaks-in-service. Forfeitures will be added to the employer contributions for the plan year and allocated in the same manner as employer contributions are allocated for the plan year. Forfeitures of terminated non-vested account balances allocated to remaining participants at September 30, 2024 and 2023 totaled approximately \$1,900 and \$35,600 (compiled), respectively. Plan earnings are allocated to each participant based on the ratio of the participant's beginning of the year account balance to all participants' beginning of the year account balances.

Administrative Expenses – As provided in the Plan agreement, administrative expenses may be paid either by the Plan or by the Company. The Company has historically paid the operating expenses for the Plan.

EMPLOYEE STOCK OWNERSHIP PLAN

Notes to the Financial Statements
September 30, 2024 and 2023

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting – The financial statements of the Plan are prepared using the accrual method of accounting.

Use of Estimates – The preparation of financial statements in accordance with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – The common shares of the Company are valued at estimated fair value on September 30, 2024 and 2023. Fair value is determined by annual independent appraisals (Note 6). Increases and decreases are recognized annually.

Dividend income is accrued on the ex-dividend date.

Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation includes the Plan's gain and losses on investments bought and sold as well as held during the year

Payment of Benefits – Benefits are recorded when paid.

Risks and Uncertainties – The Plan invests primarily in the Company's common stock, which is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flow and/or other such techniques. Due to the level of risks associated with the investment in common stock and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of common stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Note 3 – Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated September 3, 2015, that the Plan is qualified, and the trust established under the Plan is tax-exempt, under the appropriate sections of the Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, they believe the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions. At September 30, 2024 and 2023, there was an ongoing IRS audit for the tax period ending September 30, 2021. Subsequent to September 30, 2024 the Plan received a no change audit clearance letter.

GIROUX GLASS, INC. EMPLOYEE STOCK OWNERSHIP PLAN

Notes to the Financial Statements
September 30, 2024 and 2023

Note 4 – Administration of Plan Assets

The Plan's assets, which consist principally of Giroux Glass, Inc. common shares, are held by the Trustee of the Plan. Company contributions are held and managed by the Trustee, which invests cash received, interest, and dividend income and makes distributions to participants.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Administrative expenses for the Trustee's fees are paid directly by the Company.

Note 5 – Investments

The Plan's investments in the Giroux Glass, Inc. common stock at September 30 are as follows:

	<u>2024</u>	<u>2023</u>
Number of Shares	<u>181,750</u>	<u>181,750</u>
Cost	<u>\$ 2,073,298</u>	<u>\$ 2,073,298</u>
Fair Value	<u>\$ 8,018,000</u>	<u>\$ 9,684,000</u>

Note 6 – Fair Value Measurements

The accounting standards regarding fair value measurements define fair value, establish a framework for measuring fair value, and provide for enhanced disclosures about fair value measurements. Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in orderly transaction value hierarchy which requires an entity to maximize the use of observable inputs when measuring fair value.

The standard describes three levels of inputs that may be used to measure fair value:

- Level 1 Valuation is based upon quoted prices in active markets for identical securities.
- Level 2 Valuation is based upon other observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).
- Level 3 Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions relating to the pricing of the asset or liability including assumptions regarding risk.

GIROUX GLASS, INC. EMPLOYEE STOCK OWNERSHIP PLAN

Notes to the Financial Statements
September 30, 2024 and 2023

Note 6 – Fair Value Measurements (Continued)

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy. There have been no changes to the methodologies used at September 30, 2024 and 2023.

Cash and Cash Equivalents

The carrying value is believed to be representative of the fair value.

Giroux Glass, Inc. Common Stock

The fair value of the Giroux Glass, Inc. common stock held by the Plan is valued at fair value based upon an independent appraisal. This appraisal was based on a combination of the discounted cash flow and merger and acquisition valuation techniques.

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs
Giroux Glass, Inc. common stock	\$ 8,018,000	Income	Net income EBITDA Cash flow Weighted average cost of capital Long term growth rate Discount for lack of marketability
		Market	Merger and acquisition comparable's EBITDA multiples Discount for lack of marketability

The valuation process involves selection of an independent appraiser by the Trustee. Plan management accumulates the data for the Trustee and appraiser from the reviewed financial statements of the Company. The appraiser prepares a preliminary report which the ESOP Trustee, reviews in detail with plan management, approves and sets the value of the Company common stock.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
