INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator of
Dominion Energy 401(k) Plan

Opinion

We have audited the financial statements of Dominion Energy 401(k) Plan (formerly known as Dominion Energy Salaried Savings Plan) (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter

As discussed in Note 1 to the financial statements, effective December 31, 2024 (the Merger Date), Dominion Energy Ohio Union Savings Plan and Dominion Energy West Virginia Union Savings Plan merged into the Plan. The assets and liabilities of the respective plans were transferred into the Plan as of the Merger Date. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

DOMINION ENERGY 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

AS OF DECEMBER 31, 2024 AND 2023, AND FOR THE YEAR ENDED DECEMBER 31, 2024

1. DESCRIPTION OF PLAN

The following description of the Dominion Energy 401(k) Plan (the Plan) (previously the Dominion Energy Salaried Savings Plan) provides only general information. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

- a. **General**—The Plan is a defined contribution plan covering all non-union employees, eligible union employees represented by the International Brotherhood of Electrical Workers, Local Union No. 398 or 772, or the International Chemical Workers, Local Union No. 297-C, 298-C, or 528-C, and certain former hourly employees of Dominion Energy, Inc. and its subsidiaries (the Participating Companies) who are 18 years of age or older, regular full-time or part-time employees. Dominion Energy, Inc. (Dominion Energy or the Company) is the designated Plan sponsor. The Plan administrator is Dominion Energy Services, Inc., a subsidiary of Dominion Energy. The Bank of New York Mellon Trust Company, N.A. (Bank of New York Mellon) is trustee of the Plan effective January 1, 2024. Prior to that date, the Northern Trust Company served as the trustee of the Plan. The Plan is subject to the provisions set forth in the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

During 2024, Dominion Energy completed the sale of certain natural gas distribution utilities to Enbridge Inc. As a result, affected participants were terminated and became fully vested in their account balances regardless of their years of service. Those affected participants could elect to have their account balances, including any applicable loans, transferred to a new plan sponsored by Enbridge Inc. or leave their account balances in the Plan if the account balance was \$1,000 or more.

Effective December 31, 2024, the Dominion Energy Ohio Union Savings Plan (Ohio Plan) and the Dominion Energy West Virginia Union Savings Plan (West Virginia Plan) merged into the Plan. As a result, the Ohio and West Virginia Plans' net assets available for benefits of \$154,587,907, were transferred into the Plan. All participants of the Ohio and West Virginia Plans became participants in the Plan and are subject to the terms and conditions of the Plan as of the effective date of the merger, including the eligibility, vesting and service crediting provisions.

- b. **Contributions**—Participants may contribute not less than 2% and not more than 50% of their eligible earnings, all of which may be on a pre-tax and/or Roth basis, or up to 20% on an after-tax basis. Employee contributions are subject to certain Internal Revenue Code (IRC) limitations. Participants can also make rollover contributions representing distributions from other qualified plans or individual retirement accounts. In addition, participants age 50 or older who contributed the maximum annual amount allowable under the pre-tax and/or Roth options in the Plan have the option of making additional pre-tax and/or Roth catch-up contributions in accordance with IRC limitations.

Depending on a participant's hire date, years of service, and the percentage of pre-tax, Roth and after-tax contributions, Participating Companies contribute a matching amount from 1%

up to 7% of the participant's eligible earnings. Participating Companies also provide automatic Company contributions of 4% or 5% of eligible compensation depending on years of service for employees hired or rehired on or after July 1, 2021, who are not eligible to participate in a pension plan offered by the Company and for certain existing participants of a pension plan that voluntarily elected this enhanced feature of the Plan, effective May 1, 2022. Employees who elect to participate will also receive matching contributions in accordance with the Plan's provisions.

Newly hired employees are enrolled automatically into the Plan at a 4% pre-tax contribution rate approximately 45 days after the date of hire or rehire unless an alternative election is made. Certain rehires are generally auto-enrolled depending on criteria such as, but not limited to, their hire date, enrollment status, and whether they have incurred a break-in-service. This Plan also provides an employee directed auto-save feature. The auto-save feature is elective and increases the contribution percentage each year in 1% increments, up to a maximum percentage.

- c. **Participant Accounts**—Individual accounts are maintained for each Plan participant. Each participant's account includes the effect of the participant's contributions and withdrawals, as applicable, and allocations of the Participating Companies' contributions, Plan earnings or losses, and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the vested portion of the participant's account.

