Independent Auditor's Report

RSM US LLP

Plan Administrator
Golub Capital LLC 401(k) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Golub Capital LLC 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter—Supplemental Schedule Required by ERISA

The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Golub Capital LLC 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of the Golub Capital LLC 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all employees (as defined) of Golub Capital LLC (the Company or Plan Administrator) and its affiliates, namely GC Investment Management LLC, and GCI Development LLC (collectively, the Employer). Such employees are eligible to participate in the Plan as of the later of the first day of the month following the completion of three months of service and the attainment of 21 years of age. Participants can begin contributing upon meeting the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) as amended.

Contributions: The Plan is designed as a qualified cash deferral arrangement pursuant to Section 401(k) of the Internal Revenue Code (IRC) and provides for the following contributions:

Participant contributions: The Employer may allow participants to enter into a special salary reduction agreement to make deferral contributions in an amount up to 100 percent of their compensation for any payroll period(s) or cash bonuses designated by the Employer provided that the total amount of contribution does not exceed the lesser of 90 percent of the participant's pre-tax annual compensation or (as adjusted from time to time pursuant to Section 402(g)(5) of the IRC) \$23,000 in 2024 (\$30,500 for participants over the age of 50). Such contributions are deducted from the participant's compensation and excluded from the participant's reportable wages for the year. Participants who do not affirmatively decline to participate in the Plan will be automatically enrolled in the Plan but will not be subject to automatic deferral contributions. Participants may change the amount of their salary deferral as of the beginning of each payroll period.

Participants can designate through an irrevocable election, some or all of the participant's contribution as a Roth deferral contribution subject to the same contribution limitations as traditional 401(k) contributions. Effective June 7, 2019, participants may also elect to contribute a flat dollar amount or a percentage of their eligible compensation up to an annual maximum of 75% into the Plan on an after-tax basis.

Contributions from Plan participants are recorded in the year in which the employee contributions are withheld from compensation.

Participant rollover contributions: A participant may contribute amounts distributed or transferred from another qualified deferred compensation plan.

Employer discretionary matching contributions: Employer matching contributions are made semi-monthly on behalf of all eligible participants during the plan year (as defined by the Plan) in an amount equal to fifty percent of the first six percent of the eligible contributions made by the eligible participant. The Employer discretionary matching contributions are recorded in the year in which the related employee contributions are made. The Employer authorized Employer discretionary matching contributions of \$5,359,398 for plan year 2024.

Employer discretionary non-elective contributions: Employer discretionary non-elective contributions, if any, may be made annually at the discretion of the Employer to eligible employees who were employed as of the last day of the plan year. There were no Employer discretionary non-elective contributions in 2024.

Investments and investment options: The assets of the Plan are held by Fidelity Management Trust Company, the Trustee of the Plan. Upon enrollment, a participant may direct participant and Employer

Notes to Financial Statements

Note 1. Description of Plan (Continued)

contributions into a variety of investment choices offered by the Plan. Participants may change their investment options at any time.

A self-directed brokerage (SDB) account is available with the ability to invest in either Fidelity mutual funds or non-Fidelity mutual funds. The SDB account is restricted to 90 percent of the participant's account balance and a separate fee schedule applies.

Participants' accounts: Participants' accounts are credited with their contributions, the allocation of the Employer's safe harbor, discretionary matching and discretionary non-elective contributions, if any, and plan earnings or losses and charged with any transaction and investment fees incurred. Allocations are based on participants' earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested accounts.

Vesting: Participants are immediately vested on deferral and rollover contributions, and safe harbor non-elective Employer contributions and any earnings or losses thereon. Participants vest in the Employer discretionary non-elective contributions portion of their accounts plus actual earnings thereon based on their years of service. Participants with less than two years of service are not vested in this portion of their account balances. Participants with more than two but less than six years of service vest in their Employer discretionary non-elective contributions at a rate of 20 percent per annum in each of their second through sixth years of service. Participants with six or more years of service are fully vested in all Employer contributions. Participants vest in the Employer discretionary match portion of their accounts plus actual earnings thereon based on their years of service. Participants with less than two years of service are not vested in this portion of their account balances. Participants with more than two but less than five years of service vest in their Employer discretionary match at a rate of 25 percent per annum in each of their second through fifth years of service. Participants with five or more years of service are fully vested in all Employer contributions.

