INDEPENDENT AUDITOR'S REPORT

To the Administrative Committee
Little River Medical Center, Inc. 403(b) Plan
Little River, South Carolina

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Little River Medical Center, Inc. 403(b) Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ["ERISA Section 103(a)(3)(C) audit"]. The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution, American United Life Insurance Company (the "Trustee") as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America ("GAAP").
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (“GAAS”). Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management’s election of the ERISA Section 103(a)(3)(C) audit does not affect management’s responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan’s ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the Plan’s transactions that are presented and disclosed in the financial statements are in conformity with the Plan’s provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor’s Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental Schedule H, Part IV, line 4i – Schedule of Assets (Held at End of Year) at December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion –

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Notes to Financial Statements

December 31, 2024 and 2023

Note 1. Description of the Plan

The following description of the Little River Medical Center, Inc. 403(b) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan covering all eligible employees of Little River Medical Center, Inc. (the "Company"). The Plan became effective on January 1, 2007. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). All employees who have attained age 21 and upon completion of 90 days of service are eligible to participate in the Plan. The Plan automatically enrolls all eligible participants.

Plan Administration – American United Life Insurance Company is the Plan Trustee, further referred to as the "Trustee" and contractor for administrative services.

Contributions – Effective February 1, 2016, the Plan implemented auto-enrollment for all new employees. Each year, participants may contribute to the Plan up to the maximum allowable amount of their pretax annual compensation which does not exceed the limits as prescribed by the Internal Revenue Code ("IRC"). Participants may also contribute, or rollover, distributions from other qualified defined benefit or contribution plans. In addition, an employee may designate all or a portion of their contribution as a Roth contribution. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions of \$7,500. The overall limit for employee contributions was the lower of \$23,000 or 100% of the employee's compensation for 2024. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and a guaranteed investment contract as investment options for participants. The Company's matching contribution is a discretionary percentage that is declared annually. As of September 1, 2021, the Company is contributing 50% of the first 8% of base compensation that the participant contributed to the Plan.

There were \$22,430 and \$13,989 of employer receivables as of December 31, 2024 and 2023, respectively, and no employee receivables recorded as of December 31, 2024 or 2023.

Participant Accounts – Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings and account balances, as defined in the Plan document. The benefit to which a participant is entitled is the vested portion of the participant's account balance.

Vesting – Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching portion of their accounts plus actual earnings thereon is based on years of continuous service. Vesting of employer contributions is as follows:

Little River Medical Center, Inc. 403(b) Plan

Notes to Financial Statements

December 31, 2024 and 2023

Period of Service	Vesting Percentage
1	25%
2	50%
3	75%
4	100%

Notes Receivable from Participants – A participant may borrow from the Plan, subject to the approval of the Plan administrator. The minimum borrowing is \$1,000 and the maximum is \$50,000 or 50% of their vested balance. The loans are secured by the balance in the participant’s account and bear interest at a rate similar to loans from commercial lending institutions. Interest rates on loans range from 3.25% to 5.5%. Notes receivable from participants are recorded on the accrual method of accounting in accordance with generally accepted accounting principles. Interest income is recorded on the accrual basis.

Upon a loan default, the participant will experience a taxable event, subject to personal income and penalty taxes, in the amount of the outstanding loan balance plus accrued interest. No allowance for loss on receivables from participants is provided based on loans being secured by the participants’ balance.

Payment of Benefits – Benefits are recorded when paid. Subject to certain conditions, a participant may make withdrawals from his or her vested account balance in the Plan while employed. Upon termination of service due to death or disability, a participant or participant’s beneficiary will receive a single lump sum amount equal to the value of the participant’s vested account balance if it is less than \$5,000. If the vested account balance is more than \$5,000, the participant or participant’s beneficiary may choose an optional form of benefit described in the Plan document. Upon termination of service due to retirement or other reasons, if a participant’s vested account is \$5,000 or less, the participant’s vested account will be paid to the participant in a single lump sum. If the participant’s vested account is more than \$5,000, the participant may choose an optional form of benefit described in the Plan document.

Forfeited Accounts – As of December 31, 2024 and 2023 forfeited non-vested accounts totaled approximately \$1. Forfeitures by non-vested participants are used to reduce future Company contributions. During 2024, employer contributions were reduced by approximately \$29,000 from forfeited non-vested accounts.

Funding – The Company’s policy is to fund the Company match of participant deferrals within the Department of Labor’s required timeframes.

Plan Termination – Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 2. Summary of Accounting Policies

Basis of Accounting – The financial statements of the Plan are prepared using the accrual method of accounting in accordance with generally accepted accounting principles.

Use of Estimates – The preparation of the Plan’s financial statements in accordance with accounting principles generally accepted in the United States of America requires that management make estimates and use assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates. The most significant estimate affecting the Plan is the fair value of investments.

Investment Valuation and Income Recognition – The Plan’s investments are reported at fair value or contract value (see Notes 3 and 4). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Shares of mutual funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end. The guaranteed investment contract is valued at contract value which approximates fair value and represents contributions made under the contract, plus earnings, less participants’ withdrawals and administrative expenses. See Note 3 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan’s gains and losses on investments bought and sold as well as held during the year.

