Floturn, Inc. Employee Stock Ownership Plan

**Financial Statements
With Accompanying Information
Years Ended December 31, 2024 and 2023
With Independent Auditors' Report**

Independent Auditors' Report

To the Plan Administrator and Participants of the
Floturn, Inc. Employee Stock Ownership Plan
Cincinnati, Ohio

Opinion

We have audited the accompanying financial statements of the Floturn, Inc. Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Floturn, Inc. Employee Stock Ownership Plan as of December 31, 2024 and 2023, and the changes in net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Floturn, Inc. Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence that we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of a Matter

As discussed in Note 2 to the financial statements, the December 31, 2024 and 2023 financial statements include common stock of Floturn, Inc. valued at \$13,780,640 (98% of net assets) and \$11,897,986 (98% of net assets), respectively, whose value has been estimated by the Employee Stock Ownership Plan Committee of Floturn, Inc., based on an independent appraisal, in the absence of a readily ascertainable market value. We have examined the procedures used by the Committee in arriving at its estimate of the value of such securities and have inspected the underlying documentation, and in the circumstances, we believe that such procedures are reasonable and the documentation appropriate. However, because of inherent uncertainty of a valuation, those estimated values may differ significantly from the values that would have been used had a ready market for the securities existed, and the differences could be material. Our opinion is not modified with respect to the matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

**Independent Auditors' Report
(Continued)**

Responsibilities of Management for the Financial Statements (Continued)

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Floturn, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Floturn, Inc. Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Floturn, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) at December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Notes to Financial Statements

NOTE 1 DESCRIPTION OF THE PLAN

The following description of the Plan provides only general information. Participants should refer to their Floturn, Inc. Employee Stock Ownership Plan handbook for a more complete description of the Plan's provisions.

General

Floturn, Inc. (the "Company") established the Floturn, Inc. Employee Stock Ownership Plan (the "Plan") effective as of January 1, 1988. As of January 1, 1989, the Plan was amended and operates, in relevant part, as a leveraged employee stock ownership plan (the "ESOP"), and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (the "Code"). The Plan is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Plan is administered by the Employee Stock Ownership Plan Committee of Floturn, Inc. (the "Committee") appointed by the Company's Board of Directors. The common shares of the Company are valued annually as of December 31 (the "valuation date") based on an appraisal by an independent third party.

The Plan purchased Company common shares using the proceeds of bank borrowings guaranteed by the Company and holds the stock in a trust established under the Plan. The borrowings, which were paid off in full in 2009, were to be repaid over a period up to ten years by deductible Company contributions to the Plan. The Company was obligated to make contributions in cash to the Plan which equaled the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its bank borrowings. As the Plan made each payment of principal and interest, an appropriate percentage of stock was allocated to eligible employees' accounts in accordance with applicable regulations under the Code. Additional contributions to the Plan may be made at the discretion of the Board of Directors of the Company.

The borrowings were collateralized by the unallocated shares of stock and were guaranteed by the Company. The lender had no rights against shares once they were allocated under the ESOP. As of December 31, 2024 and 2023, all shares are allocated.

Participation

Employees of the Company and its subsidiaries Magnus Precision Manufacturing, Inc. and Advanced Interconnect Manufacturing, excluding leased employees, are generally eligible to participate in the Plan provided they have attained age 18 and have worked at least one thousand hours during 12 consecutive months. Eligible participants enter into the Plan on January 1st or July 1st coincident with or next following the satisfaction of the eligibility requirements. Participants are not required or permitted to make rollover contributions or any other employee contributions to the Plan.

FLOTURN, INC. EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements (Continued)

NOTE 1 DESCRIPTION OF THE PLAN (CONTINUED)

Payment of Benefits

Normal retirement age is 62 years. Early retirement occurs when an employee is credited with at least 1,000 hours of service in the year in which he/she completes 35 years of vesting service. Benefits are fully vested and payable upon disability or to designated beneficiaries in the event of a participant's death. Distributions triggered by a participant's death are as of the valuation date nearest the date on which the participant's death occurs. Distributions for disability and retirement are as of the valuation date selected by the participant, not earlier than the valuation date nearest the date on which he/she ceases to be an employee and not later than the required distribution date in the Code. Distributions for participants terminated prior to retirement, death, or disability, are as of the valuation date selected by the participant, not earlier than the last day of the fifth Plan year following the Plan year in which he/she ceases to be an employee and not later than the required distribution date in the Code. Distributions are made in shares and cash. Distributions can be received in substantially equal installments (except death) or in a lump sum. The default period is over five years, but can be shorter at the Company's discretion.

