INDEPENDENT AUDITOR'S REPORT

To the Administrative Committee of
Richards, Inc. 401(k) Profit Sharing Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Richards, Inc. 401(k) Profit Sharing Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report—

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- the information in the accompanying financial statements related to assets which provide benefits under the Plan and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all Plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial

statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental schedule of Form 5500, Schedule H, Part IV, Line 4i - Schedule of Assets (Held at End of Year), as of December 31, 2024, is presented for the purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets which provide benefits under the Plan and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Notes to Financial Statements
December 31, 2024 and 2023

Note 1 - Description of the Plan

The following description of the Richards, Inc. 401(k) Profit Sharing Plan ("the Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan established May 1, 1983 by Richards, Inc. ("the Company") and most recently amended and restated January 1, 2020 covering substantially all full-time employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and is a qualified retirement plan under Internal Revenue Code (IRC) 401(a) and other code sections. The Trustees are responsible for oversight of the Plan.

Eligibility:

Employees who have completed 500 hours of service in a 6 month period and are age 21 or older are eligible to participate in the Plan. The Plan excludes the following categories of employees for participation: employees covered under a collective bargaining agreement (i.e. union employees), non-resident employees who do not receive any compensation from U.S. sources and leased employees.

Contributions:

Each year participants may contribute up to 100% of pre-tax and after-tax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Matching contributions, profit-sharing contributions, or other discretionary contributions are at the option of the Company. To be eligible for matching contributions, an employee must have completed 1000 hours of service in the applicable year and are age 21 or older. To be eligible for profit sharing contributions, an employee must be employed at year end, have completed 1000 hours of service in the applicable year and are age 21 or older.

The Company's profit-sharing contributions for the year ended December 31, 2024 totaled \$701,529. No matching contributions were made during the year ended December 31, 2024. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Automatic Contributions:

Participants are automatically enrolled in the Plan after qualifying, (and not making a personal elective deferral contribution election- after receiving notice from administrator) in the amount of 3% of pre-tax compensation. The amount of the automatic contribution increases every year by 1%, until reaching 8%.

Rollovers:

At the discretion of the Plan administrator, participants may deposit distributions received from other qualified plans (rollovers) into the Plan. The participant's rollover amounts are credited to a separate account. Participants are 100% vested in their rollover accounts, together with earnings received thereon.

Investment Elections:

Participants direct the investment of their and the Company's contributions into various investment options offered by the Plan.

Note 1 - Description of the Plan (Continued)

Participant Accounts:

Each participant's account is credited with the participant's contribution and allocation of (a) the Company's contributions and (b) plan earnings and charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, deferrals, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit provided from the participant's vested account.

Participant Accounts:

Each participant's account is credited with the participant's contribution and allocation of (a) the Company's contributions and (b) plan earnings and charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, deferrals, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit provided from the participant's vested account.

Vesting:

Participants are immediately vested in all employee contributions plus earnings thereon. Vesting on the accounts attributable to Company contributions is based on years of service. A participant is 20% vested after two years of credited service, 40% vested after three years of service, 60% vested after four years of service, 80% vested after five years of service and 100% vested after six years of service. Any participant who attains normal retirement age, becomes disabled, or dies, becomes fully vested regardless of length of service. Any amount not vested upon a participant's separation from service is forfeited and may be used in any way allowed by the Plan document.

Payment of Benefits:

On termination of service due to any reason, participants with vested account balances of \$1,000 or less receive an automatic lump-sum distribution, unless the participant requests that it be rolled over to an Individual Retirement Account (IRA) provider or another qualified retirement plan. Participants with vested account balances of less than \$5,000 and more than \$1,000 receive a lump sum distribution or an automatic distribution to an IRA. Participants with vested account balances of \$5000 or more may elect to remain invested in their account, or receive a lump-sum amount, installment payments, take partial withdrawals, purchase an annuity contract, or choose to rollover their balance into another qualified retirement Plan or IRA. Participants may also take in-service or hardship distributions, subject to the terms of the Plan and IRS regulations.

Forfeitures:

At December 31, 2024 and 2023, forfeited nonvested accounts totaled \$34,063 and \$2,562, respectively. These accounts will be used to reduce the Company's future contributions or to pay Plan expenses. No forfeiture funds were used during 2024 to reduce Plan fees and fund profit-sharing contributions.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting:

The financial statements of the Plan have been prepared on the accrual basis of accounting.

Richards, Inc. 401(k) Profit Sharing Plan

Notes to Financial Statements

December 31, 2024 and 2023

Use of Estimates:

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP) requires Plan's management to make estimates and assumptions that affect the reported amounts of plan assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Payment of Benefits:

Benefits are recorded when paid.

Investment Valuation and Income Recognition:

The Plan's investments are reported at fair value (with the exception of the life insurance policies, which are reported at their cash surrender value, and the fully-benefit responsive contract, which is reported at contract value. Contract value is the relevant measurement for this portion of the net assets available for benefits because contract value is the amount participants normally would receive if they initiate permitted transactions under the terms of the Plan.)

