Independent Auditors' Report

Trustees and Plan Administrator
Pension Plan for Certain Hourly Employees of Paulo Products Company
St. Louis, Missouri

Opinion

We have audited the accompanying financial statements of Pension Plan for Certain Hourly Employees of Paulo Products Company (the Plan) an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits (in liquidation) as of December 3, 2024, and December 31, 2023, and the related statements of changes in net assets available for benefits (in liquidation) for the period from January 1, 2024 to December 3, 2024, and for the year ended December 31, 2023, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan (in liquidation) as of December 3, 2024, and December 31, 2023, and the changes in its net assets available for benefits (in liquidation) for the period from January 1, 2024 to December 3, 2024, and for the year ended December 31, 2023, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter—Basis of Accounting

As discussed in Note 6 to the financial statements, the governing body of the Plan approved a plan of liquidation on December 27, 2023, and management determined liquidation is imminent. As a result, the Plan has changed its basis of accounting to the liquidation basis used in presenting the financial statements. Our opinion is not modified with respect to that matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule of Reportable Transactions is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the ERISA. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

1. Plan Description

The following description of the Plan is provided for financial reporting purposes only. Participants of the Plan should refer to the plan document and summary plan description for a more complete description of the Plan's provisions.

General

The Plan was established January 1, 1984, amended and restated as of January 1, 2011, and is a defined benefit retirement plan covering eligible employees of Paulo Products Company and Affiliates (the "Company" and "Plan Sponsor") who are not covered by a collective bargaining agreement. As more fully described in Note 6, the Plan terminated effective December 31, 2023, and all plan assets were distributed to participants as of December 3, 2024. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Eligibility

All non-administrative hourly paid employees not covered by a collective bargaining agreement (excluding office clerical employees) are eligible provided they have completed a 12-month period measured from their respective dates of employment during which 1,000 hours of service were credited.

Contributions

The Company's contributions to the Plan are actuarially determined. For the year ended December 31, 2023, a contribution of \$1,026,213 was made in order to meet the minimum funding requirements of ERISA. No such contribution was needed for the period of January 1, 2024 to December 3, 2024.

Vesting

Participants in the Plan become fully vested after they have completed five years of service. Participants are credited with one year of vesting service for each plan year in which they work at least 1,000 hours.

Pension Benefits

Each participant who retires from employment of the Company on or after the normal retirement date shall be entitled to a monthly retirement benefit equal to:

Individuals Terminating Employment Prior to January 15, 2001 (1)

<u>Termination Date Range</u>	<u>Multiplier</u>	<u>Continuous Service Range*</u>

* Continuous Service is the length of time (in years) that the individual is continuously employed during the indicated Continuous Service Range.

(1) The monthly retirement benefit for individuals terminating employment prior to January 15, 2001 is the product of the Multiplier times the number of years of Continuous Service at the appropriate date of termination.

(2) The monthly retirement benefit for individuals terminating employment on or after January 15, 2001 is the sum of the products of the Multiplier times the number of years of Continuous Service within each termination date range.

The actuarial equivalent value of any accrued benefit under the Plan shall be paid to the participant without consent provided benefit payments have not yet commenced and the actuarial equivalent value of the benefit payable does not exceed \$5,000. The participant may elect to have any portion of the distribution paid directly to an eligible retirement plan. If a mandatory distribution exceeds \$1,000 and the participant does not elect the method of distribution, the Plan shall pay the lump sum distribution to an individual retirement account designated by the Plan. In addition, if the actuarial equivalent value of any accrued benefit exceeds \$5,000, but does not exceed \$20,000, the participant may elect to receive a lump sum distribution.

Death and Disability Benefits

The Plan provided disability benefits to participants and death benefits to surviving spouses. The value of benefits is determined at the date of disability or death.

2. Summary of Significant Accounting Policies

Basis of Presentation

The financial statements of the Plan are reported on the liquidation basis of accounting in accordance with the provisions of the Financial Accounting Standards Board ("FASB"), Accounting Standards Codification (the "FASB ASC"), which is the source of authoritative, non-governmental accounting principles generally accepted in the United States of America ("GAAP"). All references to authoritative accounting guidance contained in our disclosures are based on the general accounting topics within the FASB ASC. The liquidation basis of accounting caused no change in the value of Plan assets because the Plan assets are stated at current fair value.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the Plan's management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Fair Value Measurements

The Plan follows guidance issued by the FASB on fair value measurements, which establishes a framework for measuring fair value, clarifies the definition of fair value within that framework, and expands disclosures about the use of fair value measurements. This guidance applies whenever fair value is the applicable measurement. The three general valuation techniques used to measure fair value are the market approach, cost approach, and income approach.

Payment of Benefits

Benefits are recorded when paid.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service which employees have rendered. The accumulated plan benefits for active employees are based on the length of service as of the valuation date. Benefits payable under all circumstances (retirement, death, disability, and vested termination of employment) are those that are deemed to have accrued as of the valuation date. The actuarial present value of accumulated plan benefits is determined by an independent actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and the probability of payment between the valuation date and the expected date of payment.

Administrative Expenses

Expenses of maintaining the Plan are paid by the Company and are excluded from these financial statements. The Company also provides to the Plan certain accounting services for which no allocation of costs has been made to the Plan. Certain fees related to the administration of the Plan are paid from Plan assets. Investment related expenses are included in the net appreciation (depreciation) in fair value of investments.

Subsequent Events

The Plan has evaluated subsequent events through July 29, 2025, the date the financial statements were available to be issued.

3. Actuarial Present Value of Accumulated Plan Benefits

As provided by the Plan's actuary, the accumulated plan benefit information as of January 1, 2023, the latest information available, is shown below. Due to plan termination, actuarial assumptions were carried over for the January 1, 2024, accumulated plan benefit information.