Individual participant accounts invested in the common/collective trust funds, the Intermediate Bond Fund and the separately managed account (SMA) are maintained on a unit value basis. Participants do not have beneficial ownership in specific underlying securities or other assets in the various funds and SMA, but have an interest therein represented by units valued as of the last business day of the period. The various funds and SMA earn dividends and interest, which are automatically reinvested within the funds and SMA. Generally, contributions to and withdrawal payments from each fund and SMA are converted to units by dividing the amounts of such transactions by the unit values as last determined, and the participants' accounts are charged or credited with the number of units properly attributable to each participant.

- d. **Participants**—Any subsidiary of Dominion Energy may adopt the Plan for the benefit of its qualified salaried and certain hourly employees subject to approval of the Dominion Energy Board of Directors.
- e. **Vesting**—Participants become immediately vested in their own contributions and the earnings on these amounts. Participants generally become vested in the Participating Companies' matching contributions, automatic Company contributions and related earnings after three years of service.
- f. **Forfeited Accounts**—At December 31, 2024 and 2023, forfeited nonvested accounts totaled \$988,910 and \$925,546, respectively. Forfeitures may be used to reduce employer contributions or Plan administrative expenses. During the year ended December 31, 2024, \$539,326 of forfeited nonvested accounts were used to reduce employer contributions.
- g. **Investment Options**
- **Participant Contributions**—Upon enrollment in the Plan, a participant may direct his or her contributions in any option in 1% increments totaling to 100%. Changes in

investment options may be made at any time and participant investment election changes become effective with the subsequent pay period. However, if the participant has not made investment directions at the time the contribution is made, the participant contributions will be automatically invested in the *Target Retirement Trust* corresponding with the participant's age (assuming retirement at age 65). Contributions to the Dominion Stock Fund are limited to 20% of a participant's total contribution and they may not transfer any portion of their existing investments into the Dominion Stock Fund if the percentage of their account already invested in the Dominion Stock Fund exceeds 20%. All of the Plan's investments are participant directed. The Plan holds assets in the Dominion Energy, Inc. Defined Contribution Master Trust (Master Trust) that was established for the Plan and other employee benefit plans of Dominion Energy and its subsidiaries as well as various investment funds at the trustee.

- *Employer Contributions*—Employer matching and/or automatic contributions are deposited in accordance with the participant's investment directions or the Target Retirement Trust corresponding with the participant's age (assuming retirement at age 65) if the participant has not made investment directions at the time the contribution is made.

h. *Notes Receivable from Participants*—Participants are eligible to secure loans against their plan account with a maximum repayment period of 5 years. The minimum loan amount is \$1,000 and the maximum loan amount is the lesser of:

- 50% of the vested account balance, or
- \$50,000 (reduced by the difference between the highest outstanding loan balance during the prior 12 months and the outstanding loan balance on the date of the new loan)

The loans are interest-bearing at the prime rate of interest plus 1%. The rate is determined at the beginning of each month if a change has occurred in the prime rate. However, the rate is fixed at the inception of the loan for the life of the loan.

Participants make principal and interest payments to the Plan through payroll deductions. Terminated participants may elect to continue repaying their loans, provided they establish a loan repayment schedule with the Plan recordkeeper. Any defaults in loans result in a reclassification of the remaining loan balances as taxable distributions to the participants.

- i. *Payment of Benefits*—On termination of service, death, disability, or retirement, participants may elect to receive a lump-sum amount equal to the vested value of their account or may waive receipt of a lump sum benefit and elect to receive quarterly, semi-annual or annual installments, a partial distribution, or may request a rollover from the Plan to another eligible retirement plan. Failure of a participant to make an election of one of these options is deemed to be an election to defer distribution of their account until the minimum required distribution rules apply. If the participant's account is valued at \$1,000 or less, the amount is distributed in a lump sum.
- j. *Flexible Dividend Options*—Most participants are given the choice of (1) receiving cash dividends paid on vested shares held in their Dominion Stock Fund or (2) reinvesting the dividends in the Dominion Stock Fund.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

- a. ***Basis of Accounting***—The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).
- b. ***Use of Estimates***—The preparation of financial statements in conformity with GAAP requires Plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits, and changes therein. Actual results could differ from those estimates.
- c. ***Risks and Uncertainties***—The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Market volatility includes global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the value of the participants' account balances and the amounts reported in the financial statements.