Fair value is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). See Note 4 for discussion of the fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis, and interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation includes the Plan's gains and losses on the investments bought and sold as well as held during the year.

Contributions:

Contributions from Plan participants and the Company are recorded in the year n which the employee contributions are withheld from compensation.

Expenses:

The Plan is responsible for payment of investment expenses and fees; however, the Company may pay the Plan expenses related to legal, accounting and general administration.

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Investment related expenses are included in net appreciation in fair value of investments.

Life Insurance Policies

The Company maintains several life insurance policies for select senior executives. Life insurance policies are recorded at their cash surrender value. As of December 31, 2024 and 2023, amounts of \$101,143 and \$104,692 respectively, relating to life insurance policies held by the Plan were classified as investments at cash surrender value. The change in cash surrender value is included in net appreciation (depreciation) of investments. Premium payments are paid directly by sponsor and included in the Company's Discretionary Profit-Sharing. Life insurance policies are not included in the certification provided by VOYA Retirement Insurance and Annuity.

Note 3 - Certified Information

Certain information in the accompanying financial statements and ERISA-required supplemental schedule, including interest bearing cash, investments at fair value and investments at contract value held at December 31, 2024 and 2023 and net appreciation in fair value of investments and interest and dividends for the year ended December 31, 2024 and 2023 was obtained by management and agreed to or derived from information certified as complete and accurate by VOYA Retirement Insurance and Annuity Company (VOYA), the custodian of the Plan.

Note 4 - Fair Value Measurements

The Fair Value Measurement Topic of the Financial Accounting Standards Board (FASB) Accounting Standards Codification 820 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. The three levels of the fair value hierarchy are described as follows:

Level 1 - inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Richards, Inc. 401(k) Profit Sharing Plan
Notes to Financial Statements
December 31, 2024 and 2023

Note 4 - Fair Value Measurements continued

There have been no changes in the methodologies used at December 31, 2024 and 2023. The following are descriptions of the valuation methodologies used for assets measured at fair value:

Pooled Separate Accounts (PSA): PSAs invest in a variety of domestic stocks, international stocks, mutual funds, bonds and other securities. The majority of the underlying securities have observable level 1 quoted pricing inputs. While the underlying assets values are generally based on publicly quoted prices, the net asset value (NAV) of each separated PSA is not valued using publicly quoted prices. The NAV provided by the Custodian is used as the practical expedient to estimate fair value. PSAs can be redeemed on a daily basis and each PSA has its own investment strategy. Participants should refer to the individual PSA's prospectus for a complete description of the PSA and its investment strategy.

The Plan's investments at December 31, 2024 and 2023 are reported as Level 2 investments based on the market value of related mutual funds traded in active markets as follows:

Pooled Separate Accounts:	<u>2024</u>	<u>2023</u>
	\$32,326,490	\$28,084,286

Note 5 - Guaranteed Investment Contract

The Plan has a guaranteed investment contract with VOYA Retirement Insurance Company, Inc (VOYA). VOYA maintains the contributions in a general account, the VOYA Fixed Account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. Any additional interest is not guaranteed. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date or without advanced written notice.

This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. The contract values of guaranteed investment contracts at December 31, 2024 and 2023 are \$3,704,919 and \$2,489,207, respectively.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments. The Contract does not specify any events which would limit the ability of the Plan to transact at contract value with the issuer or any events which would allow the issuer to terminate the Contract and settle for an amount different from contract value. The Contract provides payment options of the contract value for surrendering the Contract; however, the Company does not intend to surrender the Contract.

Richards, Inc. 401(k) Profit Sharing Plan

Notes to Financial Statements

December 31, 2024 and 2023

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in the Company's contributions.

Note 7 - Income Tax Status

The Plan is based on Third Party Administrator's Volume Submitter Prototype Profit Sharing Plan with CODA which received an opinion letter from the Internal Revenue Service (IRS) dated March 31, 2014, stating that the form of the Volume Submitter Plan was designed in accordance with the provisions of the IRC. A subsequent opinion letter was obtained, dated 11/30/2020, which stated that the form of the Plan, as submitted on 8/11/2020, is acceptable for use by employers for the benefit of their employees under Internal Revenue Code Section 401. Accordingly, the Plan's net investment income (loss) is exempt from income taxes. The Plan has been amended since the date of the opinion letter. The Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress.

Note 8 - Related-Party/Party-In-Interest Transactions

Certain Plan investments are held in investments managed by the custodian, VOYA Retirement Insurance and Annuity Company, as defined by the Plan and, therefore, these transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan to VOYA amounted to \$24,680 in 2024.

Certain employees and officers of the Company, who are also participants in the Plan, perform administrative services to the Plan at no cost to the Plan.

Note 10 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Market risks include global events which could impact the value of investment securities, such as pandemics or international conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investments securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits. At December 31, 2024, approximately 15% of the Plan's investments were invested in the Vanguard 500 Index Admiral Fund.

Note 11 - Subsequent Events

The Plan has evaluated subsequent events through July 25, 2025, the date the financial statements were available to be issued, and has found no material events requiring disclosure.
