## INDEPENDENT AUDITOR'S REPORT

To the Trustees  
Jersey Shore State Bank Retirement Plan

### **Scope and Nature of the ERISA Section 103(a)(3)(C) Audit**

We have performed an audit of the financial statements of Jersey Shore State Bank Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023; the related statement of changes in net assets available for benefits as of December 31, 2024; the statement of accumulated plan benefits as of December 31, 2023, and the related statement of changes in accumulated plan benefits for the year then ended; and the related notes to the financial statements (collectively, the financial statements).

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor (DOL)'s Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

### **Opinion**

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

### **Opinion (Continued)**

- The information in the accompanying financial statements related to assets held by and certified to by Wilmington Trust agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meet the requirements of ERISA Section 103(a)(3)(C).

### **Basis for Opinion**

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due, or which may become due, to such participants.

### **Auditor's Responsibilities for the Audit of the Financial Statements**

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance, and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

### **Auditor's Responsibilities for the Audit of the Financial Statements (Continued)**

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

## Other Matters

### ***Supplemental Schedules Required by ERISA***

The supplemental schedules of Schedule H, Line 4i – Schedule of Assets (Held at end of Year) as of December 31, 2024, and Schedule H, Line 4j – Schedule of Reportable Transactions for the year ended December 31, 2024, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL’s Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL’s Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL’s Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

JERSEY SHORE STATE BANK RETIREMENT PLAN  
NOTES TO FINANCIAL STATEMENTS

NOTE 1 – DESCRIPTION OF PLAN

The following brief description of the Jersey Shore State Bank (the “Bank”) Retirement Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan Document for a more comprehensive description of the Plan’s provisions.

General

The Plan is a defined benefit pension plan whose eligibility requirements to participate in the existing plan were amended as of January 1, 2004. As of this date, the Plan was frozen. Effective December 31, 2014, the existing Plan was amended that all benefit accruals and benefit services under the Plan shall cease.

Description of Plan

*Participant's Accounts.* Under the Plan provisions, amounts are credited by the Company to the participants' hypothetical accounts. The accounts are allocated compensation credits and investment credits at the end of every quarter. The compensation credits are allocated based on a percentage of the participants' certified compensation as defined in the plan document for that particular quarter. Age and credited service are determined in whole years at the end of the quarter. Participants' hypothetical accounts also receive investment credits at the end of every quarter. The amount of the investment credit is tied to the average of the annual yields on 30-year treasury securities and is adjusted quarterly.

Pension Benefits

Prior to January 1, 2004, any employee was entitled to monthly pension benefits, beginning at normal retirement age (65), equal to 1.4 percent of average annual compensation, up to social security-covered compensation, multiplied by each year of participation (maximum 35 years), plus 2 percent of average annual compensation in excess of social security-covered compensation, multiplied by each year of participation (maximum 35 years). The Plan permits early retirement at ages 55 to 64, provided the employee has five years of vested service. If employment terminates prior to qualifying for any benefits under the Plan and prior to completion of the requirements for vesting, no benefit will be payable from the Plan. Employees may elect to receive the value of their accumulated Plan benefits as a lump-sum distribution only if the value of the vested accrued benefit is less than \$5,000. Otherwise, employees will receive their benefits as a life annuity payable monthly from retirement. Employees may elect to receive their pension benefits in the form of a joint and survivor annuity, as well as in the form of a ten-year certain and continuous annuity.

Effective December 31, 2014, the existing Plan was amended that all benefit accruals and benefit service under the Plan shall cease.

Vesting

Employees become fully vested after five years of service. All employees that are a part of the Plan are fully vested.

### Death and Disability Benefits

Employees may elect, upon death, to have a death benefit paid to the employee's spouse. Active employees who become fully disabled may retire under the Plan prior to age 65 at a reduced benefit. A disabled participant's right to his or her accrued benefit as of the date of disability shall be 100 percent vested and nonforfeitable.

## NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

### Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

### Use of Estimates

The preparation of financial statements, in accordance with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated Plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

### Valuation of Investments and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

### Actuarial Present Value of Accumulated Plan Benefits

Conrad Siegel Actuaries (Actuary) is utilized to prepare the actuarial valuation report for the Plan on a beginning-of-year basis. The date of the valuation used in these financial statements is January 1, 2024 (also labeled herein as December 31, 2023).