Payments of benefits: The Plan distributes benefits to participants upon disability, retirement, or termination of employment. Beneficiaries may request distribution of the vested account balance in the event of death. Distributions on vested balances of \$5,000 or less cannot be postponed. Amounts up to \$1,000 will be distributed in a lump sum while amounts exceeding \$1,000 but less than \$5,000 would be automatically rolled-over to an Individual Retirement Account or Annuity (IRA) under the participant's name. Hardship withdrawals must be approved by the Plan Administrator and satisfy immediate financial needs. Participants are required to exhaust all other assets reasonably available prior to obtaining a hardship withdrawal. Participant deferral contributions in this Plan and any other Employer-sponsored qualified or non-qualified plans will be suspended for six months after receipt of the hardship withdrawal.

Forfeited accounts: Forfeitures of unvested portions of terminated participant accounts are to be retained by the Plan and will be used to pay the Plan's administrative expenses or to reduce future Employer contributions payable to the Plan. Forfeited non-vested balances of terminated participants, including interest and earnings thereon, at December 31, 2024 and 2023, totaled \$595 and \$102, respectively. The Plan paid \$44,102 of expenses and offset \$140,032 of employer contributions using the forfeited non-vested balances for the 2024 plan year.

Plan administration: The Plan is administered by the Company pursuant to the terms and conditions of the Plan and trust. The Company pays for substantially all administrative expenses of the Plan, except for fees incurred related to certain participant transactions, and the management of registered investment companies, which are included in net appreciation in fair value of investments in the statement of changes in net assets available for benefits.

Golub Capital LLC 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan (Continued)

On March 1, 2015, the Plan entered into an agreement with Clearview Group to act as an advisor to provide discretionary fiduciary investment services as defined under Sections 3(21)A(i) and 3(38) of ERISA

Note 2. Summary of Significant Accounting Policies

Participant loans: Participants are allowed one loan per calendar year against their 401(k) balance. The minimum loan amount is \$1,000 and the maximum amount is the lesser of one-half of the participant's vested account balance or \$50,000 reduced by the highest outstanding loan balance during the prior twelve month period. All loans must be repaid through after-tax payroll deductions in equal amounts on at least a quarterly basis over a five-year period and no more than 10 years if the loan is used to purchase a primary residence. If payments are not made through payroll, participants are required to pay the Employer directly. Loans are considered to be in default if any scheduled repayment remains unpaid as of the last business day of the calendar quarter following the calendar quarter in which a loan is initially considered past due and is treated as a taxable distribution from the Plan. The equal payment requirement may be waived for participants on leave of absence for a period of up to one year but will not extend the loan maturity date unless the leave of absence is for military duty. All unpaid loan balances will be treated as taxable distributions from the Plan. Loans will bear an interest rate based on the Wall Street Journal's prime interest rate at the time of loan origination. Loans originated in 2024 were issued at rates ranging from 8% to 8.5% per annum. Participants are subject to a one-time fee of \$75 at loan origination and an annual loan maintenance fee of \$25 for outstanding loans. Participants are also subject to a \$25 fee for expedited check processing per request.

Basis of accounting: The financial statements have been prepared under the accrual basis of accounting.

Accounting policies: The Plan follows U.S. Generally Accepted Accounting Principles (U.S. GAAP), as established by the Financial Accounting Standards Board (the FASB), to ensure consistent reporting of financial condition and results of operations.

The Plan has evaluated subsequent events for potential recognition and/or disclosure through July 23, 2025, which is the date the financial statements were available to be issued.