The present value of accumulated plan benefits is the amount which results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money.

Significant assumptions underlying the actuarial computations are:

Expected long-term rate of return	6.00%, per annum, compounded
Discount rate	4.75% per annum for current liability calculations
Mortality	2023 static mortality table for annuitants and non-annuitants
Actuarial Cost Method	Projected Unit Credit Cost Method

Pension Plan for Certain Hourly Employees of Paulo Products Company
Notes to Financial Statements
December 3, 2024 and December 31, 2023

These assumptions reflect the long-term nature of an ongoing pension plan and may not be appropriate for estimating liabilities of the Plan on a short-term basis. Since the Plan terminated, the benefit liabilities were settled using data and rates at the date of termination.

The actuarial present value of accumulated Plan benefits as of January 1, the dates of the most recent actuarial valuations, were as follows:

	<u>2024</u>	<u>2023</u>
Vested benefits for:		
Participants currently receiving benefits	\$ 2,752,484	\$ 2,369,907
Participants with deferred benefits	-	1,800,629
Vested benefits for other participants	<u>4,063,279</u>	<u>1,578,245</u>
	6,815,763	5,748,781
Non-vested benefits	-	<u>61,746</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 6,815,763</u>	<u>\$ 5,810,527</u>
Present value of accumulated plan benefits at		
January 1, 2023 and 2022	\$ 5,810,527	\$ 5,725,442
Increase (decrease) during the year attributable to:		
Benefits accumulated	-	11,381
Interest accumulated	-	-
Assumption changes	1,293,472	11,621
Benefits paid	(288,236)	(273,246)
Decrease in the discount period	<u>-</u>	<u>335,329</u>
Actuarial present value of accumulated plan benefits at		
January 1, 2024 and 2023	<u>\$ 6,815,763</u>	<u>\$ 5,810,527</u>

4. Fair Value Measurements

The framework for measuring fair value establishes a fair value hierarchy which prioritizes the inputs to valuation techniques used to measure fair value into Levels 1, 2, and 3. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical instruments in active markets.
Level 2	Inputs to the valuation methodology to include quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in inactive markets, inputs other than quoted prices that are observable for the instrument, or inputs that are derived principally from or corroborated by observable market data by correlation or other means.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Pension Plan for Certain Hourly Employees of Paulo Products Company
Notes to Financial Statements
December 3, 2024 and December 31, 2023

The instruments' fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for instruments measured at fair value.

Investments at fair value consist of pooled separate accounts which are directly invested in mutual funds, equity securities, or fixed maturity securities. These securities are valued at the net asset value ("NAV") based on the observable underlying investments. The NAV is used as a practical expedient to estimate fair value. Investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The NAV is used as a practical expedient to estimate fair value.

The fair value of investments is \$0 as of December 3, 2024.. The fair value of investments is measured as of December 31, 2023, as follows:

	<u>Total</u>	Fair Value Measurements		
		<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
Total assets in fair value hierarchy	\$ -	\$ -	\$ -	\$ -
Investment measured at NAV	<u>6,559,430</u>			
	<u>\$ 6,559,430</u>			

In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in the tables are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

There were no investments measured at fair value based on NAV per share as a practical expedient as of December 3, 2024. Investments measured at fair value based on NAV per share as a practical expedient as of December 31, 2023, are as follows:

	<u>Fair Value</u>	<u>Unfunded Commitments</u>	<u>Redemption Frequency</u>	<u>Redemption Notice Period</u>
Pooled Separate Accounts	\$ 6,559,430	N/A	Daily	N/A

Pension Plan for Certain Hourly Employees of Paulo Products Company
Notes to Financial Statements

5. Related Party and Party-in-Interest Transactions

For the period January 1, 2024 to December 3, 2024, and during the year ended December 31, 2023, the Plan held investments that were shares of pooled separate accounts of Principal Life Insurance Company ("Principal"). Principal provides trustee, reporting, and related services to the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are included in net appreciation (depreciation) in fair value of investments. During 2024 and 2023, recordkeeping fees were paid from Plan assets totaling \$45,894 and \$9,550, respectively.

During 2024 and 2023, the Plan Sponsor paid certain administrative and other operating expenses of the Plan.

6. Plan Termination

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. The plan was terminated effective December 31, 2023.

As of December 3, 2024, Plan assets were liquidated and distributed to the participants. The participants had the option of receiving the liquidation distribution in the form of cash, an annuity, or as a rollover into another qualified plan. The employer contribution receivable reported on the Statements of Net Assets Available for Benefits as of December 31, 2023, represents the amount contributed by the Company in order to fund the termination. The reversion of assets to plan sponsor reported on the Statements of Changes in Net Assets Available for Benefits for the period of January 1, 2024 to December 3, 2024, represents the funds remaining after all distributions were made to participants that were remitted to the Plan Sponsor.

7. Tax Status of Plan

The Plan received its latest determination letter on May 9, 2012 in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. However, the administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

Pension Plan for Certain Hourly Employees of Paulo Products Company
Notes to Financial Statements
December 3, 2024 and December 31, 2023

In accordance with GAAP, the Plan's management is required to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authorities. The Plan's management has analyzed the tax positions taken by the Plan and has concluded that as of December 3, 2024 and December 31, 2023, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan's management believes the Plan is no longer subject to income tax examinations for the years prior to 2021. The Plan is also subject to routine audits by the Department of Labor, generally for six years after the statutory due date of the annual information return. There are currently no audits in progress for any tax periods.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 3, 2024 and December 31, 2023, to Form 5500:
