Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) Unmodified (2) Qualified (3) Disclaimer (4) Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) DOL Regulation 2520.103-8 (2) DOL Regulation 2520.103-12(d) (3) neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: RSM US LLP

(2) EIN: 42-0714325

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) This form is filed for a CCT, PSA, DCG or MTIA. (2) It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)

University of Richmond Defined Contribution Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of University of Richmond Defined Contribution Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter—Supplemental Schedules Required by ERISA

The supplemental schedule of delinquent participant contributions for the year ended December 31, 2024, and the supplemental schedule of assets (held at end of year) as of December 31, 2024, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

University of Richmond Defined Contribution Retirement Plan

Notes to Financial Statements

Note 1. Plan Description and Significant Accounting Policies

The following description of University of Richmond Defined Contribution Retirement Plan (the Plan) provides only general information. Participants should refer to the plan document or summary plan description for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering substantially all employees of University of Richmond (the University). The Plan is intended to meet the requirements of Section 403(b) of the Internal Revenue Code of 1986 (the Code), as amended. All employees, except for student employees, are eligible to make elective deferral contributions to the Plan upon their date of hire. Employees are eligible to receive employer contributions and employer matching contributions upon completion of one year (12 consecutive months) of service, attainment of age 18 and completion or planned completion of 1,000 or more hours of service during the plan year. The Plan's Administrative and Investment Committee (the Committee) is responsible for oversight of the Plan. The Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the University's Board of Trustees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participant elective deferrals are made on a pre and/or post-tax deferred basis in whole percentage increments from 1% to 85% of compensation or a fixed dollar amount per pay period and up to a limit of \$23,000 in 2024. If an employee wishes to contribute less than 1% of their compensation, they may contribute a one-time annual contribution of \$200. Participants are also permitted to contribute Roth after-tax deferrals to the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other eligible retirement plans (rollovers). The University may make, at its discretion, a basic contribution in an amount equal to 5% of compensation paid to each eligible employee, subject to service requirements, each year. For the year ended December 31, 2024, the discretionary contribution was made. Additionally, the University contributes a matching contribution to the Plan at its discretion, subject to service requirements, in an amount equal to 100% of the participant's elective deferral contribution up to 5% of the participant's compensation. Participants who complete at least 1,000 hours during the plan year or faculty who are enrolled in the Faculty Phased Retirement Program, are eligible to receive matching and nonelective contributions. Contributions are subject to certain Internal Revenue Code (IRC) limitations.

Investment options: Upon enrollment in the Plan, a participant may direct all contributions to selected investments as made available and determined by the Plan Administrator in 1% increments. Participants may change their investment options daily, except for the Teachers Insurance and Annuity Association (TIAA) traditional annuities, which are subject to liquidity restrictions.

Participant accounts: Each participant's account is credited with the participant's and the University's contributions as well as allocations of Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on account balances or specific participant transactions as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are vested immediately in all contributions plus actual earnings thereon.

Payment of benefits: The Plan permits withdrawals when a participant terminates employment, retires or becomes disabled or deceased. In-service withdrawals are also permitted when a participant attains age 59½. For married participants, the normal form of distribution is a qualified joint and survivor annuity, unless he/she otherwise elects with spousal consent.

Note 1. Plan Description and Significant Accounting Policies (Continued)

Participants can select from the following payment options: lump sum, partial payments, installment payments or annuity contracts.

Transfers from TIAA accounts: Participants are permitted to transfer funds between the various fund accounts and into the TIAA Retirement Annuity at any time. However, transfers out of the TIAA Retirement Annuity into any other account by an active participant can only be made through a transfer payout annuity (TPA), which provides for the transfer of funds in substantially equal installments over a period of ten years.

Plan loans: Until February 1, 2019, participants could borrow from TIAA and College Retirement Equities Fund (CREF) using a portion of their Plan account as security for the loan. The minimum loan was \$1,000 and could be up to the lesser of \$50,000 or a percentage of their account balance. The maximum loan amount was limited to: (a) 45% of the participant's combined TIAA and CREF accumulation attributable to participation under this Plan, or (b) 90% of the participant's TIAA-CREF account balances. The loans are secured by the participant's account. The interest rate and other terms and conditions for a Plan loan, its security and repayment are generally comparable to those that would be imposed by a commercial lender for a similar loan made at the same date under similar circumstances. The term of the loan was limited to five years except where a loan was taken for the purchase of a participant's principal residence, in which case it could be extended to 15 years. Such loan term were limited to a period consistent with commercial home loan practices.

The loans bear interest rates that range from 4.00% to 6.59%, which are commensurate with local prevailing rates as determined periodically by TIAA and CREF. Principal and interest are paid ratably through quarterly ACH transfers by the participant to TIAA and CREF. These loans are not plan assets; they are merely secured by Plan assets. It is the opinion of the Plan Administrator that such arrangements are exempt transactions.

