Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Report of Independent Auditors

To the Board of Directors, RSR North America Corp.
RSR Hourly Pension Plan – California

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the financial statements of RSR Hourly Pension Plan – California (the “Plan”), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (“ERISA”), as permitted by ERISA Section 103(a)(3)(C) (“ERISA Section 103(a)(3)(C) audit”). The financial statements comprise the statements of net assets available for benefits as of October 8, 2024 and December 31, 2023, and the related statement of changes in net assets available for benefits for the period from January 1, 2024 to October 8, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the RSR Hourly Pension Plan – California’s financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA (“qualified institution”).

Management has obtained a certification from a qualified institution as of October 8, 2024, and December 31, 2023, and for the period from January 1, 2024 to October 8, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditors’ Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (“GAAS”). Our responsibilities under those standards are further described in the Auditors’ Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the RSR Hourly Pension Plan – California and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the RSR Hourly Pension Plan – California's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we—

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the RSR Hourly Pension Plan – California's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Other Matter—Supplemental Schedule Required by ERISA

The supplemental schedule, including the Schedule H, Line 4j - Schedule of Reportable Transactions for the period from January 1, 2024, to October 8, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

*As of October 8, 2024, and December 31, 2023, and
for the Period from January 1, 2024 to October 8, 2024*

1. Description of Plan

The RSR Hourly Pension Plan – California (the “Plan”) was a defined benefit plan that had been previously adopted by any corporation owned or controlled by RSR North America Corp. (“RSR NA”) for employees covered by a collective bargaining agreement at a plant in California. Employees of Quemetco, Inc. (the “Company”), a fully owned subsidiary of Ecobat Resources US, LLC, were covered under the Plan.

The Plan was designed to comply with the Employee Retirement Income Security Act of 1974, as amended (“ERISA”). The following brief description of the Plan is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

SECURE 2.0 Act

On December 23, 2022, Congress passed the Consolidated Appropriations Act of 2023, which included the Setting Every Community Up Retirement Act (“SECURE”) 2.0 Act. SECURE Act 2.0 contains over 90 new retirement provisions, with varying effective dates through 2033. Since the provisions of SECURE Act 2.0 include both required and optional elements, applicable provisions will be evaluated and implemented in accordance with accompanying regulations and guidance prior to the deadline, December 31, 2026. Effective January 1, 2023, the age requirement for minimum distributions was raised to 73 from 72 for any participant who turns 72 on or after January 1, 2023. Certain provisions became effective for 2024, including changes to long-term part-time eligibility. These changes had no material impact on the Plan’s 2024 financial statements.

Plan Amendments

Effective July 31, 2023, the Plan was amended to add a lump sum window option for the period August 10, 2023, through September 29, 2023, in lieu of any future payments from the Plan. A formal notice describing the lump sum window and all related election rights was distributed to eligible participants who terminated on or before December 31, 2022. All lump sums commence on November 1, 2023. In addition, the Plan was amended to increase the mandatory lump sum payment limit from accounts equal to or less than \$5,000, to \$7,000 for distributions made on and after January 1, 2024.

Effective December 31, 2023, in accordance with the agreement between General Teamsters, Airline, Aerospace and Allied Employees, Warehouseman, Drivers, Construction, Rock and Sand, Local 986 (the “Union”) and the Company, the Plan was frozen. In accordance with the Plan document, any eligible employee who was not a participant on December 31, 2023, is not permitted to become a participant. Participants in the Plan as of December 31, 2023 will no longer earn years of service for purposes of determining years of benefit service after December 31, 2023.

Plan Termination and Merger of Assets

During March 2024, the Plan Administrator resolved to terminate the Plan. As of the date of the report of independent auditors, the Plan has executed a participant notice of termination. As part of the termination, participants retained all benefits they would have been entitled to receive prior to the termination. In conjunction with the resolution made above, on October 8, 2024, all assets totaling approximately \$18,900,000 were transferred to an affiliate pension plan of the sponsor, the RSR North America Retirement Income Pension Plan.

NOTES TO FINANCIAL STATEMENTS
*As of October 8, 2024, and December 31, 2023, and
for the Period from January 1, 2024 to October 8, 2024*

1. Description of Plan (continued)

Eligibility

Prior to the Plan freeze, eligible employees who were members of the Union automatically entered the Plan on January 1st or July 1st following the completion of one year of service. Effective December 31, 2023, no new participants were allowed to enter the Plan.