Use of estimates: The preparation of financial statements in conformity with U.S. GAAP requires the Plan's management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a detailed discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in the fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payment of benefits: Benefits are recorded when paid.

Golub Capital LLC 401(k) Plan

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. Delinquent loans are treated as distributions based upon the term of the Plan document.

Note 3. Information Certified or Provided by Fidelity Management Trust Company (Trustee)

The following is a summary of the asset and income information as of December 31, 2024 and 2023, and for the year ended December 31, 2024, included throughout the Plan's financial statements and ERISA required supplemental schedule that was prepared by or derived from information certified or provided by the Trustee, Fidelity Management Trust Company (Fidelity), and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the Trustee that the information provided to the Plan Administrator by the Trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information that appears throughout the financial statements and ERISA required supplemental schedule related to the following information:

	2024	2023
Investments		
Shares of money market funds	\$ 5,943,729	\$ 5,526,706
Self-directed brokerage account	917,364	649,097
Pooled separate account	18,358	18,359
Common collective trusts	9,087,461	1,872,455
Shares of registered investment companies	176,599,187	138,679,005
Total Investments	\$ 192,566,099	\$ 146,745,622
Notes receivable from participants	\$ 881,559	\$ 681,210

The Trustee also certified to the completeness and accuracy of \$20,287,079 of net appreciation in fair value of investments and \$6,201,830 of dividends and interest related to the aforementioned plan assets, and \$47,115 of interest related to the notes receivable from participants for the year ended December 31, 2024.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB Accounting Standards Codification 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access at the measurement date.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;

Golub Capital LLC 401(k) Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability

Level 3: Inputs to the valuation are unobservable for the asset or liability and include situations where there is little, if any, market activity for the asset or liability.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024, as compared to 2023.

Shares of registered investment companies and money market funds: Valued at the daily closing price as reported by the Fund. Registered investment companies held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds and money market funds held by the Plan are deemed to be actively traded and have a readily determinable fair value.

Self-direct brokerage accounts: The underlying investments, which consist primarily of interest-bearing cash accounts and individual corporate common stocks, are valued at the closing price reported on the open market and are classified within Level 1 of the valuation hierarchy.

Collective investment trusts: Valued based on the NAV of units of the collective trusts. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust, less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Pooled separate account: Valued at NAV at year-end as provided by the trustee. The NAV is not a publicly-quoted price in an active market. The NAV is used as a practical expedient to estimating fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets, measured on a recurring basis, at fair value as of December 31, 2024 and 2023:

Golub Capital LLC 401(k) Plan

Notes to Financial Statements

Note 5. Parties-in-Interest

As of December 31, 2024 and 2023, certain Plan investments are shares of money market funds or registered investment companies managed by Fidelity Investments, an affiliate of Fidelity. Fidelity is the Trustee as defined by the Plan and, therefore, transactions in these investments with Fidelity qualify as exempt parties-in-interest transactions under ERISA.

Certain employees of the Company and its affiliates provide administrative services to the Plan. These employees do not receive any compensation from the Plan for their services.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become fully vested in their accounts.

Note 7. Tax Status

The Plan has adopted a preapproved plan document that has received an opinion letter from the Internal Revenue Service dated June 30, 2020, stating that the form of the preapproved plan document was in compliance with applicable requirements of the IRC. The plan has been amended since adopting the preapproved plan documents; however, The Plan Administrator believes the Plan is designed, and is being operated, in compliance with the applicable requirements of the IRC (and the related trust is tax-exempt).

U.S. GAAP requires Plan management to evaluate the Plan's tax positions and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Independent Auditor's Report

RSM US LLP

Plan Administrator
Golub Capital LLC 401(k) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Golub Capital LLC 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter—Supplemental Schedule Required by ERISA

The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Golub Capital LLC 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of the Golub Capital LLC 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all employees (as defined) of Golub Capital LLC (the Company or Plan Administrator) and its affiliates, namely GC Investment Management LLC, and GCI Development LLC (collectively, the Employer). Such employees are eligible to participate in the Plan as of the later of the first day of the month following the completion of three months of service and the attainment of 21 years of age. Participants can begin contributing upon meeting the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) as amended.

