## **Schedule SB, Part V – Statement of Actuarial Assumptions/Methods**

### **Funding assumptions selection and rationale**

The following assumptions were selected by the plan's enrolled actuary. The asset valuation method was selected by the plan sponsor with the actuary's advice and is an acceptable method under legislation. Since the plan's experience is too small to form the basis of a reliable assumption, the demographic assumptions were based on actuarial judgement and observed experience of similarly situated employment groups.

### **Use of Models**

Actuarial Standard of Practice No. 56 ("ASOP 56") provides guidance to actuaries when performing actuarial services with respect to designing, developing, selecting, modifying, using, reviewing, or evaluating models. Gallagher uses third-party software in the performance of annual actuarial valuations and projections. The model is intended to calculate the liabilities associated with the provisions of the plan using data and assumptions as of the measurement date under the funding rules standards specified in this report. Further, the model applies those funding rules to the liabilities derived and other inputs, such as plan assets and contributions, to generate many of the exhibits found in this report. Gallagher has an extensive review process whereby the results of the liability calculations are checked using detailed sample output, changes from year to year are summarized by source, and significant deviations from expectations are investigated. Other funding outputs are similarly reviewed in detail and at a high level for accuracy, reasonability and consistency with prior results. Gallagher also reviews the model when significant changes are made to the software. The review is performed by experts within the company who are familiar with applicable funding rules as well as the manner in which the model generates its output.

### **Future actuarial measurements**

Future actuarial measurements may differ significantly from current measurements due to plan experience differing from that anticipated by the actuarial assumptions, changes expected as part of the natural operation of the methodology used for these measurements, and changes in plan provisions, applicable law or regulations. An analysis of the potential range of such future differences is beyond the scope of this report. However, in accordance with ASOP 51, an assessment of risks for the plan was performed.

## Schedule SB, Part V – Statement of Actuarial Assumptions/Methods (continued)

### Prescribed Funding Assumptions and Methods

The following assumptions and methods are prescribed by ERISA, as currently amended.

#### Interest rates

	2024 Plan Year	2023 Plan Year
<b>Funding Rates – Constrained*</b>		
First Segment Rate	4.84%	4.75%
Second Segment Rate	5.24%	5.00%
Third Segment Rate	5.59%	5.74%
Effective Interest Rate	5.26%	5.14%
<b>Funding Rates – Unconstrained**</b>		
First Segment Rate	4.84%	2.85%
Second Segment Rate	5.24%	4.02%
Third Segment Rate	5.22%	4.19%
Effective Interest Rate	5.19%	3.96%

\* Used for minimum funding and benefit restriction purposes.

\*\* Used for maximum tax-deduction purposes and low-default-risk obligation measure purposes.

The interest rates used for funding purposes are the Segment Rates with no-month lookback, constrained in accordance with relevant legislation.

#### Mortality

Mortality tables mandated by applicable law and regulation as specified in IRS Regulation 1.430(h)(3)-1, as amended in the Federal Register on October 20, 2023, in TD 9983, 88 FR 72357, applied on a static basis, using the blended annuitant/non-annuitant table applicable to small plans.

#### Basis for converting employee contributions to annuities

Interest Rate: Forward rates implied by the funding interest rates (annuity substitution rule).

Mortality: 2024 IRC 417(e) Applicable Mortality table, as amended by IRS Notice 2023-73.

#### Actuarial cost method

The Funding Target is the present value of accrued benefits based on compensation and service to date. The Target Normal Cost is the present value of benefits expected to be accrued during the current plan year, reflecting the effect of expected compensation increases during the year.

