Lovelace Scientific Resources 401(k) Plan

Report on the Audit of the Financial Statements

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Lovelace Scientific Resources 401(k) Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of November 6, 2024 (liquidation basis) and December 31, 2023, and the related statement of changes in net assets available for benefits for the period from January 1, 2024 to November 6, 2024 (liquidation basis), and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Lovelace Scientific Resources 401(k) Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of November 6, 2024 and December 31, 2023, and for the period from January 1, 2024 to November 6, 2024, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Lovelace Scientific Resources 401(k) Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matter

As discussed in Note 1 to the financial statements, the plan sponsor of Lovelace Scientific Resources 401(k) Plan changed its operational focus and exited the clinical trials business in December 2023. As a result of this change in operational focus, management elected to terminate the Lovelace Scientific Resources 401(k) Plan. As a result, the Plan has changed its basis of accounting from the going concern basis used in presenting the financial statements as of December 31, 2023 to the liquidation basis used in presenting the financial statements for the period from January 1, 2024 to November 6, 2024. Our opinion is not modified with respect to that matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Lovelace Scientific Resources 401(k) Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Lovelace Scientific Resources 401(k) Plan's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Lovelace Scientific Resources 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Lovelace Scientific Resources 401(k) Plan Notes to Financial Statements

Note 1 – Description of Plan

The following description of Lovelace Scientific Resources 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan agreement, as amended, for a more complete description of the Plan's provisions.

General – The Plan is a 401(k) salary deferral and profit-sharing plan covering substantially all employees of Lovelace Scientific Research, Inc. (LSR) (the Company or Employer) and is subject to provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Company is the Plan's sponsor and serves as plan administrator.

Plan termination – The Company has the right to terminate the Plan and discontinue its contributions at any time. During December 2023, the Company changed its operational focus and exited the clinical trials business due to decreases in revenues and increased competition. As a result of the change in operations, the Company elected to terminate the Plan and the Plan's termination became imminent as of January 1, 2024. The plan administrator distributed the Plan's remaining account balances in accordance with plan provisions, and the Plan was fully liquidated as of November 6, 2024.

As a result, the Plan's financial statements have been reported on the liquidation basis of accounting as of November 6, 2024 and for the period from January 1, 2024 to November 6, 2024. Participants affected by the Plan's termination became fully vested in their account balances.

The Plan's provisions summarized in these financial statements were applicable prior to the Plan's termination.

Eligibility – Employees of the Company who receive W-2 compensation are eligible to make contributions to the Plan immediately upon hire. Employees of LSR, except pro re nata (PRN) employees, who are as-needed employees who do not exceed 1,000 service hours in a year; students; and temporary employees, which are employees who work full-time or part-time for a period not to exceed six months in a calendar year, are eligible to receive employer contributions immediately upon hire.

Contributions

Participant contributions – Each year, participants may contribute up to 100% of their annual compensation, as defined by the Plan. Participants may elect to make contributions based on pre-tax compensation or Roth contributions utilizing after-tax compensation. Participants who have attained age 50 before the end of the year are eligible to make additional catch-up contributions. Participants may also contribute amounts representing rollovers from other qualified plans.

Eligible new employees are automatically enrolled in the Plan at 3% of employee compensation, unless the employee elects a different deferral percentage or declines participation in the Plan. PRN and temporary employees are excluded from automatic enrollment.

Employer contributions – The Company makes profit sharing contributions of 6.5% of each participant's eligible compensation each year up to \$17,700 of eligible compensation and 10% of eligible compensation thereafter. PRN, students, and temporary employees are not eligible to receive profit sharing contributions.

Contributions are subject to regulatory limitations.

Lovelace Scientific Resources 401(k) Plan Notes to Financial Statements

Participant accounts – Each participant’s account is credited with the participant’s contributions and allocations of the Employer’s contributions and plan earnings. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account. Participants direct the investment of their contributions into various investment options offered by the Plan.

Vesting – Participants are vested immediately in their contributions, plus actual earnings thereon. Vesting in the Company’s profit sharing contribution portion of their accounts is based on years of service. A participant is 100% vested after three years of credited service.

Notes receivable from participants – Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are issued by the Plan and secured by the balance in the participant’s account. All loans must be repaid within a period of one to five years, unless the loan is used to purchase a principal residence, in which case, the loan must be repaid within a reasonable period of time not to exceed ten years. Under the terms of the plan agreement, participant loans bear a reasonable rate of interest determined by the plan administrator. Principal and interest are paid ratably through monthly payroll deductions.

Payment of benefits – On termination of service due to death, disability, retirement, or other reasons, a participant may elect to receive either a lump-sum amount equal to the value of the participant’s vested interest in his or her account, annual installments, or an annuity contract.

Transfer of insurance contracts – Effective November 6, 2024, the Plan executed an agreement with Teachers Insurance and Annuity Association of America (TIAA) to transfer guaranteed annuity insurance contracts totaling \$10,458,159 to TIAA for the plan participants named in the contracts. Under the group annuity contracts, TIAA assumed the obligation to make future benefit payments to the participants or their beneficiaries based on each named individual’s account balance, pursuant to the terms of each contract. The transferred annuity insurance contracts replicate the same rights to future payments that the participants or beneficiaries were receiving from the Plan.

Forfeitures – Forfeitures are the non-vested portion of a participant’s account that is lost upon termination of employment. Forfeitures are retained in the Plan and will be used to reduce future Company contributions.

Note 2 – Summary of Significant Accounting Policies

Basis of accounting – The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, using the accrual method of accounting. Effective January 1, 2024, the Plan changed its basis of accounting to the liquidation basis of accounting based on the Plan’s imminent termination.