Investments at December 31, 2024 and 2023, included \$585,860,311 and \$504,691,962, respectively, of the Dominion Stock Fund. This investment represents 13% and 12% of total investments at December 31, 2024 and 2023, respectively. A large decline in the market value of the Dominion Stock Fund could significantly affect the net assets available for benefits.

- d. ***Valuation of Investments***—The Plan's investments are stated at fair value. See Note 4 for further information on fair value measurements.
- e. ***Notes Receivable from Participants***—Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are recorded as distributions based on the terms of the Plan document.
- f. ***Investment Income (Loss)***—Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recognized on the ex-dividend date.

Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Income or loss from Master Trust includes dividend income and net realized and unrealized appreciation or depreciation.

Investment management fees and operating expenses charged to the Plan are deducted from income earned daily and are not separately reflected. Consequently, investment management fees and operating expenses are reflected as a reduction of investment return.

- g. ***Administrative Expenses***—As permitted by law, the reasonable administrative costs of the Plan are paid from the Plan's Trust. Dominion Energy pays any administrative costs that are not charged to the Plan. In addition, participants who elect to participate in a financial advisory program offered by the Plan or the self-directed brokerage option will have administrative fees deducted from their account.
- h. ***Payment of Benefits***—Benefit payments to participants are recorded upon distribution.

- i. **Transfers**—In addition to the Plan, Dominion Energy also sponsors several other 401(k) plans for employees of Dominion Energy and certain of its subsidiaries which do not participate in this Plan. If participants change employment among Dominion Energy and its covered subsidiaries during the year, their account balances are transferred into the corresponding plan. For the year ended December 31, 2024, the Plan transferred \$12,021,898 and \$883,043 of participants' assets in from and out to other plans, respectively.

3. PLAN INTEREST IN MASTER TRUST

Certain of the Plan's investments are held in a Master Trust that was established for the Plan and other employee benefit plans of Dominion Energy and its subsidiaries. Investment income and expenses are allocated to the individual plans based upon average monthly balances invested by each participant.

The net assets of the Master Trust and the Plan's interest in the Master Trust at December 31, 2024 and 2023 are summarized as follows:

	2024		2023	
	Master Trust	Plan's Interest in Master Trust	Master Trust	Plan's Interest in Master Trust
Short-term securities	\$ 396,825,975	\$ 367,046,314	\$ 448,508,589	\$ 377,586,959
Common/collective trust funds ⁽¹⁾	2,249,157,863	2,042,849,651	1,804,999,999	1,592,108,499
Pooled separate account (Intermediate Bond)	—	—	342,798,282	295,736,272
Total Investments	\$ 2,645,983,838	\$ 2,409,895,965	\$ 2,596,306,870	\$ 2,265,431,730
Receivables	4,942	4,571	9,058	7,625
Payables	(279,463)	(258,491)	(58,810)	(49,511)
Total Master Trust	\$ 2,645,709,317	\$ 2,409,642,045	\$ 2,596,257,118	\$ 2,265,389,844

- (1) At December 31, 2024 and 2023, Master Trust amount includes short-term investment fund of \$462,656 and \$3,274,782, respectively, and Plan's Interest in Master Trust amount includes short-term investment fund of \$421,375 and \$2,756,948, respectively. The short-term investment fund is the BNY EB Temporary Investment Fund (beginning January 1, 2024) or the NT Collective Short Term Investment Fund (through December 31, 2023) which is comprised of money market instruments with short-term maturities used for temporary investment and is not an investment option for participants.

The net investment income for the Master Trust for the year ended December 31, 2024 was as follows:

Interest and dividends	\$ 14,427,656
Net investment appreciation	360,711,503
Net investment Income of the Master Trust	\$ 375,139,159

4. FAIR VALUE MEASUREMENTS

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (exit price) in an orderly transaction between market participants at the measurement date. Fair values are based on assumptions that market participants would use when pricing an asset or liability, including assumptions about risk and the risks inherent in valuation techniques and the inputs to valuations. Fair value measurements assume that the transaction occurs in the principal market for the asset or liability (the market with the most volume and activity for the asset or liability from the perspective of the reporting entity), or in the absence of a principal market, the most advantageous market for the asset or liability (the market in which the reporting entity would be able to maximize the amount received or minimize the amount paid). The Plan applies fair value measurements to the Plan's investments in accordance with the requirements described above.