### Non-Prescribed Funding Assumptions and Methods (continued)

#### Withdrawal rates for active participants not eligible for retirement

Sample rates as follows:

Age	Assumption
20	5.44%
25	5.29%
30	5.07%
35	4.70%
40	4.19%
45	3.54%
50	2.48%
55	0.94%
60	0.09%
65	0.00%

#### Asset valuation method

The Actuarial Value of Assets is market value as of the valuation date, including the discounted value of accrued contributions, reduced by 2/3 of the gain/(loss) for the immediately preceding plan year and reduced by 1/3 of the gain/(loss) for the plan year before that. The gain/(loss) for each period is determined as the actual return on market value during the period less the expected return on market value based on an assumed earnings rate chosen by the actuary but required by current law and regulation to be not greater than the applicable third Segment Rate. The resulting value is constrained to be within a corridor of 90% to 110% of market value, including discounted receivable contributions.

	Actuary's Assumption	Third Segment Rate	Reflecting Limit
2024 Expected Return	7.00%	5.59%	5.59%
2023 Expected Return	7.00%	5.74%	5.74%
2022 Expected Return	6.00%	5.92%	5.92%

#### Summary of Changes from the May 1, 2022 Valuation

The mortality and interest rates were updated to the current year in accordance with the requirements of the Internal Revenue Code and associated regulations, and the basis for converting employee contributions to annuities was updated to reflect annual IRS 417(e)(3) interest and mortality updates. The impact of the changes in assumptions for funding purposes is shown in Exhibit 2.10.

**EIN/PN: 35-0813729 / 001**

## **Schedule SB, Part V – Summary of Plan Provisions**

### **Effective Date**

May 1, 1973; revised and restated effective May 1, 2014; Last amendment effective April 30, 2017.

### **Plan Year**

May 1 through April 30.

### **Eligibility**

All employees are eligible to participate after the attainment of age 21 and the completion of one year of eligibility service. An eligibility year of service is the first twelve months of employment or plan year in which an employee works 1,000 hours. An employee must agree to make the mandatory contributions to participate prior to his or her Normal Retirement Age.

The entry date is the first day of each May and November. Effective April 30, 2016, Non-Union employees are no longer allowed to enter the plan. Effective April 30, 2017, union employees are no longer allowed to enter the plan.

### **Normal Retirement Benefit**

1% of average monthly compensation multiplied by benefit service.

Benefit service is determined as a plan year in which the participant works 1,000 hours. Benefit service includes service prior to effective date of the plan if the employee became a participant as of May 1973. Partial service will be credited in the year a Participant enters, reenters, retires or terminates on a prorata basis to 1,000 hours to the nearest one-tenth of a year.

Non-Union employees' benefits do not take into account service or compensation earned after April 30, 2016. Effective April 30, 2017, only active union employees as of April 30, 2017 who accrued at least 3 years of Benefit Service as of April 30, 2017 are eligible for additional benefit accruals from the plan. Union employees' benefits do not take into account service or compensation earned after February 28, 2020.

### **Average Monthly Compensation**

Based on earnings of the five consecutive years of service preceding retirement or termination, if earlier, which will produce the highest average.

Note: Periods of "consecutive years of service" include only completed compensation years. Compensation years during which a participant receives less than a full year's pay or is credited with fewer than 1,000 hours of service are ignored in determination of average monthly compensation.

Compensation includes earnings paid, but excluding bonuses, overtime and commissions, but including contributions made pursuant to a salary reduction agreement which are not includable in gross income under IRC Sections 125 and 402. Effective January 1, 2002, compensation is limited to \$200,000 (as indexed).

### **Normal and Optional Annuity Forms**

The normal annuity form for the plan is a retirement benefit payable monthly during the life of the retired participant and guaranteed for a ten-year period. Optional annuity forms (Life Only and 50%/66 2/3%/75%/100% Joint and Survivor Annuities) are the actuarial equivalent of the normal form. At termination or retirement, a Participant may receive his or her Plan Account plus have a residual annuity payable in a normal or an optional annuity form.