This report estimates the actuarial present value of accumulated benefits, which is the amount that results from applying actuarial assumptions to the accumulated benefits earned by the participant to reflect the time value of money (discounted for interest) combined with the probability of payment under all circumstances (death, disability, withdrawal, or retirement) occurring between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation as of January 1, 2024, were (a) life expectancy of participants based on the 2023 IRS Static Mortality Table, respectively; (b) average normal retirement age of 65; (c) an assumed average rate of return of 8.0 percent; and (d) no salary scale increase per year. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits. The end of year valuation would not be materially different.

## NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### Risks and Uncertainties

The Plan invests in various mutual fund investments. Investments are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits. As of December 31, 2024, the Plan had investments of \$7,676,493 that were concentrated in the Vanguard Institutional Index I Fund.

### Payment of Benefits

Benefit payments to participants are recorded upon distribution.

### Administrative Expenses

Administrative expenses of the Plan relating to trustee, recordkeeping, and actuarial fees are paid by the Plan. Investment-related expenses are included in net appreciation of the fair value of investments. Expenses are recorded as incurred.

## NOTE 3 – FUNDING POLICY

Contributions are made by the Bank as determined by the Actuary, so as to be consistent with the minimum funding standards of the Employee Retirement Income Security Act of 1974 (ERISA).

Although it has not expressed any intention to do so, the Bank has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions set forth in ERISA.

## NOTE 4 – PLAN TERMINATION

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations. The summary Plan description and the Plan agreement detail the priority order of participants' claims to Plan assets upon Plan termination.

Certain defined benefits are insured in the event of Plan termination by the Pension Benefit Guaranty Corporation (PBGC), a government corporation established by ERISA.

Generally, the PBGC guarantees most normal, early, and vested benefits earned by the Plan participants, as well as certain survivor benefits being paid at the time of termination. The PBGC does not guarantee all types of benefits under covered plans. Additionally, there is an annually adjusted ceiling on the amount of monthly benefits that the PBGC guarantees. As of December 31, 2024, the maximum monthly guaranteed benefit was equal to \$7,108.

Whether all participants receive their benefits should the Plan terminate depends on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

## NOTE 5 – INVESTMENTS

The Plan's investments are administered by Wilmington Trust (Trustee). Investment decisions are initiated and approved by the Board of Trustees for the Plan.

The following is a summary of the investment information as of December 31, 2024 and 2023, and for the year ended December 31, 2024, included throughout the Plan's financial statements and supplemental schedules, that was prepared by or derived from information provided by the Trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the Trustee that information provided to the Plan Administrator by the Trustee related to the following investments is complete and accurate.

Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information that appears throughout the financial statements and supplemental schedules, related to the following investments:

	<u>2024</u>	<u>2023</u>
Money market fund	\$ 468,769	\$ 869,513
Mutual funds	<u>24,845,899</u>	<u>22,408,691</u>
	<u>\$ 25,314,668</u>	<u>\$ 23,278,204</u>

The Trustee also certified to the completeness and accuracy of \$2,658,258 of net appreciation in fair value of investments and \$557,021 of interest and dividends related to the aforementioned investments for the year ended December 31, 2024.

## NOTE 6 – PARTY-IN-INTEREST TRANSACTIONS

The Bank absorbs a portion of the costs incurred in relation to the administration of the Plan. Such costs include legal, administrative, actuarial, and accounting. Such costs amounted to \$115,392 for the year ended December 31, 2024. Certain Plan investments are shares of mutual funds and exchange traded funds managed by Wilmington Trust. Wilmington Trust is the Trustee, as defined by the Plan, and, therefore, these transactions qualify as party-in-interest transactions.

## NOTE 7 – TAX STATUS

The Plan obtained its latest determination letter on May 18, 2012, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter; however, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the taxing jurisdictions.

## NOTE 7 – TAX STATUS (Continued)

The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2020.