Inputs and Assumptions

The Plan maximizes the use of observable inputs and minimizes the use of unobservable inputs when measuring the fair value of its investments. Fair value is based on actively-quoted market prices, if available. In the absence of actively-quoted market prices, the Plan seeks price information from external sources, including broker quotes. When evaluating pricing information provided by brokers, the Plan considers whether the broker is willing and able to trade at the quoted price, if the broker quotes are based on an active market or an inactive market and the extent to which brokers are utilizing a particular model if pricing is not readily available. If pricing information from external sources is not available, or if the Plan believes that observable pricing is not indicative of fair value, judgment is required to develop the estimates of fair value. In those cases, the Plan must estimate prices based on available historical and near-term future price information and certain statistical methods that reflect market assumptions.

The inputs and assumptions used in measuring fair value for investments include the following:

- Quoted securities prices and indices
- Securities trading information including volume and restrictions
- Maturity
- Interest rates
- Credit quality

The Plan regularly evaluates and validates the inputs used to estimate fair value by a number of methods, including review and verification of models, as well as various market price verification procedures such as the use of multiple broker quotes to support the market price of the various investments in which the Plan transacts.

The fair values of the Plan's investments are determined as follows:

- *Dominion Energy Stock Fund*—The fund's fair value has been determined by the custodian based on the fair value of the underlying investments within the fund. The Fund is made up of Dominion Energy common stock specific to the Plan and other employee benefit plans of Dominion Energy and its subsidiaries, which is valued at the closing price reported on the active market on which the securities trade, and a common/collective trust fund valued as described under common/collective trust funds below. The individual assets of a stock fund are considered separately as individual investments for accounting, auditing, and financial statement reporting purposes.
- *Mutual Fund*—Investment is valued at quoted market price, which represent the value of shares held by the Plan at year-end.
- *Self-Directed Brokerage*—The Schwab Personal Choice Retirement Account is a self-directed brokerage account. Investments are valued based on the underlying assets. These consist primarily of common stocks, exchange-traded funds and mutual funds, valued at the closing price reported on the active market on which the securities trade, as well as short term investment funds, which are common/collective trust funds.
- *Common/Collective Trust Funds*—Investments in common/collective trust funds are stated at the net asset value (NAV) as determined by the issuer of the common/collective trust funds and are based on the fair value of the underlying investments held by the fund less its liabilities. The NAV is used as a practical expedient to estimate fair value. The funds do not have any unfunded commitments and do not have any applicable liquidation periods or defined terms/periods to be held. The Plan may generally sell assets from the funds to satisfy participant payment obligations (assets are redeemable daily) and may transfer assets

from the funds to other investment options based on participant elections (overnight liquidity is generally available).

- *Separately Managed Account*—A portfolio of individual securities, such as short-term securities, that is managed on the participant's behalf. Unlike a mutual fund or exchange-traded fund, the plan directly owns the individual securities instead of pooling its assets with other investors. The individual assets of a separately managed account/fund are held in the name of the plan (the plan owns the underlying securities) and are considered separately as individual investments for accounting, auditing and financial statement reporting purposes. Short-term securities mainly include short-term notes, commercial paper and certificates of deposit, which are short-term, highly liquid investments. Short-term notes and certificates of deposit are valued at cost plus accrued interest and commercial paper is valued at amortized cost, which approximates fair value.
- *Pooled Separate Account*— Investment in pooled separate account is stated at the net asset value (NAV) as determined by the issuer of the fund and is based on the fair value of the underlying investments held by the fund less its liabilities. The NAV is used as a practical expedient to estimate fair value. The fund has a daily redemption frequency, has no unfunded commitments or notice period requirement for participants.

Levels

The Plan utilizes the following fair value hierarchy, which prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

- *Level 1*—Quoted prices (unadjusted) in active markets for identical assets that the Plan has the ability to access at the measurement date.
- *Level 2*—Inputs other than quoted prices included within Level 1 that are either directly or indirectly observable for the asset, including quoted prices for similar assets in active markets, quoted prices for identical or similar assets in inactive markets, inputs other than quoted prices that are observable for the asset, and inputs that are derived from observable market data by correlation or other means.
- *Level 3*—Unobservable inputs for the asset, including situations where there is little, if any, market activity for the asset.

