## INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator and Plan Participants of  
The Bank of America 401(k) Plan

### ***Opinion on the Financial Statements***

We have audited the financial statements of The Bank of America 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements (collectively, the financial statements).

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America (US GAAP).

### ***Basis for Opinion***

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### ***Responsibilities of Management for the Financial Statements***

Plan management (Management) is responsible for the preparation and fair presentation of the financial statements in accordance with US GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the ability of the Plan to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the transactions of the Plan that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that

includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal controls of the Plan. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by Management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the ability of the Plan to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

### ***Other Matter – Supplemental Schedule Required by ERISA***

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental information in the accompanying Schedule of Assets (held at end of year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor (DOL)'s Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of Management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with US GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

# McConnell Jones

In our opinion, the supplemental schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

## The Bank of America 401(k) Plan

Notes to Financial Statements

December 31, 2024 and 2023

---

### 1. Description of the Plan

The following description of The Bank of America 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan's Summary Plan Description and any supplements thereto for a more complete description of applicable Plan provisions. Other Plan provisions may also apply to participants from predecessor plans assumed by Bank of America Corporation (the Corporation) and merged into the Plan.

#### Plan Sponsor and Participating Employers

The Corporation is the Plan Sponsor. Participating employers in the Plan include the Corporation and certain of the Corporation's principal subsidiaries.

#### Plan Administrator

The Plan is administered by the Bank of America Corporation Corporate Benefits Committee (the Committee). The Compensation and Human Capital Committee of the Board of Directors of the Corporation delegated to the Global Human Resources Executive of the Corporation the authority to select members of the Committee. Members of the Committee serve without compensation and act by majority vote. The Committee has overall responsibility for the operation and administration of the Plan including the power to construe and interpret the Plan, decide all questions that arise thereunder and to delegate responsibilities.

#### Plan Trustee

Bank of America, N.A. (BANA) is the Plan Trustee.

#### General

The Plan is a defined contribution retirement plan providing retirement benefits for the employees of the Corporation and participating subsidiaries. It is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). Full-time, part-time and temporary employees paid by US payroll are eligible to participate in the Plan after hire. However, any employee hired on or after April 1, 2021, and classified as an "intern" under the personnel policy of a participating employer, must perform at least 1,000 Hours of Service in a 12-month period or 500 Hours of Service during two consecutive 12-month eligibility computation periods, to participate in the Plan.

The Plan has an automatic enrollment feature for newly-hired employees with a default elective deferral rate of 3% of covered compensation, subject to a 45-day opt-out election, with automatic annual increases of 1% up to a ceiling of 5%.

#### Participant Contributions

All employees covered by the Plan are eligible to make pre-tax and Roth (after-tax) contributions as soon as administratively practical after employment commences. Each participant may elect to make pre-tax and Roth (after-tax) contributions to the Plan through payroll deductions up to 75% of such participant's Plan-eligible compensation (as defined in the Plan document) for each pay period.

In accordance with federal law, 2024 annual pre-tax and/or Roth (after tax) contributions were limited to \$23,000 for participants. Additional 2024 contributions of \$7,500 were permitted for participants age 50 and older.

#### Employer Contributions

All active participants in the Plan are eligible to receive company matching contributions and an annual company contribution after completing 12 months of service. Any pre-tax and/or Roth (after-tax) contributions made prior to completing 12 months of service are not eligible for the company matching contribution. The company matching contribution is calculated and allocated to the participant's account on a pay period basis beginning the first of the month after the participant earns 12 months of vesting service and equals up to 5% of Plan-eligible compensation (subject to the Plan's applicable match-eligible compensation limit) contributed by the participant for the pay period. The company matching contribution is made in cash and directed to the same investment choices as the pre-tax and/or Roth (after-tax) contributions. An end of year "true-up" matching contribution is also provided.

## The Bank of America 401(k) Plan

Notes to Financial Statements

December 31, 2024 and 2023

---

The Corporation also provides an annual company contribution equal to 2% (3% if the participant has at least 10 years of vesting service) of the participant's Plan-eligible compensation, subject to the Plan's applicable compensation limit, that is paid after the participant earns 12 months of vesting service.