Contributions and Funding

No actuarial estimate was calculated for the period January 1, 2024 to October 8, 2024 as a result of the Plan's termination. Actuarial valuations of the Plan, made as of January 1, 2024 by Aon, were the basis for determining the Company's contributions to the Plan for the year ended December 31, 2023. The Company contributed to the Plan the actuarially determined amount necessary to fund the Plan's current service cost on a current basis and to fund the prior service cost plus interest thereon over the periods prescribed for ERISA minimum funding purposes. Subsequent to the Plan's termination and merger of assets, contributions totaling \$38,501 were made to the successor affiliate plan on behalf of the Plan's required funding for the period January 1, 2024 to October 8, 2024. The Plan has met the ERISA minimum funding requirements for the period from January 1, 2024, to October 8, 2024, and the year ended December 31, 2023. Participants were neither required nor permitted to make contributions to the Plan.

Benefits and Vesting

At age 65, a participant could retire and was entitled to receive a monthly retirement benefit computed by multiplying the monthly benefit rate (as defined in the Plan) by years of credited service. Prior to March 1, 2007, there was a 40 year service limit for the purpose of determining plan benefits. The Plan was subsequently amended to eliminate any limit on years of service. A participant could elect early retirement (with reduced benefits) at age 55 or over if the participant had completed at least 10 years of vesting service.

A participant became 100% vested upon completion of five years of service or upon reaching age 65 while employed. If a vested participant died prior to retirement, the beneficiary of the participant was entitled to survivor's benefits.

In accordance with the collective bargaining agreement ("CBA") between the Company and the Union, the basic monthly benefit was \$38 per year of service, as defined.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

NOTES TO FINANCIAL STATEMENTS
*As of October 8, 2024, and December 31, 2023, and
for the Period from January 1, 2024 to October 8, 2024*

2. Summary of Significant Accounting Policies (continued)

Master Trust

The investments of the Plan, along with investments of other plans of Ecobat Resources US, LLC (the “Plan Sponsor”) and its subsidiaries, were pooled for investment purposes in a master trust pursuant to an agreement dated November 1, 2022, between Delaware Charter Guarantee & Trust Company, a Delaware corporation conducting business under the trade name Principal Trust Company (“Principal”), the trustee of the Master Trust, and the Company – The Ecobat Resources US, LLC Defined Benefit Plans Master Trust (the “Master Trust”).

Investment Valuation and Income Recognition

The Plan’s investments within the Master Trust and directly in collective trust funds are stated at net asset value (“NAV”) as determined by the trustee at the end of the plan year. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value investments.

Purchases and sales of securities are recorded on a trade-date basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded on an accrual basis.

The Plan invests in various investment securities through the Master Trust and directly through collective investment funds. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statements of net assets available for benefits.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain administrative expenses of the Plan are paid directly by the Company and are excluded from these financial statements. The portion of plan administrative expenses paid by the Company totaled approximately \$260,000 for the period from January 1, 2024, to October 8, 2024. Investment related expenses are included in net appreciation (depreciation) in fair value of investments.

Subsequent Events

Subsequent events have been evaluated through the date of the report of independent auditors, which is the date these financial statements were available to be issued. There were no material subsequent events that required recognition or disclosure in the financial statements.

3. Information Prepared and Certified by the Custodian and Trustee (unaudited)

Certain information related to investments disclosed in the accompanying financial statements and ERISA-required supplementary information, including investments held at October 8, 2024 and December 31, 2023, and net appreciation (depreciation) in fair value of investments and interest and dividends for the period from January 1, 2024, to October 8, 2024, was obtained by management and agreed to or derived from information certified as complete and accurate by Principal, the custodian and trustee of the Plan.

4. Ecobat Resources US, LLC Defined Benefit Pension Plans Master Trust

Certain Plan assets are held in the Ecobat Resources US, LLC Defined Benefit Pension Plans Master Trust as of December 31, 2023. The assets of the Master Trust are comprised of different investments in collective investment funds and venture capital funds.

The amount of the Master Trust's assets, income and change in value which is allocated to the Plan is determined by the ratio of account balances in the Plan to the total account balances of all participating plans. As of December 31, 2023, the Plan's ownership interest in the net assets of the Master Trust was approximately 31%. Effective October 8, 2024, in accordance with the Company's termination of the Plan, all assets were transferred, and the plan has no ownership interest in the net assets of the Master Trust.

5. Fair Value Measurements

The fair value hierarchy prioritizes the inputs used to measure fair value, giving the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under FASB accounting guidance are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value.

