INDEPENDENT AUDITORS' REPORT

The Trustees and Participants
Dead River 401(k) Retirement Savings Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Dead River 401(k) Retirement Savings Plan (the Plan), an employee benefit plan subject to the *Employee Retirement Income Security Act of 1974* (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2024 and 2023, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

The Trustees and Participants
Dead River 401(k) Retirement Savings Plan

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

DEAD RIVER 401(k) RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2024 and 2023

1. Plan Description

General

Dead River Company (the Company) established the Dead River 401(k) Retirement Savings Plan (the Plan) to allow employees of the Company who have met certain eligibility requirements, including attaining age 21 and completing 60 days of consecutive service, to elect to set aside a portion of their earnings in order to accumulate capital for their retirement. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA).

A detailed description of the Plan is available for inspection at the Company's offices. John Hancock Trust Company, LLC (John Hancock) is the trustee for the Plan.

On December 29, 2022, the *SECURE 2.0 Act of 2022* (SECURE 2.0) was enacted to help improve retirement savings. The SECURE 2.0 Act made wide-ranging changes, both mandatory and elective, to qualified plans and its provisions have various effective dates. Significant provisions include the following:

- increase the required minimum distribution (RMD) age from 72 to 73, effective January 1, 2023, and to age 75, effective January 1, 2033,
- reduce the excise tax for failure to take RMDs from 50 percent to 25 percent of the RMD amount that was not taken, beginning January 1, 2023, and
- require all catch-up contributions for participants with compensation of more than \$145,000 (indexed for inflation) to be designated as Roth 401(k) contributions beginning after December 31, 2023.

On August 25, 2023, the Internal Revenue Service announced a 2-year administrative transition period with respect to the requirement under section 603 of the SECURE 2.0 Act that catch-up contributions made on behalf of certain eligible participants be designated as Roth contributions.

The Plan will incorporate changes in its Plan document and administration to the extent required by the SECURE 2.0 Act.

Contributions

Participants can elect to contribute up to 50% of their earnings on a pre-tax basis through payroll deductions, subject to Internal Revenue Code (IRC) limitations. This amount will be contributed to the Plan by the employer on behalf of the employee.

Participants may also contribute to the Plan on a traditional voluntary after-tax and Roth basis and the Plan also permits in-plan Roth transfers and Roth rollovers.

The Plan contains a provision for automatic enrollment of eligible employees at a deferral rate of 5% of eligible compensation. Upon eligibility, participants are automatically enrolled at this rate of deferral unless an alternative affirmative election is made or the participant opts out of the Plan. The Plan also contains a provision for automatic deferral rate increases of 1% each Plan year until a participant's deferral percentage reaches 10% of eligible compensation. Participants may elect to opt out of these provisions at any time.

DEAD RIVER 401(k) RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2024 and 2023

1. Plan Description (Continued)

The Company matches employees' elective contributions with (i) 100% of an employee's elective contributions not to exceed 3% of the employee's compensation, plus (ii) 50% of an employee's elective contribution not to exceed the next 2% of compensation. Participants become eligible to receive Company matching contributions after completing sixty days of service.

The Company makes core contributions equal to 6% of eligible pay for certain employees formerly participating in the defined benefit pension plan (Dead River Retirement Plan). Participants must have been in the Dead River Retirement Plan and accruing benefit service as of October 31, 2010, and not be classified as a senior management employee of the Company, to be entitled to a share of the core contribution. This is a discretionary contribution, and the amount of this contribution from year to year, if any, will be determined by the Company's Board of Directors.

Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers mutual funds and a group annuity contract as investment options for participants.

Participant Accounts

Participants direct the proportions of their contributions that they choose to invest in any of the investment options. Matching contributions are invested in the different funds in the same proportion as the employee contribution. Participants may change their contribution amount monthly.

Participants may elect to change their investment decision and transfer balances between funds directly with the trustee. Such elections can be made on a daily basis.

Each of the investment funds are separately valued on a daily basis and reported quarterly to participants. Investment income and unrealized gains and losses are allocated to participants in the same ratio that the cumulative value of their individual accounts bears to the sum of the values of all participants' accounts.

Vesting

Each participant is fully vested in their own contributions and all Company contributions other than the core contributions described above. The vesting schedule that applies to the core contribution is a 3-year graded schedule with 33% vesting after 1 year of service, 66% vesting after 2 years of service and 100% vesting after 3 years of service.

Participants who terminate employment with the Company on account of retirement at normal or early retirement ages, permanent and total disability, or death shall have a nonforfeitable interest in 100% of their account, if not otherwise 100% vested under the appropriate vesting schedule.