The fair value hierarchy gives the highest priority to quoted prices in active markets (Level 1) and the lowest priority to unobservable data (Level 3). In some cases, the inputs used to measure fair value might fall in different levels of the fair value hierarchy. In these cases, the lowest level input that is significant to a fair value measurement in its entirety determines the applicable level in the fair value hierarchy. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgment, considering factors specific to the asset.

Recurring Fair Value Measurements

Fair value measurements are separately disclosed by level within the fair value hierarchy.

Plan Investments

The following table presents the investments held by the Plan that are measured at fair value for each hierarchy level as of December 31, 2024 and 2023:

	2024				2023			
	Level 1	Level 2	Level 3	Total	Level 1	Level 2	Level 3	Total
Dominion Energy common stock	\$ 585,860,311	\$ —	\$ —	\$ 585,860,311	\$ 504,691,962	\$ —	\$ —	\$ 504,691,962
Mutual funds	10,820,286	—	—	10,820,286	10,153,622	—	—	10,153,622

Total				\$ 1,979,976,789				\$ 1,949,137,411

(1) These investments that are measured at fair value using the NAV per share (or its equivalent) as a practical expedient are not required to be categorized in the fair value hierarchy.

(2) Included in Common/collective trust funds is the BNY EB Temporary Investment Fund (beginning January 1, 2024) and the NT Collective Short Term Investment Fund (through December 31, 2023) which is comprised of money market instruments with short-term maturities used for temporary investment and is not an investment option for participants.

Investments Held in Master Trust

The following table presents the investments held in the Master Trust for the Plan and other employee benefit plans of Dominion Energy and its subsidiaries that are measured at fair value for each hierarchy level as of December 31, 2024 and 2023:

	2024				2023			
	Level 1	Level 2	Level 3	Total	Level 1	Level 2	Level 3	Total

Total investments				\$ 2,645,983,838				\$ 2,596,306,870

(1) These investments that are measured at fair value using the NAV per share (or its equivalent) as a practical expedient are not required to be categorized in the fair value hierarchy.

5. FEDERAL INCOME TAX STATUS

The Plan is a qualified employees' profit sharing trust under Section 401(k) of the IRC and, as such, is exempt from federal income taxes under Section 501(a). Pursuant to Section 402(a) of the IRC, a participant is not taxed on the income and pre-tax contributions allocated to the participant's account until such time as the participant or the participant's beneficiaries receive distributions from the Plan.

The Plan obtained its latest determination letter on January 19, 2023, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC and therefore, the related trust is exempt from taxation. In December 2016, the IRS began publishing a Required Amendments List (List) for individually designed plans which specifies changes in qualification requirements. The List is published annually and requires plans to be amended for each item on the List, as applicable, to retain its tax exempt status. The Plan has been amended since applying for the determination letter; however, the Plan administrator believes that the Plan and related trust are

currently designed, have been amended and are being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

6. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

The plan had an interest in the Master Trust and invested in shares of certain common/collective trust funds that were managed by the Northern Trust Company through December 2023, or Bank of New York Mellon beginning January 2024. During 2023 and 2024, Northern Trust and Bank of New York Mellon, respectively, were the trustee as defined by the Plan and, therefore, these transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each investment fund.

At December 31, 2024 and 2023, the Plan's investment in the Dominion Energy Stock Fund included 10,877,466 and 10,738,127 shares, respectively, of common stock of Dominion Energy, the Plan sponsor, with a cost basis of approximately \$712 million at both dates. During the year ended December 31, 2024, the Plan purchased \$39 million and sold \$110 million of common stock of Dominion Energy and recorded dividend income related to Dominion Energy common stock of approximately \$27 million. Additionally as a result of the plan mergers discussed in Note 1, Dominion Energy stock previously held by the Ohio and West Virginia Plans are included in the Plan's balance as of December 31, 2024.

In addition, the Plan issues loans to participants, which qualify as permitted party-in-interest transactions. Such loans are secured by the vested balances in the participants' accounts.

7. PLAN TERMINATION

Although they have not expressed any intention to do so, the Participating Companies have the right under the Plan to discontinue their contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event of any termination of the Plan, or upon complete or partial discontinuance of contributions, the accounts of each affected participant shall become fully vested.

8. SUBSEQUENT EVENTS

Subsequent events were evaluated through June 23, 2025, the date the financial statements were issued. No events occurred that require additional disclosure or adjustments to the Plan's financial statements.