Shares received by participants from the Plan are subject a mandatory "put" option which requires the recipient to immediately sell the shares to the Company at fair value. Under the provisions of the Plan, the Company is obligated to repurchase participant shares which have been distributed under the terms of the Plan. During 2024 and 2023, the Company repurchased from participants 2,958 and 1,035 shares, respectively, at prices determined from the independent appraisal.

Diversification Election

Shares purchased by the ESOP after December 31, 1986, are subject to the diversification rules of Code Section 401(a)(28)(B). Qualified participants (25 years of vesting service or have attained age 55 and 10 years of participation) must be permitted to diversify up to 25% of the value of post-1986 shares allocated to their account. This election period runs for each year in which the participant is qualified and under the age of 60. In the year in which the qualified participant reaches age 60, the participant may elect to have the value of up to 50% of shares allocated to their accounts distributed.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each year with an allocation of shares of the Company's common stock released from the unallocated account and forfeitures of terminated participants' non vested accounts. Only those participants who are eligible employees of the Company as of the last day of the plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. The Plan does not allow for participant directed investments.

Vesting

Participant account balances vest at a rate of 20% per year in years two through six of participation in the Plan, with full vesting upon the earlier of normal retirement, disability, death or six years of vesting service.

FLOTURN, INC. EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements (Continued)

NOTE 1 DESCRIPTION OF THE PLAN (CONTINUED)

Forfeitures

Forfeitures will be applied first to restore forfeited accounts of terminated participants who had partially vested accounts and were rehired within five Plan years after their termination date. If the terminated participants are not rehired by the end of the fifth Plan year after the withdrawn participants' termination date, the unvested forfeitures will then be used to pay the costs of Plan administration. Finally, any remaining forfeitures are to be allocated to participants' accounts in the same manner as employer contributions. Forfeitures reallocated to other participants totaled approximately \$-0- and \$8,100 in 2024 and 2023, respectively.

Voting of Shares

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Committee prior to the time that such rights are to be exercised. The Committee will vote any share for which instructions have not been given by a participant.

NOTE 2 SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Investments

The common stock of the Company (15,785 and 18,305 shares held at December 31, 2024 and 2023, respectively) is not actively traded. The fair value of the common stock (\$873 and \$650 per share at December 31, 2024 and 2023, respectively) is based upon appraisals from an independent appraisal company. Such appraisals represent a fair value for the stock in the opinion of the Committee. The cost of common stock redeemed from participants is determined by the average cost method.

Administrative Expenses

Administrative expenses of the Plan are paid for by the Company.

Related Party Transactions

Several employees of the Company provide administrative services to the Plan. These services include Plan oversight and day-to-day Plan administration. The Plan is not charged by the Company for the services of the employees to the Plan.

The Plan holds common stock of Floturn, Inc., the sponsoring employer, which qualify as party-in-interest transactions.

NOTE 2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Subsequent Events

The Plan has evaluated subsequent events through July 16, 2025, which is the date these financial statements were available to be issued.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts and disclosures. Accordingly, actual results may differ from those estimates. The Plan invests primarily in common stock of the Company. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

NOTE 3 INVESTMENTS

NOTE 4 FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification ("ASC") 820, Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs.

The hierarchy is broken down into three levels base on the ability to observe inputs as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2024 and 2023:

Common Stock of Floturn, Inc.: Valued at fair value based upon an independent appraisal. This appraisal was based upon the income valuation technique consistent with the prior years. The appraiser took into account historical and projected cash flows and net income and the weighted average cost of capital based on the assessed risk. Plan management has concluded that a market participant would also recognize a discount for lack of marketability.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