Forfeitures

Forfeitures serve to reduce otherwise required Company contributions. During 2024 and 2023, no amounts were used from the forfeiture account to offset employer contributions. The forfeiture balances at December 31, 2024 and 2023 were \$546 and \$527, respectively.

DEAD RIVER 401(k) RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2024 and 2023

1. **Plan Description (Continued)**

Participant Notes Receivable

Each note shall be subject to a minimum of \$1,000. The amount of any note, when added to the outstanding balance of all other outstanding notes receivable from the participant, shall not exceed the lesser of (1) \$50,000 reduced by the excess (if any) of the highest outstanding balance of outstanding notes receivable from the participant during the last year over the outstanding balance of outstanding notes receivable from the participant at the current date or (2) 50% of the participant's vested interest in the Plan. The Plan previously permitted participants to have up to three notes outstanding at any time. Effective June 1, 2024, this provision was amended to allow only one outstanding note at any time.

All notes are to be repaid according to a fixed repayment schedule not to exceed five years (20 years for the purchase of a primary residence). Notes are secured by the balances in the participant's account. Interest is to be charged on such notes at the Prime lending rate in effect as of the date of the loan request, as published in the *Wall Street Journal*, plus 2%. Interest rates on outstanding notes ranged from 4.25% to 10.50% as of December 31, 2024. Interest income earned on participant notes is allocated directly to the individual funds based on the participant's investment allocation.

Payment of Benefits

Participants are eligible to receive their vested account balance upon termination of employment, retirement, disability or death. The Plan also allows for certain in-service withdrawals, including hardship withdrawals meeting certain conditions.

2. **Summary of Significant Accounting Policies**

Basis of Accounting

The Plan's financial statements are prepared on the accrual basis of accounting.

Investments

Investments are in mutual funds and a group annuity contract. The investments in the mutual funds are valued at fair value. Dividends and interest received on these investments are immediately reinvested in the individual investments. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Purchases and sales are recorded on a trade-date basis. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year. The investment in the group annuity contract is valued at contract value based on the amounts accumulated in the Plan to the valuation date based on the crediting rate, as determined by the trustee. Investment values are certified by the trustee.

DEAD RIVER 401(k) RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2024 and 2023

2. Summary of Significant Accounting Policies (Continued)

Risks and Uncertainties

The Plan provides for various investment options which in turn invest in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Market risks include global events which could impact the value of investment securities, such as pandemics or international conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Contributions

Contributions from employees are recorded during the period in which the Company makes payroll deductions. Employer matching contributions are recorded in the same period as the corresponding employee contributions. Other employer contributions are recorded when the Company commits to making the contribution.

Participant Notes Receivable

Participant notes receivable are carried at the unpaid principal balance plus any accrued but unpaid interest, if material. When participant loans are deemed distributed due to default, they are included in benefits paid to participants on the statements of changes in net assets available for benefits.

Benefits

Benefits are recorded when paid by the Plan.

Administrative Expenses

Substantially all administrative expenses are paid by the Plan and are net of administrative credits received by the Plan. Audit services are paid directly by the Company. Investment fund management fees are charged to the Plan and reduce participant investment returns. Certain fees incurred by the Plan for investment management and certain administrative services are paid through revenue sharing rather than direct payment.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Subsequent Events

Events occurring after the statement of net assets available for benefits date are evaluated by management to determine whether such events should be recognized or disclosed in the financial statements. Management has evaluated subsequent events through July 22, 2025, which is the date the financial statements were available to be issued.

DEAD RIVER 401(k) RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2024 and 2023

2. Summary of Significant Accounting Policies (Continued)

Effective March 24, 2025, the Plan signed agreements to change the trustee of the Plan from John Hancock Retirement Services to Empower Trust Company. The transfer of all Plan assets was completed in May of 2025.

3. Investments and Other Certified Assets

The Plan's assets, including investments and participant notes receivable, related investment income, and investment and notes receivable transactions, including net appreciation in fair value of investments and interest income on participant notes receivable, were certified by John Hancock Trust Company, LLC (John Hancock), the trustee, as of and for the years ended December 31, 2024 and 2023, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from John Hancock as of and for the periods stated above that information provided to the Plan Administrator related to these assets and transactions is complete and accurate. The Plan Administrator has determined that John Hancock meets the requirements of a qualified institution as defined by the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to this information.

4. Group Annuity Contract

The Plan holds a fully benefit-responsive investment contract with New York Life Insurance Company (New York Life). New York Life manages the investment and maintains the contributions in a pooled separate account product, branded as the Anchor Account IV (Anchor Account). The Anchor Account is a stable value product that guarantees principal and accumulated interest and is designed to allow participant transactions at contract value. The guarantees are provided to participating plans through a group annuity contract issued by New York Life. Anchor Account contributions are directed to a New York Life pooled separate account which primarily invests in a diversified portfolio of high-quality, fixed-income securities. The Anchor Account crediting rate is subject to change daily.