Contributions: The Plan is designed as a qualified cash deferral arrangement pursuant to Section 401(k) of the Internal Revenue Code (IRC) and provides for the following contributions:

Participant contributions: The Employer may allow participants to enter into a special salary reduction agreement to make deferral contributions in an amount up to 100 percent of their compensation for any payroll period(s) or cash bonuses designated by the Employer provided that the total amount of contribution does not exceed the lesser of 90 percent of the participant's pre-tax annual compensation or (as adjusted from time to time pursuant to Section 402(g)(5) of the IRC) \$23,000 in 2024 (\$30,500 for participants over the age of 50). Such contributions are deducted from the participant's compensation and excluded from the participant's reportable wages for the year. Participants who do not affirmatively decline to participate in the Plan will be automatically enrolled in the Plan but will not be subject to automatic deferral contributions. Participants may change the amount of their salary deferral as of the beginning of each payroll period.

Participants can designate through an irrevocable election, some or all of the participant's contribution as a Roth deferral contribution subject to the same contribution limitations as traditional 401(k) contributions. Effective June 7, 2019, participants may also elect to contribute a flat dollar amount or a percentage of their eligible compensation up to an annual maximum of 75% into the Plan on an after-tax basis.

Contributions from Plan participants are recorded in the year in which the employee contributions are withheld from compensation.

Participant rollover contributions: A participant may contribute amounts distributed or transferred from another qualified deferred compensation plan.

Employer discretionary matching contributions: Employer matching contributions are made semi-monthly on behalf of all eligible participants during the plan year (as defined by the Plan) in an amount equal to fifty percent of the first six percent of the eligible contributions made by the eligible participant. The Employer discretionary matching contributions are recorded in the year in which the related employee contributions are made. The Employer authorized Employer discretionary matching contributions of \$5,359,398 for plan year 2024.

Employer discretionary non-elective contributions: Employer discretionary non-elective contributions, if any, may be made annually at the discretion of the Employer to eligible employees who were employed as of the last day of the plan year. There were no Employer discretionary non-elective contributions in 2024.

Investments and investment options: The assets of the Plan are held by Fidelity Management Trust Company, the Trustee of the Plan. Upon enrollment, a participant may direct participant and Employer

Golub Capital LLC 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan (Continued)

contributions into a variety of investment choices offered by the Plan. Participants may change their investment options at any time.

A self-directed brokerage (SDB) account is available with the ability to invest in either Fidelity mutual funds or non-Fidelity mutual funds. The SDB account is restricted to 90 percent of the participant's account balance and a separate fee schedule applies.

Participants' accounts: Participants' accounts are credited with their contributions, the allocation of the Employer's safe harbor, discretionary matching and discretionary non-elective contributions, if any, and plan earnings or losses and charged with any transaction and investment fees incurred. Allocations are based on participants' earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested accounts.

Vesting: Participants are immediately vested on deferral and rollover contributions, and safe harbor non-elective Employer contributions and any earnings or losses thereon. Participants vest in the Employer discretionary non-elective contributions portion of their accounts plus actual earnings thereon based on their years of service. Participants with less than two years of service are not vested in this portion of their account balances. Participants with more than two but less than six years of service vest in their Employer discretionary non-elective contributions at a rate of 20 percent per annum in each of their second through sixth years of service. Participants with six or more years of service are fully vested in all Employer contributions. Participants vest in the Employer discretionary match portion of their accounts plus actual earnings thereon based on their years of service. Participants with less than two years of service are not vested in this portion of their account balances. Participants with more than two but less than five years of service vest in their Employer discretionary match at a rate of 25 percent per annum in each of their second through fifth years of service. Participants with five or more years of service are fully vested in all Employer contributions.