Collective investment funds: The collective investment funds are public investment vehicles valued using a NAV as a practical expedient provided by the manager of each fund. The NAV is based on the underlying net assets owned by the fund, divided by the number of shares outstanding. The NAV's unit price is quoted on a private market that is not active. However, the NAV is based on the fair value of the underlying securities within the fund, which are traded on an active market, and valued at the closing price reported on the active market on which those individual securities are traded. The significant investment strategies of the funds are as described in the financial statements provided by each fund. There are no restrictions on redemptions from these funds.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTES TO FINANCIAL STATEMENTS
*As of October 8, 2024, and December 31, 2023, and
for the Period from January 1, 2024 to October 8, 2024*

5. Fair Value Measurements (continued)

The following tables summarize investments for which fair value is measured using the NAV per share practical expedient. There are no redemption restrictions for these investments.

As of December 31, 2023:

Investment	Fair Value	Unfunded Commitments	Redemption Frequency (If Currently Eligible)	Redemption Notice Period
Collective investment funds	\$53,392	N/A	Daily	N/A
Interest in master trust	\$17,017,941	N/A	Daily	N/A

6. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are future periodic payments, including lump sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the plan are accumulated based on employees' compensation during each year of credited service. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances—retirement, death, disability, and termination of employment—are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits.

The actuarial present value of accumulated plan benefits as of December 31, 2023 was determined by an actuary from Aon, and is the amount which results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The present values of accumulated plan benefits as of December 31, 2023 have been projected from the January 1, 2024 valuation, in accordance with the actuarial assumptions and based on actual contributions and benefit payments for 2023.

NOTES TO FINANCIAL STATEMENTS
*As of October 8, 2024, and December 31, 2023, and
for the Period from January 1, 2024 to October 8, 2024*

6. Actuarial Present Value of Accumulated Plan Benefits (continued)

Significant assumptions underlying the actuarial computations are as follows for the period from January 1, 2024, to October 8, 2024, and for the year ended December 31, 2023:

Interest rates used to discount the obligation:	6.50% per annum
Mortality:	Mortality is based on the PRI-2012 Blue Collar Tables, projected generationally using improvement scale MP-2021.
Assumed average retirement age:	Retirement rate based on January 2017 Experience Study.

Plan contributions were made, and the actuarial present value of accumulated plan benefits was reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

The table below reflects the actuarial present values of accumulated plan benefits:

As of	October 8, 2024	December 31, 2023
Actuarial present value of accumulated plan benefits:		
Vested benefits		
Participants currently receiving payments	\$ -	\$ 7,597,975
Participants with deferred benefits	-	943,146
Other participants	-	7,732,933
Total vested benefits	-	16,274,054
Nonvested benefits	-	52,392
Actuarial present value of accumulated plan benefits	\$ -	\$ 16,326,446

NOTES TO FINANCIAL STATEMENTS
*As of October 8, 2024, and December 31, 2023, and
for the Period from January 1, 2024 to October 8, 2024*

6. Actuarial Present Value of Accumulated Plan Benefits (continued)

The table below reflects the changes in the actuarial present value of accumulated plan:

	January 1, 2024, to October 8, 2024
For the Period from	
Actuarial present value of accumulated plan benefits at beginning of year	\$ 16,326,446
Change attributable to:	
Benefits accumulated	1,907,316
Benefits paid	(628,856)
Change in actuarial assumptions	-
Other changes (b)	1,282,064
Transfer out	(18,886,970)
Net change	(16,326,446)
Actuarial present value of accumulated plan benefits at end of period	\$ -

(b) Consists primarily of the increase due to ongoing benefit accruals (if any) and those items of plan experience that are not associated with plan asset performance.

7. Related Party and Party-in-Interest Transactions

Certain Plan investments in collective investment funds, both directly and through the Master Trust, were managed by Principal. Principal was the custodian and trustee of the Plan and, therefore, these transactions qualified as party-in-interest transactions. All of these transactions were exempt from the prohibited transaction rules.

Fees incurred by the Plan for investment management services are included in net appreciation (depreciation) in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. The Plan also made direct payments to the trustee and third party administrator totaling \$8,196 for the period from January 1, 2024, to October 8, 2024. These costs incurred by the Plan are included in administrative expenses on the statement of changes in net assets available for benefits. The plan sponsor pays directly any other fees related to the Plan's operations.

NOTES TO FINANCIAL STATEMENTS
*As of October 8, 2024, and December 31, 2023, and
for the Period from January 1, 2024 to October 8, 2024*

8. Plan Termination

The Plan Administrator resolved to terminate the Plan. As such, net assets of the Plan were allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Benefits attributable to employee contributions, taking into account those paid out before termination.
2. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
3. Other vested benefits insured by the Pension Benefit Guaranty Corporation (“PBGC”) (a U.S. government agency) up to the applicable limitations.
4. All other vested benefits (that is, vested benefits not insured by the PBGC).
5. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor’s pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan’s termination.