Employer contributions are made in the form of cash. After consideration of forfeitures, the actual cash remitted by the Corporation was \$1,287,193,919 for 2024.

### Payment of Benefits

While still in service, participants may generally withdraw employee and employer vested contributions as follows:

- (1) Employee contributions may be withdrawn in the case of financial hardship within the meaning of Section 401(k) of the Internal Revenue Code (IRC), disability or after age 59½;
- (2) Company matching contributions for 2005 and later Plan years may be withdrawn in the case of disability or after age 59½;
- (3) Company matching contributions for pre-2005 Plan years may be withdrawn in the case of financial hardship (as referenced above), disability, after 5 years of Plan participation, or after age 59½; and
- (4) As of July 11, 2024, generally a distribution of up to \$1,000 may be made from a participant's vested account for an unforeseeable or immediate financial need relating to necessary personal or family emergency expenses.

Following a participant's death, disability, retirement or other separation from service, all vested amounts held in the Plan for a participant's benefit are payable in a single lump sum. The form of payment is cash, except to the extent that the participant elects to have the portion of his/her account invested in the Bank of America Corporation Common Stock Fund distributed in shares of Bank of America Corporation common stock. A participant or a beneficiary may receive distributions under one of several options. The options are as follows: a lump-sum distribution of cash and/or shares of Bank of America Corporation common stock, transfer to an individual retirement account or other brokerage account, or, in the event of a disability or for a participant who meets the Rule of 60, or an eligible beneficiary, a withdrawal in the form of a single lump sum or in quarterly or annual installments for up to 15 years. The Plan provides other payment methods for certain participants in predecessor plans merged with the Plan.

### Vesting of Benefits

Each participant is 100% vested in the participant's pre-tax, Roth (after-tax) and rollover contributions to the Plan and company matching as well as earnings thereon.

The annual company contribution, including earnings thereon, is fully vested after completion of 36 months of vesting service (with accelerated vesting upon the attainment of normal retirement age or in the event of retirement, qualifying severance, divestiture or death) and is forfeited if a participant terminates employment prior to completing such vesting service requirement.

### Participant Accounts

Each participant's account is credited with the allocation of the participant's pre-tax, Roth (after-tax) rollover, company matching and annual company contributions (and in earlier years, a welcome contribution). Earnings for all funds are allocated to a participant's account on a daily basis based on the participant's account balance in relation to the total fund balance. Participants may elect to have the dividends earned on the Corporation's stock allocated to their accounts paid directly to them in cash or reinvested in the Plan. Interest on participant notes receivable is credited to the accounts of the participant.

**Participant Notes Receivable**

Generally, active participants in the Plan are eligible for loans from the Plan. A maximum of two outstanding loans is permitted at any time. Interest rates on loans are generally calculated based on the prime rate as published by Reuters on the last business day of the month prior to the month the loan was obtained. Interest rates on the loans are fixed. General purpose loans have a term of 1 to 5 years and principal residence loans have a term of 1 to 15 years. The maximum loan amount that may be obtained is the lesser of (a) 50% of the participant's vested account balance reduced by any outstanding loan balance or (b) \$50,000 reduced by the highest outstanding balance of loans under the Plan and under any tax-qualified plans maintained by affiliates during the 12-month period ending on the day before the loan was made.

Each loan bears an interest rate equal to the prime rate plus 1% and is fixed for the life of the loan. Interest rates ranged from 3.25% to 10.50 % for loans to participants as of December 31, 2024 and 2023. No allowance for credit losses has been recorded as of December 31, 2024 and 2023.

**Investment Alternatives**

The Plan provides participants with a total of 31 investment alternatives as of December 31, 2024. Investment alternatives include 4 mutual funds, 25 collective investment funds (including 10 LifePath Index funds), a Stable Value Fund and the Bank of America Corporation Common Stock Fund (invests primarily in the Corporation's common stock).