Payments of benefits: The Plan distributes benefits to participants upon disability, retirement, or termination of employment. Beneficiaries may request distribution of the vested account balance in the event of death. Distributions on vested balances of \$5,000 or less cannot be postponed. Amounts up to \$1,000 will be distributed in a lump sum while amounts exceeding \$1,000 but less than \$5,000 would be automatically rolled-over to an Individual Retirement Account or Annuity (IRA) under the participant's name. Hardship withdrawals must be approved by the Plan Administrator and satisfy immediate financial needs. Participants are required to exhaust all other assets reasonably available prior to obtaining a hardship withdrawal. Participant deferral contributions in this Plan and any other Employer-sponsored qualified or non-qualified plans will be suspended for six months after receipt of the hardship withdrawal.

Forfeited accounts: Forfeitures of unvested portions of terminated participant accounts are to be retained by the Plan and will be used to pay the Plan's administrative expenses or to reduce future Employer contributions payable to the Plan. Forfeited non-vested balances of terminated participants, including interest and earnings thereon, at December 31, 2024 and 2023, totaled \$595 and \$102, respectively. The Plan paid \$44,102 of expenses and offset \$140,032 of employer contributions using the forfeited non-vested balances for the 2024 plan year.

Plan administration: The Plan is administered by the Company pursuant to the terms and conditions of the Plan and trust. The Company pays for substantially all administrative expenses of the Plan, except for fees incurred related to certain participant transactions, and the management of registered investment companies, which are included in net appreciation in fair value of investments in the statement of changes in net assets available for benefits.

Golub Capital LLC 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan (Continued)

On March 1, 2015, the Plan entered into an agreement with Clearview Group to act as an advisor to provide discretionary fiduciary investment services as defined under Sections 3(21)A(i) and 3(38) of ERISA

Note 2. Summary of Significant Accounting Policies

Participant loans: Participants are allowed one loan per calendar year against their 401(k) balance. The minimum loan amount is \$1,000 and the maximum amount is the lesser of one-half of the participant's vested account balance or \$50,000 reduced by the highest outstanding loan balance during the prior twelve month period. All loans must be repaid through after-tax payroll deductions in equal amounts on at least a quarterly basis over a five-year period and no more than 10 years if the loan is used to purchase a primary residence. If payments are not made through payroll, participants are required to pay the Employer directly. Loans are considered to be in default if any scheduled repayment remains unpaid as of the last business day of the calendar quarter following the calendar quarter in which a loan is initially considered past due and is treated as a taxable distribution from the Plan. The equal payment requirement may be waived for participants on leave of absence for a period of up to one year but will not extend the loan maturity date unless the leave of absence is for military duty. All unpaid loan balances will be treated as taxable distributions from the Plan. Loans will bear an interest rate based on the Wall Street Journal's prime interest rate at the time of loan origination. Loans originated in 2024 were issued at rates ranging from 8% to 8.5% per annum. Participants are subject to a one-time fee of \$75 at loan origination and an annual loan maintenance fee of \$25 for outstanding loans. Participants are also subject to a \$25 fee for expedited check processing per request.

Basis of accounting: The financial statements have been prepared under the accrual basis of accounting.

Accounting policies: The Plan follows U.S. Generally Accepted Accounting Principles (U.S. GAAP), as established by the Financial Accounting Standards Board (the FASB), to ensure consistent reporting of financial condition and results of operations.

The Plan has evaluated subsequent events for potential recognition and/or disclosure through July 23, 2025, which is the date the financial statements were available to be issued.

Use of estimates: The preparation of financial statements in conformity with U.S. GAAP requires the Plan's management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a detailed discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in the fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payment of benefits: Benefits are recorded when paid.

Golub Capital LLC 401(k) Plan

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. Delinquent loans are treated as distributions based upon the term of the Plan document.

