Ojai Valley School Employee Voluntary Retirement Plan:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the Financial Statements

We were engaged to perform audits of the financial statements of the Ojai Valley School Employee Voluntary Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits as of August 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended August 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency ("qualified institution"), provided that the investment information regarding assets so held is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from a qualified institution as of August 31, 2024 and 2023, and for the year ended August 31, 2024, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Disclaimer of Opinion

We do not express an opinion on the accompanying financial statements of the Plan. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements.

Basis for Disclaimer of Opinion

As described in Note 2, the Plan has not maintained sufficient accounting records and supporting documents relating to certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the financial statements may have been affected by these conditions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America (“GAAP”), and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management’s election of the ERISA Section 103(a)(3)(C) audit does not affect management’s responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan’s ability to continue as a going concern within one year after the date the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan’s transactions that are presented and disclosed in the financial statements are in conformity with the Plan’s provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor’s Responsibilities for the Audit of the Financial Statements

Our responsibility is to conduct an audit of the Plan’s financial statements in accordance with auditing standards generally accepted in the United States of America and to issue an auditor’s report. However, because of the matter described in the *Basis for Disclaimer of Opinion* section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

We are required to be independent of the Plan, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our audit.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental schedule of Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of August 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL’s Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* section, it is inappropriate to and we do not express an opinion on the supplemental schedule referred to above.

OJAI VALLEY SCHOOL EMPLOYEE VOLUNTARY RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

AUGUST 31, 2024

1. PLAN DESCRIPTION

The following description of the Ojai Valley School Employee Voluntary Retirement Plan (the "Plan") provides only general information. Participants and other interested parties should refer to the Plan document for a more complete description of the Plan's provisions.

General - The Plan is a 403(b) defined contribution which was established for the benefit of the employees of Ojai Valley School, Inc. (the "Employer" and the "Plan Sponsor") and meets all the requirements for plan qualifications under Section 403(b) of the Internal Revenue Code ("IRC"). All employees of the Plan Sponsor, as defined in accordance with the universal availability standards, are eligible to enroll on their date of hire, except for employees who work less than 20 hours a week. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

All funds are participant directed funds. The nature of the various investment alternatives, along with their respective valuation methodologies, are described in Note 3.

Contributions - Each year, participants may elect to contribute pretax and Roth deferrals up to 100 percent of eligible compensation, as defined and subject to certain limitations under the IRC. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other eligible retirement plans, as defined. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Plan does not allow for any Employer contributions.

Participant Accounts - Each participant's account is credited with the participant's contributions and allocations of Plan earnings and charged with any withdrawals or distributions requested by the participant, investment losses and allocation of administrative expenses, if applicable. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participant accounts are 100 percent vested and non-forfeitable.

Plan Loans - Plan loans have been made available to participants with loans issued directly from funds owned by Teachers Insurance and Annuity Association of America ("TIAA") and not directly from a participant's account. Generally, participants may borrow a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 45 percent of their account balance subject to annuity contract and Plan provisions. Loan terms range from one to five years in one-year increments (up to ten years for the purchase of the participant's primary residence). The loans are collateralized using the participant's TIAA Traditional Annuity account balances in an amount equal to 110 percent of the outstanding loan balances or \$5,947 and \$8,342 at August 31, 2024 and 2023, respectively. The collateralized balance is not available for transfer, withdrawal, retirement or survivor benefits. Loans bear interest at rates that may be fixed or variable depending on the Plan, annuity contract provisions and state insurance regulations. Principal and interest are paid ratably by the participant to TIAA and each payment will reduce amounts collateralized by the borrowing participant's TIAA Traditional Annuity account. The amount of such outstanding loans was \$5,406 and \$7,584 at August 31, 2024 and 2023, respectively.

OJAI VALLEY SCHOOL EMPLOYEE VOLUNTARY RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

AUGUST 31, 2024

Because the participant loan relationship is between TIAA and the participant, participant loans are not considered to be Plan assets. However, both the statements of net assets available for benefits and statement of changes in net assets available for benefits reflect the collateral associated with the non-distributable participant loans.

Payment of Benefits - On termination of service for any reason, a participant or their beneficiaries, as applicable, may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in their account, installment payments, or as an annuity as permitted under the Plan. The Plan provides for a mandatory cash-out following severance of employment for account balances less than \$1,000.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The accompanying financial statements have been prepared on the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America.

Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Contributions - Contributions from Plan participants are recorded in the year in which the participant contributions are withheld from compensation.

