## INDEPENDENT AUDITORS' REPORT

To the Board of Directors  
Island Kinetics, Inc. Employee Stock Ownership Plan

### Opinion

We have audited the accompanying financial statements of the Island Kinetics, Inc. Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Island Kinetics, Inc. Employee Stock Ownership Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

### Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Island Kinetics, Inc. Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Island Kinetics, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### **Auditors' Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Island Kinetics, Inc. Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Island Kinetics, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### **Supplemental Schedule Required by ERISA**

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of

Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

**NOTE 1 - PLAN DESCRIPTION AND BASIS OF PRESENTATION**

The following description of the Island Kinetics, Inc. Employee Stock Ownership Plan provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

Island Kinetics, Inc. (the Company) established the Island Kinetics, Inc. Employee Stock Ownership Plan (the Plan) effective as of April 1, 2002. The Plan was amended and restated effective January 1, 2023. The Plan operates as a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations there under of the Internal Revenue Code of 1986, as amended (IRC), and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by a Plan Committee appointed by the Company's board of directors. The Company's board of directors has appointed an independent third-party as the Plan's trustee.

On March 28, 2018 the Plan purchased 700,000 shares of the Company's common stock which is held in a trust established under the Plan. The stock was purchased at a price of \$11.43 per share, for an aggregate purchase price of \$8,000,000, which was paid with a loan from the Company. Prior to this transaction the Plan owned 300,000 shares of the Company's common stock. This transactions resulted in the Plan owning 100% of the Company's common stock.

The loan is collateralized by the unallocated shares of common stock. The Company has no rights against shares of common stock once they are allocated to participants in accordance with the terms of the ESOP. Accordingly, the financial statements of the Plan as of and for the years ended December 31, 2024 and 2023, presents separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated common stock (allocated), and (b) common stock not yet allocated to employees (unallocated).

Eligibility

Employees of the Company are generally eligible to participate in the Plan once they have attained age 21 and have completed one year of service. One year of service is defined as a consecutive 12-month period in which the employee has at least 1,000 hours of service. Any eligible employee shall become a participant effective as of the earlier of the first day of the Plan year coinciding with or next following the date such employee met the eligibility requirements. Entry dates are January 1st and July 1st of each Plan year. The Plan excludes members of a collective bargaining agreement, nonresident aliens, and independent contractors.

---

Effective August 31, 2022, the Plan's eligibility requirements were amended. Employees of Skin Script, LLC who completed at least one year of service as employees of Skin Script, LLC and have attained age 21 as of August 31, 2022 were automatically eligible to participate in the Plan as of August 31, 2022.

Contributions

The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its loan. Employee contributions are not permitted.

Allocations

Contributions for each Plan year are allocated to eligible participants. Effective January 1, 2023, to be eligible to share an allocation of employer contributions or forfeitures for a Plan year, a participant must complete at least 1,000 hours and be actively employed on the last day of the plan year, unless the employee separated from service due to retirement (normal or late), total and permanent disability, or death. Each participant will receive a portion of the total contribution in the same ratio to the contribution as their eligible compensation for the plan year bears to the total eligible compensation of all participants who are eligible in receiving the contribution.

For the Plan year ending December 31, 2022, to be eligible to share an allocation of employer contributions or forfeitures for a Plan year, a participant must be actively employed by the employer on the last day of the Plan year and complete more than 500 hours of service during the Plan year, or terminate employment during the Plan year due to retirement (normal or late), total and permanent disability, or death.

Payment of Benefits

The Plan provides for the distribution of the participant's account upon normal retirement, disability, death, or termination of employment. If the participant separates from service by reason of death, disability, or retirement, the Trustee will commence distribution of the participant's vested account balance not later than one year after the close of the Plan year in which the event occurs. For termination of employment other than by death, disability, or retirement, the participant's vested account balance may be distributed, at the participant's election, as soon as administratively feasible after the end of the Plan year during which the termination of employment occurred.

Distributions will be paid in a single lump sum if the participant's vested account balance is \$5,000 or less. The distribution will be paid in annual installment payments for vested account balances greater than \$5,000. Annual installment payments will generally be paid over four years in 5 annual installments. One annual installment payment when payments begin and one annual installment in each of the following four years. In the case of a participant with an account balance in excess of \$1,330,000, the

five year installment period may be extended one additional year for each \$265,000 of fraction thereof by which such balance exceeds \$1,330,000. The dollar limits shall be adjusted for changes in Code Section 415(d).

For terminated employees with a vested balance less than \$5,000 (the cash-out threshold), the participant's vested benefit shall be paid to such participant as soon as administratively practicable following the end of the Plan year in which the participant incurred a separation from service. Effective January 1, 2024, the cash-out threshold increased to \$7,000.

Administrative Expenses

As provided in the Plan Agreement, administrative expenses may be paid either by the Plan or by the Company. The Company paid substantially all operating expenses for the Plan for the year ended December 31, 2024.

Voting Rights

All Company stock held by the Trust is voted by the Trustee. In the event of any corporate matter which would constitute a merger, consolidation, recapitalization, reclassification, liquidation, dissolution, or sale of substantially all assets, each participant who has been allocated shares of stock may instruct the Trustee as to the voting of those shares. The Trustee shall vote any unallocated shares held by the Trust as well as any allocated shares for which a participant has failed to give timely voting direction.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' non-vested accounts. Plan earnings are allocated to each participant's account based on the ratio of the participant's beginning of the year account balance after first reducing account balances for distributions.

