## REPORT OF INDEPENDENT AUDITORS

To the Plan Administrator  
Owl's Head Alloys Employee Stock Ownership Plan  
Bowling Green, Kentucky

### Opinion

We have audited the accompanying financial statements of Owl's Head Alloys Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

### Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's

## REPORT OF INDEPENDENT AUDITORS (Continued)

ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

## REPORT OF INDEPENDENT AUDITORS (Continued)

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### Supplemental Schedule Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the DOL Rules and Regulations for Reporting and Disclosure under ERISA.

# OWL'S HEAD ALLOYS EMPLOYEE STOCK OWNERSHIP PLAN

## NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2024 AND 2023

---

### 1. DESCRIPTION OF THE PLAN

The following brief description of the Owl's Head Alloys Employee Stock Ownership Plan (the "Plan") is provided for general information purposes only. Participants should refer to the plan agreement for complete information.

The Plan, established by Owl's Head Alloys, Inc. (the "Company" or "Sponsor" or "Employer") operates, in relevant part, as a leveraged employee stock ownership plan ("ESOP"), and is designed to comply with Section 4975(e)(7) and the regulations there under of the Internal Revenue Code of 1986, as amended ("Code") and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. The Plan is administered by the Company. The trust department of TI-Trust, Inc., an independent third-party bank, serves as the Plan's Trustee.

The Plan purchased Company common stock using the proceeds borrowed from the Company and holds the stock in a trust established under the Plan. The borrowings are to be repaid by fully deductible Company contributions to the trust fund. As the Plan makes payments of principal and interest, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the Code.

The Plan's borrowings are collateralized by the unallocated shares of common stock. The Company has no rights against shares once they are allocated under the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2024 and 2023 and for the year ended December 31, 2024, present separately the assets and liabilities and changes therein pertaining to:

- 1) The accounts of employees with vested rights in allocated common stock ("Allocated")
- 2) Common stock not yet allocated to employees ("Unallocated").

#### Eligibility

Employees of the Company are generally eligible to participate in the Plan after completing one year of service or 1,000 hours of service, whichever is obtained first.

#### Payment of Benefits

Distributions from the Plan will be made in a cash lump sum to participants who terminate employment for reasons of death, permanent or partial disability, or retirement at normal retirement age. Distributions due to other separations from service commence in the fifth plan year following the separation from service, or the year following the plan year in which the term loan is repaid. Accounts with vested balances less than \$1,000, who terminate for reasons other than death, disability, or retirement will be distributed in a single lump sum. The Plan has

## OWL'S HEAD ALLOYS EMPLOYEE STOCK OWNERSHIP PLAN

---

undistributed terminated participant balances of \$1,149,288 and \$893,303 as of December 31, 2024 and 2023, respectively.

#### Put Option

Under Federal income tax regulations, the Company stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market in accordance with the aforementioned terms. The put price is representative of the fair value of the stock, as determined by an independent valuation performed in the year of a participant becoming eligible for payments, and payments are made subsequent to the year participants become eligible for payment. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

#### Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in the Company's common stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution. As of December 31, 2024 and 2023, there was no vested balance held by participants eligible for diversification.

#### Voting Rights

The shares of Company stock held in the unallocated balance shall be voted on by the Trustee. The Trustee is required to vote on any unallocated shares on behalf of the collective best interest of plan participants and beneficiaries. With respect to allocated shares, they too shall be voted by the Trustee; however, participants shall be entitled to direct the Trustee as to the manner in which voting rights represent the interest of such participants with respect to significant corporate matters, as defined.

#### Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be fully vested. Upon termination of the Plan, the Company will direct the Trustee to distribute all assets of the trust fund to participants in a manner consistent with the provisions of the Plan.

#### Participant Accounts and Forfeitures

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' non-vested accounts. Only those participants who are eligible employees of the Company as of the last day of the plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation.

Employer contributions and plan forfeitures are allocated to each participant's account based upon the relation of the participant's compensation to total eligible compensation for the plan year. Forfeitures of terminated non-vested account balances that were allocated to remaining participants as of December 31, 2024 and 2023 totaled \$118,557 and \$0, respectively. At December 31, 2024 and 2023, forfeited non-vested accounts to be allocated to participant accounts in future years were \$916,676 and \$947,438, respectively. Plan earnings are allocated to each participant's account based on the ratio of the participant's beginning of the year account balance to all participants' beginning of the year account balances.

#### Vesting

If a participant's employment with the Company ends for any reason other than retirement age, permanent or partial disability, or death, he or she will vest in the balances in his or her account based on total years of service with the Company according to the following schedule:

<u>Years of Service</u>	<u>Percentage</u>
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

#### Employer Contributions

The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan.

#### Subsequent Events

The Plan has evaluated subsequent events through July 18, 2025, the date the financial statements were available to be issued.

### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

#### Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

#### Investment Valuation and Income Recognition

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks, including interest rate, market, and credit risks, as well as valuation assumptions based on earnings and cash flows. Due to the level of risk associated with the investment in common stock and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

The shares of the Company's common stock are valued at estimated fair value. See Note 7 for discussion of fair value measurements.

Dividend income is accrued on the ex-dividend date and is allocated to participants' accounts.

Net appreciation in estimated fair value of investments includes the Plan's gains and losses on investment bought and sold as well as held during the year.

#### Benefit Payments

Benefit payments are recorded when paid.

#### Operating Expenses

All expenses of maintaining the Plan are paid by the Company.

### NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2024 AND 2023

#### **3. TAX STATUS**

The Internal Revenue Service has determined and informed the Company by a letter dated May 18, 2021, that the Plan is qualified and the trust established under the Plan is tax-exempt, under the appropriate sections of the Internal Revenue Code ("IRC"). The plan administrator believes the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC. Therefore, the plan administrator believes the Plan was qualified and the related trust was tax-exempt as of the financial statement date. Accordingly, no provision for income taxes has been provided.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by a taxing authority. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2021.

#### **4. ADMINISTRATION OF PLAN ASSETS**

The Plan's assets, which consist principally of the Company's common stock, are held by the Trustee of the Plan. Company contributions are held and managed by the Trustee, which invests cash received, interest, and dividend income and makes distributions to participants. The Trustee also disburses the payment of interest and principal on the loan, which is reimbursed to the Trustee through contributions as determined by the Company.

#### **5. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS**

Certain administrative functions are performed by officers or employees of the Company or its subsidiaries. No such officer or employee receives compensation from the Plan. Administrative expenses for the Trustee's fees are paid directly by the Company.

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the Company and certain others.

The Plan invests in Company common stock and has notes payable to the Company. These are related party and party-in-interest transactions. As described in Note 4 the Plan's Trustee manages various transactions on behalf of the Plan and as such is a party-in-interest under ERISA.

#### 6. RISK AND UNCERTAINTIES

The Plan invests in common stock of the Company. The common stock is exposed to various risks such as interest rate, market, and credit risks. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with the common stock and the concentration in the investment in the Company, it is at least reasonably possible that changes in the value will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

#### 7. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3).

The three levels of the fair value hierarchy are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2024 and 2023.

- Common stock - The fair value of Company common stock is determined by an annual independent appraisal. This appraisal is based on a combination of the market and income valuation methods consistent with prior years. The appraiser took into account