Operating Expenses – Operating expenses consist of certain record keeping expenses and investment management expenses. Certain other administrative expenses of the Plan, including legal and accounting fees, are paid directly by the Company and, as such, are not expenses of the Plan.

Note 3. Investments

The Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated by \$1,327,934 in 2024.

Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB Accounting Standards Codification (“ASC”) 820, *Fair Value Measurement*, are described as follows:

Little River Medical Center, Inc. 403(b) Plan

Notes to Financial Statements

December 31, 2024 and 2023

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by the observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2024 and 2023.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023:

Assets at Fair Value as of December 31, 2024

	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 13,059,816	\$ -	\$ -	\$ 13,059,816

	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 10,641,936	\$ -	\$ -	\$ 10,641,936
Total Assets at fair value	\$ 10,641,936	\$ -	\$ -	\$ 10,641,936

Note 4. Stable Value Account Contract with Insurance Company

The Plan has a fully benefit responsive Stable Value Account (“SVA”) contract with the Plan Trustee. The Plan Trustee allocates each participant’s contributions to the SVA. The interest is credited daily to the SVA account value from the date of the contribution or transfer to the SVA to the date of withdrawal or transfer from the SVA to an investment account. Management does not feel there are events probable to occur that would limit the Plan’s ability to transact at contract value.

Each year, at least 35 days prior to January 1, the Plan Trustee shall declare a guaranteed rate for the SVA that shall apply for the subsequent calendar year. All monies in the SVA will earn interest at the guaranteed rate in effect. No guaranteed rate may be less than an annual effective interest rate of 0%. Thus, principal and interest accrued on all amounts invested in the SVA are guaranteed (although such amounts are subject to the withdrawal charge).

The Guaranteed SVA Account Value will never be less than an amount equal to the total of all amounts allocated to the SVA, and interest credited thereon, that have not been withdrawn previously from the SVA, at an annual effective rate of interest (credited from the date of allocation to the SVA) equal to the average 5-year Constant Maturity Treasury Rate reported by the Federal Reserve for the month of October of the calendar year immediately preceding each calendar year in which monies are invested in the SVA (rounded to the nearest 0.05%), minus 1.25%. This interest rate shall not be less than 1% nor greater than 3%.

Under the terms of the contract, participant-initiated transactions for the purpose of receiving benefits allowed under the plan, such as retirement, death, disability hardship, loan, required minimum distribution, allowable in-service withdrawal, are completed at contract value without conditions, limits, or restrictions. Benefits related to termination of employment receive the same treatment unless a termination is associated with a full or partial plan termination, the insolvency of the plan sponsor, or aggregate terminations in any contract year exceed 20% of the full contract value as determined on the first day of that contract year. Under those unlikely events, the provisions related to full contract termination may apply.

Contributions may be allocated for accumulation at the guaranteed rates. The SVA and interest account are investment options within the general asset account. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the SVA at December 31, 2024 and 2023 was \$983,647 and \$1,436,332 respectively. The average yield and crediting interest rate was approximately 2.64% and 1.36% at December 31, 2024 and 2023. Interest rates are subject to quarterly adjustments. The interest rates are equal to the sum of the interest rate index and the interest rate adjustment as set forth in the contract.

Little River Medical Center, Inc. 403(b) Plan

Notes to Financial Statements

December 31, 2024 and 2023

Note 5. Income Tax Status

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2021.

Note 6. Information Certified by the Plan's Trustee

The Plan administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified that the following investment information included in the accompanying financial statements and ERISA-required supplemental schedule is complete and accurate:

- Investments and notes receivable from participants as shown in the statements of net assets available for benefits as of December 31, 2024 and 2023;
- interest and dividends, interest from notes receivable from participants, and net appreciation in fair value of investments as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2024; and
- investment information included in the schedule H, Part IV, line 4i – schedule of assets (held at end of year) as of December 31, 2024, as shown on the ERISA-required supplemental schedule.

Note 7. Related-Party Transactions

Certain Plan investments (shares of mutual funds and a guaranteed investment contract) are managed by the Trustee therefore qualifying these transactions as party-in-interest transactions.

Fees paid directly by the Plan for the administration services and investment transaction fees amounted to \$3,077 for the year ended December 31, 2024.

Note 8. Concentrations of Credit Risk

All Plan assets are invested with the Trustee. Such investments are subject to credit and market risk associated with (1) the credit worthiness of the Trustee, (2) the credit worthiness of underlying issuers, and (3) fluctuations in market value inherent with changes in economic conditions.

Little River Medical Center, Inc. 403(b) Plan

Notes to Financial Statements

December 31, 2024 and 2023

Note 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for Plan benefits.

Note 10. Subsequent Events

The Plan has evaluated events and transactions occurring subsequent to the statement of net assets available for benefits date of December 31, 2024, for items that should potentially be recognized or disclosed in these financial statements. The evaluation was conducted through July 23, 2025, the date these financial statements were available to be issued, and there were no events that required disclosure in these financial statements.