Plan loan balances were \$22,172 and \$34,141 as of December 31, 2024 and 2023, respectively. Under the borrowing terms, \$24,389 and \$37,555 of plan assets serve as collateral for these loans as of December 31, 2024 and 2023, respectively.

In the event of default, such loans are reportable to plan participants as taxable income but remain outstanding and continue to accrue interest until repaid by the plan participant or the participant becomes eligible to receive a distribution under the terms of the Plan. As of December 31, 2024 and 2023, loans in default amounted to \$22,172 and \$33,691, respectively.

Notes receivable from participants: Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their eligible fund balances and may have up to three loans outstanding at any time. Loan terms range up to five years or over a reasonable period of time for the purchase of a participant's primary residence, as established by the Plan Administrator at the time of the loan. The loans are collateralized by the vested balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined quarterly by the Plan Administrator. These rates range from 4.25% to 9.50% on loans outstanding at December 31, 2024, and mature through 2031. Principal and interest are paid through monthly payments directly from the participants to TIAA.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires the Plan's management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition: The Plan's investments are reported at fair value except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Committee determines the Plan's valuation policies utilizing information provided by the investment issuers, agents and custodian. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative fees and are expensed when they are incurred.

Contributions: Contributions from plan participants and the employer contributions from the University are recognized in the year in which the underlying compensation is paid. Participant contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction in contributions.

Payment of benefits: Benefits are recorded when paid.

Expenses: Certain expenses of maintaining the Plan are paid directly by the University and are excluded from these financial statements. Administrative expenses include fees related to the administration of notes receivable that are charged directly to the participant's account and certain recordkeeping fees paid by the Plan. Investment related expenses are included in net appreciation in fair value of investments.

Subsequent events: The Plan has evaluated subsequent events through July 22, 2025, the date the financial statements were available to be issued.

Note 3. Information Certified or Provided by TIAA and CREF (Issuers and Custodian)

The following is a summary of the Plan's asset information as of December 31, 2024 and 2023, and for the year ended December 31, 2024, included throughout the Plan's financial statements and ERISA-required supplemental schedule of assets (held at end of year), obtained by management and agreed to or derived from information certified as complete and accurate by TIAA and CREF, a qualified institution:

	December 31	
	2024	2023
Investments at fair value:		
Registered investment companies (mutual funds)	\$ 358,695,485	\$ 321,932,228

Self-directed brokerage account	2,196,185	772,746
	<u>\$ 670,987,815</u>	<u>\$ 612,807,663</u>
Investments at contract value:		
Guaranteed investment contracts (fully benefit-responsive)	<u>\$ 14,042,280</u>	<u>\$ 16,120,984</u>
Notes receivable from participants	<u>\$ 440,079</u>	<u>\$ 418,255</u>

TIAA and CREF also certified to the completeness and accuracy of \$53,320,342 of net appreciation in fair value of investments, \$18,638,949 of interest and dividends and \$32,242 of interest income on notes receivable from participants related to the aforementioned plan assets for the year ended December 31, 2024.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include: (a) quoted prices for similar assets or liabilities in active markets; (b) quoted prices for identical or similar assets or liabilities in markets that are not active; (c) inputs other than quoted prices that are observable for the asset or liability and (d) inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable for the asset or liability and are significant to the fair value measurement.

University of Richmond Defined Contribution Retirement Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Registered investment companies (mutual funds): Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Variable annuities: The CREF accounts are valued at the daily unit value published on NASDAQ. The funds are not traded on this exchange. The value of the unit holder's investment rises and falls with the return on the underlying assets in the account.

Guaranteed investment contracts (non-benefit-responsive): Guaranteed investment contracts are reported at contract value which approximates fair value (see Note 5). Each premium allocated to the guaranteed investment contracts buys a guaranteed minimum amount of lifetime income based on the rate schedule in effect at the time the premium is credited. Due to variations in trading volumes and the lack of quoted market prices for guaranteed investment contracts, the fair value of guaranteed investment contracts is normally derived through recent reported trades for identical or similar securities, making adjustments through the reporting date based upon available market observable data described above. If there are no recent reported trades, the fair value of guaranteed investment contracts may be derived through the use of matrix pricing or model processes, where future cash flow expectations are developed based upon collateral performance and discounted at an estimated market rate.

Pooled separate account: The real estate account is a pooled separate account in which daily unit values are published on NASDAQ. The fund is not traded on this exchange. The value of the unit holder's investment rises and falls with the return on the underlying assets in the account.