Available Information - In November 2007, the Department of Labor ("DOL") issued amended regulations which eliminated an exemption granted to 403(b) plans from the annual Form 5500 reporting and disclosure requirements under Part 1 of Subtitle B of Title I of ERISA. Prior to the amended regulations, the Plan (established in 1990) was not viewed as a separate reporting entity requiring an audit. Instead, the Plan was viewed with limited involvement, if any, by the plan sponsor. Accordingly, various records related to the Plan's 403(b) annuity contracts and custodial accounts issued to certain current and former employees prior to January 1, 2009 were not maintained by the Plan at a plan level, but only at an individual contract level, consistent with many other similar entities. As plan level records are not available from the inception of the Plan, the effect, if any, on the completeness or accuracy of the Plan's financial statements cannot be determined.

Investment Valuation and Income Recognition - The Plan's investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Contract value equals the accumulated cash contributions, interest credited to the Plan's contracts, and transfers, less any withdrawals and transfers. Contract value approximates a discounted cash flow value calculated using an appropriate risk-adjusted market discount rate which correlates closely with TIAA Traditional Annuity's historical crediting rates.

Other than the TIAA Traditional Annuity investment, all other investments are valued daily. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

OJAI VALLEY SCHOOL EMPLOYEE VOLUNTARY RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

AUGUST 31, 2024

Administrative Expenses - Certain administrative expenses incidental to the administration of the Plan, may be paid by the Plan, unless otherwise paid by the Employer. Administrative expenses paid by the Employer are excluded from these financial statements.

Most investment options have fees which reduce the overall return on assets. The net appreciation of investments is reflected net of these fees.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest when significant. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred.

Benefits Payable to Participants - Benefits are recorded when paid.

Subsequent Events - The Employer has evaluated subsequent events through July 29, 2025, which is the date that the financial statements were available to be issued, and determined that there were no subsequent events or transactions that required recognition or disclosure in the financial statements.

3. FAIR VALUE

The Plan accounts for its financial instruments using a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are the following:

- Level 1 – Inputs to the valuation methodology that are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 – Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are inactive; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3 – Inputs to the valuation that are unobservable and significant to the fair value measurement.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at August 31, 2024 and 2023.

OJAI VALLEY SCHOOL EMPLOYEE VOLUNTARY RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

AUGUST 31, 2024

Mutual Funds – This category consists of publicly traded funds of registered investment companies. The net asset value (“NAV”) of the mutual fund’s shares is quoted on the exchange where the fund is traded and therefore classified as Level 1 within the fair value hierarchy.

Pooled Separate Accounts – Valued at the NAV of units of a pooled separate account (“PSA”) maintained by an insurance company held by the Plan at year-end. The NAV, as provided by the insurance company, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the PSA less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The primary investment objective of the PSA is to allow participants to achieve the same rate of return as the underlying mutual funds, less fees charged by the insurance company. The PSAs do not have any unfunded commitments relating to their investments, or any significant restrictions on redemptions. Participant-directed redemptions can be made on any business day and do not have a redemption notice period.

TIAA Traditional Annuity – This is a non-benefit responsive annuity contract. The TIAA Traditional Annuity is reported at contract value. The contract value of the TIAA Traditional Annuity represents the accumulated cash contributions and interest credited to the Plan’s contracts, less any withdrawals and transfers. Contract value approximates a discounted cash flow value calculated using an appropriate risk-adjusted market discount rate which correlates closely with TIAA Traditional Annuity’s historical crediting rates. As these investments are contract-based, observable prices for identical or similar investments do not exist and certain carry liquidity restrictions. The TIAA Traditional Annuity is classified as Level 3 in the valuation hierarchy.

For each contribution, TIAA continues to record a contractual liability for the current contribution and does not consider such liability to have any embedded gain or loss. The TIAA Traditional Annuity is an unallocated fixed rate guaranteed annuity offered by TIAA, an insurance company. Contributions to the TIAA Traditional Annuity purchase a contractual or guaranteed amount of future benefits for the participant. The guarantees and returns of the TIAA Traditional Annuity are backed by the claims-paying ability of TIAA. The Plan holds Retirement Choice Plus Annuity (“RCP”), Retirement Annuity (“RA”), Legacy Supplemental Retirement Annuity (“Legacy SRA”), and Group Supplemental Retirement Annuity (“GSRA”) contracts.

For accumulating RCP contracts, the crediting interest rates were 4.75 percent and 6.00 percent as of August 31, 2024 and 2023, respectively. The guaranteed minimum rate of interest for RCP contracts is one to three percent. The current guaranteed minimum rate is 2.75 percent and 3.00 percent as of August 31, 2024 and 2023, respectively.

The RCP contracts have no liquidity restrictions applicable to withdrawals and transfers.

TIAA Traditional Annuity provides a guaranteed minimum rate of interest of three percent for all premiums plus the potential for additional amounts that may be declared by TIAA on a year-by-year basis and are not guaranteed for future years. When declared, additional amounts remain in effect for the twelve-month period that begins each March 1st. Together the minimum rate of interest and the potential additional amounts make up the crediting rating. For accumulating RA, Legacy SRA, and GSRA contracts, the crediting rating was 3.00 percent as of August 31, 2024 and 2023.