Use of estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions that may affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investment valuation – Investments are stated at fair value and contract value. TIAA and College Retirement Equity Fund (CREF), the Plan’s insurance carriers, certify the value of all investments as insurance carriers and on behalf of TIAA Trust, N.A., the Plan’s custodian.

Lovelace Scientific Resources 401(k) Plan Notes to Financial Statements

Fair value is the price that would be received to sell an asset or paid to transfer a liability (the “exit price”) in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Contract value is the relevant measurement for assets invested in fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Income recognition – Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation in fair value of investments consists of both the realized gains and losses and unrealized appreciation and depreciation of those investments.

Payment of benefits – Benefits are recorded when paid.

Expenses – Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Investment-related fees are included in net appreciation of fair value of investments.

Revenue sharing – The Plan shares in management fee revenues generated within certain mutual fund investments. These shared revenues are used to pay investment-related fees and included in the net appreciation in the fair value of investments or maintained in a separate revenue credit account to pay other qualified plan expenses. During the period from January 1, 2024 to November 6, 2024, the Plan received revenue credits in the revenue credit account totaling \$16,150 that are reported as other income and used revenue credits totaling \$18,291 to pay administrative expenses.

Subsequent events – The Plan has evaluated subsequent events through July 29, 2025, which is the date the financial statements were available to be issued.

Note 3 – Fair Value Measurements

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Lovelace Scientific Resources 401(k) Plan Notes to Financial Statements

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation techniques used for assets measured at fair value. There have been no changes in the techniques used as of November 6, 2024 or December 31, 2023.

Mutual funds – Shares in registered investment companies (mutual funds) are valued at the daily closing price as reported by the fund. Registered investment companies held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Pooled separate account – Units held in the pooled separate account (PSA) are valued using the net asset value practical expedient (NAV practical expedient) of the PSA as reported by the account managers. The NAV practical expedient is based on the fair value of the underlying assets owned by the PSA, minus its liabilities, and then divided by the number of units outstanding.

Non-benefit responsive fixed annuities – The non-benefit responsive fixed annuities portfolio is valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer. The Plan also offers a benefit responsive guaranteed investment contract (FBRIC). See Note 4.

The valuation methods used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table discloses the fair value hierarchy of the Plan's investments as of December 31, 2023:

	Fair Value Measurement at December 31, 2023			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 17,473,252	\$ -	\$ -	\$ 17,473,252
Non-benefit responsive fixed annuities	-	-	1,071,832	1,071,832
	\$ 17,473,252	\$ -	\$ 1,071,832	18,545,084
Investments measured at NAV practical expedient				198,314
Total investments, at fair value				\$ 18,743,398

Lovelace Scientific Resources 401(k) Plan Notes to Financial Statements

The following table summarizes certain changes in the fair value of the Plan's Level 3 investments for the period from January 1, 2024 to November 6, 2024:

Beginning balance	\$ 1,071,832
Purchases	270,426
Issuances	(120,706)
Net transfers	<u>(1,221,552)</u>
Ending balance	<u>\$ -</u>

Note 4 – Guaranteed Investment Contracts with TIAA

The Plan holds investments in two types of TIAA Traditional Annuity Account contracts, a fully benefit responsive contract and a non-fully benefit responsive contract, which are presented at contract value and at fair value, respectively, on the statements of net assets available for benefits. The TIAA Traditional Annuities are fixed annuity contracts that are fully and unconditionally guaranteed and backed by the claims-paying ability of TIAA, a legal reserve life insurance company. See Note 3 for fair value disclosures related to the non-benefit responsive fixed annuity contract.

TIAA maintains the contributions in the benefit-responsive guaranteed investment contract in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan (generally 3%, but in some recent contracts between 1% and 3%, and the potential for additional interest if declared by TIAA).

The benefit responsive contract meets the criteria as a fully benefit responsive insurance contract (FBRIC) and, therefore, is reported at contract value. Contract value is the relevant measure for FBRICs because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by TIAA, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations, which may be affected by future economic and regulatory developments.

Certain events limit the ability of the plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the plan's ability to transact at contract value with participants are probable of occurring.

Lovelace Scientific Resources 401(k) Plan Notes to Financial Statements

Note 5 – Tax Status

The plan document is a prototype standardized defined contribution plan that received a favorable opinion letter from the Internal Revenue Service dated October 7, 2020, which stated that the Plan, as then designed, was in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since the date of the opinion letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes, management has evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements.

Note 6 – Information Certified by the Custodian

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, TIAA and CREF, as insurance carriers and on behalf of TIAA Trust, N.A., the Plan's custodian, have certified to the completeness and accuracy of:

- Investments and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of November 6, 2024 and December 31, 2023.
- Net appreciation in fair value of investments, dividends, interest, and interest income on notes receivable from participants reflected on the accompanying statement of changes in net assets available for benefits for the period from January 1, 2024 to November 6, 2024.

Note 7 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. It is reasonably possible, given the level of risk associated with investment securities that changes in the values of the investments in the near term could materially affect a participant's account balance and the amounts reported in the financial statements.

Note 8 – Party-In-Interest Transactions

Plan investments include shares of mutual funds, units in a pooled separate account, and fixed annuity portfolios managed by TIAA and CREF, insurance carriers for the Plan. Therefore, transactions with these entities qualify as exempt party-in-interest transactions. Therefore, transactions with these entities qualify as exempt party-in-interest transactions. Investments and administrative fees paid to these affiliates totaled \$300,843 for the period from January 1, 2024 to November 6, 2024, net of revenue sharing credits.
