INDEPENDENT AUDITOR'S REPORT

To the Trustees
Toltz, King, Duvall, Anderson and Associates, Incorporated
Employee Stock Ownership Plan
St. Paul, Minnesota

Opinion

We have audited the accompanying financial statements of Toltz, King, Duvall, Anderson and Associates, Incorporated Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Toltz, King, Duvall, Anderson and Associates, Incorporated Employee Stock Ownership Plan (the Plan) as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule, Schedule 1, as of December 31, 2024 is presented for purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

Note 1 PLAN DESCRIPTION AND BASIS OF PRESENTATION

The following brief description of the Toltz, King, Duvall, Anderson and Associates, Incorporated Employee Stock Ownership Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for complete information.

GENERAL

Toltz, King, Duvall, Anderson and Associates, Incorporated and its wholly-owned subsidiaries Cedar Street Architecture at TKDA, Inc. and Saez Consulting Engineers, Inc. (together the Company or TKDA) established the Toltz, King, Duvall, Anderson and Associates, Incorporated Employee Stock Ownership Plan (the Plan) effective as of January 1, 1994. The Plan is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (IRC), and is subject to the applicable provisions of the Employee Retirement Income Securities Act of 1974 (ERISA). The Plan is administered by the Trustees of the Plan.

ELIGIBILITY

Employees of the Company are eligible to participate in the Plan after one hour of service. Participants who do not have at least one hour of service during the Plan year or are not employed on the last day of the Plan year are generally not eligible for an allocation of Company contributions for such year. Leased employees are not eligible for the Plan.

EMPLOYER CONTRIBUTIONS

Each year the Company may make discretionary contributions, at the option of the Company's Board of Directors, subject to IRS regulations. The Company elected to make a discretionary contribution to the Plan of \$5,000,000 for the year ended December 31, 2024.

PAYMENT OF BENEFITS

Distribution on account of termination, death, disability or retirement are made in a lump sum or installments in the Plan year following the event. The amount to be distributed is based upon the account valuation date immediately preceding the distribution. Distributions are made in cash or, if the participant elects, in the form of Company stock plus cash for any fractional share of common stock.

Under the provisions of the Plan, the Company is obligated to repurchase participant shares, which have been distributed under the terms of the Plan if the shares are not publicly traded or if the shares are subject to trading limitations. No shares were distributed and repurchased during 2024.

ADMINISTRATIVE EXPENSES

As provided in the Plan agreement, administrative expenses may be paid either by the Plan or by the Company. The Company has historically paid the administrative expenses for the Plan.

VOTING RIGHTS

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustees prior to the time that such rights are to be exercised. The Trustees are not permitted to vote any allocated share for which instructions have not been given by a participant. The Trustees are required, however, to vote any unallocated shares on behalf of the collective best interest of Plan participants and beneficiaries.

PLAN TERMINATION

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC. Upon termination of the Plan, the Plan Administrator should direct the Trustees to pay all liabilities and expenses of the trust fund.

PARTICIPANT ACCOUNTS

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's common stock released by the Trustees from the unallocated account and forfeitures of terminated participants' nonvested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance.

VESTING

If a participant's employment with the Company ends for any reason other than retirement, permanent disability, or death he or she will vest in the balances in his or her account based on total years of service with the Company. Participants are 100 percent vested after two years of service.

PUT OPTION

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

DIVERSIFICATION

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25 percent of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent, less any shares previously diversified. Participants who elect to diversify receive a cash distribution, stock distribution, or may transfer the amount to another qualified plan of the Company.

FORFEITURES

Plan forfeitures are allocated to each participant's account based upon the relation of the participant's eligible compensation to total eligible compensation for the Plan year. Forfeitures allocated to participants at December 31, 2024 totaled \$3,283 and 7 shares. Unallocated forfeited non-vested accounts to be allocated to participant accounts in future years totaled \$3,392 and 12 shares.

Note 2 **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

BASIS OF ACCOUNTING

The financial statements of the Plan are prepared on the accrual basis of accounting.

USE OF ESTIMATES

The preparation of financial statements in accordance with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

RISKS AND UNCERTAINTIES

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows and/or other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

INVESTMENT VALUATION AND INCOME RECOGNITION

The shares of Company common stock are reported at fair value. See Note 6 for discussion of fair value measurements.

TOLTZ, KING, DUVALL, ANDERSON AND ASSOCIATES, INCORPORATED
EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2024 and 2023

Other investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Trustees determine the Plan's valuation policies utilizing information provided by the investment advisors, custodians, and insurance company.

Purchases and sales are recorded on a trade date basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

PAYMENT OF BENEFITS

Benefits are recorded when paid.

SUBSEQUENT EVENTS

Plan management has evaluated subsequent events through July 15, 2025, the date the financial statements were available to be issued.

Note 3 TAX STATUS

The Plan has received a determination letter from the Internal Revenue Service dated July 11, 2017, stating that the Plan is qualified, under the Internal Revenue Code (IRC) and therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed, and being operated, in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken a significant uncertain position that more likely than not would not be sustained upon examination by taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 4 ADMINISTRATION OF PLAN ASSETS

The Plan's assets, which consist principally of sponsor Company common shares, are held by the Trustees of the Plan.

Company contributions are held and managed by the Trustees, which invest cash received, interest, and dividend income and makes distributions to participants.

Certain administrative functions are performed by the officers or employees of the Company. No such officer or employee receives compensation from the Plan. Administration for the Trustees' fees are paid directly by the Company.

Note 5 INVESTMENTS

The Plan’s investment in the common stock of TKDA as of December 31 is as follows:

	<u>2024</u>	<u>2023</u>
	<u>Allocated</u>	<u>Allocated</u>
TKDA common stock:		
Number of shares	56,500	56,500
Cost	\$3,164,725	\$3,164,725
Estimated fair value	\$48,208,626	\$45,763,305

Note 6 FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the assets or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to fair value measurement.

The asset or liability’s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Common collective trust: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the Trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities.

TKDA common stock: The Sponsor’s common stock is valued at fair value based upon an independent appraisal. This appraisal was based upon a combination of the market and income valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flow and net income and market comparables. Plan management has concluded that a market participant would also recognize a discount for lack of marketability and premium for control.

The following table sets forth by level, within the fair value hierarchy, the Plan’s assets at fair value as December 31:

CHANGES IN FAIR VALUE OF LEVEL 3 ASSETS

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

The TKDA company common stock held by the Plan is reported at fair value based upon an appraisal. This appraisal was based upon a combination of the market and income valuation techniques consistent with prior years as illustrated in the following table as of December 31:

	<u>2024</u>	<u>2023</u>
Balance, beginning of year	\$45,763,305	\$41,849,550
Unrealized appreciation in estimated fair value	<u>2,445,321</u>	<u>3,913,755</u>
Balance, end of year	<u>\$48,208,626</u>	<u>\$45,763,305</u>
The amount of total gains or losses for the period included in changes in net assets attributable to the change in unrealized gains or losses relating to assets still held at the reporting date	<u>\$2,445,321</u>	<u>\$3,913,755</u>

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