# **Almco Steel Products Corporation Pension Plan**

**EIN/PN: 35-0813729 / 001**

## **Schedule SB, Part V – Summary of Plan Provisions (continued)**

### **Normal Retirement Date**

The first day of the calendar month coincident with or next following the participant's 65th birthday or the fifth anniversary of participation, if later.

### **Normal Retirement Age**

The Participant's 65th birthday or the fifth anniversary of participation, if later.

### **Accrued Benefit**

The benefit payable at Normal Retirement Date based on benefit service completed and compensation earned by a participant as of any given date.

### **Early Retirement Benefit (active participants)**

#### **Eligibility**

Attained age 55 and 15 years of vesting service.

#### **Benefit**

The vested accrued benefit reduced by 1/15 for the first five years and 1/30 for the next five years that actual retirement precedes the normal retirement date.

### **Postponed Retirement Benefit**

The actuarial equivalent of the benefit payable at the normal retirement date, but not less than the benefit based on the continuation of accruals until actual retirement. The employee is not required to make contributions beyond his or her Normal Retirement Age to continue as a Participant.

### **Qualified Preretirement Death Benefit**

#### **Eligibility**

The participant and spouse had been married continuously throughout the one-year period at the date of the participant's death and the participant had become eligible for vested benefits.

#### **Benefit**

Qualified joint and 50% survivor annuity subsidized by the plan, payable at the participant's earliest retirement date or at the date of death, if later. The surviving spouse may defer receipt and the benefit will be actuarially increased.

### **Refund of Contributions Death Benefit**

#### **Eligibility**

An unmarried Participant or a married Participant not eligible for the Qualified Preretirement Death Benefit.

#### **Benefit**

Refund of Participant's Plan Account as a single sum.

### **Disability Benefit**

No special benefits in addition to those payable at termination or retirement.

# **Almco Steel Products Corporation Pension Plan**

**EIN/PN: 35-0813729 / 001**

## **Schedule SB, Part V – Summary of Plan Provisions (continued)**

### **Termination Benefit (Vesting)**

In the employer portion of the accrued benefit: 100% after completion of five vesting years of service, or attainment of Normal Retirement Age, with no vesting prior to that time. In the employee portion of the accrued benefit: 100% at all times. The employee portion is determined in accordance with ERISA as amended.

Vesting service is a year which an employee completes 1,000 hours of service, excluding full years in which the employee has refused to make the mandatory employee contributions.

#### **Benefit**

The vested accrued benefit is payable at the normal retirement date or the same percentage of the vested accrued benefit is payable as for early retirement by an active participant when the participant has met the age and service requirements for payment of an early retirement benefit.

### **Employee Contributions**

2% of plan defined compensation until Normal Retirement Age.

The Participant's Plan Account is credited with interest at the plan's rate of 5.0%. Benefits provided at termination or retirement may be paid as a single sum distribution of the Participant's Plan Account plus a residual annuity.

The single sum amount is the actuarial equivalent of the annuity benefit determined at the normal retirement date. The Participant's ERISA Account is credited with 5% interest through April 30, 1988; at 120% of the applicable Federal mid-term rate in effect for May through the determination date, then projected to the Normal Retirement Date using the 30-year Treasury interest rate described in the definition of the Actuarial Equivalence.

### **Actuarial Equivalent**

The determination of actuarially equivalent benefits is based on mortality rates in accordance with the 1983 Group Annuity Mortality Table, 50% Male/50% Female, and an interest rate of 7.5%.

For determination of single sum payments, available for all benefits with total (or residual) value not greater than \$3,500, the interest rate is the applicable IRS interest rates for the month of January (announced in February) preceding the first day of the Plan Year containing the Annuity Starting Date and the applicable mortality table.

### **Benefit Limitations**

The benefits payable from this plan are subject to the limitations of Section 415 of the Internal Revenue Code. The determination of benefit limitations at ages other than age 65 or in forms other than a single life or qualified joint and survivor life annuity is done using the general definition of actuarial equivalence. The limitation year is the plan year.