Self-directed brokerage account: Account primarily consists of mutual funds and common stocks that are valued on the basis of readily determinable market prices.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets measured at fair value as of December 31, 2024 and 2023:

	<u>\$ 489,778,868</u>	<u>\$ -</u>	<u>\$ 123,028,795</u>	<u>\$ 612,807,663</u>

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes to economic conditions or valuation techniques may require the transfer of investments from one fair value level to another.

The Plan evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total assets available for benefits.

The following table presents changes in assets classified in Level 3 of the fair value hierarchy during the year ended December 31, 2024, attributed to the following:

	Guaranteed Investment Contracts (Non-Benefit-Responsive)
Purchases	\$ 17,128,300
Issues	-
Transfers into Level 3	-
Transfers out of Level 3	-

Note 4. Fair Value Measurements (Continued)

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs as of December 31, 2024 and 2023:

Instrument	Fair Value		Principal Valuation Technique	Significant Unobservable Inputs	Range of Significant Input Values	Weighted Average
	2024	2023				
Guaranteed investment contracts (non-benefit-responsive)	\$ 123,789,414	\$ 123,028,795	Discounted cash flow	Risk-adjusted discount rate applied	3.00 - 6.50%	4.6%

Note 5. Investment Contracts With TIAA

The Plan has guaranteed investment contracts with TIAA. Under these contracts are sub-contracts, some of which are fully benefit-responsive while others are not. TIAA maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Each premium allocated to the guaranteed investment contract buys a guaranteed minimum amount of lifetime income based on the rate schedule in effect at the time the premium is credited.

For investment contracts that are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the assets available for benefits attributable to the fixed sub-account of the investment contract. These contracts are included in the financial statements at contract value which approximates fair value for these investments at December 31, 2024 and 2023, as reported to the Plan by TIAA. Contract value represents the accumulated cash contributions and credited interest less charges for participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Fair value of fully benefit-responsive contracts was \$14,042,280 and \$16,120,984 at December 31, 2024 and 2023, respectively.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer ranging from 1% to 3%. Such interest rates are reviewed and reset by the issuer on an annual basis.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on TIAA's ability to meet its financial obligations. TIAA's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan or (4) the failure of the Plan to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

Notes to Financial Statements

Note 5. Investment Contracts With TIAA (Continued)

Investment contracts that are not fully benefit-responsive are included in the financial statements at contract value as reported by TIAA. TIAA indicates that contract value approximates fair value for these investments at December 31, 2024 and 2023. For those contracts that are not fully benefit-responsive, there may be certain liquidity restrictions on redemption. Fair value of investment contracts that are not fully benefit-responsive was \$123,789,414 and \$123,028,795 at December 31, 2024 and 2023, respectively.

Note 6. Risks and Uncertainties

Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near-term and such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

As noted below, 20% and 22% of the Plan's investments are held in one account with TIAA and CREF at December 31, 2024 and 2023, respectively. As such, this is considered to be a concentration of credit risk.

Investments	2024		2023	
	Value	Percentage of Total Investments	Value	Percentage of Total Investments
Guaranteed investment contracts	\$ 137,831,694	20%	\$ 139,149,779	22%

Note 7. Plan Termination

The University has the right under the Plan by resolution of the Plan's Board of Trustees to amend, otherwise modify, or terminate the Plan subject to the provisions of ERISA, or to discontinue its contributions at any time. The University has expressed no intention to exercise this right.

Note 8. Tax Status

The Plan adopted a volume submitter plan sponsored by TIAA. The volume submitter plan provider has received an advisory letter from the IRS as to the volume submitter plan's qualified status. The volume submitter advisory letter has been relied upon by the Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Code.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by U.S. federal, state or local tax authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9. Related-Party and Party-in-Interest Transactions

Certain plan investments are shares of variable annuities of TIAA and CREF and traditional annuities issued by TIAA, affiliates of the Plan's service provider. Transactions involving these investments are considered to be party-in-interest transactions for which statutory exemption exists under the DOL's Rules and Regulations. Income received from TIAA and CREF related to a revenue sharing arrangement totaled \$292,518 for the year ended December 31, 2024, and is included in other additions on the statement of changes in net assets available for benefits.

Note 11. Nonexempt Transactions

During 2024 and 2023, the University inadvertently failed to deposit \$882,885 and \$381, respectively, of participant contributions within the required timeframe as stated by the DOL. The University paid lost earnings during 2024 for the 2023 late remittances and intend to pay lost earnings for the 2024 late remittances in 2025.

Note 12. Subsequent Events

Effective January 1, 2025, the Plan was amended to increase the threshold for mandatory distributions for terminated participants from \$5,000 to \$7,000.

Effective January 1, 2025, the Plan was amended to change the number of loans a participant can have outstanding from 3 to 2.