New York Life issues the Anchor Account group annuity contract and provides the guarantee of principal and accumulated interest, subject to the terms of the contract. Participants may deposit and withdraw on a daily basis at contract value. Participants may also transfer to other investment options in the Plan. The New York Life Anchor Account accrues interest daily, based on the investment experience of the underlying separate account, minus prorated fees. Each participant's accrued interest is determined by the participant's account balance throughout the month and is credited to participant accounts at the end of each month. If a participant requests a full or partial liquidation of the Anchor Account before a month end, interest will be credited to the account based on the time invested in the Anchor Account during the month.

DEAD RIVER 401(k) RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2024 and 2023

4. Group Annuity Contract (Continued)

There is a risk that New York Life will not provide contract value coverage for redemptions following certain employer-initiated events or actions of which the Plan Sponsor believes to be remote (such as Plan termination, layoffs, early retirement programs, or bankruptcy of the Plan Sponsor). Depending upon the nature of the event, the occurrence could result in a loss in value to the contract holder's interest in the Anchor Account and/or may cause participants to receive less than contract value. If a plan provides 12 months' written notice of Anchor Account termination to New York Life, no market value adjustment or other penalty will be assessed against the plan's balance in the Anchor Account.

If a plan does not provide 12 months' advance written notice of termination, the plan's balance in the Anchor Account will be subject to a market value adjustment. New York Life will pay a single sum equal to the plan's balance in the Anchor Account projected for a two-year period at the contract crediting rate in effect on the stated termination date and discounted back to the stated termination date.

Aggregate participant withdrawal requests resulting from an employer-initiated event will be subject to an annual limit based on the plan's contract balance at the beginning of the year. If these withdrawals exceed the plan's designated percentage in any given year, the withdrawals will be paid; however, the excess over the annual limit may be subject to a market value adjustment.

No direct transfers from the Anchor Account to competing investment options are allowed. Competing options generally include money market funds and short-term bond funds.

Any transfers from the Anchor Account to a competing fund must first go through a non-competing option and be held there for at least 90 days before completing the transfer.

Competing stable value options are restricted in plans that wish to use the Anchor Account separate group annuity contract.

The crediting interest rate was 3.65% and 3.31% at December 31, 2024 and 2023, respectively. Interest rates are subject to change daily.

The group annuity contract has been determined to be fully benefit-responsive. Since the Plan's group annuity contract has been determined to be fully benefit-responsive, it has been reported at contract value, which is the relevant measurement attribute for that portion of net assets available for benefits attributable to the fund. Contract value, as reported to the Plan by the trustee, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may direct the withdrawal or transfer of all or a portion of their investment at contract value. Contract value approximates fair value as the crediting rate is subject to change on a daily basis and new and existing group annuity contracts receive the same crediting rate. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

DEAD RIVER 401(k) RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2024 and 2023

5. Tax Status

A qualifying plan is one for which the employer may currently deduct contributions on its income tax return, the employee is not currently taxed on the contribution, and the plan income is not taxable.

Effective January 1, 2022, the Plan was restated and adopted a non-standardized pre-approved form of a Plan sponsored by John Hancock Retirement Plan Services, LLC. The non-standardized pre-approved plan received an opinion letter from the IRS, dated June 30, 2020, as to its qualified status. The opinion letter has been relied upon by the Plan. The Plan Administrator believes that the Plan is designed and operating in compliance with the applicable sections of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. Plan Termination

While the Company has not expressed an intent to terminate the Plan, it is free to do so at any time. In the event the Plan is terminated, all participants shall become 100% vested and the net assets of the Plan shall be distributed to the participants by the trustee.

7. Party-in-Interest Transactions

Participant notes receivable are party-in-interest transactions.

Administrative expenses totaling approximately \$265,000 and \$224,000 for the years ended December 31, 2024 and 2023, respectively, charged to the Plan were paid to John Hancock Trust Company. The balance of fees was paid to Morgan Stanley and Angell Pension Group, Inc. for investment and administrative services. These transactions also qualify as party-in-interest.

8. Fair Value Measurements

Valuation Hierarchy

Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). For disclosures, ASC 820 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three levels:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active exchange markets that the Plan has the ability to access.

DEAD RIVER 401(k) RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2024 and 2023

8. Fair Value Measurements (Continued)

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active exchange markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Mutual funds: Valued at the net asset value of shares, based on quoted market prices in active markets at year end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024 and 2023:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