OJAI VALLEY SCHOOL EMPLOYEE VOLUNTARY RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

AUGUST 31, 2024

The RA contracts require withdrawals in the form of a lifetime payout annuity or in periodic installments over a 10-year period.

The Legacy SRA and GSRA contracts have no liquidity restrictions applicable to withdrawals and transfers.

There is no guarantee, however, that TIAA will always be financially able to fulfill its various guarantees related to this investment.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value:

Investments at Fair Value as of August 31, 2024

4. FINANCIAL DATA CERTIFIED BY THE CUSTODIAN

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following information was certified as complete and accurate by the Teachers Insurance and Annuity Association of America ("TIAA") and College Retirement Equities Fund ("CREF") (collectively, the "Custodian") and was not subjected to any auditing procedures performed by the independent public accountants:

- a. Investments, at fair value and contract value, and notes receivable from participants as shown in the accompanying statements of net assets available for benefits as of August 31, 2024 and 2023.
- b. Net appreciation of investments, dividend and interest income on investments, and interest income on notes receivable from participants as shown in the accompanying statement of changes in net assets available for benefits for the year ended August 31, 2024.
- c. Investments and participant loans listed in the accompanying Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of August 31, 2024.

5. NOTES RECEIVABLE FROM PARTICIPANTS

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 less the highest outstanding loan balance during the prior 12 months or 50 percent of their vested account balance. Loans are generally issued with a maturity of up to five years. The term of any loan for the purpose of purchasing a primary residence shall not exceed 10 years. The loan interest rate is set a reasonable fixed rate of interest determined by the plan administrator, as defined. Principal and interest are paid ratably through payroll deductions.

OJAI VALLEY SCHOOL EMPLOYEE VOLUNTARY RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

AUGUST 31, 2024

6. FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT

The Plan entered into a traditional fully benefit-responsive guaranteed investment contract with TIAA totaling \$1,086,679 and \$1,010,248 as of August 31, 2024 and 2023, respectively. TIAA maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. TIAA is contractually obligated to repay the principal and specified interest rate that is guaranteed to the Plan. The crediting interest rate is based on a formula agreed upon with TIAA. Such interest rates are reset on a quarterly basis.

The TIAA Traditional Annuity meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by TIAA, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on TIAA's ability to meet its financial obligations. TIAA's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events limit the ability of the Plan to transact at contract value with TIAA. Such events include, but are not limited to the following: (1) premature termination of the contracts by the Plan, (2) Employer layoffs, (3) bankruptcy of the Plan Sponsor, (4) Plan termination, (5) mergers, or (6) early retirement incentives. The plan administrator believes that no events are probable of occurring that might limit the ability of the Plan to transact at contract value with TIAA and that would also limit the Plan's ability to transact at contract value with participants.

7. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

8. PLAN TERMINATION

The Employer has the right under the Plan to terminate the Plan, subject to the provisions of ERISA.

OJAI VALLEY SCHOOL EMPLOYEE VOLUNTARY RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

AUGUST 31, 2024

9. PLAN SERVICING CREDIT

Certain Plan investments maintain revenue sharing arrangements with TIAA and CREF. Under these arrangements, a percentage of the asset management fees earned by those investments are transferred to the Plan and held in a revenue credit account. The revenue credit account is used to offset permitted Plan administrative expenses, including those incurred for audits, investment performance monitoring, third-party compliance consulting, and other administration costs.

The Plan may also direct TIAA and CREF to return any unused revenue credit balances to participants. During the year ended August 31, 2024, TIAA and CREF transferred \$7,010 in revenue credits to the Plan and paid \$1,674 in Plan administrative expenses. As of August 31, 2024 and 2023, there is \$8,364 and \$2,780 in the revenue credit account, respectively.

10. TAX STATUS

The Plan is a volume submitter plan that is the subject of a favorable tax opinion letter from the IRS dated August 7, 2017 and has been designed to qualify under Section 403(b) of the IRC. The terms of the Plan have been prepared to conform to the sample language provided by the IRS in Revenue Procedure 2007-71. The Plan is required to operate in conformity with the IRC to maintain the tax-exempt status for plan participants under Section 403(b).

The plan administrator believes the Plan is currently being operated in accordance with the applicable provisions of the Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Employer has taken a significant uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of August 31, 2024, there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

11. RELATED PARTY AND PARTY IN INTEREST TRANSACTIONS

Certain Plan investments are managed by the Custodian. Transactions with the Custodian qualify as party in interest transactions for which exemptions exist. Fees incurred by the Plan for investment management services are included in net appreciation in fair value of investments. The Custodian received direct compensation of \$147, which was paid by the participants through the Plan. The investment advisor received direct compensation of \$1,704, of which \$1,674 was paid through the revenue credit account and \$30 was paid by participants through the Plan. The Custodian also received indirect compensation of \$20,145.