9. Income Tax Status

The Internal Revenue Service (“IRS”) has determined and informed the Company by letter dated March 16, 2018, that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code (“IRC”). The Plan has been amended since receiving the determination letter. However, the Plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRS.

U.S. GAAP require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits taken by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2021.

Early Retirement
Eligibility

Age 55 and ten years of vesting service.

Benefit

A monthly benefit equal to the normal retirement benefit reduced by 5/9 of 1% for each month of the first 60 months and 5/18 of 1% for each additional month that the early retirement precedes the normal retirement.

Late Retirement
Eligibility

Retirement after normal retirement age.

Benefit

The greater of the accrued benefit as of the late retirement date and the accrued benefit as of the normal retirement date actuarially increased to the late retirement date.

Vested Termination
Eligibility

Five years of vesting service.

Benefit

The accrued benefit at the date of termination. Reduced payments may begin any time after eligibility for early retirement based on the same reductions as early retirement from active status.

Surviving Spouse
Eligibility

Married and five years of vesting service.

Benefit

A monthly benefit payable to the surviving spouse beginning at the employee's earliest retirement age equal to 50% of the amount payable if the participant had retired early with a 50% joint and survivor benefit.

Normal Form of Annuity
Without Spouse

Single life annuity.

With Spouse

50% Joint and survivor annuity reduced to be equivalent to the retirement benefit payable for employee's lifetime. Participant receives reduced lifetime benefit and, in event of participant's death, 50% of reduced benefit continues to surviving spouse.

Optional Forms of Annuity

Single life annuity
5-year certain and life annuity
10-year certain and life annuity
100% joint and survivor annuity

Early Retirement
Eligibility

Age 55 and ten years of vesting service.

Benefit

A monthly benefit equal to the normal retirement benefit reduced by 5/9 of 1% for each month of the first 60 months and 5/18 of 1% for each additional month that the early retirement precedes the normal retirement.

Late Retirement
Eligibility

Retirement after normal retirement age.

Benefit

The greater of the accrued benefit as of the late retirement date and the accrued benefit as of the normal retirement date actuarially increased to the late retirement date.

Vested Termination
Eligibility

Five years of vesting service.

Benefit

The accrued benefit at the date of termination. Reduced payments may begin any time after eligibility for early retirement based on the same reductions as early retirement from active status.

Surviving Spouse
Eligibility

Married and five years of vesting service.

Benefit

A monthly benefit payable to the surviving spouse beginning at the employee's earliest retirement age equal to 50% of the amount payable if the participant had retired early with a 50% joint and survivor benefit.

Normal Form of Annuity
Without Spouse

Single life annuity.

With Spouse

50% Joint and survivor annuity reduced to be equivalent to the retirement benefit payable for employee's lifetime. Participant receives reduced lifetime benefit and, in event of participant's death, 50% of reduced benefit continues to surviving spouse.

Optional Forms of Annuity

Single life annuity
5-year certain and life annuity
10-year certain and life annuity
100% joint and survivor annuity

Definitions

Benefit Service

A full year of benefit service is earned if the employee works 2,000 or more hours in one plan year. Fractional years are granted if more than 1,000 hours are worked in one plan year. Benefit Service is frozen as of December 31, 2023.

Vesting Service

A full year of vesting service is earned if the employee works 1,000 or more hours in one plan year. Fractional years are not granted for vesting service.

Plan Changes Since the Prior Year

The funding and plan reporting valuations reflect the following plan changes since the prior year:

- Benefit Service and Benefit Accruals are frozen as of December 31, 2023. July 1, 2023 is the final Entry Date under the Plan.
- Effective October 1, 2024, the RSR Hourly Pension Plan – California was merged into the RSR North America Corp. Retirement Income Pension Plan.

Other Information to Fully and Fairly Disclose the Actuarial Position of the Plan

Due to software limitations with the electronic filing process, information filed electronically cannot be controlled by the Enrolled Actuary. The values on the signed Schedule SB will govern to the extent there are any differences in the entries filed electronically and the actual data contained on the signed Schedule SB.

Schedule SB, line 24—Change in Actuarial Assumptions

The funding valuation reflects the following non-prescribed assumption change:

- A change in the unlimited expected rate of return on assets from 6.75% for 2023 to 6.50% for 2024, as limited by the third segment rate.

This change was made to better reflect the anticipated plan experience. This assumption change did not reduce the funding shortfall; as such, approval of the Commissioner is not required.