Note 3. Information Certified or Provided by Fidelity Management Trust Company (Trustee)

The following is a summary of the asset and income information as of December 31, 2024 and 2023, and for the year ended December 31, 2024, included throughout the Plan's financial statements and ERISA required supplemental schedule that was prepared by or derived from information certified or provided by the Trustee, Fidelity Management Trust Company (Fidelity), and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the Trustee that the information provided to the Plan Administrator by the Trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information that appears throughout the financial statements and ERISA required supplemental schedule related to the following information:

	<u>2024</u>	<u>2023</u>
Investments		
Shares of money market funds	\$ 5,943,729	\$ 5,526,706
Self-directed brokerage account	917,364	649,097
Pooled separate account	18,358	18,359
Common collective trusts	9,087,461	1,872,455
Shares of registered investment companies	176,599,187	138,679,005
Total Investments	<u>\$ 192,566,099</u>	<u>\$ 146,745,622</u>
Notes receivable from participants	<u>\$ 881,559</u>	<u>\$ 681,210</u>

The Trustee also certified to the completeness and accuracy of \$20,287,079 of net appreciation in fair value of investments and \$6,201,830 of dividends and interest related to the aforementioned plan assets, and \$47,115 of interest related to the notes receivable from participants for the year ended December 31, 2024.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB Accounting Standards Codification 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access at the measurement date.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;

Golub Capital LLC 401(k) Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability

Level 3: Inputs to the valuation are unobservable for the asset or liability and include situations where there is little, if any, market activity for the asset or liability.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024, as compared to 2023.

Shares of registered investment companies and money market funds: Valued at the daily closing price as reported by the Fund. Registered investment companies held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds and money market funds held by the Plan are deemed to be actively traded and have a readily determinable fair value.

Self-direct brokerage accounts: The underlying investments, which consist primarily of interest-bearing cash accounts and individual corporate common stocks, are valued at the closing price reported on the open market and are classified within Level 1 of the valuation hierarchy.

Collective investment trusts: Valued based on the NAV of units of the collective trusts. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust, less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Pooled separate account: Valued at NAV at year-end as provided by the trustee. The NAV is not a publicly-quoted price in an active market. The NAV is used as a practical expedient to estimating fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets, measured on a recurring basis, at fair value as of December 31, 2024 and 2023:

(a) In accordance with the Fair Value Measurements topic, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to line items presented in the statements of net assets available for benefits.

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2024 and 2023:

Investments	Fair Value		Unfunded Commitment	Redemption Frequency	Notice Period

* The pooled separate account is a direct filing entity that is valued on a daily basis. Withdrawal from the pooled separate account is based on the pooled separate account's unit value on that day.

** The collective investment trust is a direct filing entity that is valued on a daily basis. Withdrawal from the collective investment trust is based on the collective investment trust's unit value on that day.

Golub Capital LLC 401(k) Plan

Notes to Financial Statements

Note 5. Parties-in-Interest

As of December 31, 2024 and 2023, certain Plan investments are shares of money market funds or registered investment companies managed by Fidelity Investments, an affiliate of Fidelity. Fidelity is the Trustee as defined by the Plan and, therefore, transactions in these investments with Fidelity qualify as exempt parties-in-interest transactions under ERISA.

Certain employees of the Company and its affiliates provide administrative services to the Plan. These employees do not receive any compensation from the Plan for their services.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become fully vested in their accounts.

Note 7. Tax Status

The Plan has adopted a preapproved plan document that has received an opinion letter from the Internal Revenue Service dated June 30, 2020, stating that the form of the preapproved plan document was in compliance with applicable requirements of the IRC. The plan has been amended since adopting the preapproved plan documents; however, The Plan Administrator believes the Plan is designed, and is being operated, in compliance with the applicable requirements of the IRC (and the related trust is tax-exempt).

U.S. GAAP requires Plan management to evaluate the Plan's tax positions and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