## NOTE 8 – FAIR VALUE MEASUREMENTS

The following disclosures show the hierarchal disclosure framework associated with the level of pricing observations utilized in measuring assets and liabilities at fair value. The three broad levels defined by U.S. generally accepted accounting principles are as follows:

- Level I: Quoted prices are available in active markets for identical assets or liabilities as of the reported date.
- Level II: Pricing inputs are other than quoted prices in active markets, which are either directly or indirectly observable as of the reported date. The nature of these assets and liabilities includes items for which quoted prices are available but traded less frequently, and items that are fair-valued using other financial instruments, the parameters of which can be directly observed.
- Level III: Valuation derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. This hierarchy requires the use of observable market data, when available.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

### Money Market Fund

The money market fund (the Fund) attempts to stabilize net asset value (NAV) of its shares at \$1.00 by valuing its portfolio securities using the amortized cost method. A market-based NAV per share is calculated on a periodic basis. The Fund does not guarantee that the NAV will always remain at \$1.00 per share. Shares can be redeemed on a same-day basis but only directly with the Fund, which does not constitute an active market.

### Mutual Funds

Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

NOTE 8 – FAIR VALUE MEASUREMENTS (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table presents the assets reported on the Statement of Net Assets Available for Benefits at their fair value as of December 31, 2024 and 2023, by level within the fair value hierarchy. Financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

EIN: 24-0622580  
Plan Number: 001

Jersey Shore State Bank Retirement Plan  
Actuarial Valuation as of January 1, 2024  
**Summary of Plan Provisions**

Jersey Shore State Bank Retirement Plan is a defined benefit pension plan that was established January 1, 1955, and was last amended and restated effective as of January 1, 2019. The plan year begins January 1 and ends December 31.

### **Eligibility To Participate**

Participation under this Plan was frozen effective January 1, 2004, with respect to employees with a first day of employment on or after that date.

An employee becomes a participant in the Plan on the first day of the month following the date he meets the following requirements:

- Completes 1 year of eligibility service.
- Attains age 21.

Provided he is a member of the following eligible class of employees:

- A non-union employee.
- Hired prior to January 1, 2004.

For the purpose of meeting the eligibility rules, service with Lock Haven Savings Bank will be counted, provided you were employed by that business as of December 31, 1995.

### **Normal Retirement Benefit**

#### **Normal Retirement Date**

A participant is eligible for his normal retirement pension as of the first day of the month on or after the participant satisfies the following condition:

- Attainment of age 65.

#### **Normal Retirement Benefit**

The normal retirement pension is payable monthly as long as the participant lives, with payments ceasing upon the participant's death.

#### **Normal Retirement Pension Formula**

If the participant retires as of his normal retirement date, his monthly pension will equal 1/12 of:

- 1.4% of average annual compensation, plus
- 0.6% of average annual compensation in excess of the Social Security integration level,

both multiplied by years of benefit service up to 35 years.

Benefit accruals and benefit service for all participants is frozen as of December 31, 2014.

#### **Social Security Integration Level**

The Social Security integration level equals the average of the taxable wage bases over the 35-year period ending with the year the participant is entitled to full Social Security benefits.

**Summary of Plan Provisions**

### **Average Annual Compensation**

"Average annual compensation" means the participant's annual compensation averaged over the 5-consecutive-year period which produces the highest average in the last 10 consecutive years including the current plan year.

For the purpose of determining average annual compensation, the Plan does not take into account:

- A year in which less than 1,000 hours of service are credited.

### **Compensation**

For the purposes of the Plan, "compensation" means the participant's earnings for the plan year. The Plan takes into account W-2 wages for federal income tax withholding purposes including 401(k) and similar contributions, but subject to the Code section 401(a)(17) dollar limitation. Compensation excludes wages payable after employment termination under a severance agreement.

### **Accrued Benefit**

The accrued benefit on any date other than the normal retirement date is determined according to the normal retirement pension formula, but based upon the participant's compensation and benefit service to date.

As of December 31, 2014, all accrued benefits are frozen.

### **Retirement Payment Options**

A participant may elect to receive his monthly pension in one of these optional forms of payment:

- **Lifetime Pension**
- **Lifetime Pension with Guaranteed Period** with guaranteed payments for 120 months.
- **Joint and Survivor Pension** with 100%, 75% or 50% survivor pension.

If the present value of the vested pension does not exceed \$7,000, a lump sum is the only payment option.

If the participant is married at the time payments are to begin, the automatic form of payment will be a Joint and 50% Survivor Pension with the spouse named as survivor annuitant. If the participant is not married at the time payments are to begin, the automatic form of payment will be a Lifetime Pension.

**Employment after Retirement.** If a participant in pay status returns to employment, retirement benefits will not be suspended.