Vesting

If a participant's employment with the Company ends for any reason other than retirement, permanent disability, or death, he or she will vest in the balances in his or her account based on total years of service with the Company.

A year of service is defined as a plan year during which a participant has worked 1,000 hours. Effective January 1, 2022, the Plan was amended to include years of service with any affiliated employer for the purposes of vesting. A participant's account automatically becomes 100% vested if the participant terminates employment with the Company because of death or permanent disability, or after reaching normal retirement age. The vesting schedule is as follows:

<u>Years of Service</u>	<u>Vesting Percentage</u>
Less than 3 years	0%
3 or more	100%

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments that are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a 6-year period. In each of the first 5 years, a participant may diversify up to 25 percent of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify receive a cash distribution. The election to diversify must be made within 90 days after the close of the Plan year to which the direction applies.

Forfeited Accounts

Plan forfeitures are allocated to each participant's account based upon the relation of the participant's eligible compensation to total eligible compensation for the Plan year. Forfeitures allocated to participants during the year ended December 31, 2024 totaled \$40,400. There were no forfeited non-vested accounts to be allocated to participant accounts in future years as of December 31, 2024 and 2023.

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Basis of Accounting

The financial statements of the Plan are prepared in accordance with accounting principals generally accepted in the United States of America (U.S. GAAP).

Use of Estimates

The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock (“allocated”) and (b) stock not yet allocated to employees (“unallocated”), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment Valuation and Income Recognition

The shares of Company common stock are reported at fair value. See Note 4 for a discussion of the fair value measurements. Dividend income is accrued on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The Plan has evaluated subsequent events through July 24, 2025, the date the financial statements were available to be issued and concluded there were no events that require recording or disclosure in the financial statements as of December 31, 2024.

**NOTE 4 - FAIR VALUE MEASUREMENTS**

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under Financial Accounting Standard Board (FASB) Accounting Standards Codification (ASC) 820 are described as follows:

*Level 1:* Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

*Level 2:* Inputs to the valuation methodology include: (1) quoted prices for similar assets or liabilities, (2) quoted prices for identical or similar assets or liabilities in inactive markets, (3) inputs other than quoted prices that are observable for the asset or liability, (4) inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

*Level 3:* Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	<b>2024</b>		<b>2023</b>	
	Level 3	Total	Level 3	Total
Investment in Island Kinetics, Inc. common stock	\$ 33,120,000	\$ 33,120,000	\$ 26,240,000	\$ 26,240,000
Total assets at fair value	<u>\$ 33,120,000</u>	<u>\$ 33,120,000</u>	<u>\$ 26,240,000</u>	<u>\$ 26,240,000</u>

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

The Island Kinetics, Inc. common stock held by the Plan is reported at fair value based upon an appraisal. This appraisal was based upon a combination of the market and income valuation techniques consistent with prior years as illustrated in the following table.

Instrument	Principal Valuation Technique	Unobservable Inputs
Island Kinetics, Inc. common stock	Income	EBITDA Net income Weighted average cost of capital Discount rate Discount for lack of marketability
	Market	Public comparable Revenue multiples EBITDA EBITDA multiples Discount for lack of marketability

The valuation process involves the selection of an appraiser by the Trustee. Plan management accumulates the data for the appraiser from historical and projected financial information of the Company. The appraiser prepares a report of estimated per share value that a participant will receive upon distribution. The trustee and plan management review the annual appraisal report. The trustee provides the final approval of the annual share value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

**NOTE 5 - NOTE PAYABLE**

On March 28, 2018, the Plan entered into an \$8,000,000 loan agreement with the Company at a rate of 2.88%. The proceeds of the loan were used to purchase Company common stock. Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, times the ratio of the current year payments divided by the total of this year's payments, plus all future years' principal and interest payments. This resulted in 47,100 shares being released and allocated for the year ended December 31, 2024.

The agreement provides for the loan to be repaid over 15 years. The scheduled amortization of the loan for the next 5 years is as follows:

<b>For the year ending December 31,</b>	<b>Amortization</b>
2025	\$ 531,574
2026	546,883
2027	562,633
2028	578,837
2029	595,508
Thereafter	1,799,603
	<u>\$ 4,615,038</u>

**NOTE 6 - RELATED PARTIES AND PARTIES IN INTEREST TRANSACTIONS**

The Plan invests in Company common stock and has a loan with the Company. These are related party and party in interest transactions. As described in Note 1, the Company may pay plan expenses. The Plan has a number of service providers. Such providers are parties in interest under ERISA.

Certain administrative functions are performed by officers and employees of the Company. No officer or employee receives compensation from the Plan for these services.

**NOTE 7 - RISKS AND UNCERTAINTIES**

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

**NOTE 8 - PLAN TERMINATION**

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the Plan Administrator directs the Trustee to pay all liabilities and expenses of the ESOP and to sell shares of financed common stock held as collateral to the extent it determines such sale to be necessary in order to repay the loan. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or their beneficiary at the time prescribed by the Plan terms and the IRC. Participants will become 100% vested if the Plan is terminated or partially terminated.

**NOTE 9 - TAX STATUS**

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated October 31, 2016, stating that the Plan is qualified under the IRC and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is currently designed, and being operated, in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan is qualified, and the related trust is tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken a significant uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