Participants may elect to modify existing investment allocations on a periodic basis subject to the provisions of the Plan.

**2. Summary of Significant Accounting Policies**

Significant accounting policies of the Plan are summarized below:

**Basis of Accounting**

The financial statements are prepared on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles (GAAP). Revenues are recognized as earned. Benefits paid to Plan participants are recorded when paid. Expenses are recorded as incurred.

**Management Estimates**

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of Plan assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the reported amounts of Plan additions and deductions during the reporting period. Actual results could differ from those estimates.

**Investment Valuation and Income Recognition**

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (see Note 5: Fair Value Measurements).

Benefit responsive investment contracts held in the Stable Value Master Trust (Master Trust) are stated at contract value (which represents contributions made under the contract, plus interest less withdrawals and administration expenses) on the Statements of Net Assets Available for Benefits (see Note 4: Interest in the Stable Value Master Trust). Contract value is the relevant measurement attribute for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Realized gains (losses) on investment transactions are recorded as the difference between proceeds received and cost. Cost is determined on the average cost basis. Net appreciation (depreciation) includes gains and losses on investments bought and sold as well as held during the year. Investment securities purchased and sold are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

## The Bank of America 401(k) Plan

Notes to Financial Statements

December 31, 2024 and 2023

### Participant Notes Receivable

Participant notes receivable are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant notes receivable are reclassified as distributions based upon the terms of the Plan document.

### Plan Expenses

Plan expenses are paid by the Corporation. Certain expenses are borne by participants based on their investment selections.

### 3. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

### 4. Interest in the Stable Value Master Trust

A portion of the Plan's investments is in the Master Trust. The Master Trust provides a single collective investment vehicle for the Stable Value Fund investment option of the Plan and The Bank of America Transferred Savings Account Plan (collectively known as Participating Plans).

The assets of the Master Trust are held by BANA, as Trustee. Each Participating Plan owns an undivided interest in the Master Trust. The portfolio is managed by an unaffiliated investment advisor, Insight North America LLC (Insight). Insight is a wholly-owned subsidiary of The Bank of New York Mellon Corporation.

The terms of the underlying investment contracts in the Master Trust are benefit responsive, providing a guarantee by the issuer to pay principal plus accrued interest in response to benefit-related requests for payment.

The value of the Plan's interest in the Master Trust is based on the beginning value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses.

The Plan's percentage interest in the Master Trust was 97.19% and 96.97% as of December 31, 2024 and 2023, respectively. The following tables present the Master Trust net assets and the Plan interest in the Master Trust net assets at contract value as of December 31, 2024 and 2023:

	Net Assets as of December 31, 2024

Net assets	<u>\$ 5,776,967,256</u>	<u>\$ 5,602,170,743</u>

The following table presents changes in net assets for the Master Trust for the year ended December 31, 2024:

Interest	\$ 152,336,938
Net transfers	(421,603,755)
Investment management and other expenses	<u>(1,439,226)</u>

End of year	<u>\$ 5,506,261,213</u>
Plan interest in the Stable Value Master Trust investment income	<u>\$ 146,516,743</u>

The Master Trust generally consists of short-term investment funds and guaranteed investment contracts (GICs). The corresponding valuation methodologies are as follows:

**Short-Term Investment Funds**

Short-term investment funds are valued at the net asset value of shares held by the Master Trust.

**Fixed Maturity Synthetic Guaranteed Investment Contracts**

Fixed maturity synthetic GICs consist of an asset or collection of assets that are owned by the Participating Plans and a benefit responsive, book value wrap contract purchased for the portfolio. The wrap contract provides book value accounting for the assets and assures that benefit responsive payments will be made at book value for participant directed withdrawals. Generally, fixed maturity synthetic GICs are held to maturity. The initial crediting rate is established based on the market interest rates at the time the initial asset is purchased.