### **Other Retirement Benefits**

#### **Late Retirement**

If a participant continues working after his normal retirement date, his pension will not commence until he actually retires. The late retirement benefit is the greater of:

- The retirement benefit accrued as of the end of the preceding plan year, as actuarially increased; or
- The normal retirement benefit determined under the pension formula using compensation and benefit service to date.

### **Early Retirement**

A participant is eligible for early retirement after attainment of age 55 and completion of 5 years of vesting service. The early retirement pension is the actuarial equivalent of the pension accrued to the date of early retirement.

### **Disability Retirement**

A participant will be eligible for a disability retirement if he meets all of the following requirements as of the date he becomes disabled:

- Is actively employed.
- Becomes disabled and remains so for six months.

The participant's disability retirement pension will be the early retirement actuarial equivalent of his accrued pension to the date of disability. A participant is disabled if he is eligible for Social Security disability benefits.

### **Death Benefit**

#### **Preretirement Survivor Benefit**

If a participant dies after he has become vested under the Plan but before he begins to receive a retirement pension benefit, his surviving spouse will receive a 50% survivor benefit if he has been married at least one year. Payment will begin on the date on which he first would have been eligible for retirement. The amount of his surviving spouse's benefit is equal to the 50% survivor benefit payable under the joint and 50% survivor pension option, based upon his accrued pension at the date of death and reduced for early commencement of benefits, if applicable. If the participant is not married or has not been married for a full year at the time of death, no benefit will be paid by the Plan.

### **Termination Of Employment Benefits**

#### **Vesting in Accrued Pension**

If employment terminates other than by retirement or disability, the amount payable from the Plan is based upon the following vesting schedule:

<b>Years of Vesting Service</b>	<b>Vesting Percentage</b>
0–4 Years	0%
5 or More Years	100%

#### **Time of Payment**

The participant may elect payment after his early retirement date, reduced to reflect the early commencement of benefits. No pension payment is available under the Plan prior to early retirement, disability, or death, with one exception. If the present value of the vested accrued benefit does not exceed \$7,000, the lump sum value can be paid following termination of employment.

#### **Forfeitures and Restoration**

Forfeiture occurs when the participant terminates employment before being vested. If a participant terminates employment after he is 100% vested and receives a distribution of his accrued pension, he will be permitted to return his distribution to the Plan if he is reemployed during the restoration period. However, before repayment, the Plan will not count service credited prior to the participant's termination when determining his new accrued benefit.

## **Service Rules**

### **Eligibility Service Rules**

An employee is credited with a year of eligibility service when he completes at least 1,000 hours of service in the 12-month period.

### **Vesting Service Rules**

An employee is credited with a year of vesting service when he completes at least 1,000 hours of service in a plan year.

### **Benefit Service Rules**

A participant is credited with a year of benefit service for each benefit period he completes at least 2,000 hours of service. If he completes fewer than 1,000 hours of service during a benefit period, the benefit period will not be counted in determining his pension benefit. If he completes 1,000 hours or more of service but fewer than 2,000 hours of service during a benefit period, he will receive a fractional credit for the benefit period equal to the ratio of the hours credited to 2,000 hours.

In addition, during the initial year of participation and final year of employment, fractional years of benefit service will be credited to the completed month if the participant is working at a rate of at least 1,000 hours per year but less than a rate of 2,000 hours per year.

The benefit period is the 12-month period coinciding with the plan year.

For the purpose of determining years of benefit service, the Plan excludes the following service:

- Hours of service when the employee is not a member of the eligible class of employees.

### **Service with Prior Employers**

The Plan takes into account service with the following employer(s) for the purpose noted, provided the employee was employed by the employer as of the listed effective date:

<b>Employer</b>	<b>Purpose</b>	<b>Effective Date</b>
Lock Haven Savings Bank	eligibility/vesting/benefit service	December 31, 1995

## **Actuarial Equivalence**

Actuarial equivalence is determined as set forth below.

**Late Retirement** – Actuarial equivalence will be determined based on the following mortality table and interest rate assumptions:

Mortality table:	UP-1984
Interest rate:	8%

**Early Retirement** – As described in Appendix E. For example, the factor at age 62 is .82 and the factor at age 60 is .70. The lump sum payment option will be equal to the greater of the present value of the early retirement benefit or the present value of the normal retirement benefit, in each instance subject to the Code section 417 mortality table and the Code section 417 interest rates requirements.