**Constant Duration Synthetic Guaranteed Investment Contracts**

Constant duration synthetic GICs consist of a portfolio of securities owned by the Participating Plans and a benefit responsive, book value wrap contract purchased for the portfolio. The wrap contract amortizes gains and losses of the underlying securities over the portfolio duration and assures that benefit responsive payments will be made at book value for participant directed withdrawals. The initial crediting rate is established based on the market interest rates at the time the underlying portfolio is funded.

**Insurance Company Separate Account Guaranteed Investment Contracts**

Insurance company separate account GICs are investments in a segregated account of assets maintained by an insurance company for the benefit of the investors. The total return of the segregated account assets supports the separate account GIC's return. The crediting rate on this product will reset periodically and it will have an interest rate of not less than 0%.

## The Bank of America 401(k) Plan

Notes to Financial Statements

December 31, 2024 and 2023

---

It is probable that withdrawals and transfers resulting from the following events will limit the ability of the Master Trust to transact at book or contract value. Instead, market value will likely be used in determining the payouts to the participants:

- Employer-initiated events – events within the control of the plan or the plan sponsor which would have a material and adverse impact on the Stable Value Fund;
- Employer communications designed to induce participants to transfer from the Stable Value Fund;
- Competing fund transfer or violation of equity wash or equivalent rules in place; and
- Changes of qualification status of the plan.

In general, issuers may terminate the contract and settle at other than contract value if the qualification status of employer or plan changes, if there is a breach of material obligations under the contract and misrepresentation by the contract holder, or failure of the underlying portfolio to conform to the pre-established investment guidelines. Issuers may also make payments at a value other than book when withdrawals are caused by certain employer-initiated events.

All contracts are benefit responsive unless otherwise noted.

### 5. Fair Value Measurements

Accounting Standards Codification (ASC) 820, Fair Value Measurement, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value:

- *Money market funds* are valued at the net asset value of shares held by the Plan at year end;
- *Common and preferred stocks* are valued at the closing price reported on the active market on which the securities are traded;
- *Mutual funds* are valued at the net asset value of shares held by the Plan at year end; and

## The Bank of America 401(k) Plan

Notes to Financial Statements

December 31, 2024 and 2023

- *Collective investment funds* are stated at fair value as determined by the issuers based on the unit values of the funds. Unit values are determined by dividing the funds' net assets, which represent the unadjusted prices in active markets of the underlying investments, by the number of units outstanding at the valuation date.

There have been no changes in the methodologies used as of December 31, 2024 and 2023.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's non-Master Trust investments at fair value as of December 31, 2024 and 2023:

	Investments at Fair Value as of December 31, 2024

### Transfers Between Levels

The Plan recognizes any transfers between levels in the fair value hierarchy as of the end of the reporting period. There were no transfers between levels for the years ended December 31, 2024 and 2023.

## 6. Plan Termination

Although it has not expressed any intention to do so, the Corporation has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan terminates, the total amounts credited to the accounts of each participant become fully vested and no further allocations shall be made.

## 7. Related Party Transactions

As of December 31, 2024 and 2023, the Plan held investments in Bank of America Corporation common stock totaling \$6,598,681,216 and \$5,894,681,546, respectively. The Plan earned dividends thereon of \$162,160,399 for the year ended December 31, 2024.

In 2023, an investment manager for the Plan directed the purchase of certain equity securities from BofA Securities, Inc., a Bank of America affiliate company. The investment manager subsequently identified the purchase as a prohibited transaction. The transaction and subsequent correction were immaterial to the Plan.

### 9. Federal Income Tax Status

The Internal Revenue Service has determined and informed the Corporation by letter dated April 8, 2015 that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended and restated since receiving this determination letter. The Plan Administrator believes the Plan as amended and restated is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

Under present federal income tax laws, a participating employee will not be subject to federal income taxes on the contributions by the employer, or on the interest, dividends or profits on the sale of investments received by the trustee, until the participating employee's account is distributed.

### 10. Subsequent Events

In preparing the Plan's financial statements, subsequent events and transactions have been evaluated for potential recognition through June 18, 2025. Plan management determined that there are no subsequent events or transactions that require disclosure to or adjustment in the financial statements.
